TECHNOCRACY

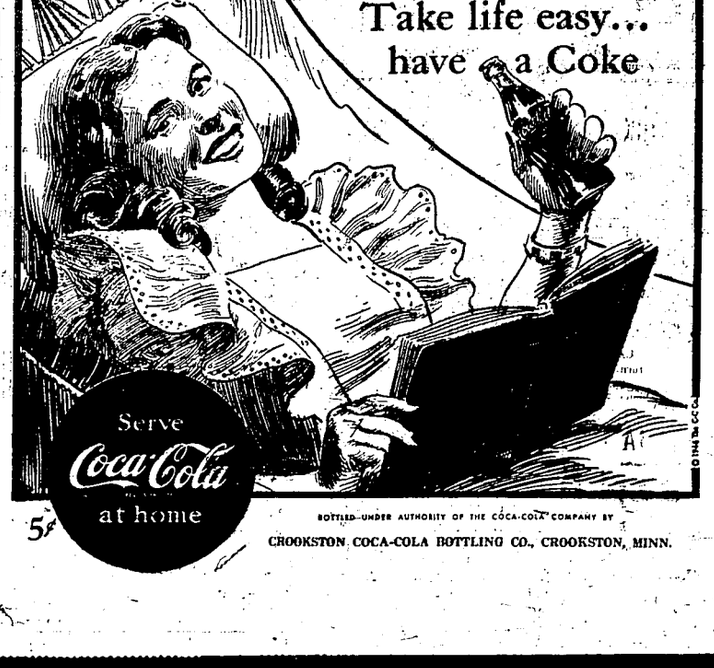
The Symptom Doctors

It is difficult; very difficult, for the average man to distinguish between the various reform organizations which are sprouting up like weeds in these troublous times. However, a careful examination will reveal that all organizations can be divided into two classes. The first is composed of those that are trying in some way to improve the Price System, or are attacking it in some way or other to effect an improvement in its operation. (Remember, by the Price System we do not mean capitalism. We mean the entire method of exchange and barter, wages and money.)

If you critically examine the various organizations or movements of today, such as socialism, fascism, communism, social credit, the Townsend plan, the League for Social Justice, etc., you will find that they all retain the essential mechanics of a Price System. They are attempts either to remodel the monetary system or to switch controls from one group to another, retaining the most important and pernicious parts of the present order.

It is worth while to take, each in turn and carefully analyze it. Even if you are a member of one of these organizations, you should attempt to do this and find out how they are designed to function. You should see clearly their lack of conformity to the technological requirements of this Continent—requirements not duplicated anywhere else on earth—and you should see how incapable they are of putting their reforms into effect with any chance of success.

If they retain any part of the Price System in their make-up they can only be classified among the Symptom Doctors. They are dealing with Symptoms, and with Straw Men they have built in their own minds. They are not dealing with real, material conditions.



If they retain within their structure one bit of the design that is part of the present structure of financing its breakdown, you can safely discard them as inadequate to the problem at hand. Technocracy Inc. is the only organization in existence which does not fall into the class of the Sympton Doctors. Technocracy is not trying to make present conditions any better, or to obtain any concessions from the Jabbol-finance or the political powers-that-be. Invariably, people who attempt to alleviate the present suffering of humanity wind up their activities in an attempt to maintain the system, with some slight modifications. Technocracy will have none of this. Technocracy, by its very nature can have none of this. The Price System on this Continent is doomed.

Technocracy is a clean break. It is perfectly in conformance with the physical facts at hand. You cannot cure a man of cancer by cutting out the cancer and replacing it with another, nor can you cure the present functional and organic evils of society by substituting for the present cause of our troubles another with any of the same deadly disease germs in it.

OFF AND ON IN MINNESOTA TRAFFIC

When Fay Gilmore drove away from his Brainerd home in his business truck Mrs. Gilmore looked out the window to wave but instead rushed frantically to a neighbor's house to commandeer a car and give chase. For hanging grimly to the rear door handle was their three-year-old son. It took six miles to overtake the speeding truck, but the little fellow hung on and was rescued without a scratch.

WHO'S THE OLDEST SUBSCRIBER TO WHAT?

Baudette—Billy Noonan's sparkling Region makes people feel young these days. So it's a matter of course for a 94 year-old reader to tramp in and renew his subscription, which he has held regularly since the newspaper's birth in 1903. William Boomsy of Spooner is the oldest bachelor in Lake of the Woods county and may be the oldest newspaper subscriber in the state. Any contest?

FALL TERM OF SCHOOL OPENS NEXT MONDA

Schools in City and Rural Areas to R... After Summer V...

After a two week postponement due to the polio situation, the public schools of Thief River Falls, as well as many rural schools will open their fall term next Monday morning, September 16.

All school buildings in the city have been thoroughly renovated during the summer vacation period, Supt. P. L. Fjelsted stated, adding that all rooms in the Knox school have been repainted, as well as four rooms in Lincoln high school and the kindergarten in Northrop school.

Mr. Fjelsted stressed the necessity of all pupils attending session regularly starting with the opening day, pointing out that with the unusually heavy pupil load this year, it will be impossible for teachers to give help to individual pupils to enable them to catch up with their classmates.

Mr. Fjelsted stated that additional stress will be laid this year on health and physical education in the junior senior high school with daily classes being scheduled in these subjects, following recommendations of the state department of education. Seventh and eighth grade courses in industrial training and home economics are being extended to a full year instead of one semester as formerly.

Another innovation this year designed to promote safety is a rider - vehicle - drivers training course to be given students before they apply for drivers licenses.

The Thief River Falls schools will operate buses in the surrounding rural areas on the same schedule as last year, with few minor changes. Pupils are asked to be at their bus stops at the same time as a year ago.

In the city, as was the case during the last school term, pupils living at a considerable distance from the Northrop and Washington schools will be transported by bus to the Knox school, where two teachers are available for each grade.

The hot lunch program will get underway Monday, and Mr. Fjelsted urged parents in the rural areas to have their children bring a ten-cent lunch which includes milk. The remainder of the cost of the lunch is subsidized by the federal government.

It was announced that the teacher training department, of which Miss Bernice Trontvedt is instructor, has an enrollment of sixteen for the fall term, the maximum number allowed by the state.

Pupils entering the seventh grade this year are required to report at the high school auditorium Saturday morning, September 14, at 9 o'clock for a conference with Miss Lyda Batten, assistant principal.

DR. A. E. JACOBSON ON STATE BOARD

Will Represent School Boards in R. S. League

Dr. A. E. Jacobson, member of the board of directors of the Minnesota School Board association, last week was notified that he had been appointed by his fellow directors to represent the association on the board of the Minnesota State High School league, which regulates all extra-curricular activities in the various schools.

He will serve as a non-voting observer of the work done by the league board, which is made up of eight school superintendents representing as many regions in the state.

Dr. Jacobson will attend his first meeting of the league board October 4 and 5 at the Curtis hotel in Minneapolis.

CIVIC & COMMERCE GROUP DISCUSSES 4H BABY BEEF SALE

Hears Report Dealing with Municipal Liquor Stores in State Cities

Further plans for the 4-H baby beef auction scheduled for the sports arena in this city Saturday, November 2, were developed at a luncheon meeting of the Civic and Commerce association last Thursday noon in the Palm Garden Cafe.

Stuart McLeod, presiding in the absence of L. R. Haris, called on County Agent Ernest A. Palmer, who suggested that the sale be extended to include fat lambs, chickens and turkeys. Committee heads were named by Chairman McLeod to handle various phases of the event.

The committee recently appointed to investigate the question of municipal liquor stores submitted a report on a survey covering communities where such stores are now in operation.

While making no recommendations as to the establishment of such a store in Thief River Falls, the committee reported that a large majority of the officials responding to the questionaire favored the municipal store setup as being the best means of controlling the liquor traffic.

P. L. FJELSTED IS ROTARY SPEAKER

School Head Discusses Local School System

P. L. Fjelsted, superintendent of schools, who is also is president of the local Rotary club, supplied the entertainment at the luncheon meeting of the club Tuesday noon in the Evelyn hotel.

Selecting the field of education for his topic, Mr. Fjelsted discussed the financial situation of the local school system, illustrating with charts his figures on tax rates and increases in teacher salaries. At the same time, he praised the local board of edcation for its interest in youth problems.

He closed his remarks by appealing to local landlords and other citizens to do all in their power to provide satisfactory living conditions for teachers coming to Thief River Falls so that they will be content and able to do better work.

A social gathering of the two groups, together with the serving of lunch, will follow the separate business meetings. Orville Elde will tell of his battle experiences as a member of the marine corps while serving in the south Pacific area.

SCHOOL BOARD BOOSTS LEVY THREE MILLS

Takes Action to Set up Fund to Provide New School Building

The Thief River Falls board of education at its September session Monday evening adopted a budget for the coming year calling for a tax levy of 53 mills, three mills higher than during the past two years.

The increase, Supt. Philip L. Fjelsted explained is due to the fact that the levy for capital outlay was raised from one mill this yer to four mills for 1947 to start building up a fund to finance the construction at a future date of a new school building or additions to some of the present buildings, which are now overtaxed as a result of steadily increasing enrollments.

The total levy includes the following items: Local one-mill tax, one mill; tax for maintenance, 45 mills; capital outlay, four mills; bonds and interest, three mills. The capital outlay levy is expected to provide about $6,000 a year for the building fund.

Of total expenditures of $222,535 contemplated under the budget as adopted, it is anticipated that approximately $88,248 will be received from the state, while local taxes will supply $103,299; transportation and tuition, $16,693; federal hot lunch subsidy and receipts from sales, $9,872; storm damage insurance, $7,897; and federal aids for agriculture and veterans training, $5,000; making total estimated receipts of $230,910.

Mr. Fjelsted submitted to the board figures from state income tax division showing that in 1944 state income taxes were paid by 372 individuals and nine corporations in Pennington county, the total amount paid being $20,566. The three largest cities of the state paid 89 per cent of the total taxes, it was stated.

The board approved the use of two school buses to transport vocational students in agriculture and members of the chapter of the Future Farmers of America to Morden, Man., horticultural experiment station Saturday, September 14.

BUS LINE SEEKS ROUTE TO BEMIDJI

Would Extend Service from Bagley to Bemidji

Almquist, Black River; and Albert Kasas, North.

JOB OFFICE SAYS EMPLOYMENT WAS AT PEAK IN AUGUST

Numerous Openings for Potato Pickers Seen During Current Month

Employment in Pennington and other counties in Northwestern Minnesota reached an all-time high mark in August, the peak being due to the harvest and to very active highway and building construction industry, according to the monthly report of the Thief River Falls branch of the U. S. employment service.

The report forecasts a decline in the number employed during the next few months and predicts that unemployment during the coming winter will be of considerable proportions.

The supply of labor is at the lowest ebb since shortly after V J Day, having reduced by 300 workers in the area during August. Farming absorbed the largest percentage of decline in the labor supply. A decrease of 20 per cent in unemployment compensation claims and soldier's readjustment allowance from July to August indicates the continued trend toward a considerably reduced labor supply.

100 openings for potato pickers are anticipated during September. The farmers are paying from 10 to 12 cents a bushel for potato picking. The demand for service occupations, such as waitresses, cooks, maids, and dishwashers is the highest in several months for the reason that many have left these jobs to work in the potato fields. This shortage of women in the service occupations should improve shortly after the current month. The shortage of women in the labor market is indicated by the fact that 51 per cent of the job openings during August were for women while women represented only 20 per cent of the persons making application for employment.

The new addition lies east from Merriam av. and south of Gulf st., one block south of East First st.

MUNICIPALITIES LEAGUE MEETS AT CROOKSTON TODAY

Local Officials Will be Present at Meeting This Evening at 7:00

Minnesota municipal officials will join with federal, state and county officials in discussing current city and village problems, in a series of eighteen half-day district meetings just announced by C. C. Ludwig, executive secretary, League of Minnesota Municipalities.

The series begins this week with meetings in International Falls, Warroad, Crookston, and Detroit Lakes; it contains in October with meetings in Anoka and South St. Paul to accommodate officials in the metropolitan district.

The meeting for this section of the state will be held in Crookston tonight at 7 o'clock in the city hall with Mayor Ralph Erickson presiding. The visiting officials, including those from Thief River Falls, will be guests of the league.

The president of the league, City Attorney Frank McGivern of Staples, and other members of the league executive committee with a staff representative will attend many of the meetings. County officials and candidates for the legislature have been invited. State officials to be represented at the meetings will include M. J. Hoffmann, commissioner of highways; Dr. A. J. secretary and executive officer, department of health; Earl Haskin, liquor control commissioner; Richard Golling, public examiner; L. L. Schroeder, commissioner of aeronautics; and Roy Jewett, director, Post-war Council.

Topics of the informal discussion will cover salaries, construction costs, surplus property, housing, airports, hospitals, highway projects, ordinances public reporting and municipal revenues. Explanation will be made of the league's legislative program which will be recommended to the next session of the legislature to provide for municipal sharing in a doubled state liquor tax, an increased gross earnings tax on railroads and a new state cigarette tax.

For the second time this year the Minnesota highway department has called for bids to be opened September 27 on the rebuilding of Highway 1 from Thief River Falls to the Goodridge corner, 16.6 miles. No bids were received in response to the first call August 23.

The grading project calls for 320,082 cubic yards of excavation, 11,295 cubic yards of binder soil, 17,429 cubic yards stabilized gravel and 45 cubic yards concrete for culvert extensions.

Also being readvertised is another grading project on Highway 31 between the north junction of Highway 32 and Mahnomen, 14.6 miles.

TWO MORE CASES OF POLIO FOUND IN COUNTY THIS WEEK

Holt Child Succumbs to Disease in Grand Forks Hospital Last Saturday

Another case of polio developed during the past week in Thief River Falls, it was reported by O. F. Malby, city health officer, the victim being Sarah Ann Miller, 15, daughter of Mr. and Mrs. Elroy W. Miller. She is being treated at her home.

Also stricken with the disease is Loretta L. Weckwerth of Hazel, who was taken by plane to University hospital in Minneapolis. This makes a total of 10 cases in this area listed to date by Andrew Anderson, chairman of the local chapter of the National Foundation for Infantile Paralysis.

Carol B. Ness, ten-year-old daughter of Mr. and Mrs. Bertil Ness of Holt, died of polio in a Grand Forks hospital Saturday after having been confined there only one day.

MOBILE X-RAY UNIT BEING CONSIDERED

Two Sanatoriums Defer Final Action on Bids

A joint committee representing the boards of Oakland Park sanatorium at Thief River Falls and Sunnyvest sanatorium at Crookston met in Crookston Wednesday evening of last week to consider bids for the purchase at a cost of approximately $33,000 of a mobile X-ray unit.

Final action was deferred until a later date, pending further study of the proposals, which specify delivery of the complete equipment in not less than six months.

The unit, half the cost of which would be financed with the aid of Christmas seal funds, would travel to various communities in the district served by the two sanatoriums and is designed to detect tuberculosis in its early stages.

Hanson earned a second place in the 200-yard prone event, having 98 x's and a "position" and a third place in the sitting event, with 82 x's in five shots.

COUNCIL TOLD OF EARLY NEED OF POWER UNIT

Variety of Business Is Disposed of at Session Tuesday Night

Early need of adding another generator unit to the municipal power plant in this city to meet the steadily mounting demand for electric energy is revealed in a survey made at the request of the city council and presented at a meeting of that body Tuesday evening.

E. C. Brooks, representative of the Busch-Sulzer company of St. Louis who made the survey, reported that there has been a marked acceleration in the rate of increase in demand for current to date this year.

He also stated that the present power plant building is large enough to provide space for an additional unit of sufficient capacity to supply approximately 1,000 kilowatts. He pointed out that approximately one year or longer would be required to secure delivery of the unit after the order is placed.

City Attorney Theodore Quale was instructed to confer at an early date with a firm of Minneapolis bond attorneys as to financial arrangements in connection with the purchase of a new unit.

On its low bid of $11.75 per ton, the Red Lake Fuel company was awarded the contract to supply approximately 275 tons of bituminous coal needed for municipal heating during the coming winter, A. B. McLaughlin, proprietor of the firm, stated his ability to supply the coal would depend on obtaining supplies of the fuel in the present uncertain state of transportation facilities and other basic ...

Building permits in the ... aggregate amount of approximately $25,000 were approved at the meeting. Included were new residences to be built on the east side of Kendall av. S.; C. M. Ryan, Eighth st. EXAMINATIONS ON COUNTY WELFARE JOBS OCTOBER 5

Several Vacancies Throughout Minnesota to be Filled thru Tests

Open competitive examinations for clerical vacancies in county welfare offices throughout the state will be held October 5, M. W. Sipple, supervisor of the Minnesota county welfare merit system, announced Monday.

Examinations will be given for the positions of clerk I and II, clerk-typist I and II clerk-stenographer I and II, and accounting officer. Salary schedules range from $80 to $196 a month depending upon the position and the location.

An act passed at the last session of the legislature provides that all appointments to positions in the state and local governments of Minnesotas may run only until June 1, 1947, or until six months after the officially declared end of the war, which ever is later. Persons appointed during this suspension period enjoy the same rights and privileges as permanent employees, but at its expiration must compete for permanent tenure.

High school seniors who expect to graduate in June are urged to apply for these positions now as they require a high school education as a prerequisite.

Information on qualifications is available from local offices of the United States employment service, office of the county welfare board, or the merit system supervisor, 204 Globe Building, St. Paul. Applications must be returned to the merit system supervisor and postmarked not later than midnight, September 21.

TRAFFIC HAZARDS FACE SCHOOL KIDS

Drivers, Parents Urged to Safeguard Lives

With schools in this county and elsewhere in Minnesota opening next Monday, after the two weeks postponement due to the polio epidemic, many parents and others will be concerned about the traffic hazards facing the youngsters.

"Traffic accidents take a greater toll of life and limb in the course of the year than does polio," said W. F. Rosenwald, traffic engineer of the state highway department, "but be preventer if everyone will take proper precautions. The following suggestions are especially important as means of insuring the safety of school children:

"Drivers should be alert and stop at STOP signs displayed by school safety patrols.

"Drivers should remember that the law requires a full stop when meeting or overtaking a school bus stopped to pick up or discharge passengers on rural roads.

"Drivers should be especially alert when driving in residential or school areas, and doubly alert in the hours when children are going to or from school.

"Parents and teachers should train children to obey instructions from school safety patrol leaders, where patrols are used.

"Where there are no school safety patrols, parents and school authorities should survey the situation and organize patrols where conditions warrant.

"Children should be trained to walk on the left side, facing traffic, and giving way to oncoming traffic, when walking along any road. They should be trained to LOOK LEFT, LOOK RIGHT and make sure they can cross safely before starting across any road or street."

Minneapolis Symphony Orchestra Announces Opening of Fall Season

Its most ambitious season in history will find the Minneapolis Symphony Orchestra, Dimitri Mitropoulos conductor, this year playing in addition to its 18 regular concerts at Northrop Auditorium in Minneapolis, more than 100 other concerts in the Twin Cities or on tour.

Twelve of the foremost artists in the music world today will be heard with the orchestra in its subscription series, Arthur J. Gaines, manager, announced Saturday.

On the list are three violinists, three singers, a 'cellist and five pianists. The first concert, the all-orchestral event honoring the conductor and his men, is set for October 25.

The initial artist scheduled is Eleanor Steber, one of the leading sopranos of the Metropolitan leading role in "Traviata" when that organization appeared in the Twin Cities last spring. This concert is set for November 1.

PARISH WORKER TO SERVE TRINITY LUTHERAN CHURCH

Miss Lois Schlager of Colorado Springs Coming in October

The first step in an enlarged program of Christian service in both the local parish and on a world wide scale was announced today by Trinity Lutheran church. In addition to the support of a missionary to China, to be announced soon it was revealed today by the pastor, Rev. G. S. Thompson, that a full time worker has been added to the staff of the church. Miss Lois Schlager of Colorado Springs, Colo., has been engaged as parish secretary and youth worker and will begin her duties about the middle of October. Active in the work of the church and Sunday School in the Lutheran parish of her home city, Miss Schlager received her B. A. degree, with a major in music, and will be granted her master's degree in choral conducting and organ performance on October first by the Colorado State college. With several years of office experience to her credit, Miss Schlager has a broad training and experience which will give valuable assistance to the pastor of Trinity's large parish.

With the opening of the public schools on Monday, Sunday school classes are also scheduled to begin at Trinity church on Sunday. A staff of forty-five teachers, in addition to the staff of officers will conduct two sessions of the Sunday School as inaugurated two years ago. Pupils in the twelve grades corresponding to the public school classification will meet at 9:30 a. m. and will be invited to attend the morning service of the church at 10:30 a. m.

Pupils in the nursery and kindergarten classes, ages 3 to 5, will convene at 10:30 a. m. under the guidance of the Mother's club of the church, thus enabling the parents of the little tots to worship at the morning service while their little children are being cared for in the parlors of the church.

Russel Olson, superintendent of the Sunday school, also announced that a ten weeks teacher training course will be conducted by the pastor on Wednesday evenings each week at 7:00 p. m.

The Alamo, located at San Antonio, Texas, was formerly a fort. Originally it was a mission house erected by the Franciscan Fathers in 1722.

Rites This Afternoon for Charles Finley, Who Succumbed Monday

Rites will be held this afternoon at 2 o'clock in the Northwood Lutheran church near Gryglia for Charles H. Finley of route 3, Gryglia, who passed away early Monday morning at a local hospital following brief illness. Mr. Finley was 54 years old. Rev. T. C. L. Hanson of Gryglia will conduct the services and the body will be laid to rest in Northwood cemetery.

Besides his wife, Mrs. Ida Finley, he is survived by two daughters and three sons, Mrs. Ole Tvelt of Goodridge, Mrs. B. A. Anderson, John, Charles, and Eugene of Gryglia; six grandchildren; a brother James A. Finley and a sister Mrs. Bertha Holman of Lebanon, Mo. His parents and two brothers preceded him in death.

Born in Orla, Missouri, Sept. 16, 1891, Mr. Finley at the age of 17 came to Nebraska, working there as a farm hand for a few years. He was united in marriage to Ida Farens Dec. 17, 1913 in Tekamah, Nebr., farming in that vicinity until moving to Beltrami county in 1928. They purchased a farm and have resided there since.

Telemarken Group Will Hear Program by Gideons

The Telemarken young peoples society will meet at the Telemarken church Sunday, September 15, at which time the program will be presented by the Thief River Falls Gideons society. Special music also will be provided, and lunch will be served in the church parlors by the Mmes. Henry Wasle, Ingeborg Jorstad and Annie Hemmestvedt.

CATTLE BREEDERS OBTAIN FINE SIRE

Holstein Bull Comes from Beltsville Farm

I. W. Meade, manager of the Roseau Breeding Assn., returned Sunday from Washington, D. C. where he secured a Holstein bull at the Beltsville Station of the U. S. Department of Agriculture. This breeding station has been building its herd with proven bulls for the last 27 years and the bull secured by the Roseau association represents seven crosses of proven sires.

His dam produced 586 pounds of butterfat and had an average test of 4.17 per cent fat at two years. His sire is a grandson of Governor of Carnation and in a 9-daughter comparison increased the daughters production 63 pounds of fat over that of their dams.

His mothers sire increased the production of his daughters 118 pounds of fat and the daughters averaged 836 pounds of fat with a 3.99 per cent test. The bull secured for the association here will arrived this week and will be known as H-7.

The breeding work at the Beltsville Station has been set up to develop a pure strain of cattle where their would be very few, if any, low producers developed. The sires used in this work have been selected after examining all the daughters and knowing the productions and type factors being produced.

Pioneer of Marshall County Passes Away at Home Last Sunday

John Ellingson, pioneer resident of Marshall county, succumbed at his home in Moylan township Sunday, having reached the age of 86. Services will be at Zion church at Germantown this afternoon, Sept. 12, at 2 o'clock and the body will be laid to rest in Zion cemetery. Rev. E. O. Sabo of Mavie will officiate.

Mr. Ellingson leaves his wife, Mrs. Christine Ellingson of Moylan twp.; two step-children, Mrs. Gina Paulson of Goodridge and Elmer Johnson of Moylan twp; a sister, Mrs. Bertha Johnson of Goodridge; and a brother, Elling Bagne of Park River, N. Dak. His parents and two sisters preceded him in death.

Mr. Ellingson came from Norway to Blair, Wisc., in 1886, and in 1894 he moved to Park River, N. Dak., residing there for two years. He homesteaded in Moylan twp., Marshall county, in 1896 and has lived on that farm since. The deceased was a charter member of the Zion Lutheran church of Germantown.

Deadly Flower

The chrysanthemum that produces pyrethrum is a single-type, daisy-like flower. It happens that the powder from this simple little flower is the best all-round killer of mosquitoes, flies, "roaches," and certain other insects that has been found. One of its greatest virtues is that while deadly to insects, it is harmless to humans.

Seem Lighter

One color expert says that a manufacturer found that by repainting black boxes green, his employees seemed to tire less easily when carrying them. Green, according to this finding, makes things seem lighter than when they are painted black or some other dark color.

ALL-STARS DEFEAT POPPLERS TEAM

City Champions Lose Exhibition Tilt 8-3

Milt Reierson, just returned from a vacation jaunt to the west coast, pitched the All Stars to an 8 to 3 win over the Poppler's Furniture, newly- crowned city champs, in an exhibition softball game played on the East Side park Tuesday evening. The All Stars team, with seven Gen's members and two Vets player in the lineup gained an early lead, picking up a run in the 1st. inning on an error and Jess DuChamp's single.

Singles by Gordy Reierson, Arlin Jacobson, Milt Reierson, and Klem Gilgand brought in three All Star runs in the 2nd inning; and in the 3rd frame, after Gordy Reierson had gotten on base on an error, Jacobson drove out a long left-center field homerun.

The city champion Poppler's were having difficulty in solving Milt Reierson's delivery, being held without a hit until the 6th inning. An infield hit by Glenn Carlson, a left field single by Blackie Stephens, a long center field triple by Bobby Carlson, accounted for two runs, and when Connie Swanson fumbled Bob's hit the Poppler pitcher scampered home with the third run.

There were several remarkable fielding plays turned in. Harlan Olson, in the 4th inning, made a running one-handed catch of Stephens' hard line drive; and in last half of the inning, Wally DuChamp made a one-handed catch, after a hard run, of Jesse DuChmp's drive into right-center.

CROWN JEWEL TRIAL . . . Capt. Kathleen Nash Darsie, above, she appeared with her defense counsel at opening of her trial at Frankfurt, Germany, in connection with the theft of the Hesse crown jewels.

The Racket Knows How

There are many things about government which many people cannot understand.

One has to do with slot machines.

This device, this one-armed bandit set to eventually take all the money that would be placed into it, is strictly against the law in Minnesota.

Now Uncle Sams is not concerned with the morals of the slot machine but he collects a tax on each one of them. It amounts to a hundred dollars for each machine a year.

While these devices are unlawful in Minnesota there were during the last fiscal year of the federal government 5609 persons or organizations in Minnesota who owned and operated 8759 machines and paid the federal government $876,900.

While some local authorities might claim that the slot machine does not exist, the owners of them are not backward about putting their names and checks on file with the Collector of Internal Revenue at St. Paul.

Of course, the reason that the law is violated is that the slot machines are part of a racket and rackets have a way of handling public officials that is not readily able to either the state, the community or the system of government under which American live. —Grand Rapids Herald Review.

Moose Seen Recently in Black River Township

While transacting business on several farms in the country recently V. M. Higinbotham of Red Lake Falls came upon a big moose on a road near the McKercher farm, the former Chas. Retzler farm, in Black River township. While an occasional moose has been reported seen in that locality on previous occasions, this is the first report of one in several years.

Volcanic Eruption

Krakatau volcano in Sundra strait between Java and Sumatra, lay dormant from 1680 to 1883, then put on an extremely violent display that darkened and flooded Batavia, 100 miles away. The eruption completely changed the form of the three islands of the Krakatau group and created several new islets.

SALE OF STATE LAND

State of Minnesota
Office of Commissioner of Conservation, St. Paul, Minnesota.
August 6, 1946.

Notice is hereby given that on Saturday, the 28th day of SEPT 1946 at the Office of the County Auditor of Pennington County at Thief River Falls, Minnesota, I will offer for sale certain lands, reverted and interest delinquent State lands.

TERMS OF SALE:

1. The purchaser shall pay in cash at the time of sale the appraised value of all timber.

2. At least fifteen per cent of the purchase price of the land exclusive of timber shall be paid in cash at the time of sale and the balance in not to exceed ten annual installments, payable on June 1 each year following that in which the purchase was made, with interest at four per cent per annum on the deferred payments from time to time unpaid, together with the instalments of principal.

3. Any installment of principal or interest may be paid in advance, but part payments of any installment will not be accepted, and for the purpose of computing interest any instalment so paid on the purchase price of the premises, in addition to the first annual instalment, or any portion of this provision shall be a gross misdemeanor.

5. Improvements when not included in the price of the land must be paid for in cash at time of sale.

6. All mineral rights are reserved to the State by the laws of the State.

7. All lands are sold subject to all railroad or highway easements.

8. All lands are sold subject to the zoning ordinances now or hereafter adopted by the County Board of the above named county.

9. No person may purchase more than 320 acres of land; provided, however, that State lands purchased previously to 1935 are not charged against any purchaser.

10. Agents acting for purchasers must furnish affi t of authority.

11. Lists giving legal description of lands to be offered may be obtained from the Director of Lands and Minerals, 14 State Office Building, St. Paul, Minnesota and from the County Auditor at the county seat of the county in which the land is located.

Immediately following the land sale, leases for the next season on certain lands not sold will be offered at public sale for cash.

Keep Butter Fresh

Keep butter fresh and appetizing by following a few simple rules. As soon as it is brought from the store, place it in its original parafined carton in the refrigerator. Serve only the amount of butter you think your family will eat. Keep the rest well wrapped in waxed paper and in the carton, then put it back into the refrigerator at once. Should any butter be left over, give it similar treatment—that is, keep it well protected and cold.

Following Leader

The safest distance at which to follow another car is one car-length for each 10 miles of speed. At 30 miles an hour, for example, the safe following distance would be three car-lengths.

Surplus Planes on Sale at Fargo This Month

Local veterans and other buyers will have a chance to purchase surplus airplanes at a special sale in the area, beginning Sept. 16, the War Assets Administration announced today.

The sale, to be held at the municipal airport, Fargo, North Dakota will consist of 150 Fairchild PT-26 primary trainers. Prices will range from $990 to $2,800 depending upon condition, with each aircraft individually price-tagged.

The following periods have been set aside for priority holders: federal government agencies, September 16; veterans of World War II, September 17 through October 1; RFC for resale to small business, October 2; and state and local governments, October 3. Beginning October 4, the planes remaining will be for sale to the general public.

CITY COUNCIL PROCEEDINGS

Thief River Falls, Minnesota

Pursuant to call the City Council of the City of Thief River Falls, Minnesota, met in the Office of the City Clerk on August 30th, 1946. The meeting was called to order at 8:30 o'clock P. M. with all members present as follows: Bredeson, Simons, Rivers, Falk, Anderson, Berve, Nelson. The meeting was called for the purpose of considering further disposition of the City's property known as the Stevenson Hotel and to consider disposition to be made of the Plymouth Two-Door Sedan formerly in use by the Police Department of the City.

Alderman Berve moved that the City Clerk be directed to cause notice to be published calling for proposals for the sale of such Poorhouse and Plymouth Police Car, such proposals to be opened and considered on September 13th, 1946, at eight o'clock P. M. at the Council rooms in the Auditorium and Municipal Building. The motion was seconded by Alderman Nelson and such motion was thereupon adopted by unanimous vote.

Alderman Knutstad then moved that the meeting be adjourned, sine-die, which motion was seconded by Alderman Anderson and adopted, whereupon the meeting was declared so adjourned.

ALFRED BREDESON,
President of the Council.

Attest: F. G. Pederson,
City Clerk.

A strike called by 65,000 sailors has completely tied up shipping in American ports. The strike was called as a result of the refusal of the Wage Stabilization Board to approve an agreement on wage increases made by shipowners and two unions, the members of the Seafarers International Union and the Sailors Union of the Pacific. The strike therefore is against the government agency and not the shipowners and therefore cannot be settled except by government action. The question now is whether the government is going to enforce its decision and hold the line against further spiraling of wages and prices or give ground once again and open the gates to a new flood of demands for wage increases. It is generally predicted that the latter course will be followed. Such predictions are based on what already has happened time and again. Unless the government does hold the line in this test of power, get yourself set for another swing around the inflation circle.

This corner of the state is cashing in on one of the biggest money crops of its history—probably the biggest ever. Under the circumstances let's keep in mind that present conditions will not last long. Now is a good time to get out of debt and it is an especially good time to stay out of debt. Following the last war, when prices were high and money was plentiful, people lost all sense of the value of things. We know what happened when the bottom fell out. That is going to happen again. Those who have all their bills paid when that evil day comes the next time will have little cause to fear.

Meat markets are places that sell chickens, cheese and fish again and little hope is held out for much of any increase in the supply of available meat in meat markets for some time. According to Business Week there are three reasons; "(1) Much livestock has been slaughtered lean in the rush to beat reinstatement of ceilings; (2) this is the slack season in livestock marketing, with meat due to be woefully scarce until late October when spring pigs will begin to come to market; and (3) mostsignificant of all, practically all livestock experts are in agreement that most of the available beef will come through the black market." All of which should be good news to those who have chickens, cheese or fish to sell. Our community has a lot of fine turkeys that are ready to start their journey to market.

Looking Backward

1916—THIRTY YEARS AGO

Steps were being taken by the city council to have the telephone company remove its poles and wires from the streets in the business and residance districts.—Father Adolph Dingman, for twelve years pastor of St. Bernards church here, has been transferred to Park Rapids and will be succeeded here by Father Noonen of that city.—A. J. Odell, formerly of Minneapolis, was named chief train dispatcher at the Soo offices here, succeeding W. D. Boyce, transferred to Superior.—George Baken is leaving for San Francisco to establish his residence there. — Night Patrolman Charles Alexander is enjoying a ten-day vacation.

1926—TWENTY YEARS AGO

Orders for nearly 2,000 sheep have been placed by local farmers thru the First National bank. —E. F. Zeh moved his grocery store into the Christo building. —Committees of local Elks were named to arrange for the state Elks convention to be held in Thief River Falls in 1927.—Miss Gladys Anderson arrived from St. Augustine, Florida, to visit at the home of her parents, Mr. and Mrs. N. J. Anderson.—Mr. and Mrs. Jacob Kiewel of Little Falls were guests at the home of their son, Ben Kiewel.

1936—TEN YEARS AGO

Governor Floyd B. Olson died August 22 at a Rochester hospital following a lengthy illness.—Svenson's Cafe opened in the Citizens bank block with Olaf H. Sorenson as proprietor.—Paul A. Lundgren was the principal speaker at dedicatory excercises held for the new Smiley bridge, recently completed as a WPA project.—The city council took action to apply for a federal grant to aid in financing the construction of a badly needed sewage disposal plant, plans and specifications for which have been prepared by E. L. Lium of Grand Forks.—The Northern State bank celebrated its first birthday August 24 with deposits totaling almost $500,000.

Popplers Win City Diamondball Title

The combination of Bobby Carlson's three-hit pitching, plus the fifteen-hit attack on Bill Gray, and aided by ten Vet errors, gave the Poppler's a decisive 19 to 4 win over the Vets in a softball game on the East side diamond Friday night. The victory, the second straight win for the Poppler's, closed out the championship finals and gave the city title to manager Walt Larson's green-clad squad.

A walk to "Toonie" Carlson, an infield out, and Bob Carlson's single into right field gave the Poppler's a tally in the 1st inning; and in the 2nd inning an error, a fielder's choice, and singles by Walt Ekeren and Merle Carlson, added a pair of runs to the Poppler's total.

The game was just about decided in the 3rd inning when Poppler's rolled across seven runs. The Vets defense fell apart in the inning, with the infield committing five errors, and with Bill Gray giving up two bases on balls and tossing in six wild pitches.

The Vets made their only rally of the game in the last half of the 3rd inning pushing across four runs. Heinie Waag drew a walk; Ab Stromberg was safe on a fielder's choice, with Waag safe at second on Bob Carlson's wide throw; Bob DuChamp was safe on Walt Ekeren's low throw to first base, with Waag scoring a run. Norman was thrown out, second to first with Ab Stromberg scoring. Hemmy Sahl bounced a hit off Ruppprecht's glove, with Bob DuChamp tallying the third run. Ernie Hellquist was given a walk; and Jess DuChamp singled past shortstop, scoring Sahl. Cliff Stromberg strolled to fill the bases. Bill Gray popped to pitcher Bob Carlson, and Jimmy Welton closed the rally by making a neat running catch of Waag's fly ball into short left field.

Poppler's came in with some "insurance" in the 4th inning, racking up two runs; and in the 5th frame, seven counters trotted across the plate.

PROWLER ELEVEN TO START SEASON FRIDAY EVENING

Inexperienced Local Team to Compete with St. James Academy Team

Coach John Lindenmeyer, and his assistant Don Nelson, will get their first glimpse of the young and inexperienced Prowlers in action on Friday night when the locals play Father Hylden's well-rated St. James Academy eleven under the lights on Lincoln field. The kick-off is scheduled for 8:00 p. m.

Due to the fact that school will not start until Monday, and with a number of the squad employed, the practice sessions, which have been conducted in the evening haven't been very intensive. The "first string" that has been running through signal drills and engaging in light scrimmage, and which will probably take the field at the opening kickoff tomorrow night, has had Rob Amundson and Glen Magnuson at the ends; Jimpy Welch and Palmer Ronholm at the tackles; George Paulson and Ralph Engelstad at the guards; Dick Davidson at center, and captain Les Vigness, Swede Lund, Marlow Davidson, Don Engelstad, Glen Narverud, Al Williamson, and Bob Larson in the backfield.

Frank Dopp, a newcomer to the squad had been appearing well at an end position, but he fractured a finger last week and it's doubtful if he will see much action Friday night. And Darrel "Gus" Carlson, a tackle candidate, had been one of the strong contenders for a line post, but "Gus" ran his hand into a bread-wrapping machine while employed at one of the local bakeries and will be out of action for some time.

TheProwler schedule:
Sept. 18th, St. James Academy, here.
Sept. 27th, Grand Forks Central, here.
Oct. 4th, Devils Lake, here.
Oct. 11th, Grafton, there.
Oct. 18th, Bemidji, there.
Oct. 25th, Crookston, there.
Nov. 1st, East Grand Forks, here.

The Grand Forks Central, Devils Lake, Grafton, Crookston and East Grand Forks games are North Valley Conference contests, with this being the first year that the circuit is in operation.

LOCAL SHORTSTOP GOLF TOURNEY IS SET FOR SUNDAY

Array of Brilliant Players Expected in Championship Flight

The second annual Fall shortstop golf tournament will be played over the local course on Sunday, and indications are that the championship flight will contain some of the finest golfers to ever participate in a northwest shortstop tournament.

Jimmy Nordine, winner of the Pine-to-Palms and Red River Valley tourney in addition to winning shortstops here and at Grafton, will head the all star contingent, and he will be seeded number one. Allan Boes, former Manitoba open champion, and recent winner of the North Central Amateur meet at Grand Forks, will be an entrant in Sunday's tourney, and he will bring several of Winnipeg's best golfers along with him.

It is reported that Detroit Lakes' Johnny Buck and Don Sealander have signified their intentions of being present on Sunday. Crookston's Ernotte Hiller, runner-up to Nordine in the Red River Valley tournament, will be on hand and he will be one of the favorites. Phil Olson, who set a record-breaking 63 over the Country club course at Grand Forks this week, has promised to be in attendance, as will Bill Larson, Ted Waldron, Al Cocking, Don Stewart, and several others. And of course, the local club champion, Vic Jung, will be in the tournament.

The tournament committee states that all qualifying scores should be reported by six o'clock on Saturday evening, so that the flight pairings can be arranged. It is hoped to have golfers off the first tee by 8 o'clock Sunday morning.

A Calcutta auction is scheduled to be held at the club house Saturday evening, with the bidding slated to start at 9:00 p. m.

A $50 bond will be awarded to the winner of the championship flight, and the other flight winners and runners-up will be presented with merchandise prizes. The tournament committee announcing that a fine selection of merchandise has been assembled.

Sportsmens Club Views Movies Tuesday Night

Members of the Pennington County Sportsmens club at their September session Tuesday evening viewed motion pictures supplied by the Remington Arms company, dealing with the topics, "Big Fish" and "Bob White". In their business session the members voiced a protest against allowing an open season on geese in North Dakota while at the same time closing the season in Minnesota.

Bowlers Organize

The city bowling association, at a meeting held Monday night, drew up preliminary plans for the season that is just about to get under way, and from all the interest that is being exhibited, there should be plenty of bowling activity around here this winter. Fred Protz, the association secretary, states that it is the intention of the organization to form four bowling leagues this year, with the schedule tentatively set as follows: on Monday night a league made up of fraternal organizations will howl; on Tuesday nights the Commercial league will take the alleys; on Thursday nights the Business league will roll their games; and on Friday nights, the City league, a straightaway affair, will roll. The City league will be on a straight bowling basis this year, with the team members being limited to bowlers carrying an average of 160 pins or more.

According to present plans the leagues will start their schedule on the week of Sept. 30th, and all bowlers interested or wishing to join a team should inform Ed Carlson at the Hartz Bakery or Fred Protz, secretary.

The association officers appointed Jim Dryden and Jess DuChamp to positions on the board of directors, with Jim and Jess taking the places of Dr. Homer Hedemark and Al Weber, who have moved out of town.

Oscar Cerny, proprietor of the Mint alleys, said that he expects to have the lanes open in a couple of days, so that the curve-ball boys could begin to get the kinks out of their arms. The reverse-ball experts, such as Fred Lorentson and Ed Karwand, only need a fresh cigar to get their game in the groove.

It's Jimmy against the Field

That's the set-up for the shortstop tournament, the second annual Fall tourney, being played here Sunday. And from all reports it's going to be quite a field that the tournament committee has lined up against Jim. Allan Boes, of Winnipeg, twice Manitoba open champion, and winner a week ago of the North Central Amateur at here and Crookston's Ernotte Grand Forks, has promised to be Hiller, a runner up to Jim at the Pine-to-Palms and Red River Valley tourneys this year, will be on hand and hoping to get another chance to score his first triumph over Nordine.

Tony Dorn, Don Olson and Wally DuChamp are expected to resume their 10th or 11th flight rivalry, with Tony and Don anxious and ready, and maybe able to break up Wally's victory string. Tony and Don are getting pretty tired of playing poop to Wally every time there is a tournament, and they are going to do something about it Sunday.

A Job Well Done

The Poppler's Furniture softball team, from sponsor Stan Larson, manager Walt Larson, and all the way down through the lineup to bat- boy "Doc" Carlson, did a fine job in collecting the city championship, winning the final game, 19 to 4, from the Vets on Friday night. In the semi-finals, Poppler's upset the Cen's, 20 to 11; and in the first game of their series with the Vets, they scored an 8 to 2 win. So the manner in which they won was pretty decisive.

It's congratulations to manager Walt Larson, first baseman Blackie Stephens, second baseman LeRoy Ruppprecht, shortstop Nicky Carlson, third baseman Walt Ekeren, catcher Merle Carlson, pitcher Bob Carlson, and outfielders Jimmy Welton, Wally DuChamp, Glenn Carlson, and Harold Anderson.

Prowlers Open Season Friday.

With only one of last year's regulars in the starting lineup—Les Vigness—the Prowlers open their football season tommorrow night by meeting the St. James Jimmies from Grand Forks. Coaches Lindenmeyer and Nelson are undecided about the lineup that will take the field at the opening kickoff, but the game should give a line on the strength of the squad and prepare the locals for the start of the conference schedule, which opens on Sept. 27th.

St. James has a number of veterans returning this year and Father Hylden, son of the Lars Hyldens here in town, coach of the Squires, expects to give the Prowlers a tussle, and they have even made room in their equipment bag for a win.

IT'S APPLE BLOSSOM TIME IN MINNESOTA

Killing frost in mid-May is credited with unusual autumn antics of Minnesota apple trees. At Gaylord, in mid-state M. E. Nelson has a Harvest apple tree in bloom. At Grand Rapids in the northern segment Robert Loux is delighting in the fragrance of crab apple blossoms. And at St. James in the southern section of the state C. E. Leonard picked August apple blossoms from his Hibernal tree.

TECHNOCRACY

Conclusion.

Technocracy is not out to smash anything. It knows thoroughly well that the Price System is smashing itself. Before that happens Technocracy, with your help, stands ready and able to save this Continent from ruin, and stands able to institute a balanced production and distribution of all goods and services commensurate with the available energy and resources of the Continent.

Technocracy shows how the high-energy civilization on this Continent today has made a Price system unworkable, and that the only System that is workable is functional control and direct and equal distribution—without a Price.

Technocracy Inc. has nothing to sell, and is not out for your vote. It is merely giving you the facts of a dangerous situation.

Nor, in this article, is it attempting any proofs. Proofs there are, and striking and overwhelming ones, but to have them you will have to get in touch with your Technocrat friends.

Do that. Technocracy needs you. Believe it or not, you can help. Every able man and woman will be needed in the crisis now approaching so rapidly, and already so near.

Of course, if enough of us understand the inevitability of Technocracy and were prepared to act, we could have it right now, without having to wait and go through the hell that may otherwise check the evolutionary struggle of mankind to reach the much-to-be-desired state of peace, security, leisure, and plenty that is now within our grasp.

AS AMERICAN... as the World Series

"One on in the fifth; folks, and it's a terrific clout to the upper right field stand!" The crackling voice of the sports announcer comes over every radio in the land. Newspapers carry the scores in glaring headlines. The farmer comes in from the field to see how they're doing. The business man postpones the pending deal while he learns the latest. Everyone who walks through a shop or office is greeted with the inevitable question, "Who's ahead?" The World Series is on!

Baseball makes the whole country kin, for American sports and American pleasures are as democratic as America, itself. And a glass of foam-topped amber beer, properly chilled, is a democratic pleasure, too—enjoyed by everyone, anytime, anywhere.

To every American : : : banker, truck driver, farmer, mechanic, office worker : : : a glass of beer writes a pleasant period to any hard day's work. The right to enjoy this sociable drink of moderation and good sense is part of our American heritage. It fits right into the greatest pattern of living in the world . . . America.

Beer belongs... enjoy it

Livestock Shrinkage Is Expensive

With the prevailing high prices for livestock, you can not afford to ignore the fact that your livestock shrinks when being hauled to market. The farther it is hauled the more it will shrink, and even though you pay to have your livestock fed after it arrives at the market, you will still have a shrink. When you stand a shrink of fifty or one hundred pounds at 12 or 15 cents per pound, thats money lost. It probably amounts to at least 25 or 50 cents per cwt. on your animal.

The next time you have livestock for sale, give us a trial. You are assured of correct prices, weights and grading.

A REAL HOME RUN IN THE GAME OF LIFE

Baudette—Edward Sonstegard is confined to a wheel chair because of an operation on his feet. That's bad enough for anyone, but worse for Edward, who is at boyhood baseball age with a burning desire to join his chums on the diamond. So the neighborhood boys have organized two pitching and fielding teams, and Edward from his wheel chair does the batting for both. Developing a fine pair of shoulders and keen eyes, he whams out an enviable percentage of hits for his base runners.

CAN THIS LAD MAINTAIN HIS RECORD?

Pillager—School opening this fall brings an unusual challenge to Duane Eppelsheimer, who lives 11 miles north of here. He went through eight grades without an absence or a tardy mark, and starts high school this fall.

THESE ARE BUSY DAYS at the TELEPHONE OFFICE...

Our operators are handling more calls for more telephones than ever before—more, in fact, than our equipment was designed to handle.

In order to serve those who have been waiting, we've added telephones until our equipment is crowded to capacity. That's why, occasionally, there may be a delay before the operator can handle your call.

New equipment is being manufactured and better service will result when additions to the system here can be made.

In the meantime, you may be sure that we will do our best to give you the fastest service possible under present conditions.

STATE REPUBLICAN CONVENTION TO BE STAGED SATURDAY

Sessions in Minneapolis Auditorium Will Open Saturday at 9:30 a. m.

Not inclined to rest on their oars, Republican leaders from this county and other counties throughout the state will gather in Minneapolis Saturday for the Minnesota Republican state convention prepared to launch an aggressive campaign for the Republican nominees for state and congressional offices.

Votes cast for Republican candidates in the recent primary outnumbered the votes garnered in by candidates in Democratic-Farmer-Labor primary ballots to one, but Republican leaders will discount this apparent margin in making their plans for the campaign. Delegates to the convention and county party officers will be asked to prepare for a hard, intensive campaign in all parts of Minnesota, state party leaders said in announcing plans for the convention.

Governor Horace A. Hildreth of Maine will give the keynote for the convention. Joining with him in helping to set the stage for the approaching campaign will be Governor Edward J. Thye, Republican nominee for U. S. Senator; Luther W. Youngdahl, Republican nominee for governor, and the other Republican nominees for state and congressional offices.

George C. Scott, Republican state chairman, and Mrs. M. L. Spencer, Republican state chairwoman, made it clear in announcing plans for the convention that Republican party leaders are counting on no easy campaign this fall.

State Engineers Will Meet at Beach Friday

As a climax to their two-day annual fall outing, the Minnesota Engineers and Surveyors society will hold a dinner at Ettgers Bichpinot lodge, Bemidji, Friday, Sept. 13. W. E. Dahlquist will be toastmaster. Speakers will include Col. E. B. Miller, Brainerd, department commander of the American Legion, and M. J. Hoffmann, state highway commissioner.

Land O'Lakes Continues 'Most Typical' 4H Award

A year-round program of help and encouragement to 4-H clubs of Minnesota, Wisconsin and the Dakotas—highlighted by special radio broadcasts and recognition of outstanding work—is being conducted by Land O'Lakes Creameries, Inc.

Because of wide interest created during 1945 by an award program in which Land O'Lakes presented green and white pennants to the "most typical" 4-H club in each county, these awards have been continued for 1946 and again will be awarded this winter, it was announced today by John Brandt, president and general manager.

CHANGES MADE IN GI ON-THE-JOB PAY

2,000 Minnesota Vets to receive Pay Cuts

Approximately 2,000 Minnesota veterans will receive cuts in their subsistence allowances for on the job training, as a result of limitations recently imposed by Congress, Minnesota regional officials of the Veterans administration estimated today.

The cut, affecting approximately 20 per cent of state veterans enrolled in on-the-job training courses under the G. I. Bill probably will not be noticed in the checks to mailed August 31, but an enclosure will notify the veteran that any excess amount in his check will have to be returned over a period of time.

Paul T. Gray, local, contact representative of the Veterans Administration, explained that under new provisions of the law earnings and subsistence allowance together cannot be more than $175 a month for veterans without dependents and $200 a month for veterans with dependents. Subsistence allowances will be cut to keep total earning within this maximum.

Mr. Gray emphasized that the cuts apply only to subsistence payments to veteran students or trainees under the G. I. Bill, and do not affect disabled veterans enrolled in training establishments under the Vocational Rehabilitation Act.

JUNIOR LIVESTOCK SHOW CANCELED

South St. Paul Event Called off Due to Polio

At a meeting of the executive committee of the Junior Livestock Show consisting of members of the Minnesota Livestock Breeders' association, the livestock marketing interests in South St. Paul, the St. Paul Association of Commerce and the Minneapolis Civic & Commerce association, it was unanimously agreed to cancel the 1946 Junior Livestock Show.

The committee cooperates with the agricultural extension division of the University of Minnesota in staging the annual Junior Livestock Show in South St. Paul.

The committee fully realizes that this action will be a grave disappointment to the thousands of 4-H boys and girls, who have done such a magnificent job this year in their livestock club work. Yet it is felt that the assembling of boys and girls of club age and subjecting them to the possibility of contagion is too great a responsibility to assume at this time in light of the situation.

Gamble-Skogmo Plans Unification of Assets of Affiliated Concerns

A plan for the unification of the business and assets of Gamble-Skogmo, Inc., retail and wholesale merchandising organization operating Gamble Stores, and six affiliated companies into one organization Gamble-Skogmo, Inc., is proposed in a letter and statement mailed to stockholders today by E. C. Gamble and P. W. Skogmo, co-founders of Gamble Stores.

For the first seven months of this year gross sales of the combined companies exceeded $85,000,000. Gross sales for the entire year 1945 exceeded $75,000,000.

The plan has been unanimously approved by directors of all companies involved. It will be voted upon by stockholders of Gamble-Skogmo, Inc., and other companies, at meetings to be held September 26, 1946.

Gamble-Skogmo, Inc., and affiliates, own and operate 521 retail stores, and supply merchandise to 1,656 authorized dealer stores, in 25 states, four Canadian provinces and Hawaii. Certain merchandise is also exported to Central and South America.

The companies involved in the proposed plan, in addition to Gamble-Skogmo, Inc., are Gamble Solar Corporation, Western Auto Supply Company (California), Gamble Skogmo Limited, and MacLeod's Limited, the last two being Canadian corporations.

Fence Posts

Illinois farms use 30 million fence posts annually.

1946 Traffic in Rural Areas of Minnesota Is Near Pre-war Volume

Traffic on Minnesota rural trunk highways in July was 90.9 per cent of the July, 1941, traffic volume, according to data gathered by automatic photo-electric traffic recorders operated by the state highway department at various points throughout the state. Average volume from January to July was 94.7 per cent of this figure for the same months in 1941. Heaviest traffic was in March, 1941, volume.

Although vehicle counts on rural trunk highways are somewhat under the 1941 figures, gasoline consumption in Minnesota has increased. Net gallonage of gasoline taxed in the first half of 1941 was 7 per cent higher than in the same months in 1941. The discrepancy between vehicle counts and gas consumption may be due to three things:

1. A substantial increase in the number of heavy trucks and in loads carried.
2. Less car miles per gallon, due to greater average age of vehicles.
3. Greater increase in traffic in urban areas than on rural trunk highways.

City Dwellers

Conserves Soil

Land that is in close growing crops more than half the time and planted in row crops only about one year out of every three loses much less topsoil by erosion than continuously cultivated land.

HARRIS

(Crowded out last Week)

Sandford-Sundin

Bernice Sandford daughter of Mrs. Hulda Sandford of Pinewood and Joseph Tusidka son of Mr. and Mrs. Alois Rusidka of Beltrah, were united in marriage Saturday, Aug. 24, at three o'clock. Services were held at Nymore Lutheran church, Rev. Iverson performed the single ring ceremony.

The church was beautifully decorated with baskets of flowers and long tapers. Dainty blue bows on white lace doilies were placed on the end of each pew.

The bride was given in marriage by her brother Elof. She was attired in a floor length satin white gown with net skirt, fashioned in sweetheart neckline and three-quarter length sleeves finished with ruffles of net and a finger tip veil of white net edged with lace fell over her shoulders from a shining crown. She wore a strand of pearls, a gift of the groom, and carried a white Bible and bouquet of pink roses and asters tied with white ribbon streamers.

Patricia Mistic, niece of the groom was flower girl. She wore a blue floor length dress and a cross, a gift of the bride.

The bride was attended by Mrs. Thomas Johnson, cousin of the bride, as matron of honor, who wore a yellow chiffon formal and carried a bouquet of pink gladiolas and Miss Adah Indrigan, as bridesmaid, who wore a pink gown with powder blue lace jacket, and carried a bouquet of pink roses.

Johnny Rusidka, brother of the groom, assisted the couple as best man. Everit Sandford, and Elof Josephson of Debs were ushers. The groom and his attendants had boutonnieres of white gladioli.

Miss Jane Lomen, of Solway, as organist, played the nuptial music and accompanied Della Aldal and Marion Johnson who sang, "O Promise Me", as the candlelighters, Alice Aldal and Bernice Hansum of Bemidji both wearing blue formals, lit the candles. Doris Aldal also sang, "O Perfect Love", as the couple approached the altar and Elof Josephson of Debs sang the Lords Prayer at the close of the ceremony.

Mrs. Sandford, the brides mother, wore a pale blue dress with black accessories and a corsage of sweetheart roses. Mrs. Rusidka, mother of the groom, wore a navy blue flowered dress with black accessories and a corsage of white gladiolas.

The reception following the ceremony was held in the church, parlors with Mrs. Peter Lein, Mrs. Carl Aldal, and Mrs. William Stai and Miss Margaret Anderson all of Debs.

The beautifully decorated three-tiered wedding cake topped with miniature bride and groom had been made by Mrs. Pete Mistic, of Nebish, sister of the groom. Flowers and candles decorated the table.

For her going away outfit, the bride chose a seafoam aqua suit with pink and black accessories and wore a handkerchief sent her from Switzerland by her brother Everet who arrived from overseas in time for the wedding.

After a short wedding trip to the North Shore and the Iron Ranges the newlyweds will make their home in Nebish. The bride is a graduate of Bemidji high school and has been teaching in Beltrami County. The groom, who served four years in the service is now operating a farm in Nebish, where Mrs. Rusidka will also teach school this year.

Mrs. Rusidka (see Bernice Sandford) taught school here one year at the Rosebud U86 school in 1944-1945, and boarded at the Frank Johnson home during the term. She gained many friends here who extend here our congratulations to the newlyweds.

Melvin Jalle returned home Wednesday after helping harvest at the John Jelle home a few days.

Dorothy Eberhardt left on Sunday for Bemidji where she will attend college.

Threshing began here again on Thursday after week-end rains.

Mr. and Mrs. Tony Overby and family from Bemidji have purchased the Andrew Olson farm by Thorhuit and will move up here shortly.

Elmer Newhouse moved his threshing rig over and threshed for Ed Jelle on Friday.

Ole Davison from Dumont, Iowa spent two weeks visit at the Fred Tressalt home.

Announcement cards were received here this week-end that Mr. and Mrs. Anton Konstad announced the marriage of their daughter Helene to William Edward Ross on Sunday, the first of Sept., at 12:30 o'clock at the Myrtle Fillmore Chapel, Christ Church Unity, 63d South Monhalton Place, Los Angeles, Calif. Helene grew to womanhood here, and her friends here extend their congratulations.

Mrs. Helmrast and daughter Elsa Grace spent Saturday afternoon visiting at the Edward Jelle home.

Mrs. Helen Newhouse helped Mrs. John Bykhum cook for threshers Saturday through Monday.

Harvey Woods from Oklee spent Saturday through Monday here at his farm assisting with threshing.

SILLY—YET SENSIBLE!
If cows could talk, this cartoon wouldn't seem silly because EVERY cow prefers being milked by the SURGE—for several SENSIBLE reasons:
1. It milks all cows better with a light pull for an easy milker—a heavy pull for a hard milker and a progressively increasing pull on all cows as they are milked out.
2. It gets more milk (less stripping).
Surge Owners prefer Surge because there are only 4 inches instead of 4 feet of rubber to clean—cleaner milk. It's faster—Surge is the fastest milker ever produced. AND—all metal parts touching milk are Stainless Steel! NOW—
About "Self-Washing"
So long as ads continue to appear stating that certain milking machines are "self-washing," we shall continue to say that the Surge is not that kind of a machine. Milk is a very wonderful but very easily spoiled food—a dirty machine means dirty milk. We urge you to wash and properly sterilize your Surge Milker after each milking. There is not much of the Surge to keep clean and proper attention requires less time, less washing powder and less sterilizing.
You have not Surge in milk under any condition. Some dirt is sterile and carries no disease whatever. The fact does not lessen the importance of keeping it out of milk.
"No amount of straining or cooling can restore a dirty milk or, as milk with a high bacteria count to its original high grade condition."

SCHOOL TO OPEN HERE MONDAY SEPT. 16

Monday, Sept. 16, will mark the beginning of another school year in the Newfolden Consolidated School. Our veteran and genial building custodian, Bernhard Nelson, has spent the summer in cleaning and making the necessary repairs in the building. Among the improvements noticed will be the sanding and varnishing of the desks in the main assembly room.

The grades will be taught by teachers that have been in the system one or more years. The first and second grades will again be taught by Miss Goldie Jacobson from Hallock, Minnesota; the third and fourth grades by Miss Matteson from Lake Bronson, Minnesota; the fifth and sixth grades by Mrs. Ted Leland; the seventh and eighth grades by Mrs. Elaine Doering. Both Mrs. Leland and Mrs. Doering make Newfolden their home.

In the high school, the teaching force will be new to the community, save for the superintendent, Mr. Leland. The principal, Mr. Paul Schelske, hails from Minneapolis, Minnesota, and will teach the sciences, boys physical education, and do the coaching. The commercial subjects will be taught by Miss Ethel Torgerson from St. Thomas, North Dakota. Miss Lucille Starr, of Pelican Rapids, Minn. will teach the histories and have charge of the library, while Miss Judith Erickson from Kindred, N. D., will teach part of the high school English. She will also take charge of the grade and high school music. At this writing we are still in need of another high school teacher, but hope that deficiency will be remedied by the opening of school next Monday.

The school busses will make their regular routes Monday forenoon, starting out in time to have the students at the school at 10 a. m. As soon as both the grades and high school students have completed registration the buses will again take them home, to allow for a teachers meeting in the afternoon. Regular class work will begin at 8 a. m. on Tuesday. Any students that have not been in attendance until this fall are requested to bring their last year's report card, and know the number of the district in which they reside. It is essential that everyone who wishes to attend high school be here for registration on Monday in order that the size of the classes be known. Parents may substitute for the students if necessary.

In view of the fact that school has been delayed for two extra weeks, the board of education had decided that each student must attend twenty days of the first six weeks period as compared to fifteen days a year ago. This will allow for two weeks of potato picking after the beginning of school.

Kore Myhrer, local trucker, is hobbling about on crutches with his leg in a cast. Kore broke the bone between his ankle and knee last week when a large cow that he was hauling stepped on it.

Mr. and Mrs. Shirley, of Nekoma, N. D., Mr. and Mrs. Peter Tvedt, Mrs. Alma Bring and children, Gordon Ardelle and Bernice, Orville, Betty and Marvin Nelson and Darlene Dengerud visited Sunday evening at John Nelson's.

Miss Lucille Tanberg has accepted a position as bookkeeper in an accounting office in Thief River Falls.

Miss Lorraine Nelson is now employed as waitress at Bill's Cafe.

Gordon Thompson, U. S. Navy, son of Mrs. Esther Thompson, has received his honorable discharge and returned home on Sunday.

Mrs. Roscoe Ginther, Mrs. Fritz Edeen, Mrs. Charley Taylor, Mrs. Eva Nelson and daughter were callers at the Harvey Magner home on Friday.

Mr. and Mrs. Paul Schelske and sons, Edward and Douglas, of Minneapolis, arrived here on Sunday and are now getting settled in their apartment in the Helgi Johannson residence. Mr. Schelske is the new science instructor and athletic coach in our high school. We welcome the Schelske family into our town and hope that they will learn to like it so well here that they will make it their permanent home.

Joe Weber Jr., local milkman, is busy this week remodeling and enlarging his dairy barn. It has been moved onto a new foundation and is having a 20 foot addition built on the north end.

Mr. and Mrs. Arthur Stadsen made a business trip to Warren last Thursday.

Harvest Festival Success Despite Cloudy Weather

A cold drizzling rain on Sunday morning seemed to end all thoughts of being able to hold the Harvest Festival and Picnic here, but members of the Sportsmens Club, the Legion and Auxiliary went right ahead with their work and before noon the weather had cleared, it had turned somewhat warmer and the crowd began to slowly gather. Horse shoe throwers took off their coats and began heaving the irons, the sharpshooters drifted over to the rifle range and began to drill neat little holes in the black bulls eyes, the bingo stand started off with a bang, the smell of hot dogs and coffee began to penetrate the air and make people hungry, the baseball teams showed up in their uniforms and the festival was on.

Although the crowd was not large, due to the uncertainty of the weather the sponsors are very well pleased with the results of the festival and wish to thank all who attended for their fine patronage. Net receipts of the day will go into the Memorial Auditorium building fund.

Mrs. Helga Haarstad Feted on Birthday

On Sunday afternoon, Sept. 1, friends, neighbors and relatives gathered at the Hans Haarstad home to honor Mrs. Helga Haarstad, whose 76th birthday occurred that day.

A brief devotional program consisting of songs and readings was rendered, after which Mrs. Conrad Windahl presented the honored guest with gifts together with best wishes of the many assembled for the occasion. Mrs. Haarstad responded with words of appreciation.

A lunch was then served by the self-invited guests. The table was adorned with a beautiful three-tiered birthday cake prepared by Minnie Lauseng. Mrs. Oscar Brekkestran and Mrs. Conrad Windahl.

A poem composed by Ruth Anderson was read in honor of Mrs. Haarstad, who is one of the few remaining pioneer mothers of the Newfolden community.

Duane Gustafson, son of Mr. and Mrs. Alfred Gustafson, returned home on Wednesday of last week, following an appendix operation at Mercy hospital at Thief River Falls.

Mr. and Mrs. Geo. Gatchell and daughter Marcia of Albuquerque, N. Mex. were over night guests at the Johnnie Ness home on Friday.

Barny Holmstrom spent a few days at the Clifford Johnson home last week.

Mrs. Vernon Holmstrom Eileen Johnson and Mrs. Johnnie Ness spent a couple days at Fargo, last week visiting with Vernon Holmstrom at the Veteran's Hospital.

HENS HANKER FOR PUBLICITY

A Truman pullet has hatched nine chicks at the early age of five months instead of the average motherhood age of nine months. At Blue Earth a flock of five-month pullets produced 61 eggs in one day of which 18 had double yolks and one had a triple yolk. An Ivanhoe poultry raiser found a good sized egg with a rubber shell and a perfect egg inside it.

Hash Fetishes

To get the best hash brown potatoes, cook over a low heat and do not stir the potatoes, say home economists.

7TH ANNIVERSARY SALE of FINE FURNITURE

We're Having A Birthday Celebration Here At Poppler's

Si Sez—

Seven years ago this store was started here at Thief River Falls.

Some of the years have been rough due to shortage of man-power and merchandise—but as a whole—it has been a mighty fine venture and one of which I am extremely proud.

Our store here, of course, has the advantage of being able to buy with Poppler's big store at Grand Forks and to draw from our main store's huge warehouse stocks.

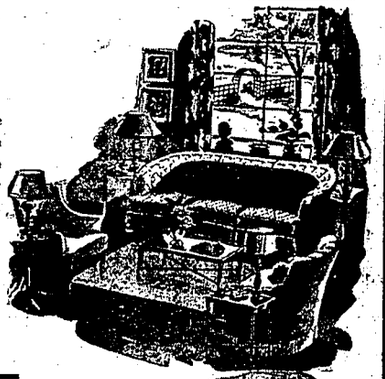
This is not only a great help but it also means quicker deliveries and lower prices than would be possible if there was not this affiliation.

Application has been made and authorization is expected daily from C. P. A. to double the size of the present structure housing Poppler's here.

This is necessary due to the great increase in business and lines of merchandise that Popplers will be selling.

Complete stock of Electric Appliances and Pianos will be handled as soon as this merchandise is available.

I want to take this opportunity to thank each and everyone of our thousands of friends and customers of our Thief River Falls store for their splendid patronage through the years and I know that the Big Sale that Stan and Con are putting on now will appeal to you all—Not only from a money saving standpoint but due to the fact, that many, many, hard to get items are now offered for the first time.



Guess I'll go back to Grand Forks and put on a 37th Anniversary Sale there for it has been just 37 years since that store was started in Grand Forks.

That's a long time folks and we must have been right not only in price but also in the treatment of our customers to have not only kept going but to have reached the size that Popplers have today.

Thanks a lot,

SI POPPLER.

News of R. L. Valley Home for the Aged

These are the days when it is anybody's guess whether it is warm or cool.

The annual business meeting of this Home's board of directors was held here last Thursday with the following Pastors in attendance: V. L. Peterson and O. Hanson of St. Paul, Robert Chisholm of Karlstad, R. E. Larson of Alvarado and E. F. Rabine of this city.

James Westin has been spending a few days on the Albert Klungnes farm north of town, returning here Sunday.

Mrs. Emil Johnson left here Monday for an extended visit with relatives at Mayville, N. D.

John Hanson, who has been absent from here for a month past, staying with a brother-in-law and sister in Nebraska, returned here last week-end.

Mrs. Kate Spiess accompanied by a grand daughter, Miss Vivian McMahon left here by train Wednesday for Anamoose, N. Dak., to visit with relatives for a few weeks.

Rev. M. E. Arneson and Carl Olson of Gully were callers at the home Saturday. Mr. Olson had recently sold out his farm stock and equipment and was contemplating moving in to this city if living quarters were available.

Mrs. Palmer Johnson of Lake Bronson was in for a visit with her father, Frank Brodin, recently, while she and her husband were in the city on business.

Mrs. Ingrid Sandberg had as her guests Saturday Mr. and Mrs. Raymond Wilmer of Duluth, Mrs. Hannah Erickson of Plummer and Mrs. Mary Meldahker of St. Paul. Mrs. Wilmer and Mrs. Erickson are sisters of Mrs. Sandberg, and Mrs. Loffelmaker a niece.

Mrs. Nels Backstrom took the day off Tuesday for a trip to her home in Karlstad, where she went to do some cleaning and fall work around the home; among them last

Thursday evening's prayer meeting, and Friday evening's Young Peoples gathering, met at an early hour here because Rev. Ali Mikaelsen's Circle. All were well attended.

Among callers at this home during the last few days were noted the Misses Alma Hedstrom, Lois Guilliford, Wilma Thisher, Mrs. M. Jaje and Mrs. Thos. Nardell.

Olaf Klaven called at the home Tuesday for a visit with his daughter, Miss Pearl Klaven and other friends here.

Mrs. Mollie Northome is spending a few days at and around her old home near Fourtown, driving out there Tuesday with Fred Sundby of that community.

Miss Mildred Allende celebrated her birthday Monday with a generous serving of cake and ice cream to her whole family and others.

Rev. E. F. Rabine left Tuesday by car on a trip to the twin cities and points north.

(Crowded out last week)

To supplement our stock of reading matter a number of books were brought in last week by J. Pevencher.

Following a visit with a brother Oscar Eggerud at Brainerd, Mrs. Hannah Moore of Chicago has been visiting the last few days here with her mother Mrs. Emil Johnson. She left here again for her home Sunday in company with her brother, who also was here that day for a visit with his mother.

Mr. and Mrs. Henry Sandy formerly of the Rosewood community and now located at Grove City paid a visit here Wednesday to their former neighbor, Mrs. E. O. Hagen.

Miss Carrie Haverstad and Mrs. Norjhom together with Mrs. Ida Anderson were visitors at the duty Friday adding out with Mr. and Mrs. H. K. Strand.

Among callers on Thursday were Rev. and Mrs. Alfred N. Larson of Atwater and Rev. E. W. Chisholm of Karlstad. The Larsons accompanied Chisholm to his home at Karlstad Thursday evening returning here again Friday on their way back to Atwater.

Mr. and Mrs. E. Lindgren from near East Grand Forks stopped in Saturday to see Edon Davis while on their way back home from Minneapolis.

Our thanks to Mrs. Emil Beckman of Viking for bringing in an armful of reading matter Sunday.

Chester Dahlgren of Alvarado called on Bachelorette here Saturday evening while he was in the city to meet his wife coming up from Minneapolis.

Among callers at the Home lately have been noted Mrs. Frances Stout of Crookston, Mrs. Herman Sandberg of Hallock, Martin Hovestad, Henry Hanson and John Steiner.

Miss Lorraine Moe returned here Saturday night after having a month with relatives and friends in the Twin Cities and in and near Mankato and Mankato. She reports that, at a crucial moment, when the young twigs were developing, and next winter's supply of squirrel food was nipped in the bud. New twigs grow, in what amounted to a "second spring" for Mr. and Mrs. Oak. Dr. E. C. Abbe, chairman of the University of Minnesota botany department explained, but the second growth had such a late start that it couldn't produce acorns.

"Squirrels won't have much food to store up for the winter", Dr. W. J. Breckenridge, director of the Minnesota Museum of Natural History, said. "This will probably mean the squirrels will hibernate more extensively, and it will cause the death of some; though it's difficult to predict in what numbers. We will watch the outcome with interest."

Children's Hours
Extension Service specialists have determined that early to bed should really be the children's motto, for it has been proved that the best hours of rest for a child are the first hours of the night.

Hunting out of Season Proves Expensive Sport

Taking or attempting to take ducks and deer out of season is not very profitable, thirteen game and fish law violators apprehended in Minnesota in August will testify. Typical cases, it costs them a total of $634.75, including court costs.

Four defendants found guilty of hunting deer out of season paid fines totaling $350.00 plus $25.75 costs; three individuals having deer meat in their possession paid $115.00 plus $12.25 costs; and six violators hunting ducks out of season were assessed $110 and $21.25 costs.

Ten careless individuals, carrying uncased or set-up rifles and in vehicles found it costly as well as a law violation and a threat to the safety of themselves and others. They paid fines totaling $145 plus $42.50.

Personal or private courage is totally distinct from that higher and nobler courage which prompts the patriot to offer himself a voluntary sacrifice to his country.

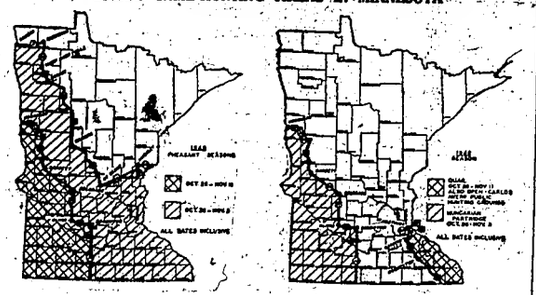
37 DIE IN TRAFFIC DURING AUGUST

Fast Driving Blamed for Most Accidents

"Speed too high for conditions" was a major factor in many of the fatal traffic accidents in Minnesota in August, reports received by the Minnesota highway department indicate. The total of 37 killed included 17 in cars that ran off the road, 11 killed in motor vehicle collisions, 5 pedestrian victims, three who fell or jumped frim moving vehicles, and one killed in a motor vehicle-train collision.



A large number of the accidents followed the same general pattern. A car was going at speed reasonably safe on a wide, straight road with light traffic and good visibility. The driver failed to slow down for a curve, or at some point where he could not see hazards ahead. The car left the road—turned over—perhaps several times—or sideswiped another vehicle in passing—or collided head-on—or crashed into the rear of a slow moving or parked vehicle—always with the same inevitable result.

Driving while under influence of intoxicants, failure to stop for stop signs, improper left turns, parking partly on the pavement, faulty steering mechanism, tire failures and bad brakes were among other contributing causes reported.

The 37 August deaths brought the year's total to 291, compared to 242 in the same months in 1945, 216 in 1944, 146 in 1943, 201 in 1942 and 371 in 1941.

AIRPORT NEWS

There will be a CAP sponsored breakfast at Grand Forks on Sunday, September 15th, at 10 a. m. The local squadron hopes to send ten planes.

These flight breakfasts, besides providing fun for all the participants, are especially valuable to student fliers for the cross-country flying experience over strange terrain.

A new squadron of the Civil Air Patrol has been organized at Roseau, with a membership of thirty.

On Friday Ernie Barzen and and Captain McCoy of Fargo will go to Greenbush to organize a squadron there.

The local airport took on the appearance of a metropolitan field on Sunday when twenty out-of-town planes flew in, bringing forty-six visitors to the CAP breakfast, from Fargo, Grand Forks, Roseau, Warroad, Badger, Euclid, Greenbush and Fergus Falls.

The Klerk family, with the able assistance of Gus and Bob Frahm, Walt Jung, Bill LaFave, Lucille Hetland and Lois Mortrud, cooked and served over a hundred breakfasts. A long table was set in the big hangar next to the office, and the cooking was done in the Coffee Bar.

Captain McCoy and Gordon Camp entertained the crowd with a thrilling exhibition of stunt flying in the army planes.

The Falls Flying Service sent a chartered plane on a mercy flight on Monday, when Gordon Camp Camp flew another young polio victim down for treatment.

FOOD LOCKER MEN TO MEET TUESDAY

Authorities to Speak at Crookston Meeting

A meeting for the frozen food locker operators and officers of Northwestern Minnesota will be held at the Northwest school of Agriculture, Crookston on Tuesday, September 17. Superintendent T. M. McCall announces that four well-known authorities on frozen food locker problems have been secured as speakers. A one hundred per cent representation of locker plants is expected for this meeting.

Registration for the meeting will start at 9:30 a. m., with the program opening at 10:00 a. m.

The morning will be devoted to problems of refrigeration and sanitation with F. D. Lehman, sales manager of the Frigidaire Corporation, St. Paul and Henry Hoffman, chief chemist, Minnesota state department of dairy and food, as speakers.

The two speakers on the afternoon program include P. A. Anderson, meat specialist of the division of animal and poultry husbandry, University Farm, St. Paul and W. H. Dankers, extension economist and locker plant management authority from University Farm. Mr. Anderson will discuss the preparation of meat for freezing, curing and smoking; Mr. Dankers will speak on locker plant management. A visit to the Crookston cold storage plant will be made at the close of the afternoon program.

C. M. Pesek, inspector of the Minnesota dairy and food department, is chairman of the committee on arrangements for the meeting. The sessions are to be held in the Northwest school auditorium and are free and open to the public.

SCHOOL OPEN WITH LARGER ENROLLMENT

Attendance at High School Rises Sharply; Grade Enrollment Down

After a two weeks delay due to the polio situation, the Thief River Falls public schools, as well as a majority of the rural schools, got off to a belated start Monday morning with all teachers on duty. St. Bernards parochial school in this city also opened its term Monday.

The opening day enrollment in the public schools of the city aggregated 1,644 compared to 1,623 for the first day of the 1945 term last September. A record increase in high school enrollment this year brought the total up to 832 from 766 last year on the opening day.

Attendance in the lower grades to date is down slightly from a year ago, due in part to continued uneasiness over the polio situation on the part of parents of small children.

Comparative enrollment for the start of the term this year and last are as follows, it was announced by Supt. P. L. Fjelsted:

	1945	1946
Lincoln high	766	832
Knox	335	368
Northrop	281	227
Washington	241	217
	1,623	1,644

First-day attendance by grades in Lincoln junior-senior high school follows: Seventh, 103; eighth, 109; ninth, 188; tenth, 157; eleventh, 144; and twelfth, 131.

Mrs. A. C. Matheson, county superintendent of schools, announced this week that teachers have now been secured for all rural schools operating in the county this year, adding that the few remaining schools that did not start last Monday will open their term September 23.

She stated that many school buildings have been repainted and redecorated, and that some have been further improved by the installation of electric lights and oil burning heaters.

Miss Cora Glare of the state department of education will inspect the Pennington county rural schools when she comes to Thief River Falls to conduct a teachers institute October 10 and 11.

ADD TO FACILITIES OF EXCHANGE HERE

Will Not Improve the Handling of Local Calls

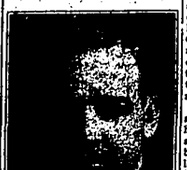
The Thief River Falls exchange of the Northwestern Bell Telephone company is now installing a new switchboard position obtained from army war surplus, which has been adapted to fit the local equipment, A. J. Rau, local manager, stated today.

Mr. Rau explained that the new unit, which will be used only on a temporary basis, will be utilized only for long distance service and hence will not relieve the congested conditions resulting from the marked increase in local calls.

He added, however, that the local situation will be greatly improved within the next five months, when two permanent switchboard units will be added to local facilities.

NO NEW CASES OF POLIO IN THIS CITY

One Case Develops in Grygla Area Past Week



No additional cases of polio were reported as having originated in Thief River Falls during the past week, it was announced late Wednesday afternoon by Dr. O. E. Melby, city health officer.

Sarah Sue Millar, daughter of Mr. and Mrs. Harry W. Millar, who was stricken with the disease recently, will be taken Friday to Gillette hospital in Minneapolis for further treatment.

Suspected of having the disease, Irene Sletten, ten-year-old daughter of Mr. and Mrs. Peter Sletten of the Grygla community, was transported by plane last Friday from Thief River Falls to a Minneapolis hospital.

MARSHALL CO. MAN IS EXONERATED IN FATAL SHOOTING

Coroners Jury Holds Otto Dohrman Killed Brother in Self Defense

A Marshall county coroner's jury completely exonerated Otto Dohrman, Comstock township farmer, in the fatal shooting of his 55 year old brother, Emil Dohrman on September 3, following an inquest held Tuesday night at Middle River, says the Warren Sheaf.

The jury, after listening to testimony, returned a verdict that Otto Dohrman, shot and killed his brother in self defense. Members of the jury were Clarence Tromanese, Arthur Berg, Henry Scramstad, Andrew C. Anderson, Stanley Larmoe and Tom Thompson, all of Comstock township.

The facts disclosed at the hearing which lasted more than four hours, will be further investigated and if any new facts are learned the matter may yet be presented to a grand jury of the district court, said Rasmus Hage, county attorney.

The hearing was conducted before Dr. M. J. Bachtel of Warren, county coroner with Rasmus Hage, examining the witnesses. Appearing at the hearing were Arvid Carlson and C. C. Collins, both of the Carlson Funeral home at Middle River; Charles Dohrman, aged father of the two men involved and Sheriff O. C. Toftner of this city.

LEGION ASSIGNS COMMITTEE JOBS

Orville Elde Speaks at Session Monday Evening

The personnel of standing committees to serve Eklund-Holmstrom post of the American Legion during the coming year was announced by Orvis Olen, post commander, at a meeting Monday evening in the club rooms in the Auditorium.

Chairman selected include Norman Peterson, safety committee; Orville Elde, sports; Martin Gulbranson, social service; Vic Jung, building committee; and Wayne Leverson, activities.

Speaker at the meeting was Orville Elde, who gave an interesting account of his lengthy period of service in the Marine Corps during the late war, including participation in campaigns on numerous islands in the South Pacific area.

WADENA ATTORNEY NEW JUDGE IN 7th DISTRICT

R. E. Barron, Wadena attorney, was appointed by Gov. Edward J. Thye Saturday to be district judge of the seventh judicial district. He succeeds the late Judge Anton Thompson of Fergus Falls.

A large crew of men and trucks were working in the rain last night and today attempting to salvage a large quantity of grain exposed to the elements when the Math Barzen company elevator at Goodridge collapsed Wednesday afternoon shortly before six o'clock, spilling the stored grain on the ground, including approximately 8,000 bushels of valuable flax seed.

Preceding the collapse of the structure, Al Lochelt, manager, heard warning cracking noises, and started to remove the grain, but had taken out only one truck load before the building broke to pieces over the road to the west of the structure. At the same time the seed shed attached to the building also collapsed. Fortunately, no one was injured when the buildings fell down.

The thousands of bushels of flax and other grains, which were damaged by exposure to the rain falling during the evening, were hauled into Thief River Falls for shipment.

BIG CELEBRATION WILL BE STAGED AT WARREN SATURDAY

Veterans Homecoming, Paving Dedication to be Theme of Observance

World War II veterans from Marshall and Northern Polk counties will be guests of honor at a veterans' Homecoming and U. S. Highway 75 paving dedication in Warren on Saturday, September 21, when an all-day celebration will be staged b ythe Warren Commercial club.

The day's celebration will open at 10:30 a. m. a mile-long parade consisting of more than 30 colorful floats, seven musical organizations, massed colors and marching units.

The Thief River Falls Civic and Commerce association will be represented by a float, and it is expected the local Legion and VFW posts also will be represented.

Governor Edward J. Thye will deliver the address of the day at a program to be given at the Grand Northern Park at 2:30 p. m. during which he will officially dedicate the new pavement constructed this past summer between Argyle and Warren and express appreciation from the State of Minnesota to the veterans of World War II.

Other speakers scheduled for the afternoon will include Mayor Conlter of Winnipeg; Erick Willis, Manitoba minister of public work, Winnipeg; an official representative from the Minnesota State Highway department.

At noon all World War II veterans will be guests of Warren at a dinner at the City Auditorium. Veterans are asked to register during the forenoon at the American Legion club rooms or the city office building where they will receive their blue veterans' button.

In the evening, a troupe of entertainers from Radio Station WDAY of Fargo, will present a program of musical and vaudeville numbers preceding two big dances, both of which will be free to the public.

The Nelson Midway shows will operate three or four rides for the children attending during the one day celebration while local organizations will operate a few concessions for entertainment.

Philip L. Fjelsted and W. C. Claffy, members of the board of directors of the Minnesota Education association, will attend a meeting of the board Saturday at the Curtis hotel in Minneapolis.

MINNESOTA GOP CONVENTION BACKS GI BONUS

Another Resolution Backs Stassen for President in 1948

Minnesota Republicans in state convention Saturday adopted their platform for the fall campaign harmoniously acting on all issues except financing a recommended state soldiers' bonus.

The platform adopted at the Minneapolis auditorium urged the legislature to authorize adjusted compensation for World War II veterans. But the convention overruled a suggestion by the platform committee for a referendum vote on this issue.

Substituted for the referendum clause was a provision, sponsored by Sen. Donald O. Wright, Minneapolis, that the legislature specify how a bonus should be financed. A proposal from the floor that a state sales tax be barred as a means of paying bonus costs was lost in a last minute parlimentary snarl.

The pro-bonus plan recommended:

"That the legislature authorize the payment to Minnesota men and women who served in the armed forces of an adjusted compensation as ample resources of the state will permit to recompense them in some small degree for the losses the veteran has incurred by being taken out of civilian life and denied the opportunity for advancement he otherwise would have had."

Other resolutions strongly indorsed the U. N., resolving that we indorse and approve the U. N. as the best home of mankind yet devised for the establishment and maintenance of world peace, and that we individually and collectively do all in our power to give it full co-operation and support."

Another resolution called upon

ODD FELLOWS ON TRIP TO KENORA

Seven from Here Share in Trip to Canadian City

Seven Odd Fellows from Young Pine Lodge No. 221 made the ninety mile boat trip across Lake of the Woods from Warroad to Kenora Saturday to visit Gold Hill Lodge of that Canadian city. Leaving Warroad at eight o'clock in the morning on the excursion boat "Resolute" piloted by Capt. Fay Young of Warroad, forty-three Odd Fellows of Northwestern Minnesota and North Dakota made the trip in almost perfect weather. Fish fries on Black Bird Island with all the trimmings were a welcome break in the trip.

At Kenora the boat was met at the dock by the Kenora Band which also met all trains that day bringing Odd Fellows from Minnesota, North Dakota and Upper Michigan as well as those from other Canadian Lodges. The grand masters of Manitoba and Ontario were the honored guests at this International Past Grands Night which is an annual event of Gold Hill Lodge. Two parades and a banquet were high lights of the day.

Those making the trip from Thief River Falls were Morris Odegaard, Alfred Longren, Arno Steinhauer, James Burrell, Andrew Grendahl, Rene Werner and C. Herb Jung.

City Has Paid Two-Thirds of Cost of Rebuilding Dam without Use of Bonds

With the contract price for the rebuilding of the power dam in this city fixed at approximately $121,000, a total of $82,000 or two-thirds of the total cost, already has been paid out of current funds without resort to the $60,000 bond issue authorized by voters at a special election, City Clerk P. Many deer also are reported to have been victims of the blaze.

4-H Club Leaders to Hold Member Drive; Plans in Progress

Pennington county 4-H club leaders met Tuesday evening, September 17 in the Civic and Commerce rooms in Thief River Falls to plan this fall's special membership drive which will be climaxed with 4-H Enrollment Week, October 28-November 2. These leaders will lead the drive to enlist new membership and to re-enlist all members who took part during 1946.

"The success of the nation's greatest rural youth movement, 4-H club work, would not be possible without the outstanding work of junior and senior club leaders," says P. E. Miller, director of the Agricultural Extension Service, University of Minnesota.

Pennington county's 50 adult and junior leaders have done an exceptionally good job in furthering 4-H club work, Miller says. These leaders have given their time and effort generously to insure the success of Pennington county's 17 clubs during the past year.

By serving as 4-H club leaders, these men and women and older club members are helping to improve their own community as well as make better citizens of farm boys and girls. As club leaders they not only help members with their project work, meetings and programs but also take part with their project work, meetings and programs but also take part with club members in community work.

The leaders who have contributed to 4-H success in Pennington county include:

Adult—John Steiger and Mrs. Geo. Swanson, Bray; Clifford Haugen, Arvid Carlson, and Mrs. Ing Gullickson, Carlson; Mrs. Emil Lundeen and Fred Lundeen, Deer Park; Mrs. Peter Reiness, Highlanding; Mrs. Eleanor Meyers, Holt; Mrs. Ed Magnan, Kratka; Mrs. Emil Sanders and Mrs. Charles Svendsgard, Mavie; Mrs. O. A. Myrum, Rapid; Edwin Olson, Northfield; Mr and Mrs. Gordon Hunt, North Star; Ed Berg, Mrs. Art Waller, and Mrs. Lewis Carpenter, Numedal.

ANNUAL RAM SALE AND EXCHANGE DAY SET FOR OCT. 2D

To Give Local Sheep Raisers Opportunity to Secure Good Sires

Pennington county will hold a special ram sale and exchange day at the Fairgrounds at Thief River Falls on Wednesday, October 2, County Agent Ernest Palmer announced today. The sale is one of 45 scheduled for Minnesota this fall.

The sale will give local flock owners and 4-H club members an excellent opportunity to obtain good sires for their flocks, says Mr. Palmer. The event is being planned to meet the needs of any Pennington county sheep raiser who wishes to buy sell or trade purebred rams.

The sale will not be an auction, Mr. Palmer says. Every breeder will offer his own rams for sale or trade privately. Aid will be given to both buyers and sellers by the extension office, however. The sale is definitely not restricted to large flock owners with everyone, even with only one ram, invited to bring in their stock.

Emphasizing the value of a good sire in producing heavier, thicker market lambs, W. E. Morris, extension animal husbandman at University Farm, says that the Pennington County ram sale and exchange day will give sheep owners a chance to select from a large group of bucks without traveling long distances.

LIONS CLUB PLANS HALLOWEEN FETE

Ernest Johnson Will Handle Arrangements

Stainless Steel Pans

Stainless steel is more durable than aluminum of the same weight and thickness. It does not darken in cooking alkaline foods in aluminum does, but, once darkened by overheating or scorching, it can not be brightened as aluminum can. Aluminum has the advantage of spreading heat more evently, so cooks more evenly with less chance of scorching.

Weather Forecasters Now Using Radar Equipment

Radar and radio direction finding are being put to new civilian uses for weather studies. The detection of certain kinds of storms by radar was begun early in World War II when radar technicians noticed "ghost echoes," later recognized as thunderstorms.

The location, extent, intensity, speed and direction of thunderstorms can now be detected by radar within a 100-mile radius, reports David Brunt, professor of Meteorology at the Imperial College of Science and Technology, London. A violent hurricane on September 1, 1945, came so close to a radar station that new information about the nature of the hurricane was obtained, including the general shape and the variations in rain intensity within the storm.

Radar and radio direction finding have increased the range of pilot-balloon weather observation, making it possible to follow balloons or radiosondes—robot weather observers—through all types of weather. Formerly such observations were restricted to clear skies or to the atmospheric layer beneath the clouds.

Oyster Stew

LAKE OF WOODS BIBLE CAMP ASSN. PLANS FOR 1947

Elects Officers and Plans for Two Camps to be Held Next Year

The Lake of the Woods Luther League Bible Camp association met Tuesday, Sept. 10th at the Bible Camp grounds, Baudette. Annual reports were made by the manager, treasurer, and secretary.

The association discussed future building and expansion plans, and decided to sponsor two weeks of camp in 1947. The territory served by this camp includes the more than 75 congregations in the Crookston and Thief River Falls circuits of the Evangelical Lutheran Church.

The board of trustees elected for the coming years are: Rev. T. C. Hanson, Roseau, Rev. L. M. Larsen, Stephen; Martin Brastad, Roseau; Rev. F. E. Ekeland, Warren; Rev. J. Kvonkoken, Gatzke; Rev. E. O. Urness, Holt; Rev. E. E. Estrum, Baudette; T. Bergen, Baudette; Rev. J. Korshavn, Middle River; Rev. G. S. Thompson, Thief River Falls, Rev. Carl Thompson, Viking, and Rev. H. B. Mathison, Greenbush.

The board, elected the following officers: Rev. L. M. Larsen, president; Rev. J. Kvonkoken, vice president; Rev. T. C. Hanson, treasurer; and Rev. F. E. Ekeland, secretary.

The weeks of June 16-22 and June 23-29 were selected for the 1947 camps. The camp dean together with Rev. J. A. Korshavn and Rev. J. Runestad were selected to arrange for the 1947 camp program.

Regulations Announced for Dental Treatment of World War II Veterans

Veterans are urged to make application for out-patient dental treatment in time to allow the veterans Administration to process the claim and authorize examination and treatment before one year after discharge, Paul Gray, VA representative here, said today. The Veterans Administration will pay for the examination and treatment when prior authorization is procurred.

The regulations covering service connection of dental conditions within one year from date of discharge provide that the actual examination must be made before the expiration of the year. It is suggested that where there is near approach to the end of the year, the veteran have his own dentist make the examination and submit a sworn statement covering the results which then can be submitted together with an application for treatment for the dental condition. If the veteran has any question regarding eligibility or the lapse of time he is requested to contact the Veterans Administration, 114 La-Bree Ave. N. in person or by telephone.

Crookston Attorney Is Rotary Speaker Tuesday; Talks on Constitution

J. H. Sylvester, Crookston attorney, who was the guest speaker at the Rotary club luncheon Tuesday noon in the Evelyn hotel, delivered an outstanding address in connection with current observance of Constitution Week. He called attention to the system of checks and balances in the U. S. government provided by the federal constitution, and stressed the importance of the Bill of Rights. He also contrasted the democratic government in this country with the totalitarian regime under Hitler and other dictators.

Ripening Cantaloupes

Cantaloupes will not tolerate frost and develop best at high temperatures. Low relative humidity of the air has been reported to favor thick netting and solid flesh. Plenty of sunshine is required for good flavor and high sugar content. For any variety, late ripening is associated with low temperatures and early ripening with high temperatures. Records show that a daily accumulation of 2500 degrees above 50 degrees Fahrenheit is necessary for ripening. This usually occurs in the spring from May 20 to June 10.

Keeping Bananas

Keep bananas at room temperature — about 70 degrees — never in the refrigerator or other cold place.

GIRL SCOUT NOTES

The Girl Scout Council met at the public library on Monday, Sept. 23, at 8 o'clock. Reports on summer activities, day camp and Scout camp were made. The consensus of opinion was that both had worked out satisfactorily and to the enjoyment of the scouts. The council wishes to express thanks to all who helped to make them a success. Plans for this year were discussed.

Girl Scouting, the common ground of understanding to all girls regardless of nationality, race or creed, now serves over a million girls. With sponsorship and more volunteer leaders it could serve a million more. Again we are sending forth a call for more leaders. Anyone interested in Girl Scout work please call Mrs. V. D. Berry, organization chairman, Tel. 640.

There will be a pot-luck supper on Monday, Sept. 23, at the Tourist park, at five o'clock. The council is sponsoring this supper and wishes to extend an invitation to all leaders. Please bring your own dishes and silver.

Young Men Are Still Required to Register on Reaching Age of 18

The selective training and service act still requires young men 18 years of age to register on their 18th birthday, even though they are not liable for training and service and will only reach the age of 19, Colonel J. E. Nelson announced today to clear up considerable misunderstanding which has arisen as a result of the action of Congress in exempting young men 18 years of age from liability for training and service in the land or naval forces of the United States when it extended the selective service act of 1940 until March 31, 1947.

Brain Interprets Images That the Eyes Receive

From the standpoint of psychology there are two kinds of seeing, points out the Better Vision Institute. First is the physical reception of light by the eye, the focusing of the light rays on the retina and the messages telegraphed to the brain. This part of seeing usually is called "visual sensation." These sensations, however, need interpretation by the brain.

Visual relationships, as the size of objects or the speed of moving vehicles, largely are determined by the brain, guided by memories of past visual experiences. For example, if one person is near and another person a distance away, the visual image of one may be double the size of the other. But the brain, having learned through experience to make necessary judgments, "sees" both persons at about the same size. This interpretation of the facts provided by the eyes is called "visual perception."

For a person to possess good visual perception, obviously there must be a well-functioning eye to pass along to the brain undistorted visual sensations, continues the Institute. If the messages arising from light rays are garbled through faulty reception, the brain will be unable to make accurate judgments.

SOCIAL SECURITY LAW CHANGES ARE CITED BY LYNSKEY

Amendments Effective October 1 to Affect Recipients but Little

Revisions of the federal social security law which take effect October 1 will have little effect on Minnesota recipients of old age assistance or other forms of public aid, it was announced this week by the Pennington county welfare board.

In old age assistance and aid to the blind, said John X. Lynskey, secretary, participation is now available up to a maximum of $45 as compared with the previous $40. This will not automatically increase the grants of those now receiving old age assistance, and the law will still be administered in Minnesota on a need basis. Actually, in view of the present law the major effect of the federal legislation is nothing more than that of changing the proportion of participation among the federal, state, and local jurisdictions.

Under aid to dependent children the results of the new legislation are also the same. There is no increases in the state maximums for either aid to dependent children or old age assistance, and these are the factors which will still govern in any event.

IN THE BUCKS

"What's a plutocrat?"

"A guy who can get his hair cut the day before payday."

Suffocating

Three opulent ladies were lunching at the Waldorf. Each was outtalking the other.

"My husband bought me a diamond bracelet," said the first, "but when I wore it my skin broke out, and the doctor said I was allergic to diamonds. I had to take it back."

"My dear," cried the second, "I had the very same experience with my mink coat! I'm allergic to furs."

The third fainted. They fanned her and she murmured, "I'm allergic to hot air."

No Lettuce-Lover

The little woman had been converted to vegetarianism, and was forcing the family to subsist on leafy rabbit's food.

"Come, darlings," she said, "supper's ready."

Father lifted hungry eyes from his paper, and in a wan voice called out to his offspring. "Hurry, children, supper's wilting."

Looks Aren't Everything

The doctor came out of the bedroom to the anxious husband. "Frankly," he began, "I don't like the way your wife looks at all."

"Well, Doc," replied her husband, "I don't care much for her looks myself. But she always took good care of the kids and me, so I figure it's worth it."

Rites Held at Gatzke for Mrs. Theo. Johnson Thursday, Sept. 12th

Funeral services were conducted for Mrs. Theodore Johnson of Gatzke Thursday, September 12, at Lutheran congregation at Gatzke. Interment was also in Landstad cemetery, Pastor J. Kronlokken officiating.

Olive Torgerson (Mrs. Johnson) was born in Norway March 31, 1876, to the family of Sivert and Torgerson. With her parents, she came to America at the age of seventeen and she settled in Hillsboro, North Dakota.

While living there she was united in marriage in 1898 to Theodore Johnson. After residing there for some years, they came to the Gatzke community to establish a new home in 1905. In her earlier years she was active in the church and Ladies Aid.

Mrs. Johnson had been failing in health and after being confined in bed at her home for some time, she departed to her rest on Thursday, September 5. At the time of her death she was 70 years old.

Besides her husband Theodore, she leaves to mourn her passing four daughters: Mrs. Myrtle Naeseth of Gatzke; Mrs. Herman Lian of Minneapolis; Mrs. Arthur Bonde of Detroit, Michigan; and Mrs. Eldon Stangfield also of Detroit; and three sons; Arnold, Agnar, and Arthur, all of Gatzke. Also one brother John of Hillsboro, together with 13 grandchildren and 2 great-grand-children. Her parents two sisters and three brothers preceded her in death.

Youthful Criminals

Of recent murderers, 18 per cent are youngsters under 21; 30 per cent of the arsonists, 39 per cent of the robbers, 55 per cent of the burglars, and 65 per cent of the car thieves are youngsters under 21.

TENSENESS IN TRIESTE . . . The politically tense situation in Trieste, bone of contention between Italians and Yugoslavs, snapped when a hand grenade explosion put a period to pro-Italy demonstration protesting international administration of the disputed zone. Ten persons were wounded in the explosion. The photograph was snapped at the height of the turmoil, as a policeman tried to subdue one of the demonstrators.

REPUBLICAN STATE CONVENTION HELD IN MINNEAPOLIS

the present national administration "to eliminate the confusion created by the inconsistent pronouncement of its multiple spokesmen and to execute the policy declared by congress with constant clarity, firmness and determination."

With the band playing "Minnesota Hail to Thee" and delegates about the hall in traditional style, the convention adopted a resolution declaring for Harold E. Stassen, former governor, for president in 1948.

The cheering lasted about five minutes and delegates marched about the hall carrying the standards of their respective counties.

Bernard Levander of St. Paul, 30 year-old navy veteran, Saturday night was elected chairman of the Republican state central committee to succeed George Jones of Minneapolis, who resigned.

Mrs. Paul Hitchcock of Hibbing was named vice chairman to succeed Miss Marjorie Thompson of Baker. Other party officers re-elected are Ancher Nelson of Hutchinson, vice chairman; Mrs. Rice Spencer of Winona, vice chairwoman; Mrs. R. C. Andrews of Lindstrom, secretary; and E. C. Duncanson of Spring Valley, treasurer.

Levander, a graduate of Watertown, Minn., high school, Gustavus Adolphus college and the University of Minnesota law school, practiced law in Center City and St. Paul and served as speech instructor at Macalester college before being named state director of social welfare in 1943.

The same year he resigned to join the navy. He served 27 months in the amphibious forces, taking part in nine Pacific landings and winning three battle stars.

Attend High School

Only 3½ per cent of the children of normal high school age were actually attending high school in the United States in 1890, according to the Encyclopaedia Britannica. By 1920, 24 per cent were going to high school, and the percentage is now much larger.

Protects Gladiolus Bulbs

DDT protects stored gladiolus bulbs from injury by the insect, gladiolus thrips. The bulbs are coated with a dust containing slightly more than 1 per cent DDT.

JAYCEES SPONSOR MIDGET BASEBALL

Team for Each Grade School Planned in '47

The Junior Chamber of Commerce, at a meeting last Thursday evening in the Palm Garden Cafe, voted to sponsor midget baseball in the city grade schools next season, and Arthur Christianson, president, appointed Jim Welton chairman of a committee to make the necessary arrangements with local school officials[illegible].

Plans as outlined call for each school to be represented by a team, with the Jaycees supplying uniforms and the necessary equipment.

Gay Haugen, chairman of the Jaycee committee cooperating in the sponsorship of the youth canteen in the Northern Chevrolet garage building, announced that the canteen will resume operations shortly following the summer recess.

Without a Flag

Soldiers who fought in the American revolution did not fight under the stars and stripes. There was no official authorization for the national flag of the United States until 1779, so a miscellaneous assortment of flags issued by different states or donated by individuals were carried during the Revolutionary war.

Biscuit Raising

Leave a space of two-thirds of an inch apart between yeast buns, baking powder or soda biscuits, and cinnamon rolls when placing them in pans. This gives them room for expansion during raising and baking.

Looking Backward

1916—THIRTY YEARS AGO

Thief Lake soon will be drained as the result of the recent completion of dredging operations.—On September 1 the Physicians hospital completed a busy first year.—A market day and free community auction is being sponsored for Saturday by the Commercial club.—Mrs. F. H. Gambell was reelected president of the library board, with Mrs. Emil Zeh as vice president and H. C. Rowberg as secretary.—C. W. Vorachek left on a trip to Poplar, Montana.

1926—TWENTY YEARS AGO

Lars Furan took over the management of the Oghmah hotel, the city's oldest hostelry, succeeding George Latmers, who left for Little Falls.—Lincoln high school closed its first week with an enrollment of 405.—E. O. Mogenson left for California.—Rev. E. H. Lorenz will be installed this week-end as pastor of the Presbyterian church.—Mrs. T. Reep succeeded Mrs. H. A. Pratt as president of the Womans club.—Daniel. Shaw returned from the twin cities after attending the Minnesota state fair.

1936—TEN YEARS AGO

Residents of the River Valley comunity staged a successful festival on Labor Day. Paul A. Lundgren presided over the speaking program.—Leaf Sahl, winner of the Pennington county horseshoe pitching championship at the county fair here, went to St. Paul to participate in the contest at the state fair.—Marjorie Matheson, member of the Rockabury 4-H club, won top honors at the state fair with her meal planning and food preparation demonstration.—The city council purchased the winter's requirements of stoker coal for municipal buildings at $7.45 per ton.—E. M. Bennes resigned as a member of the local board of education after twelve years of service, and he was succeeded by Dr. A. E. Jacobson.

Removing Perspiration Stains

Summer garments are often hung away because on warm days they become perspiration stained, and their owners don't know what to do about it. By following these simple rules, the specialists say you should have no trouble.

Body perspiration is usually acid. Dampen the spot with water and hold it over the fumes from an ammonia bottle for a few minutes. For cotton, linen and other materials that do not water spot, dilute ammonia with water to half strength, and apply a few drops directly to the stain. Then rinse thoroughly. Since ammonia affects some dyes, have white vinegar handy to stop the action of the alkali if the fabric begins to change color.

Perspiration stains that have been allowed to remain on the garments for several days may become alkaline. If the old stain refuses to respond to the ammonia water, reverse the process, and use a mild vinegar. An old stain is much more difficult to remove than a new one, but sponging lightly with vinegar will sometimes restore the color.

Myopia Prevalent in U. S.

Recent studies indicate that approximately 4 per cent of the children in the nation's lower elementary grades have myopia (nearsightedness), reports the Better Vision Institute. The shortcoming becomes more prevalent in the upper elementary school grades and in high school. It is estimated by some authorities that more than one-third of all students in U. S. colleges are myopic. Extensive reading and other close-focusing visual tasks, it is believed, tend to hasten the development of near-sightedness among the nation's school children.

Chemical Prevents Fading

It is gas fumes normally in the air that sometimes mysteriously fade the city girl's bright summer dress, but small quantities of a new chemical will help put an end to that.

The chemical is added at the mill when the fabric is being dyed. It makes possible faster colors on acetate rayon fabrics widely used for women's apparel. Small amounts of the chemical in the gas fumes fix certain colors which tend to fade when exposed to the normal atmospheric gas fumes.

Transparent Membrane

Snakes have a protective storm window over their eyes—a transparent membrane which saves the organ from scratches and injuries.

Seed Production

Six major seed crops — alfalfa, red, alsike and sweet clover, lespedeza and timothy—made a record yield of 48 million pounds from 4.9 million acres in 1945. Only 420 million pounds were raised in 1944.

Accents Sugar

Sweetness is accented by the use of salt, which should be included in candies, cakes, ice cream, cooked fruits, fruit juice. It saves sugar, too.

Pit-Storage

Pit-type storage is suitable for all root crops, potatoes, cabbage and fall head lettuce.

Keeping Rags

Don't discard children's holey socks after being washed since they make fine soft little rags for odd jobs such as polishing silver, sudsy paint spots, or doing especially dirty jobs.

A recent break in the stock market has caused some concern as to whether or not it would be followed by such a nationwide crash as that which came with the stock market break of 1929. Most observers agree that that will not be the case in this instance. The reaction is interesting in that it does indicate the jittery condition of our financial structure. Everybody seems to be agreed that there is a serious explosion ahead of us. Nobody knows just when and how it is going to happen. The fact that we expect it may make it easier for us to adjust ourselves to our disillusionment when it does happen.

There still is a serious shortage of merchandise but that shortage generally is due as much to record breaking buying as it is to underproduction. Retail sales are at an all-time high level thruout the country. Production is beginning to catch up to demand in some lines however so there is hope for those who are looking forward to the end of the seller's market that has been with us through the war years.

Developments of atomic power for peacetime purposes will not be possible presumably until satisfactory arrangements for the control of such development is agreed upon by the United Nations Atomic Energy Commission, but a recent report to this Commission indicates that such development will come rapidly once the "go" sign is flashed. It is estimated that even in the early stages electrical energy can be produced in a coal plant. That could revolutionize a cost of .65c per kwh for energy produced in a coal plant. That could revolutionize a lot of things. For instance it could bring a steel industry to Minnesota which has ore deposits but no fuel with which to process them.

Relief from a long period of drouth came yesterday and no doubt the rain was very welcome to those who have been threatened by brush and forest fires, which already have done considerable damage. Now that it isn't dry any longer we can start worrying about it getting too wet.

Henry Wallace tells us we should love Russia and have faith that Joe Stalin will do right by the world if we just don't antagonize him. We have no objection to the love for Russia idea but it will take more than Henry's word for it to make us believe that Joe Stalin's government isn't ambitious to dominate Europe and Asia—and the rest of the world. The policy of appeasement that Wallace proposes is reminiscent of the world politics of the Chamberlain era when it was hoped that Hitler would be satisfied with a few concessions. We know now that the concessions that were made to Hirohito and Mussolini and Hitler not only did not satisfy them but actually whetted their appetite for more. There is no reason to believe that the interests of peace will be advanced in the world by backing away from trouble. What we do need is a strong international organization through which international disputes can be adjusted fairly and fearlessly. There is no other hope for a peace that is founded on freedom. Upon our country falls the responsibility for the success or failure of such an organization. Now, more than ever before, we need to be guided by an enlightened and courageous statesmanship. If we have learned anything by the tragic lessons of recent years we must know now that Henry Wallace does not point the way to world peace.

We can see no hope for any really satisfactory relationship with Russia until that great nation opens its doors to the world and itself emerges from behind its so-called wall of iron. Possibly we are wrong in many of the conceptions we have of the Soviet Union. Certainly the people of Russia can have no correct understanding of us until they are permitted to travel freely among us and see us as we are. It is not the fault of our country that this freedom does not exist. Our people and our government would welcome an exchange of students in large numbers and would encourage freedom of travel by citizens of both nations. But the government of Russia does not feel this way. They do not permit us to visit them and they do not permit their own people to visit us. Russian government therefore must assume most of the responsibility for whatever misunderstanding there is between us.

Topics of the Times

A fellow can't help wondering how the Indians managed to run this country without levying taxes.

The third atomic bomb test, we read, has been called off. It has been pretty definitely demonstrated that the thing is destructive.

A western paper publishes reports of births, marriages and deaths under the heading, "Hatched, Matched, Dispatched."

Conditions must be improving. At least, nylon hose shortages are no longer front page news.

Bemidji folks must have been in a terrible plight recently when employes of the three municipal liquor stores went out on strike. In its settlement, incidentally, Dr. Crawford Grays, formerly of this city, served as arbitrator.

When the boss told his stenographer her punctuation was terrible, she retorted that she never yet had been late for work.

The U. S. Secretary of state announces that this country will continue to extend aid to Yugoslavia. That seems to be a case of feeding the hand that's biting you, or something like that.

With the schools again in session, mother knows where her youngsters are part of the time, at least.

In those flush times, a lot of people take more than passing interest in the stock market slump.

If you don't believe Christmas is approaching, you now can find Christmas cards and tree decorations on sale in a local store.

Remember way back when the purchase of Alaska from Russia by the United States was referred to as Seward's Folly. But in today's atomic age, and in view of the tense relations between this country and Russia, folks have a different opinion.

And it's soon time to check up on the stormwindows.

Card of Thanks

I wish to thank my friends and neighbors who came to my aid during the fire which threatened my property. Without your assistance I am sure everything would have been lost. — Eddie Bollie, Gatzke. 39p

In Memoriam

In memory of Mrs. Oscar Quam who passed away the 17th day of Sept. 1942.
Four long years have passed since that sad day when you were called away, you could not say goodby.
You will always be remembered by your husband Oscar Quam, and sons Dean and Raymond. 38p

Card of Thanks

We wish to express our hearty appreciation and thanks to the members of the United Lutheran Ladies Aid of Gatzke and to our many friends who so generously gave in the sum of money given Baby and me. May God richly bless you all for your kindness. —Mrs. John Olufson and baby. 38p

Card of Thanks

Before leaving for our new home we wish to extend our thanks to all our friends and neighbors who contributed so generously to our farewell gift. Our long years of friendship and neighborly association will always keep our Grygla friends close in our thought.—John Haugen, Ella and Ragna. 38c

Card of Thanks

We wish to express our heartfelt thanks to all our friends, neighbors and relatives for the many kindnesses shown us during our recent bereavement. And for the memorial wreaths and gifts. We especially want to thank Rev. Thompson for his song and words of comfort, and Mrs. Albin Langerud for her song. We also want to thank the ladies who helped serve lunch. May God bless you all.—Mrs. Martin R. Nelson and family. 38p

Card of Thanks

We wish to take this means of expressing our sincere thanks and appreciation to all our friends and relatives for their kindness and sympathy during the illness and death of our beloved daughter and sister. Special thanks to Rev. Lie for his comforting words and Grace Dahlen for songs and music, and to the pallbearers; also so those who gave memorial gifts and lovely flowers. May God bless you all.—Mr. and Mrs. Victor Mostrom and Vernon. 38p

In Memoriam

In memory of my loving husband Vernon E. Mosbeck, who was killed in Italy, Sept. 17, 1941.

MY STAR OF HOPE

I looked from out my window,
And in the sky afar,
A tiny ship at anchor,
There shone a Golden Star.
'Tis a lamp set in his window,
A light unto my feet,
Both he and I are waiting,
Until we two shall meet.
My "Star of Hope" so precious,
I call this Golden Star.
It shineth in my sorrow,
My loved one, lost in war.
—Mrs. Beatrice Mosbeck. 38c

Prowlers Win First Tilt of Year; Meet Warroad Saturday

After having once canceled the game, Warroad high school authorities Wednesday afternoon notified Principal W. G. Claffy that their team will definitely appear here Saturday evening, September 21, for a game with the Lincoln school Prowler clevens.

The Lincoln school Prowlers opened their 1946 football schedule Friday night by scoring a 32 to 18 win over the purple-clad St. James Academy eleven on the Lincoln field.

Coach Lindenmeyer's charges have an open date Saturday and then will prepare their opening conference tussle against the Grand Forks Maroonshere on Sept. 27th.

Friday night's high scoring game found the Prowlers receiving the opening kickoff and defending the west goal. Bob Buckley, the St. James captain, booted the ball out of bounds on the locals' 31-yard line. Bob Larson went over left guard for 6 yards, and Swede Lund spun through right tackle for a first down on the 41. St. James, on the next play, was penalized 15 yards for defensive holding, moving the ball to the Jimmies' 46-yard line, and on the next play Vigness circled left and for a touchdown. Les out-sprinted four of the defensive players in making his run. Don Engelstad's drop-kick for the extra point was wide.

St. James came back with a touchdown to tie the score, traveling the kickoff on their own 36-yard line and, utilizing a wide-sweeping reverses to pile up yardage, carried the ball to the Prowler's 6-yard line Everett Wilsons's fifty yard dash around left end being the high light of Jimmies march. Bob Buckley moved out around right for the touchdown.

A pass, Vigness to Don Engelstad, completed on the St. James 40-yard line, sparked the Prowlers second touchdown drive. Marlow Davidson and Al Williamson, in the Prowler backfield, picked up yardage to give the locals a first down on the 27, and Vigness drove for another first down on the 18. A pass, Williamson to Engelstad, was good for the score. St. James receiving the kickoff, began another drive which, in the opening minutes of the second period, quarterback Wilson on a sneak into the line going over for a touchdown, again tying the tally at 12-all.

The Prowlers again forged into the lead mid-way in the period when Les Vigness capped a drive that started on the locals' 40-yard line, by smashing over left tackle for a 4 yard gain and a score. St. James was threatening to again knot the score, having the ball on the Prowlers' 8-yard line as the half ended.

A blocked St. James punt, with Joe Bradley piling in to stop Marty Haley's boot, gave the Prowlers the ball on Jimmies' 30-yard line. Vigness slipped off left end to the St. James 8-yard line and, after Marlow Davidson picked up a yard Viggy hit left tackle for 3 yards, and the followed with another smash at that spot for a score. A pass, Davidson to Don Engelstad, added the conversion point.

George Paulson intercepted a St. James pass on the Prowlers' 40-yard line, setting up the locals final tally. Marlow Davidson and Vigness alternated in carrying the ball, with Viggy contributing the last end run, giving the locals the ball on the Jimmies' 4-yard line, and Swede Lund, on a spinner, went over left tackle for the score. Vigness drove over right tackle for the point. St. James, with the game's most sensational play, scored the final points of the game on the next kickoff. Montgomery received the ball on the St. James 30-yard line and as he swept to the left he handed the ball to Wilson, and the stocky quarterback sprinted down the north side-line, and crossed the west goal standing up for a touchdown on a seventy-yard run.

For the locals, Les Vigness was the outstanding performer, but Al Williamson, Marlow Davidson, and Bob Larson, gave him support in the backfield; and in the line, George Paulson, Dick Davidson, Rob Amundson, Ralph Engelstad, and Don Engelstad gave promise of developing into first-rate forwards.

The summary:

Thief River Falls (32)		St. James Academy (18)
Amundson	le	Hart
Welch	lt	Miller
R. Engelstad	lg	Herick

TOMMY JORDE IS SHORTSTOP CHAMP IN FIELD OF 104

Classy Field Competes in Event Last Sunday on Local Golf Course

One hundred and four golfers, led by, the Red River Valley and Pine-to-Palm champion, Jimmy Nordine, the North Central Amateur champion, Allan Boes, and the Birchmont International titleholder, Phil Olson, participated in the second annual Fall shortstop golf tournament played here Sunday. And the championship finals found two of the local entrants, Tommy Jorde and Vic Jung, engaged in a nip-and-tuck duel before Jorde, with wins on No. 7 and No. 8, won the match, and the fifty dollar bond, by a 2-up margin.

Sixteen golfers teed off in the championship flight, and the upset of the first round, and the tournament, was recorded by young Keith Jorde, who eliminated the favorite, Jimmy Nordine, by a 2-up score. Nordine bumped into slicing trouble on No. 2 and No. 3, having two balls out of bounds on No. 2 and three balls out of bounds on No. 3, to go two-down to young Jorde. Nordine picked up a hole on No. 4, but Keith's birdie four on No. 5 gave the youngster a two-up lead. The 6th was halved, and on the 7th, Jim's putt for win rimmed the cup. The match was closed out on the 8th.

In the quarter-finals, Tom Jorde edged out his younger brother, Keith, winning on the 10th hole with a birdie 4. Allan Boes, the Winnipeg golfer, defeated Dick Schaeffer in his first round match, eliminated Grand Forks' Herman Ollen in a second round encounter, but was then taken out of the running by the local club champion, Vic Jung, who scored a 1-up win.

The Jung vs. Boes match was all even going off the 9th tee, with Jung having won No. 2 with four when Boes had an out-of-bounds tee shot, and Boes had evened the match with a birdie four on No. 5, but Boes' tee shot hooked and found the pond to the left, and his second shot was off the right of the green. Jung won the hole with a par 4, and ended the match with a par 3 on the 9th.

Tom Jorde, playing his best golf, scored a 3-up win over Grand Forks' Phil Olson in the other semi-finals match, being one under par for the seven holes played. Tom won the 2nd, 3rd, and 6th holes, having a 4 on No. 2, a 5 on No. 3 and a 3 on No. 6.

The championship finals, between Tom Jorda and Vic Jung, was a ding-dong duel until the 7th and 8th holes, which were both won by Jorde. Tom was even par, with a 33, for the eight holes, while Jung had a medal score of 35. And oddity of the match was that not one of the eight holes played was halved, for Tom won No. 1, Vic took No. 2, Jorde had a birdie 4 on No. 3, Jung parred No.4 for a win, Tom had a birdie 4 on No. 5 for a win, Jung scored a 3 in No. 6, evening the match. But Jorde won No. 7 with a bogey 5, and then scored a par 4 for another win and the match on No. 8. If a hole could decide the match, the long dog-leg No. 5 was that hole, for Tom scored a birdie four for a win. Tom dubbed his drive, being just over the hill, while Jung's long drive was on No. 3 fairway. Tom made what he claims his longest shot when he rifled his ball to just off the No. 2 green. Vic was on the green with a fine iron second shot. Jorde chipped to within four feet of the pin, and Jung, trying to lay his putt up the pin, overcarried the cup by six feet. Jorde canned his try for the birdie, while Vic's putt stopped short of the pin.

The cards:

Par	545	353	44—33
Tom Jorde	444	444	54—33
Vic Jung	535	353	65—35

Bill Gray to Denver

Senior hockey this winter won't be the same, now that Bill Gray has moved to Denver and is establishing his home there. Bill, who left here on Monday, was the prime factor in re-organizing senior hockey here last year, and it was largely through his efforts and perseverance that the States-Dominion hockey league, now called the Northwest Amateur hockey league, was revived and is ready to go.

Bill, a Marine who saw service in Guadalcanal in the war, played hockey while troubled by ailments that would put an ordinary person in bed. He was subject to malaria attacks; he was plagued by chronic asthma, and that's one reason why he moved to Denver and its lighter air; and he was so allergic to woolen goods that his hockey jersey would cause a skin irritation that was a misery. Yet in spite of all these troubles, Bill would go out on the ice and play a bang-up game of hockey, taking and giving the bumps with a smile. And when the game would be over, Bill would get busy and arrange other games, secure equipment, and complete many of the small details in conjunction with a hockey club.

Getting to Be a Habit.

Young Keith Jorde is apparently enjoying his role of "giant killer", for after upsetting defending champion Dr. Homer Hedemark in the club tournament a couple of weeks ago, Keith climaxed his "David" role on Sunday by eliminating the Northwest golfing "Goliath", Jim Nordine, 2-up. And Keith came very close to taking his older brother Tommy, who won the tournament, out of circulation, too, for Tom had to shoot a birdie 4 on the 10th hole to beat Keith.

In fairness to Jimmy, though, it must be stated that he played below his usual standard, particularly on the 2nd and 3rd holes. Jim had two balls out of bounds on No. 2, and drove three balls out of bounds on No. 5, running into a terrific fit of slicing. And in playing a sharpshooter like Keith, you can't afford to give the kid a couple of holes, especially in a nine-hole match, without realizing that, all of a sudden, you have run out of holes and the match.

Sunday was a bad day for the tournament favorites for in addition to Nordine, Allan Boes, the Winipeg golfer and former Manitoba open champion, and Phil Olson, the Birchmont winner for the past three years, were defeated. Boes lost to Vic Jung in a semi-finals match; while the sloppy Olson, also in the semi-finals, dropped his match to Tom Jorde.

Good Offense, Weak Defense

As was expected, any team that has Les Vigness in the backfield will have a good offense, the Prowlers revealed themselves as being more powerful on offense than on defense in their opening game with Father Hylden's St. James eleven on Friday night. Les, the blond bomber, scored three touchdowns, one on a forty-yard sprint around left end, and the other two on hard drives into the line off left tackle.

There wasn't a punt or a holding for downs in the first half of the game, with the team that received the ball being able to march for a score; but in the second half the Prowlers began to stiffen their defensive play, and gave indications that the young local line will develop into a fair defensive unit.

The All City Softball Team.

Now that the softball season is officially closed, it's perhaps safe and proper to name an all-city team. Based on their play, and on the records, the boys would line up like this first base, Roy Lee of the Bridgeman's; outfielders, Woody Almquist of the Gen's, Louie Benson of the Vets, Wally DuChamp of the Poppler's, and Connie Swanson of the Gen's; catchers, Merle Carlson of the Poppler's and Arlo Jacobson of the Gen's; and the pitchers, Milt Reierson of the Gen's and Kordy Kaushagen of the Hartz.

And there were several boys such as catcher Irv Wilson, first baseman Lloyd Mortrud, outfielder Lloyd Johnson, all of Bjorkman's, first baseman Wally Tunberg of Bridgemans, outfielder Alton Johnson of the Hartz, third baseman Berdeen Nornes, catcher Bob DuChamp, and outfielder Hemmy Sahl of the Vets, that could be shifted into the first string lineup without weakening the fielding ability or batting punch.

Raymond Anderson left on Saturday for Moorhead to resume his studies at M. S. T. C. after a short vacation spent with his parents, Mr. and Mrs. E. J. Anderson.

Newfolden had a fleet of trucks busy graveling the side streets last week. This is a much needed improvement for which residents are thankful. Now just a few decent sidewalks.

Another improvement accomplished last week was the opening of the streets north, east and west of the locker plant. Carl Hanson with his tractor, break and disc *broke the ground and partly shaped* the grade. Carl Pilgren with his grader finished the shaping of the blocks east of the locker plant and it has now been graveled. As soon as the other 3 blocks are finished it will be a big improvement to our town, both as a street and as a protection from grass fires from the north.

Mrs. Louis Larson of Underwood, Miss Julia Swanson, of Fargo, Mr. and Mrs. Clarence Larson of Battle Lake and M. and Mrs. Irwin Tvedt were entertained at dinner Sunday evening at the Peter Tvedt home.

Local People in Auto Accident

An auto accident in which five local people luckily escaped serious injury happened shortly after noon on Wednesday of last week. Carman Ekman driving his Buick coupe and accompanied by Arleue Benson, Minerva Shern, Floyd Bakke and Verne Green had made a hurried trip to town to get repairs for the potato digger and were on their way back to the Verne Green farm, west of town. Luckily the ditch was not deep and the heavy car did not tip over. Donald Lokken happened along and the injured were taken to town, where Mrs. Clarice Sherva, registered nurse administered first aid. From here they were taken to a Thief River Falls hospital where it was found that Miss Shern had a sprained ankle, Mr. Green a cut on his arm, Mr. Bakke and Mr. Ekman minor bruises and Miss Benson and ugly cut and bruise on the head. All were released after treatment except Miss Benson, who remained at the hospital for treatment an observation until the next day. The car is quite badly damaged in the front end and chassis, but the body is practically undamaged.

Toad Skins Medicinal

Historicans report that many centuries ago the Chinese used dried and powdered skins of toads as a treatment for wounds. This ancient practice was considered a silly superatition until recently, when it was found that powdered toad skins contain a considerabit amount of the modern drug adrenalin.

Rats Costly

Rats not only eat a lot of feed, but cause hundreds of dollars worth of damage in every community for feed they spoil and other damage they cause. They may carry disease and parasites.

Nearly three million ducks were shot in Minnesota in 1946, an average of 21.74 per duck stamp sold. Mallards lead in casualties, then teal, bluebill, and pintail.

dirt cheap!

No land is worth much if the topsoil is destroyed!

Proper cutting and care of your trees will help to keep valuable topsoil. If you cut *all* your timber, or have a serious fire, or fail to give your trees "a chance" you will lose topsoil. Wind and rain will carry it away.

BUT—if you handle your trees properly, you can realize a cash return every year. For information on how to reap a yearly cash crop from your trees, and save your valuable soil for new growth, too, ask your nearest county agent, forester, or a representative of Minnesota and Ontario Paper Company. They all stand ready to help you.

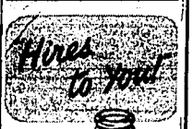
Standard Oil announces

Gives you premium-plus lubrication

Here's the latest idea in motor oils . . . remove the "goo." Get rid of engine deposits of soot, varnish, carbon, and sludge . . . and you definitely improve the go! There's nothing to stifle power, stick rings, or put a damper on free valve action. You get a sweeter-running engine . . . a better-lubricated, longer-lasting one, too.

Permalube, Standard's great new motor oil, gives you this premium-plus lubrication. It does more than thoroughly lubricate . . . it cleans your engine and keeps it clean.

For Permalube contains a patented ingredient that not only cleans up deposits already present, but also prevents new ones from forming. It keeps engine dirt in harmless suspension . . . unable to interfere with free valve action and smooth, powerful piston strokes. The "goo" drains out when you change oil.



So, remove the "goo," improve the go! Change to Permalube, Standard's finest motor oil, 35c a quart.

When you wash your hands, the water gets dirty. But your hands get clean! Same way when you use Permalube Motor Oil. The oil gets dirty. But the engine gets clean. The dirt is carried out of the engine when you drain out the oil.

MARCH OF DIMES FOR 1946 NETTED 15 MILLION TOTAL

National Chairman of Polio Organization Submits His Report

An audit of the 1946 March of Dimes shows $$15,184,595.80 was realized by the National Foundation for Infantile Paralysis to carry on its programs in research education and emergency epidemic aid, and $7,799,854.86 by chapters for care and treatment of patients, making a total of $15,982,150.66. Basil O'Conner, president of the National Foundation, announced today.

"The American people," Mr. O'Conner declared, "may well take satisfaction in the knowledge that their generosity will help save lives, alleviate pain and bring hope to thousands, mostly young children, who have been or will be stricken by this dread disease, which seldom kills but frequently cripples for life.

"The highest praise must also be accorded to the 55,000 volunteer workers who gave unstintingly of their time and effort to make the 1946 March of Dimes such a huge success.

Mr. O'Connor said that the highly successful drive will make possible greatly increased efforts in the field of research that were, of necessity curtailed during the war years when hundreds of scientists and the nation's laboratories were mobilized for military projects.

"With the return of peace," Mr. O'Connor pointed out, "the National Foundation can now increase its programs of studies that will give the medical profession additional scientific information necessary for the ultimate control of poliomyelitis. It is the laboratory that the final battle—not only against infantile paralysis but against all human ills—will be won."

"This year," Mr. O'Connor said, "expenditures for care and treatment of infantile paralysis patients are running higher than ever before in the National Foundation's history." He pointed out that by mid-August reports from the U. S. Public Health Service showed new polio cases occurring at a rate far higher than any year other than 1916, the worst on record.

NIGHT TRAFFIC HAZARDOUS

Although there were more hours of daylight than darkness in August, and more traffic in daytime than at night, there were nearly twice as many fatal accidents at night as in daytime, the state highway department reports.

Only 14 of the 37 August fatalities were due to daytime accidents. Thirteen persons, including 5 pedestrians, were killed in accidents occurring between dusk and midnight, and ten in accidents between midnight and dawn.

"Lab On Wheels" Brings Quality Tests To Creamery

To safeguard the quality of butter, cheese, cream, dried milk, and other dairy foods produced by approximately 400 member dairy plants of Land O' Lakes Creameries, Inc., a laboratory-on-wheels—first of its kind in the middlewest—is now in operation, and is stationed today in Thief River Falls. In its compact interior are instruments to test samples of products at each plant, plus others so delicate they may be used to check the accuracy of scientific equipment employed by the individual plant operators. Charles Holcombe, special fieldman for Land O'Lakes, and Ralph Halverson, laboratory technician, are in charge of the laboratory on its travels around Minnesota, Wisconsin and the eastern Dakotas.

WELFARE IS TOPIC OF LUTHERANS AT MEETING SEPT. 23

Welfare Workshop to be Held in Church at Crookston on Monday

Rev. William Larsen, Lutheran campus pastor at the University of Minnesota, will be the main speaker at the Lutheran Welfare Workshop to be held at Trinity Lutheran Church, Crookston, Monday, September 23. The workshop opens at 10:00 A. M. with Rev. Larsen conducting the first hour, "Counselling Persons in Serious Trouble." The Rev. A. S. Haugen, Crookston, is host pastor.

The workshop, to which all welfare-interested persons are invited, is sponsored by a newly formed Lutheran Welfare Area committee of pastors from various Lutheran synods and representing Northwest Minnesota. The committee to date includes the following clergymen: T. C. Hanson, Roseau; L. M. Larsen, Stephen; C. J. Field, Fisher; Walter Pedersen, Thief River Falls; G. S. Thompson, Thief River Falls; Walter E. Carlson, Warren; C. F. Johnson, Thief River Falls; C. M. Johnson, Fosston; G. H. Spietz, Lockhart; L. E. Evans, Bemidji.

"What the County Welfare Worker Does" will be discussed by Oscar Skibness, executive secretary of the Polk county welfare board. The problem of spiritual administration to Lutherans in hospitals and other institutions will be presented by Rev. J. Frederick Otto, institutional pastor of Lutheran Welfare society.

According to Dr. Rolf A. Syrdal, state president of Lutheran Welfare Society, a large number of congregations have designated Sunday, September 29, as Lutheran Welfare Sunday and will hold offerings on the following Sunday, October 6. "Because of the extremely sharp increase in services and the 71% rise in over-all costs in the past two years," says Dr. Syrdal, "we are seeking 100% Lutheran participation in this state-wide offering." The 1946 goal is $60,000.

State Credited with Huge Pea Pack in 1946

Credit for helping to produce one of the largest packs of canned peas on record at a time when an abundant food supply is a world problem went today to the farmers and canners of Minnesota, one of the country's leading pea producing states.

Although no official state or national figures have as yet been compiled, L. W. Grasskamp of the American Can Co. stated that the nation's canned pea pack this year will be about 38,500,000 cases, or more than 900,000,000 cans of peas. This is a conservative estimate, Mr. Grasskamp stated as it is based on the quantity of cans supplied for the crop and information obtained from growers, canners and other sources.

A pack of this size has been exceeded only in 1945, said the can company executive, who pointed out that the average annual pre-war pack of canned peas in the years 1937-41 was 23,800,000 cases.

Postage on Air Mail to be Reduced October 1st to Five Cents an Ounce

Effective October 1, domestic air mail rates will be reduced from eight cents to five cents per ounce or fraction thereof, under the terms of a law enacted by Congress August 14, Postmaster Andrew Anderson announced this week. The new rate will be in effect to points within the continental United States and its possessions and Canada, and also on mail to or from army and navy personnel or civilians overseas who receive their mail thru army or navy postoffices.

Fargo OPA Office Finds Rules Are Complied with by Nearly All Stores

Results of an "educational" survey conducted during August of grocery stores in the Fargo-Moorhead OPA district indicate a high degree of compliance with the regulations, according to M. M. Campbell, district price board executive at Fargo.

Campbell stated that out of 1265 stores surveyed, only 74, or 5.8 percent were in violation on one or more items. 94 percent of the stores had maintained full compliance with OPA pricing regulations. The survey included 879 groceries checked by volunteers and 386 by paid personnel.

The recruitment of 10 additional investigators and enforcement officers in the Fargo District indicates that OPA is making a determined effort to "crack down" on the over-ceiling sale and particularly black market operations.

Light Movement

In empty space or through the air, light moves at the speed of 186,000 miles per second but when it strikes a transparent object it slows down, says the Better Vision Institute. In ophthalmic glass its speed is reduced to about 120,000 miles per second. In this slowdown process the light rays are bent at an angle. By grinding the surface of the glass in a special manner, the bending of the light rays, and their direction in emerging from the lens, can be controlled.

Speed Fatal

A speed violation was reported for every three fatal motor vehicle accidents in 1944.

Why Auto Insurance Costs Are Up

1. Auto deaths show almost 50% increase over 1945
2. Repair costs for property damage and collision claims are up at least 33⅓%
3. Old cars are not standing up, causing more breakdowns. New cars hard to get.
4. Auto thefts increased 18.7% in 1945.

Don't overestimate the ability of the old car. Use common ordinary "Horse Sense" when driving—it pays. Some day you too can enjoy a new car.

HOLT

Funeral services were conducted at the Nazareth Lutheran church on Wednesday afternoon for Carol Bernice Ness, Rev. E. O. Urness officiating. Marvin Sandberg sang two of Carol's favorite hymns, "Lord Jesus I Long to Be Perfectly Whole" and "Children of the Heavenly Father". Pallbearers were four uncles John, Edwin, Rubin and Harold Ness.

Carol Bernice Ness was born at Holt, December 10, 1935. She was baptized by Rev. Redal. She passed away at a Grand Forks hospital Sept. 8, 1946 at the age 10 years 8 months and 18 days.

Carol was in the sixth grade at school having attended 3 years at Sunyside and the past two years at Holt. She was an outstanding pupil. Carol became ill on Monday but by Wednesday she seemed much better. On Saturday her illness was diagnosed as poliomyelitis. She cheerfully bid her parents goodnight asking them not to worry but just pray as she would be home.

Carol Bernice Ness is survived by her parents, Mr. and Mrs. Bertil Ness; one sister Joanne, her grandparents, Mr. and Mrs. Ole Lanke of Holt and Mrs. Annette Edwards; nine uncles, six aunts and 21 cousins.

Holt school opened on Monday with Misses Lena Gullingsrud, Gunda Engen and Myrtle Sather all of Thief River Falls as teachers.

The high school pupils are this year being transported to Thief River Falls. With the opening of school and possible danger of continuation of a polio epidemic the board of health of the village of Holt requested the following regulations. Parents will not send any child to school who has any symptoms of illness such as coughs, fevers, running nose, diarhea or complains of cold, sore throat, headache or weakness.

Teachers are given authority to send home any child who exhibits even the slightest of the above symptons. They shall not again be admitted without a certificate signed by the family physician.

It is recommended that school officials pay special attention to hygiene and sanitation especially in regard to heating and ventilation proper maintenance of lavatories, strict control and supervision of activities especially for younger children should be regulated to prevent fatigue of chilling.

All children including those of high school age must be restricted to the home if a case of polio might develop for at least two weeks and not be admitted without a certificate from the family physician.

Mr. and Mrs. Milton Davidson of Thief River Falls and Mr. and Mrs. Denny Inman of Holt were guests of honor at a wedding reception given them by a host of relatives and friends on Thursday evening at the Mission church. A short program announced by Mrs. Fred Peterson consisted of the following numbers. Song Jesus Savior, Pilot Me by the audience, reading, The Home by Mrs. Victor Johnson, trio, Betty, Joyce and Elaine Johnson, Poem, A Woman's Career, Mrs. Sig. Nyquard, solo, Love's Old Sweet Song, Evelyn Sagstuen, Reding, by Mrs Fred Peterson, Piano solo, Sigfred Nyquard, Scripture reading and talk by Rev. Thv. Myherer, song, "What a Friend We Have in Jesus" audience.

After the presentation and opening of the beautiful gifts and cash purse each of the honored guests responded with thanks. The evening closed with the serving of a delicious lunch. At the decorated table were seated the honor guests, Rev. and Mrs. Thv. Myhrer and granddaughter, Mr. and Mrs. H. O. Hamp, Carl Johnson, Mrs. Ole Christenson and Mrs. Helmer Davidson.

Betty, Elaine Joyce Johnson, Evelyn Sagstuen, Mrs. Guy Anderson, Mrs. Geo. Mostue and Mrs. G. Dovre of Thief River Falls attended the reception given for Mr. and Mrs. Milton Davidson and Mr. and Mrs. Denny Inman on Thursday evening.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Toys for the Pre-school Child

"What kind of a toy shall I buy for a two-year old?" "My child is four—what play materials should he have?" The answer in part depends upon what the child already has. The runabout child is active and enjoys toys which he can move. A tricycle or wagon is well liked. Such a toy encourages muscular development, and provides an outlet for the child's fun of energy.

Many common objects such as jars and bottles with screw tops, pans, spoons, cartons and boxes interest the younger child. He merely handles or "manipulates" them at first, discovering what he can do with them. He treats in the same fashion, the purchased items which we think of as toys, such as balls, or nested boxes. Such activity is not necessarily meaningless or destructive.

The child learns that paper tears, but wood doesn't; a rubber ball, but not a metal one, bounces. This training forms the basis for later "constructive" use of play materials, such as building block houses, garages, barns, airports, etc. The provision of such simple so-called raw materials as boards, blocks, boxes, a few utensils such as spoons and pans, and a wagon or tricycle will keep a child occupied in a worth while way for a long time.

Occasionally a new piece of equipment may be added to act as a stimulus for further imaginative play. Little children especially enjoy a set of metal, wood, or rubber farm animals or a small truck or car to use in the sandbox or on the floor.

Nursery school teachers have observed that during the preschool period, it is the use of the play materials, rather than the material itself, which changes with age. This fact is important for the adult who has a limited amount of money to spend. A few simple toys and play materials which encourage both active and quiet play, and which have many possibilities for the child to carry out varied kinds of play, may be used throughout the preschool period. After all, it is the use, Father than the toy itself, which is most important in the preschool period.

Disbanded Army

At the end of the Revolutionary war, congress ordered the disbandment of the entire army except "25 privates to guard the stores at Fort Pitt and 55 to guard the stores at West Point."

PUBLIC OPINION

Editor the Times:

Thank you for the copy of the Times for Aug. 15 which you sent me. I found it very interesting and the Thief River of today is certainly very much different from the town I last saw in the winter of 1898 and still more from the place so named in 1884 when I first saw it.

But what pleased me most was the movement to make Squaw Point a state park. In my day it was the home of chief Mooseding also the Indian burial ground, if you could call it that as the early Indians put their dead securely wrapped in blankets high up in the trees. Also at that time the Thief River was the boundary between the reservation and the homesteaders so we saw a lot of them. They would come bringing fresh fish. The deal was made in the sign language as no indian would admit of knowing any English. And at this time of the year the Indians had their fall festival and we could hear their tom toms for many miles.

But another matter has come to my mind. What if anything has been done to preserve beautiful wild flowers that grew so abundantly on the praires when the first settlers came? I know some have been protected and I don't suppose anything could possibly have been done to preserve all of them as the early settlers didn't care much about such things. His ambition was to get as much sod broken and in to crop as soon as possible. But nowhere have I seen such brilliance of coloring in wild flowers as there. I saw but few names in the paper that I knew. One was Victor H. Swenson. I remember him as a small boy and can still see him proudly plowing with his first yoke of steers, his head nicely cleaning the plow handles and I have heard that his sister Annie married and they bought my fathers homestead. And this place at Steiner. Wonder if that was named for our old neighbor Martin Steiner. Also wonder of there are any of the people of my age who remember me and would care to write to me? I would surely like to hear from them.

Yours truly, Mrs. C. A. Ward

Legal But Unlawful

The little girl came to school day after day that winter with shoes so worn that little toes were sticking out through the ends. It was cold, it must have been most uncomfortable. It was hard to be a little hirl and know that she alone must wear such ragged shoes. All the rest about her had good shoes. People, older people who saw her, said much about a drunkard father, and he deserved what was said about him. For the sake of satisfying the desire for drink that he had developed, he willingly sacrificed the happiness of his wife and children.

But no one said much about the man who sold the father drink after drink. That man who sold it knew about the ragged shoes, the old and ragged clothing of the whole household, the tears and the despair of a good wife. But it was LEGAL. He could stand behind the bar and know that he was protected by the law. He was running a legal business. Voters, the neighbors of his family, had voted to make it legal in the state.

You can state it in an endless number of ways. There is a smash-up on the road. After the twisted cars are untangled, the victims are taken to hospitals and funeral homes, low whispers fill the air that all was not well with the driver of either the one or other of the cars. We shake our heads at one who took the drink and then got into the car to drive. But somewhere is also a man who sold the drink ,the fatal drink which was the first cause of the accident. Nobody looks up the one who sold it. for that was LEGAL.

But is it LAWFUL? It is so easy for us humans to forget that there is a higher law and a higher bar of justice. The man who may fare well in the enforcement of our laws and before our courts, may not fare so well when he one day shall stand before the judgment seat of the master who has loved all men, even the least, and give his account of those things done in his body whether they be good or evil". He has said, "Woe unto that man that shall cause one of these little ones who believe on me to stumble. It were better for him if a millstone were hung about his neck, and he were sunk into the depths of the sea."

Yes, it is LEGAL—let us see again if it is LAWFUL according to the standard of God. Do you think that the one who sells liquor, the one who distributes liquor, or the one who makes it can say a morning prayer such as this: "Dear Lord, will you bless this day for me, that I may accomplish much in my business today, and that in this service, I may be a blessing to fellowmen and myself and an honor to Thy name"? Or at the end of the day can you imagine the one who has thus spent his day saying to his Father in heaven: "I thank Thee that today I had a good day, I know that Mr. So-and-So is drunk and abusive tonight in his home, and I know that the money that Mr. Other spent should have been used for clothing for his children, but since I got it, I thank Thee"?

No, you and I know that not only will not such a man pray, but it is not possible to do so. How can one lift blood-stained and misery-filled hands into the holy gaze of God? The man in the honest occupation, on the other hand, can so well do it as in the prescence and with the blessing of God on him. How easy for the farmer or the man in a wholesome business to begin the day with a prayer to God for His blessings and success. How good at night to end the day with much accomplished which one can know that God has blessed.

You can add to this many other things. The roadhouse has its license, but not issued by the one to whom he shall give final account. The man who defrauds an unwarry person may have done it legally under the laws of the state, so that no Court can recover it. But for that one, too, there is the Higher Court waiting for the day when the final accounting is to be made.

Pray that you may so have lived when your final accounting is to be made that you may joyfully approach before Him from whom nothing is hid, knowing that your way has been laid in the place charted by His Commandments.

SILLY— YET SENSIBLE!

If cows could talk, this cartoon wouldn't seem silly because EVERY cow prefers being milked by the SURGE—for several SENSIBLE reasons:

1. It milks all cows better with a light pull for an easy milker—a heavy pull for a hard milker and a progressively increasing pull on all cows as they are milked out.

2. It gets more milk (less stripping).

Surge Owners prefer Surge because there are only 4 inches instead of 4 feet of rubber to clean—cleaner milk. It's faster —Surge is the fastest milker ever produced. AND—all metal parts touching milk are Stainless Steel! NOW—

About "Self-Washing"?

So long as ads continue to appear stating that certain milking machines are "self-washing," we shall continue to say that the Surge is not that kind of a machine. Milk is a very wonderful but very easily spoiled food—a dirty machine means dirty milk. We urge you to wash and properly sterilize your Surge Milker after each milking. There is not much of the Surge to keep clean and proper attention requires less time, less washing powder and less sterilizing.

"Dirt has no place in milk under any condition. Some dirt is bottle and carries no bacteria whatever. That fact does not lessen the importance of keeping it out of milk."

"No amount of straining or cooling can restore a dirty milk or a milk with a high bacteria count to its original high grade condition."

SERVICEMEN MAY APPLY FOR ABSENT VOTERS' BALLOTS

Relatives May Arrange to Send Ballots at Once to Those in Service

All ballots for the general election scheduled in Minnesota for Tuesday, November 5, are now in the hands of the county auditor, it was announced today by Auditor A. M. Setstad.

He stated that applications for ballots for voters now in the armed forces of the United States should be filed at once so that they will have time to be returned by the voter and counted on November 5.

Applications for the ballots can be filed in behalf of the serviceman by his spouse, parents, brother, sister or "a" child over the age of 18 years.

Mr. Senstad pointed out that civilians intending to use the absent voters ballots may not vote *in that manner* until the period beginning thirty days before the election.

Land O'Lakes Creameries Will Redeem $315,000 in Certificates for '41-42

Patrons of Land O'Lakes Creameries, Inc., will be paid a total of $315,683.50 in cash next month when the cooperative calls for retirement of all 1942 commodity certificates of interest, issued on commodity patronage, and all 1941 supply Certificates of Interest, issued for purchase of equipment and supplies.

Directors of Land O'Lakes voted at their September meeting in Minneapolis to redeem these certificates on October 15, 1946.

Emil G. Johnson, treasurer of the creamery co-op, reported that 1942 commodity certificates total $215,493.98; and 1941 supply certificates to be retired amount to $100,189.52.

Certificates were called on recommendation of the Finance Committee, comprising John Burgess, Minneapolis, chairman; S. A. Striegel, Pine City, and C. A. Torkelson, St. James. Burgess reported that Land O'Lakes is in the strongest financial condition of its 25-year history.

Commodity certificates for any one year, Johnson explained, show the patronage dividend due to an individual or dairy plant on products which are marketed through Land O'Lakes during that year. Certificates issued on equipment and supplies show the dividend due on materials bought from the central organization.

Accident Loss

The motor vehicle death toll in 1945 approximates one-third of the total deaths due to all kinds of accidents — a total of 96,000. This impressive total, together with 10,200,000 disabling injuries represents an economine loss of $5,200,000,000 and is responsible for a loss of 415,000,000 man-days of production.

L. D. R. Convention Set for Sunday, Sept. 29th

The Lutheran Daughters of the Reformation of the Thief River Falls Circuit will hold their fall convention at Viking, in the Evangelical Lutheran church on Sunday, September 29th. There is to be an afternoon session at 2:30 p. m. followed by a fellowship supper at 6:00 p. m.

Miss May Randahl, missionary from Madagascar home on furlough, will be the main speaker. Her talk will correlate with the convention theme "Lovest Thou Me" and will be "Proving our Love through Obedience to His Missionary Call". Ragna Stenerson, the former district president, will also speak.

The LDR officers of the Thief River Falls Circuit include Miss Tryphena Anderson, Baudette, president; Miss Lenore Bergstrom, Roseau, vice president; Miss Gladyce Strande, Thief River Falls, second vice president; and Mrs. Norman Johnson, Badger, secretary-treasurer.

Any LDR member is welcome to the convention. The afternoon session will be open to the public and the supper will be open to any Luther Leaguer, LDR, or WMF member.

EMPLOYMENT SERVICE HOLLERS FOR HELP

St. Louis Park—Because it once cost $5.00 in postage and bookkeeping time to collect 50 cents from Uncle Sam for a want ad in behalf of United States Employment Service, St. Louis Park Dispatch ran free USES plea for help. Four employees quit at the same time, and the mighty government helper was helpless.

Hybrids Popular

Nearly two acres out of every three of the corn crop this year were planted to hybrid corn.

Variety Club to Give University $250,000 for Heart Hospital

Fred Allen, radio and film star, will preside as master of ceremonies at a dinner on the University of Minnesota campus Monday evening, September 23, when the Variety Club of the Northwest will present a quarter of a million dollar fund to the university for the construction of a hospital for the treatment of heart ailments.

To be known as the Variety Club Heart Hospital, the new structure will be erected on the banks of the Mississippi river adjacent to the university's present group of medical buildings. The hospital will provide approximately 100 beds, according to Dr. Harold S. Diehl, dean of the medical sciences at the University, and will specialize in the treatment of rheumatic fever in children.

Architects are now preparing plans for the new hospital, and it is hoped that the Variety club fund will be supplemented by a federal grant under the hospital construction act passed by the last Congress, according to Dr. Diehl.

Rep. Harold C. Hagen Protests Exporting of Sugar and Other Items

In a letter to Clinton P. Anderson, secretary of agriculture, Congressman Harold C. Hagen of Crookston vigorously protested the excessive exportation of sugar to foreign countries at a time when civilian rations are at an all time low. He has also protested against the exportation of lumber, automobiles and other scarce agricultural and manufactured products.

Exports of sugar from the United States during the first six months of 1946 were almost 3½ times the quantity allocated for that purpose last fall.

According to its most recent allocations, the Department of Agriculture has allocated more than a billion pounds of refined sugar for export from the United States during the calendar year 1946. This is equivalent to an average of 27 pounds of sugar for each of the 37 million families in the United States, said Congressman Hagen.

Bank Debits Here Hold Upward Trend in August

Bank debits in Thief River Falls during the month of August 1946 were 158 per cent of August 1945 and cumulative totals for the first eight months were 144 per cent of the same period a year ago, according to figures released by the Federal Reserve Bank of Minneapolis. The state of Minnesota showed an increase during August of this year of 37 per cent when compared with the same month in 1945, while debits for the period January through August 1946 climbed to 116 per cent of last year.

Strawberry Soil

Best soil for strawberries is a sandy loam which retains moisture. Soils which are very heavy or extremely light should be avoided. If irrigation can be provided, the production period will be lengthened and yields increased substantially.

SITE FOR STATE SCHOOL STUDIED BY COMMITTEE

Group Meets in St. Paul to Consider Advantages of 27 Cities Applying

Twenty-seven Minnesota communities including Thief River Falls, are on the list of possible sites for a purposed state institution for feeble-minded and all were considered last Friday by a selection committee which met in St. Paul.

Principal point of elimination will be on the basis of a soil report, Carl H. Swanson, state director of public institutions, said.

"A good farm is an important factor for such an institution," he explained, "both for the good of the patients and for economic reasons.

"The committee also will consider the geographic location of possible sites and how well the community could provide housing, schools, churches and shopping centers for the 150 employees to be hired."

Although the committee expects to have a definite site ready to report to the legislature next January, it is possible several may be recommended.

BUTTONS AND BELLS FIGURE IN HOBBIES

At Brownton Henry Hagen Sr., 81, carves wood as hobby when he isn't running tractors and doing other farm work. Among the products of his penknife is a wedding bell 15 inches high, 16 inches across comprising 1,085 pieces of lumawood. From all over the world have come buttons, no two alike to form the unique collection of more than 12,000 proudly displayed by Mrs. Amos Welshons of Hastings. Classified and neatly mounted on white cardboard, they begin the discovery of buttons in the 13th century.

Turkey Serving

In judging the size turkey needed, allow from three-fourths to one pound in the weight of a dressed turkey for each person. A 15-pound turkey makes about 20 generous servings.

BARKER ADVISES EARLY PAYMENT OF VETERANS' BONUS

Makes Recommendation in Radio Address Given in Minneapolis Tuesday

Immediate payments of a state bonus for veterans of World War II was strongly urged by Harold H. Barker, Democratic-Farmer-Labor party nominee for Governor, in a radio interview Tuesday night over Station WCCO.

"I agree with the American Legion the Veterans of Foreign Wars and other veterans' organizations in calling upon the state of Minnesota to pay the returned servicemen and women a bonus based upon length of service," Barker declared. "At least 23 other states have already made provisions for a bonus to their veterans, and I see no reason why this great productive state of ours should do any less for our young men and women."

Barker emphasized that he did not regard such a bonus as "charity or a hand-out," and set himself firmly against a sales tax to pay for the bonus. He proposed instead that taxes on high grade iron ore mined out of state steel corporations be restored, pointing out that under the administrations of the last two governors those corporations have escaped taxes amounting to $31 million.

GOOD NEIGHORS "DO IT AGAIN"

Luverne—Mrs. Archie Bonett was injured in an automobile accident about a year ago. She has been more in than out of hospitals since, and Mr. Bennett has had a tough time with the farm and household work, until 27 good neighbors moved in with teams, tractors, and tools and took the situation in hand. An old straw stack disappeared, 16 acres of flax was threshed, 90 acres were plowed the house was given a thorough cleaning and fixed up ship-shape for winter. Nice neighbors, these Minnesotans!

Big Variety in Apple

More than 7,000 varieties of apples have been recorded in the United States alone.

THIS WAS BOUND TO HAPPEN SOMETIME

St. Peter—Alan Mans, Skelly gasoline distributor, and local friend drove a tank truck to Mankato and unloaded 700 gallons of gas. They started home. They ran out of gas. The rest of the story, says St. Peter Herald, was unprintable.

Ancient Hymn

"Gloria in Excelsis," the hymn, has been sung for more than 1,500 years.

King Blizzard

Because of the terrific gales and high drifts associated with it, the blizzard of 1888 has always been considered the "king" of blizzards. Snow reached a depth of three feet or more in Atlantic coast states and New England and was drifted by gales of wind for several days into drifts 5, 10 and 20 feet high.

Stars and Stripes

On most railroads the star represents 25 years of service, and each bar or stripe represents five years of service. Thus, three bars indicate the wearer has been in the railroad's service for 15 or more years, four bars indicate 20 or more years of service; a star and two bars indicate 25 or more years of service and so on.

Why Some Long Distance Calls
ARE STILL DELAYED

Vacation travel and the marketing of the newly harvested grain crop are adding a great volume of long distance calls to the already crowded lines. Because of this many calls are being delayed.

Although the shortage of materials is hampering us, we are adding new facilities as fast as we can get them in order to bring long distance service back to pre-war quality and even better.

This will take time so when you find the lines are extra busy, your patience will be appreciated.

OFFICIAL PROCEEDINGS, BOARD OF COUNTY COMMISSIONERS, PENNINGTON COUNTY, MINN.
July 2, 1946

Pursuant to call for a special meeting the Board of County Commissioners of Pennington County met at the office of the County Auditor at 2:30 P. M. July 2, 1946.

Members present: Hyland, Roy, Mulry and Mandt.

The meeting was called for the purpose hearing petitioners and others in the matter of the petition of Charles E. Wilson et al for the cleaning and improvement of Sanders-Black River County Ditch No. 1. Also present at the meeting were Theo. Quale, Attorney for the Petitioners, County Attorney Paul A. Lundgren and J. A. Erickson, Engineer for the ditch project. After considerable discussion by all present it was moved by Mulry seconded by Hyland, that the Board adjourn the meeting until 2:30 P. M., August 7, 1946.

Carried.

PAUL ROY, Chairman.

Attest:
A. M. Senstad, County Auditor & Ex-Officio Clerk of the Board.

OFFICIAL PROCEEDINGS, BOARD OF COUNTY COMMISSIONERS, PENNINGTON COUNTY, MINN.
August 7, 1946

Pursuant to adjournment the Board of County Commissioners met at the office of the County Auditor at 2:00 P. M. August 7, 1946.

Members present: Hyland, Roy, Mulry and Mandt.

The matter of the petition of Charles E. Wilson et al for the repair and improvement of Black River-Sanders County Ditch No. 1 was again taken up and heard. A considerable number of land owners affected by the proposed project were present and the meeting was adjourned to the court room. There developed considerable favorable argument for the project as well as considerable objection to the project, the main objection to the project being the fact that some lands originally assessed for benefits in the original ditch proceeding were not now within the lands drained by the ditch. After hearing both sides of the situation it was moved by Mulry and seconded by Mandt that the Board adjourn to 1:30 P. M. August 27, 1946 before making its decision on the petition.

Carried.

PAUL ROY, Chairman.

Attest:
A. M. Senstad, County Auditor & Ex-Officio Clerk of the Board.

OFFICIAL PROCEEDINGS, BOARD OF COUNTY COMMISSIONERS, PENNINGTON COUNTY, MINN.
August 27, 1946.

Pursuant to adjournment the Board of County Commissioners of Pennington County met at the office of the County Auditor at 1:30 P. M., August 27, 1946.

Members present: Hyland, Roy Mulry and Mandt.

The City Clerk of the City of Thief River Falls having filed with the County Auditor, on August 21, 1946, the official order of the said City Council, over the seal of said City, appointing Joe Maruska as County Commissioner from the Second Commissioner District of Pennington County, Minnesota.

The matter of the petition of Charles E. Wilson et al for the repair and improvement of Sanders-Black River County Ditch No. 1 was again brought before the Board.

After thoroughly considering the petition the Pennington County Board does find as follows:

1. That the Engineer has duly examined said drainage system and made and filed his report and recommendations, reference to which report is made a part hereof.

2. That the public health, convenience and welfare and the reclamation of wet and overflowed land require that said ditch be repaired, improved and extended.

IT IS THEREFORE ORDERED AS FOLLOWS: that Elmer F. Erickson, Herold Johnson, and William Vaughn, disinterested viewers, shall examine and report all benefits to all property resulting from the repair, improvement and extension of said drainage system.

IT IS FURTHER ORDERED: that the Chairman of the Board and the County Auditor of Pennington County be and are hereby authorized and directed to proceed according to law.

Moved by Maruska seconded by Mulry the Board adjourn until 10:00 A. M., September 3, 1946.

Carried.

PAUL ROY, Chairman.

Attest:
A. M. Senstad, County Auditor & Ex-Officio Clerk of the Board.

Wash Chandelier

If there is a chandelier in your living room, don't forget occasionally to wash it. A sponge is especially good for this job, because it reaches into cracks and crevices, yet without causing damage from too much water, and it is helpful to keep an old toothbrush handy for this purpose, too.

Calcium Source

Turnips are important because they're a good source of calcium. They add some vitamin B1 and C. The yellow variety also supplies vitamin A. In order to get much vitamin C, turnips should be eaten raw.

Pacific Salmon

Pacific salmon are the most valuable fishery resource belonging to the United States. They yield around 600 million pounds of fish a year. About 85 per cent of the salmon is then canned. The balance is sold fresh, frozen, smoked or cured.

Times want ads bring results.

MUST REGISTER MOTOR SCOOTERS

Operators Required to Get Drivers Licenses

Motorbikes and motorized scooters appearing in large numbers and in great variety on the streets and highways of Minnesota in recent weeks, are causing considerable concern to parents and to motorists who encounter them in traffic, a state highway bulletin reports.

Some of the motor-scooters come as complete units some are made by attaching motors to bicycles, and some are home made rigs of varied design. No matter what the type, if the bike or scooter is self-propelled it must be registered as a motor-vehicle and must carry a motorcycle number plate.

All persons operating self-propelled bicycles or scooters must have valid drivers licenses. Licenses cannot be issued to persons under 15. Persons between 15 and 18 can obtain licenses only with the written consent of the parents.

Motorbikes and scooters must keep to the right, must stop for stop signs and signals, must have lighted lamps front and rear at night and they are subject to speed restrictions and other traffic laws the same as other motor vehicles.

In case of accident, the operator of a motorized bicycle or scooter is subject to the same laws relating to financial responsibility, making written reports, etc., as the operator of an automobile, truck or bus.

BIG SHIPMENTS OF IRON ORE GO OUT

338,000,000 Tons Are Shipped in War Years

The part that Minnesota played in winning the war is partly indicated in a report on the biennium ending June 30, 1946, made by the division of lands and minerals, Minnesota department of conservation.

According to the report, a 10,000 ton iron ore lake boat is about 625 feet long and it would take ton of them end to end to cover a mile. If Minnesota's war time shipments of iron ore were loaded into 10,000 ton boats and they were laced end to end, they would span the Atlantic Ocean from New York to Liverpool, a distance of 3,182 miles with 200 miles to spare.

More than 5,000 of these 10,000-ton ore carriers could have been loaded from state-owned mines, as 15 per cent of the total, or 50,650,000 tons were shipped from this source during the five war years.

Shipments of iron ore from all Minnesota mines up to January 1, 1946 totaled 1,589,562,000 tons and 15.6 per cent of this total, or approximately 220,000,000 tons were shipped from state owned mines.

It is apparent that Minnesota's reserve of commercial iron ore was heavily depleted during the war period, the report stated but there still remains about 40 percent of the original reserve, or one billion tons.

From 1941 to 1945, inclusive, Minnesota produced and shipped 338,748,000 tons of iron ore; and 93 per cent of this tonnage came from the same national stockpile that was used in World War I, namely the open pit iron mines of Minnesota.

Less Bumblebees

Bumblebees and other former pollinating insects have been decreasing rapidly as a result of poisonous sprays and dusts, and from the clean cultivation that has destroyed many of their homes—thus placing a greater pollinating burden on the honeybees. At least 50 crops depend upon bees for pollination or yield more abundantly when bees are working.

Fire Losses

About 1,000 homes in the U. S. are attacked by fire every day and a farm fire occurs every 15 minutes. The death toll in the past 10 years is about 33,000 and thousands more are critically burned and seriously maimed. The dollar loss for the same period is about one billion.

Abolish Self-Cremation

Suttee, abolished by the British in 1829, was an Indian custom of a widow burning herself on the funeral pyre of her husband.

AIRPORT NEWS

Next Sunday, Sept. 22nd, the large squadron of the Civil Air Patrol will entertain fliers from Minnesota and North Dakota squadrons at a breakfast at the Fargo airport.

Thief River Falls was well represented at the CAP breakfast at Grand Forks last Sunday. Six teenlocal fliers participated in the flight. Of particular interest was the presence of Mr. and Mrs. Fraser of Fividsten of Grafton, N. D. Mrs. Hvidsten is the flying member of the family and is at the controls of their Piper Cub when any one wants to travel by air. Also present were several members of the Flying Farmers organization.

The CAP plans to present interesting programs at future meetings in addition to the breakfasts.

Among visitors at the local airport the past week were: Vic Mannila of Littlefork and Harry Fraser of rGegbush flying an Aeronca; John Hanson of Warroad in a Piper Cub; and Mr. Hopkins frim Greenbush and Mr. Carlson from Fargo, flying a Culver V.

On Friday, the 13th, Gordon Camp flew a local youngster stricken with polio to Minneapolis for treatment.

The G. I. program is getting under way with about twelve men ready for flight training. Any ex-G. I. who is eligible for this training under the G. I. bill of rights may contact Gordon Camp at the airport for information. Addltional instructors are available if needed.

On Wednesday of last week Gordon Camp flew the Stinson Voyager to Minneapolis on a trip chartered by three local business men. On his return, he was accompanied by Mrs. Camp, who had just returned from an eastern vacation trip which took her to South Carolina to visit her parents; New York City, where she visited friends; and Rochester, New York, where she spent some time with Mr. Camp's parents.

New Law Brings 7,160 Suspensions of Drivers Licenses During Year

Failure to furnish proof of ability to settle claims resulting from motor vehicle accident brought suspension of 7,160 drivers licenses during the first year of full operation of the 1945 safety responsibility act, the Minnesota highway department reports.

The figures cover the period from August 29, 1945to August 31, 1946. While the act took effect July 1, 1945, no suspensions could be made until the end of August, due to the 60 days allowed for depositing security or filing releases, certificates of insurance, or proof of ability to settle claims.

Licenses of 4,206 drivers were reinstated as a result of deposit of security, filing releases, certificates of insurance, or otherwise meeting the law's requirements.

Reports are required from drivers of all motor vehicles involved in accidents resulting in death, bodily injury, or property damage in excess of $50. From July 1, 1945, to August 31, 1946, the Department received reports showing drivers and owners involved in reportable accidents. Of these 48,214 filed certificates of insurance, 6% filed releases, 18, 817 were found to involve less than $50, and 8,171 did not come under the act, in most cases because the owner or driver was the only person suffering damages. Evaluations were made in 11,1618 cases with estimated damages totaling: $4,729,205.

The phrase "hardwood tree" does not necessarily mean the wood of the tree is hard, but distinguishes broadleaf or deciduous trees from conifers or evergreens.

Estimated total and per capita war expenditures of United States $339 billion, $2,431. United Kingdom $117 billion, $2,251. France $25 billion, $613. Russia $128 billion, $662.

To cover the wartime gray on a million square feet of the Queen Elizabeth, world's largest ocean liner, will take 30 tons of peacetime paints.

N. W. SCHOOL TERM OPENS SEPT. 30TH

Enrollment of 400 at Crookston School Seen

The Northwest School at Crookston begins its forty-first year with the opening of the fall term on September 30. An attendance of 400 students is assured. Superintendent T. M. McCall states, "The school dormitories are filled to capacity and school authorities have been unable to find outside rooming accommodations for all who wish to enter. According to present plans the new dormitory which will house 114 girls, will be completed in time for the opening of the winter term in January."

A number of war veterans have enrolled some to take special courses and others to complete academic requirements for college entrance. A new "on-the-job farm training program" for war veterans will be started at the school for farmers living in a convenient radius of Crookston.

A full staff of instructors has been secured and new courses have been added to the curriculum.

Registration of freshman and other new students will start on September 30; upper classmen will register on the morning of October 1. Classes will officially start at 1:15 p. m. on October 1.

Cantaloupe Soil

Cantaloupes are adapted to a wide range of soils and soil types, but generally they produce a higher quality fruit and give higher yields on neutral or slightly alkaline soils. Those soils with a higher lime content are generally preferred, except for the production of early melons when the sandy soils are best because they warm up sooner in the spring.

Cattle Grades

Of major importance to both the producer and the buyer of cattle is a knowledge of the classes and grades of cattle. Market quotations are based largely on U. S. standard market grades, with sex, age and weight the principal factors determining the class. Grade factors are type or shape of body, breeding or quality, and finish.

State Chairman of GOP

New chairman of the Minnesota Republican state central committee, which directs the work of the party in the state, is a World War II veteran, Bernhard W. LeVander of St. Paul. LeVander, shown above, was elected unanimously at a meeting of the committee in Minneapolis at the close of the party's state convention this past week and will succeed George C. Jones of Minneapolis, retiring chairman.

News of R. R. Valley Home for the Aged

With new linoleum on the kitchen floor, lobby and dining floors newly waxed and the furnace chimney cleaned of a years accumulation of soot, plus a quantity of coal in the bin we are fairly well set for a season of indoor living anytime it may chose to appear; although we have no desire for an early break in the balmy days of the last week.

Adding to our collection of house plants a number were brought in last week by Mrs. Langseth of Rosewood.

Officers Blakeman and Willsey, of the local Salvation Army corps again favored our Home with their services last Tuesday and it is hoped by our family that their visit was a resumption of their regular weekly services, discontinued some weeks ago.

In attendance at the Charley Finley funerals at the Northwood church near Grygla on Thursday were Joe Rustvold and Oscar Hovelsos.

Miss Pearl Klaven spent Sunday and Monday at her parental home near Grygla.

The Christian Crusaders or young peoples gathering here Friday evening was quite well attended. A varied program was rendered, the main feature being an address by Rev. Hanson, local American Sunday School Missionary.

After spending a few days here at the home last week John Hanson has again left for Newfolden to stay for some time longer with his brother-in-law and sister Mr. and Mrs. Dyrud.

Mrs. Backstrom, had as company last Thursday, two of her sisters, Mrs. William Frances and Miss Ida Erickson from Crookston. Also Mr. and Mrs. O. J. Wilson and daughter Kathleen, from Noyes. Mrs. Wilson is a daughter of Mrs. Backstrom.

On the occasion of his birthday anniversary D. G. Brownlee treated the family to a serving of ice cream on Mondays supper table.

And too we are making good use of a batch of tasty cottage cheese brought in by Mrs. Hans Sande Tuesday morning.

Since the first of the month the Home has been favored with a number of gifts in cash given in memory of departed ones as follows: One from Vern Gilfillan, Treasurer of Northwood Lutheran Church, near Grygla, given by friends in memory of Zoozzu ny spoozz; One from Glory Baptist Sunday School, Mrs. A. E. Pearson, Treas. Aitkin, Minn., One brought by Rev. E. O. Sabo, Pastor of the Ev. Luth. Church, Germantown; given by friends in memory of John Ellingson. One from Mr. and Mrs. O. W. Peterson of Alvarado, given in memory of Ole Berg.

The lure of the open road and wayside scenery was the cause of a rather drastic reduction in our working force Sunday afternoon and evening, when the Misses Klaven and Moe, as well as the writer all strayed off in different directions beyond the city limits.

Islands Disappear

Among charted islands that have disappeared, Tunaki, in the Cook islands southeast of Samoa, apparently took a dive about 1836 with 13,000 inhabitants aboard. When astronomers picked Sarah Ann Island in the North Pacific as an ideal spot that would give them a record-breaking seven minutes to study a total eclipse of the sun in 1937, they were looking at an old chart. Discovered in 1858, Sarah Ann hasn't been seen in the 20th century.

Raisin Custard

To give raisin custard extra flavor, simmer raisins a few moments in a few tablespoons of sherry. Drain, dust the raisins with flour and add to custard mixture.

Save Energy

Try to place everything within easy reach and avoid muscle wrenches and strains. When you must reach for something on a high shelf, you will save your energy if you will take time to get a footstool so that you won't have to stretch beyond your reach. Instead of carrying the basket of clothes when you hang them on the line, pull the basket around in your little boy's wagon, or use a laundry cart with wheels on it.

Lumber Supply

America uses half of its annual lumber supply for construction, the rest for furniture and other manufactured articles.

Ancient Toys

In the stone foundation of a temple in Persia, built in 1100 B. C., jointed toys made with animal glue were discovered.

RUSSELL OLSEN IS COMMUNITY FUND LEADER

Combined Campaign for Local Agencies to Get Under Way in October

At a preliminary meeting Monday of representatives of various agencies which in former years have conducted separate fund drives, Russell E. Olsen, secretary of the Civic and Commerce association, was named chairman of a community fund organization which will hold a combined drive scheduled to get under way early in October. Stanton R. Dahlen was appointed treasurer.

Chairman Olsen announced that plans for the campaign will be developed at a meeting of representatives of all local groups to be held within the next few days.

A similar combined campaign was conducted last fall in connection with the War Service Fund drive, other agencies sharing in the proceeds being the Salvation Army boy and girl scouts; the USO providing entertainment for men in service, and the national cancer foundation.

A total of $5,807 was raised in the 1945 drive of which $7,435 was allotted to the War Service Fund. Pending determination of local allotments for the coming year, Mr. Olsen estimated that it would be necessary to raise approximately $7,000 in the coming campaign.

RAM TRADING DAY AT FAIR GROUNDS SLATED OCTOBER 2

County Sheep Raisers Given Opportunity to Improve Their Flocks

Sheep raisers in Pennington county have their big chance this month and next to make over next spring's lamb crop through choice of a good purebred ram to head the flock this fall. The ram sale days that have been scheduled are an aid to the busy farmer who does not feel that he has the time to go in search of a new ram. These sales provide a choice of animals of several breeds, produced by breeders who have a reputation for good stock.

Pennington county sheep men should plan to attend the sale at the Fairgrounds in Thief River Falls next Wednesday, Oct. 2, starting at 10:00 a. m.

W. E. Morris, extension animal husbandman at University Farm presents these five reasons why a good purebred ram will pay for himself in a hurry:

The lambs will be uniform, wider deeper and better fleshed; they will mature earlier and fatten quicker; they will be heavier at a given age; they will have fleeces of higher grade wool; ewe lambs kept over will improve the flock.

RITES ON TUESDAY FOR D. FAST, T. R. GROCERY EMPLOYE

DISTRICT HEAD OF ROTARY IS GUEST

E. Ray Cory Pleads for World-wide Goodwill

The modern challenge that Rotarians as members of a world-wide service organization must accept with action in terms of goodwill and understanding is "Live together in constructive thinking and tolerance," Cory said.

That was the message of E. Ray Cory, Austin, Minnesota, governor of Rotary District 117, in addressing the Thief River Falls Rotary club Friday on an official visit. He addressed a luncheon of the club following a conference with club officers, directors and committee chairman.

Rotary, with one of its principal objectives "to encourage and foster international understanding through a world fellowship of business and professional men united in the ideal of service," has a wide influence far greater than its numerical strength, Mr. Cory said.

"Devoted to service, Rotary provides a common ground for the men of the world, regardless of creed, color or government under which they live, to promote and nurture understanding" the district governor emphasized.

ST. LUKES MAPS PLANS TO ADD TO FACILITIES

Big Hospital Addition and New Building for Clinic Are Projected

At a meeting of the board of directors of the St. Lukes hospital association Monday night, plans were made for a meeting of association members for the joint purpose of celebrating 16 years of progress, to be highlighted by a mortgage burning ceremony, and to secure approval of a general expansion program that would add substantially to existing facilities. The meeting will be held in mid-October, the date to be announced later.

Ultimate objective of the expansion program which will be recommended will be a completely equipped community hospital 135 to 150 bed capacity, and an accredited nurses' training school. This would involve construction of new buildings north and east of the present structure on land now owned by the association.

Steps have already been taken to make available for hospital beds all possible space in the present building by the purchase of the Bishop apartment building across the street from the hospital to be used as temporary quarters for nurses and for the removal of the Bratrud clinic to new quarters as soon as a new clinic building can be erected. Rooms now occupied by the nurses and by the clinic which will be made available for hospital beds will increase to 76 the number of beds that can be provided in the present building, it is estimated.

Dr. Edward Bratrud and Dr. Theodor Edward Bratrud of the Bratrud Clinic told the board that plans are now being prepared for a clinic building to be erected north of the hospital property on LaBree Ave., and expressed the belief that this building can be completed next summer.

In this building facilities will be provided for up to 12 doctors, they said. The removal of the clinic from the hospital is pursuant to the arrangement made when the hospital was built providing for the removal of the clinic in the hospital as means of augmenting hospital income, the quarters to be vacated as soon as the rooms were needed for hospital purposes.

The removal of the clinic to new quarters will be effected this fall and will make 15 additional hospital beds available.

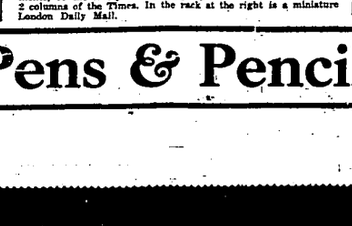
PART OF GRAIN IN ELEVATOR SAVED



Contents of Goodridge Elevator Worth $29,500

Rain early this week impeded the salvage of grain and seed valued at $29,500 which was exposed to the elements when the Math Barsen company elevator at Goodridge collapsed late Wednesday afternoon, of last week. The grain in the meantime has been covered.

A total of approximately 7,000 bushels of mixed grains had been shipped out from Thief River Falls up to the first of the week after having been trucked in from Goodridge, and all of the sweet clover seed had been brought in to this city.

Ernest Barzen stated that the elevator structure is a total loss, and that it is doubtful if the loss is covered by insurance policies in effect. All of the grain in the elevator had been purchased by the company.

Local Teachers Are Present at Reception in Community Church

Largest of this week's social affairs was the eight o'clock reception held Tuesday evening in the Community church parlors for all faculty members of the local public schools. Refreshments were served buffet style from a service table, centered with an arrangement of white shasta daisies and calendulas, at which Mrs. D. T. Beadle poured. Tall baskets of autumn flowers were placed effectively about the room, as well as tall blue candles in matching holders.

Mrs. E. F. Wright, in charge of program arrangements, introduced Rev. D. T. Beadle, who gave a few words of welcome to the teachers present. The American Legion Auxiliary quartet, composed of Mmes. W. G. Clarke, Art Berg, and Melville Simon, and Miss Vivian Havel, accompanied by Mrs. H. F. Harrison, presented three vocal selections including "Smoke Gets in Your Eyes," "The World is Waiting for the Sunrise," and "My Heart at Thy Sweet Voice."

H. F. Harrison, after accompanying the group in community singing, gave two piano solos, and accompanied Kenton Mullen when he sang "To Each His Own," "I Don't Know Enough About You," and "Come Rain or Come Shine." Each teacher present was called upon to introduce himself, and Supt. P. L. Fjelsted, on behalf of the faculty members, expressed appreciation to the W. S. C. S. for their efforts in welcoming the teachers.

Wedding Shower for Mr. and Mrs. T. Tveten

A wedding shower honoring Mr. and Mrs. Thorsten Tveten of Goodridge (formerly Mary Blade) was given last Thursday evening by friends and neighbors at the home of the bride, 322 Kendall Ave. S.

The evening opened with prayer and a program of music including duets by Misses Nancy Simonson and Phyllis Johnson accompanied by Phyllis' mother at the piano, vocal solos by Mrs. Charles Taggart, who accompanied herself on the guitar; message by Rev. E. F. Rabine, who also led in a closing prayer. The honored couple received a two-tone blue chenille bedspread and a purse of money as a wedding gift from the group.

Lunch was served in the dining room, which was decorated at the ceiling with streamers of pink and pink, and the newlyweds, Nathan, David, Stephen, and Phillip Tveten, and Rev. Rabine were seated around the bridal table which bore lighted tapers in crystal candelabra, placed on either side of a bowl of sweet alyssum and pink bachelor buttons. A two tiered wedding cake was the meal's main attraction. The remainder of the guests were served buffet style from a smaller table.

Hostesses for the occasion were Mrs. A. Simonson and Mrs. A. Erickson.

GAS TAX INCOME CUTS STATE DEBT

Debt Slashed $9,000,000 in Year Ending June 30

Aided by a $4,899,000 increase in state gasoline taxes, Minnesota reduced its debt almost $9,000,000 for the fiscal year ending June 30, State Auditor Stafford King reported Monday.

Boost in the gas tax proceeds resulting from lifting war time rationing of the fuel, was from $18,672,909.56 last year to $23,188,476.05.

The total tax revenue also was heightened by raises in receipts from liquor taxes and all other major assessments excepting income levies and royalty and occupational taxes on iron ore.

This permitted cutting the state debt to $66,966,143.11, a slash of approximately $45,000,000 since the Republicans resumed control of state government eight years ago. The state indebtness is the lowest in 22 years.

Slumping of royalty taxes on iron ore from $2,356,811.66 to $1,340,222.57 and occupational taxes on iron ore from $9,355,590.47 to $6,274,476.99 for the fiscal year resulted, King said, from a drop in iron ore production from the war time peak.

There were slight increases in revenue from gross earnings taxes, motor vehicle taxes, state property taxes and inheritance taxes, all major sources of state income.

LYNN CHAMBER'S MENUS

*Stuffed Squash Bacon
Cottage Cheese and Fruit Salad
Carrot and Celery Strip
Muffins and Butter
Chocolate Cake Beverage
*Recipe given.

½ cup diced onion
1 cup canned whole kernel corn
1½ cup tomato soup or tomato sauce

Mix ingredients in order given. Form into patties and fry in two tablespoons of fat until golden brown. Place in a greased casserole and top with tomato soup or sauce. Bake in a moderate oven (350 degrees) for 45 minutes.

Sausage and Oyster Loaf.
(Serves 6)

1 pound bulk pork sausage
1 pint oysters ground while raw
2 cups soft bread crumbs
2 eggs, slightly beaten

Mix all ingredients together and place in an ungreased loaf pan. Bake in a slow (325 degree) oven until loaf leaves edges of the pan. Drain excess fat off occasionally. Serve with hot hollandaise sauce and green vegetables.

Before you start using your newly canned vegetables, make sure all the old ones are gone from the shelf. Here is fine supper dish that will use many home-canned vegetables easily:

Country Style Vegetables.
(Serves 6)

½ pound bacon or salt pork slightly
1½ cups onions, sliced
1½ cups canned carrots
1½ cups canned string beans
1½ cups canned kernel corn
1½ cups potatoes, sliced
1 cup medium white sauce
½ cup buttered crumbs

Cook bacon or salt pork slightly, then add onion and cook until crisp and brown. Arrange vegetables in layers in a buttered casserole and sprinkle each layer with bacon or salt pork. Pour white sauce over all. Top with buttered crumbs and add a dash of paprika. Bake in a moderate oven 20 to 25 minutes until casserole is browned.

Cream vegetables — any vegetable that will hold its shape, and serve with bits of diced leftover chicken or ham. This makes a nourishing, week-night supper.

The long yellow squash are delicious when properly prepared. You'll not need any meat with this one:

***Stuffed Cymling Squash.**
(Serves 6)

3 medium sized cymling squash
½ cup thick white sauce
1 tablespoon grated onion
2 tablespoons chopped green pepper
2 chopped hard-cooked eggs
1 cup grated cheese
½ cup buttered crumbs

Boil squash 10 minutes. Drain and scoop out center. Mash pulp, add white sauce, onion, green pepper, cheese and eggs. Fill shells with mixture, sprinkle with crumbs and paprika. Place in a shallow pan containing a little water. Bake in a moderate oven 20 to 25 minutes.

Veal Rice Loaf
(Serves 7)

2 pounds ground veal shoulder
1 pound ground pork
1 cup cooked rice
4 eggs, well beaten
¾ cup milk
½ cup chopped pimiento
½ teaspoon paprika
Salt and pepper

Have meats ground together. Combine with rice. Season with salt and pepper, paprika and pimiento. Moisten with eggs and milk. Pack into a greased loaf pan or ring mold and bake in 350 degree oven for 1½ hours. Serve with mushroom sauce.

SEEK 450 TOTAL MEMBERSHIP FOR COUNTY 4-H CLUBS

County's 17 Clubs Now Are Being Reorganized, Ernest Palmer Reports

Plans to make 1947 the greatest year in 4-H club history will reach their climax during Minnesota's special 4-H Enrollment Week, October 28 to November 2, says A. J. Kittleson, state 4-H club leader. Club members and leaders, county extension workers, and local farm leaders and organizations have already pledged their aid in enrolling members during and before the week.

Kittleson and 4-H leaders throughout the state have set Minnesota's 1947 membership goal at a record 61,000—9,000 over last year and 2,000 over the peak pre-war year of 1941.

In Pennington county the 4-H membership goal has been set at 450, County Agent Ernest A. Palmer says. Most of the county's 17 clubs plan to reorganize in late September or October with old members signing up for another year. Although the main drive for new membership will come during enrollment week, Pennington county boys and girls are urged to join their nearest local club as soon as it has been reorganized for 1947.

"The recent cancellation of the state fair, conservation camp and Junior Livestock Show because of the polio epidemic and earlier wartime restrictions have caused club members repeated disappointments. Their interest in 4-H work, however, has remained high and today members signing up for 1947 can look forward to the most complete slate of activities in club history," Kittleson declares.

The only requirements for 4-H club work is that the member be from 10-20 years old and that he or she enrolls for one of the many interesting projects offered in club work.

Prefabricated Houses Come Ready-Painted

A modern prefabricated house which is on exhibit in Washington, D. C., is described by its manufacturers as being "completely painted inside and out with the best of synthetic waterproof enamel paints," at the factory, before shipment and assembly. Several coats are applied, with the final color scheme varied as to the customer's choice, it is stated. The parts of the house are carefully protected against abrasion or soiling, during shipment. The house is intended to be put together without damage to the finishes.

In some other types of prefabricated houses, it has been the practice to apply only a priming coat of paint at the factory, and to put on the finishing coat after assembly of the house on the site selected by the purchaser.

The house shown in Washington is intended to comfortably accommodate four people. It has two private bedrooms, a bathroom and a combination kitchen-living room. Included are items such as an ice box, a four-burner apartment range complete with insulated oven and broiler, an automatic 20-gallon hot water heater, a unit heater, a shower bath, a lavatory, medicine cabinet, a toilet, kitchen cabinets and sink storage cabinet, extra shelves, a double bed, two single beds, two bookcases, a five-drawer vanity, a seven-drawer dresser, a seven-drawer chest, a mirror in each bedroom, two bedroom closets and other miscellaneous storage space. All necessary wiring and plumbing is included and cleverly built in.

The house weighs about 6,500 pounds. Packaged for shipment it is 26 feet long and approximately 8 feet 6 inches high. Extended it has a floor area of slightly more than 250 square feet, and is 15 feet 4 inches high.

Rare Wine

Before the war, owners of several German vineyards, when having a crop of unusual excellence, would produce, for sale to connoisseurs, a special wine which rarely exceeded 400 quarts in quantity as only the finest grapes were used. Among these wines was the famous "Trockenbeeren Auslese," a cask of which, containing this small quantity, has brought as much as $30,000.

Spraying of Potatoes Will Increase Returns

Spraying of potatoes is a paying proposition, says Henry C. Moore, research specialist in potato production at Michigan State college. "We have proved in experimental and test plots that spraying with DDT improves the quality of the potatoes and steps up production from 60 to 100 bushels per acre," he stated.

The specialist says the time to start is when the plants are four to five inches high. Spraying every 7 to 10 days is recommended, and more frequently if the season is wet. DDT will control the flea beetle very well. The potato leaf hopper, which causes the edge and tip of the leaf to turn brown and curl, also is effectively exterminated with the new killer. This hopper causes severe damage after haying time as it leaves the hay fields and migrates to the potato fields after hay is cut.

Contrary to the opinion of some, DDT can be used effectively with Bordeaux mixture or a fixed copper solution, Moore says. The Bordeaux mixture or fixed copper solution will control blight. DDT should be added last and the solution sprayed as heavy as 125 gallons to the acre. The tractor operator should drive slowly to get adequate coverage.

Too often, Moore has observed, farmers quit spraying too quickly.

Combat Photographer Hunts Congo Gorillas

Experience gained by Kenneth Elk of New York as a combat photographer in Europe will be utilized in a projected trip to the Belgian Congo where he will fulfill a long-cherished ambition to make color pictures of gorillas. Elk, who rose in the army from private to first lieutenant, won the bronze star and cluster and the Purple Heart.

He has invested $12,500 in a big motion picture camera, a hand movie camera and two still cameras, a sedan car and a trailer, besides other necessary equipment.

He will be gone about 11 months.

Going via North Africa, Elk intends to follow the Nile river as far as he can on his way to East Africa. When he gets to the Congo he will leave his car. Then, with two helpers he will climb the mountains in the hope of getting pictures of the gorillas, which, he said, have never been photographed, except for brief flashes.

Elk said that the gorilla is an elusive animal and that the mountain species is the largest. Their lairs are in the jungles about 4,000 to 10,000 feet up the mountains, on the borders of British Uganda and the Congo.

Six Ranges in Area

Six principal ranges are located in the Lake Superior ore region. They are the Marquette range in Michigan, the Menominee and Gogebic ranges which lie across the Michigan-Wisconsin border, and the Vermilion, Mesabi and Cuyuna ranges in Minnesota. Possession of most of these important areas came to the U. S. through interesting circumstances. Under the Treaty of Paris in 1783 the northern boundary of the United States was fixed roughly. Inaccurate maps and a pencil in the hand of Benjamin Franklin played a part in locating the wilderness inside the United States. In 1842 the boundary was fixed definitely by the Webster-Ashburton treaty.

South American Population

The population of all the Latin American countries combined is almost as large as that of the United States.

Minnesota University Enrollment Will Total 24,000 in Fall Quarter

University of Minnesota enrollment for the fall quarter will hit closer to 24,000 than the previously estimated 21,600, officials predicted Wednesday as registrations continued to skyrocket past the 22,000 mark.

Dean R. E. Summers, director of admissions, said 20,646 have paid fees so far, including 14,123 veterans, adding that payments generally lag behind registrations.

The estimated record enrollment would surpass by about 6,000 last spring's registration and exceed by some 8,000 the best pre-war enrollment—16,905 in 1940—Summers reported. Reversing previous years, 70 per cent of this year's students will be men, he added.

Army Resumes Peacetime Burial for Overseas Deaths

The peacetime procedure of returning to the United States for burial members of the army who die while in military service overseas was resumed on July 1, 1946. This procedure had not been followed since September, 1939, the date of the limited national emergency.

The quartermaster corps does not inter the bodies in temporary cemeteries but holds them in mortuary chapels at overseas stations until the next available transportation, either army transport or commercial carrier.

Current deaths are not to be confused with deaths during military operations. Those who died in military operations or subsequent to V-J Day, but before July 1, are buried in temporary military cemeteries overseas. Final disposition of their remains will be made according to the wishes expressed by next of kin following a questionnaire which will be sent to next of kin.

Danger of Poison Ivy Inflammation Is Small

Poison ivy affects only those persons who have been sensitized to it by previous exposures, according to Lester Hollander, M.D., of Pittsburgh, Pa.

"Poison of poison ivy is a sensitizing agent. It does not affect every one adversely. Even those in whom it causes a dermatitis are not afflicted by it the first or perhaps the second time they come in contact with it. After the epidermal cells have become sensitized to this poison by several contacts, it creates in many individuals a sensitivity that results in blisters, swelling and inflammation of the skin."

Usually the symptoms appear 4 to 10 days after exposure, the author states. However, the more frequently the patient had previously suffered from poison ivy poisoning the quicker the symptoms appear. "Not only will the skin react sooner in such patients, but the irritation will also be more intense, dynamic, lengthy and uncomfortable."

The duration of the skin inflammation varies with the severity of the poisoning, sensitivity of the patient, quality of treatment and the reconstructive ability of the affected skin, according to the author. "Even a moderate attack may be prolonged for weeks and leave the patient exhausted from sleepless nights, restless days and nervousness."

Dr. Hollander says that "some experienced medical practitioners maintain that dermatitis venenata (skin inflammation) caused by poison ivy is preventable by immunization."

Extracts of the poison plant are administered either by mouth or by hypodermic injections. At present the injection method finds the greatest number of adherents."

Although not always successful, dreams are devices for allaying disturbances which would interfere with sleep.

Rites in Satersdal Church for Mrs. Thuri Ose Tuesday Afternoon

Final services were conducted in the Satersdal Lutheran church Tuesday afternoon for Mrs. Thuri Ose, long time resident of Pennington and Marshall counties, who passed away Saturday at her home at 723 Arnold N. at the age of 68 years. Rev. Silas Erickson was the officiating clergyman, and the body was laid to rest in Satersdal cemetery.

Mrs. Ose, born in Fisher Sept. 13, 1883, moved with her parents as a child to Canada, where they farmed until the death of her father. They then moved to this city, where Mrs. Ose was employed until her marriage Aug. 5, 1911 to Tallak Ose. They farmed in Marshall county until 1943, and following her husband's death, Mrs. Ose came to this city, residing at the home of her daughter, Mrs. Jim Johnson.

Five daughters and one son survive including Mrs. Jim Johnson, Ann and Kenneth Ose of this city, Mrs. Gene Sanford of Minneapolis, Mrs. Wm. Meadows of Jacksonville, N. C., and Miss Luida Ose of Minneapolis; one grandchild; and a sister, Miss Tillie Austad of Minneapolis. Her parents, husband, four brothers, and two sisters preceded her in death.

Hamilton's CLOTHING—MEN & BOYS

Seems as if there will never be enough

"BOTANY BRAND 500"

TAILORED BY DAROFF

$50

The Fabric is the Soul of the Clothing

Each season, we hope to be able to fill the overwhelming demand for "Botany Brand 500" Suits and Topcoats, Tailored by Daroff.

Each season, more and more of the fabric that is the soul of the clothing rolls off the looms of the famous Botany Worsted Mills.

Each season, Daroff's master-craftsmen stitch, with reverent care, more of this magnificent apparel.

Each season, in spite of increased quantities, the demand for this treasured clothing far exceeds the supply.

This season is no exception. So we must say, again, come early...and we'll do our best to serve you with the clothing that will serve you best.

4,000 PERSONS IN WARREN SATURDAY FOR HOMECOMING

Celebrate Return of Veterans and Finishing of Paving to Argyle

More than 4,000 Northwestern Minnesota residents packed the streets of Warren from early morning until late Saturday Saturday to participate in the Marshall-Northern Polk County veterans' homecoming and U. S. 75 paving dedication staged by the Warren commercial club.

Nearly 700 veterans of World War II were honor guests during the day's ceremonies, which opened at 10:30 a. m. with a homecoming parade, more than a mile in length and which included more than 90 units. It was the largest and most colorful parade ever staged in Warren and will go down in history as one of the most outstanding ever produced in Northwestern Minnesota.

While the sky was slightly overcast at various times during the day, no rain fell which aided materially in the success of the celebration.

Governor Edward J. Thye was the feature speaker of the day during the program in Great Northern Park. He paid high tribute to the men and women veterans from Marshall and Northern Polk counties and also officially accepted the concrete slab of pavement between Warren and Argyle which all but completed the hard surfacing of Highway 75 in Marshall county.

Winnipeg was well represented in Warren during the day with many prominent citizens from the neighboring Canadian city being here for the ceremonies. Greetings were expressed by Charles Simonetz, acting mayor and Erick Willis, Manitoba minister of public works, while in the evening the address to the veterans was delivered by William Radcliffe, Winnipeg, vice-president of the IWVA.

Solar Eclipses

While a total eclipse of the sun takes place somewhere on an average of every 17 months, countless millions of persons have lived and died without seeing one. No total eclipse was seen in London, for example, between 1115 and 1715, or during a period of 600 years.

Shapely Coats

To help fur coats retain their shape, keep them buttoned when standing, unbuttoned while sitting.

Minnesota Boy Wins Scholarship

Fifteen-year-old Eugene Schwietz, of St. Paul, Minn., is assured a college education because of his excellence in craftsmanship. Schwietz won second national honors and a $2,000 university scholarship in the junior division of the Fisher Body Craftsman's Guild 1946 model Napoleonic coach building competition. The award was announced by Dr. George J. Fisher, national Boy Scout commissioner and honorary Guild president, shown at right. At left is T. F. Archer, General Motors vice president and general manager of the Fisher Body Division.

Flat Bottomed Pans

A flat bottom helps keep a pan steady and means faster heating and more economical use of fuel on electric, coal or wood ranges. Pans for gas or electric stoves should have dull-finished bottoms to save fuel. A dull finish absorbs heat in contrast to a shiny finish which reflects it.

Maple Syrup

An average maple sugar tree yields about 15 gallons of sap; 45 to 50 gallons are needed to make one gallon of syrup.

Fish Eyes

The lens of the eye of a fish is round like a marble and not flexible, as in human eyes. The fish's eye focuses by movement of the lens forward and backward.

Game Fat

There is little fat on small game meat, so if you plan to freeze your game, wrap it carefully before you put it in your locker to keep it from drying out.

School opening brings with it the usual safety problem—more youngsters on the streets and more chances for accidents. The school patrol does a good job but the sphere of influence of the school patrol is limited to a few busy intersections and during the rush periods every intersection is a danger point. During these rush periods drivers have an added responsibility of careful driving. The most effective way to assure safe driving during these hours is to enforce safe practices at all times, and the most effective enforcement is self-enforcement.

Forest fires cost the United States more than 20 million dollars last year and in Minnesota alone more than 20 thousand acres of forest were destroyed by fire. Not all of these losses could have been prevented of course, but most of them undoubtedly were due to carelessness. Forests are one of Minnesota's greatest natural resources. Even in their present depleted condition they support one of the state's largest industries and if properly developed and protected they will prove to be the source of great wealth to future generations. We get little comfort out of the knowledge that we are not doing a good job in this department.

Joe Stalin has expressed the belief that Russia and the western democracies can live peacefully together in the same world and it is encouraging to know that Joe feels that way about it. We are inclined to the same opinion. The world isn't very big but it should be large enough for even people who don't like each other to get along without bloodshed. Of course it would be lot easier if there were no hatreds or prejudices. These, everyone will agree, should be eradicated. It's all so simple when you are not in a fighting mood. Unfortunately nations, like individuals, sometimes get nasty. There occasionally is trouble in the most peaceful neighborhoods, and so we have rules of conduct, even by force if necessary. It is fine to hear world leaders say we can live peacefully together but the future would look brighter to us if world leaders would get together and say by gum we are going to live peacefully together.

Officials charged with the responsibility of enforcing OPA price regulations have our sympathy. During the war price control had popular backing and it still would have popular backing if the government's program of price and wage control had been strictly enforced. The worst sinner in this fiasco has been the government itself. The good work of one government agency has been completely undone by the bad performance another government agency and the result is a lack of confidence by the public in all control regulations.

Topics of the Times

Today's definition — A meat market is a place that sells poultry and fish.

The Federal Reserve bank tells us a lot more dollars are now in circulation, but, we are reminded, they also are a lot smaller.

Local students away at college ought to know what a sardine feels like.

We don't like to mention it, but October 1 means it's time again for you motorists to invest in a set of 1947 license plates.

A newly wed, says the Wahpeton editor, in filling out his income tax return, listed a deduction of $500 for his wife. In the space to list exemptions claimed for children, he penciled the notation "Watch this space."

Senator Claude Pepper seems to be an important ingredient in Russian dressing.

If President Truman gets involved in a few more episodes like that Wallace speech deal, he will have earned the sobriquet, "Hapless Harry."

It won't be long now, as the Mahnomen Pioneer suggests before they will be shooting deer wearing red capes and smoking cigarets.

Somber thought — The leaves are leaving.

The Minneapolis Leader, D-F-L publication, hints that the Republicans in Congress are to blame for the rising cost of living. And all the time we thought the Democrats were in control.

Judging by his advocacy of appeasement toward Russia, Henry A. Wallace is grooming himself to serve as the left-wing candidate for the presidency in 1948.

The dogs in Siberia are the fastest in the world, reports Billy Noonan, who explains that trees there are miles apart.

Small Garden

In planning a small garden for limited space and time, get most food with the least work by planting crops which yield well in a small space. Tomatoes, carrots, snap beans, broccoli, kale, beets are among the prize vegetables for the small garden.

Firm Tip

When the tip comes off a shoelace, dip it in glue, twist between forefinger and thumb and let dry overnight; the end will be firm but pliable.

Big Family of Beetles

The beetles of the family Cleridae, commonly referred to as "clerids" by entomologists, form one of the more interesting groups within the vast assemblage of beetles. The majority of the 3,000 known kinds of clerids are attractively marked and many possess some of the richest and softest colors found in the beetle group. Most of the species are rare in nature, but some are occasionally found in numbers on the trunks of dead trees and are important in controlling destructive timber-boring insects. Others are frequently collected on the heads of bright colored composite flowers. One species, occurring in beehives, was well known to the ancient Greeks and is mentioned in the writings of Aristotle.

'Gray' Flour Keeps Poorly

The new "gray" flour keeps poorly as flour, batter, dough or bread, and even dough for refrigerator rolls will not keep satisfactorily for more than two days, the foods authorities say. However, the new flour is fine for waffles and muffins, or in other recipes calling for the use of eggs. It is suggested that cup cakes be made instead of layer cakes. Cookies made with spices, molasses or chocolate are satisfactory. The new flour has two enemies —rancidity and weevils. Control lies in buying small amounts of flour or bread.

Farm and Implement News

NEW GRAIN THRESHER

Just received today a 28-46 McCormick-Deering grain thresher. The very latest construction, on rubber tires and ball bearing axel. This open for sale to first come first served. Two received but one already sold.

We have just received a limited supply of barb wire, sheep and hog netting also some poultry, garden and rabbit netting which is 48-in. high and with 19 horizontal bars.

Many have been waiting for field cultivator shovels and we are pleased to announce that we got in a good supply today—but they won't last long.

We have two corn shellers. One large Mc-Drg. power size, and one of the small ones, for stationary engine or electric motor drive.

Prowlers Win 32-0 from Warroad; Play Crand Forks Friday

For the second week in a row the Prowlers offense rolled up 32 points—last week they defeated St. James Academy, 32 to 18—and the result was a 32 to 0 win over coach Jim Young's Warroad high school eleven in a game played here Saturday night.

On Friday the locals will engage in their first conference game, meeting the heavy and strongly favored Grand Forks Central team under the lights on the Lincoln field. In their first contest of the year, and in a conference game, Grand Forks walloped Crookston, 26 to 0, at Grand Forks Thursday night.

The Prowlers racked up their first score early in Saturday night's tussle. Swede Lund made a ten yard return of a punt, bringing the ball to the Warroad 40-yard stripe. Marlow Davidson on a spinner, dashed through right tackle for a first down on the 30-yard line; Al Williamson, who started at fullback, gained 4 yards at right tackle; Davidson hit the same spot for 5 yards; and Lund went for a first down on the 12. Williamson, with a shifty run, gained 11 yards, to the Warroad 1-yard line. Davidson failed to gain, but Lund knifed through left guard to go over the east goal for the first touchdown. Davidson added the point on a line plunge.

Holding for downs on their 18-yard line, the Prowlers began their second touchdown march late in the period, and as the second quarter opened the Prowlers had the ball on the Warroad 40-yard line. Vigness entered the lineup in the second period and, on a lateral pass, he sprinted to the Warroad 29 yard line. Williamson dug into the line for a yard, and Bob Larson, on a sneak, failed to gain. Vigness then broke through left tackle for a 28 yard touchdown sprint.

Al Williamson intercepted a Warroad pass, tossed by Orville Kofstad, on the Warroad 46 and carried the ball to the Warroad 6 yard line before being downed, to set up the Prowlers third score. Glen Narverud bounced through left tackle for the tally. A few minutes later, with the ball in possession of the locals on their 49-yard line, Williamson flipped a pass to Rob Amundson, who made the catch on the Raiders' 28-yard line was barely brought down on the 1 yard line. Marlow Davidson spun through left tackle for the score.

Les Vigness accounted for the final marker, with the Prowler captain, on a pass play, being rushed and then deciding to run with the ball, broke out around left end, with some shifty open-field running sprinting 22 yards to cross the east goal. Bob Larson added the extra point on a line plunge, bringing the Prowler total to 32.

Al Williamson, Swede Lund, and Marlow Davidson—and of course Vigness—were standouts in the Prowler backfield. Bob Larson played a strong defensive game in backing up the line. Up front, and the Prowlers revealed improvement over their play against St. James, it was Geoge Paulsen, Harry Simons, Glen Magnuson, and Al Engelstad who were especially noticeable on defense.

Coach Young's Warroad team, with a number of veterans in the lineup, was sparked by Gordy Christian, Max Oahle, Sam Gibbons and Orville Kofstad. Christian, playing at quarterback, being effective as a runner and passer.

GOLFERS NOW IN FINAL STAGES OF CITY TOURNAMENT

Winners of 7 Flights in Annual Local Event Announced This Week

With only a couple of matches remaining to be played, and those are in the consolations of the first flight winner and runners-up have been named in the city golf tournament. Vic Jung regained the city championship he held a few years, defeating young Keith Jorde in the finals. The defending champion, Dr. Homer Hedemark, was eliminated in a first round match by Jorde, but he salvaged some satisfaction out of the tourney by winning the championship flight consolations, winning over Kern Olson.

In the first flight play, Jim Jorde another of the Jorde golfing brothers, defeated Rev. A. I. Merth in the flight finals. The consolations in the first flight will be decided in the match between Dr. Ed. Bratrud and Blackie Stephens.

The flight winners, runners-up consolatins and consolations runners-up:

Vic Jung; runner-up, Keith Jorde; consolation winner, Dr. Homer Hedemark; runner-up, Kern Olson.

First flight: winner, Jim Jorde; runner-up, Rev. A. I. Merth; consolation winner Dr. Ed. Bratrud vs. Blackie Stephens.

Second flight winner, Phil Fjelstad; runner-up, Lenny Hurst; consolation whitter, Jarvis Erickard or Oscar Cerny.

Third flight: winner, Haakon Olson; runner-up, George Mostue; consolation winner Rudy Sagmoen; runner-up, Fred Lorentson.

Fourth flight winner, Wally Carlson; runner-up, Les Skattum; consolation winner, Clarence Knudsen; runnerup, Hank Storhaug.

Fifth flight: winner, Ed Stonich runner-up, Chris Rinkel; consolation winner Milo Gulbranson vs. the winner of the Dr. W. P. Kaisler and Bob Peterson match.

Sixth flight: winner, Wally Duchamp; runner-up Tony Dorn; consolation winner, Don Olson; runner up, Dick Mabey.

Minnesota produces commrecially between 8 and 9 million pounds of fish a year.

Keeping Score

Attention: Bowlers

League bowling will commence on the Mint alleys on Monday night with the City League, composed mostly of teams from fraternal organizations, opening their schedule. On Tuesday night the Commercial league will take the lanes; on Thursday evening the Business league will bowl; and on Friday night the six team straightaway league will open their schedule.

Monday night will find the Elks vs. the Eagles; Legion vs. Rotary bowling at 7:15. At 9:15 the Lions vs. V. F. W. and Western Oil vs. Poppler's. Tuesday night the commercial league will have Land O' Lakes vs. Hartz Bakery, and the Elks vs. Shell Oil in the first shift; and at 9:15 the Soo Line vs. the Pharmacy, and Forkenbrock's vs. the St. Hilaire Bisket's.

The Business league on Thursday evening, Oct. 3rd, will find the Eagles vs. Thief Pivar Grocery, and St. Hilaire vs. Bridgeman's at 7:15. The Creamery vs. Kiewels and Hartz Office vs. Len's Tire Shop are slated for 9:15. On Friday night the Straightaway league will begin bowling, with the Schmidt's meeting Oens; and Tunberg Motors rolling Poppler's at 7:15; and the Len's Tire shop bowling the Grain Belt at 9:15.

It appears that the red-hot bowling rivalry will be crammed into that Friday night league, which will operate on a straight-bowling basis, without handicaps. The Oen's team, the city champions will have Wally, Jess, and Bob Duchamp in their lineup, and have been installed as the league favorite; but the Tunberg Motors, with such keglers as Hans Bergland, Walt Ekeren, Frank Koblaska Ed and Wally Larson, on the squad and the Poppler's with Merle Carlson, Owen Scramstad, Fred Lorentson and Ed Karwand on the team will press the Oen's plenty. And John "Snort" Langseth is organizing a team for the Schmidt's and with Snort at Anchor, and bowling up to his average, that team doesn't need much help before it can make trouble for the favorites.

The "Honeymoon" is Over

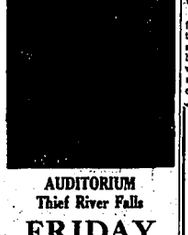
During the past two weeks, in which Coach Lindenmeyer's squad racked up a pair of convincing victories, the boys have been having fun and, except for a few minutes in the first half of the St. James encounter, haven't been forced to extend themselves. But that will be all changed tommorrow night for when the Prowlers meet up with Ed Bohnhoff's bulky Grand Forks Central eleven, the pressure will be on the inexperienced locals from the opening kickoff.

Last year the Grand Forks team was co-holder of the North Dakota state championship, and last year too you'll recall the Prowlers, playing at Grand Forks, upset the Maroons by a solid 23 to 0 score; Conch Bohnhoff, and players Jim Blachke, Tony Hughes, Pete Simonson, Jim Lium, Bob Whitman, and Carl Morken, who played in that game, haven't forgotten that defeat and they'll be "up" for Friday night's game. Last Thursday, playing an all-veteran Crookston Pirate eleven, Grand Forks scored a 26 to 0 win, so you see that the Maroons will carry scoring punch on the field tommorrow.

But while the odds will be greatly in favor of the more experienced and heavier Grand Forks team, the Prowlers, with Les Vigness in the backfield and feeling fine—he's been troubled by a back injury—will cause Coach Bohnhoff some anxious moments. And if the Prowler front line can outspeed the bulky Maroon forwards, and if the blockers can provide some interference, it'll be interesting to watch Viggy, run. He'll be up against the toughest defensive outfit he has faced this year. The kickoff will be at 8:00 p. m. on the local field.

"The Greatest"

And indication that the local postoffice is alert was given this week when a letter, bearing only the inscription, "The Greatest", Thief River Falls, was delivered, and without hesitation, to Russ Embury, the city's good will ambassador.



Worth Bragging About

On Monday one of the largest walleyed pike of the season was brought into town when Milt Zimmerman, bent nearly double, exhibited a ten and a half pounder. The walleye, and it looked bigger than it weighed, was caught in the lake of the Webds, off the channel at Warroad.

may not be killed at any time: Chukar partridge, Canada spruce grouse, ruffed grouse, pinnated grouse (prairie chicken), sharptail (white breasted) grouse, wild turkey, upland cackling geese, and white fronted geese.

DRIVERS PERMITS FORFEITED HERE

One Revoked and Six Suspended in August

License of one driver in Pennington county was revoked and six were suspended in August, according to figures released by the Minnesota highway department. For the entire state there were 432 revocations and 980 suspensions, a total of 1,412, only ten less than the high record set last May.

Conviction for driving under influence of intoxicants was responsible for the greatest number of revocations, 388. Other causes of revocations included 16 committed as inebriates, 12 repeated speeding and 12 hit-run convictions.

There were 475 suspensions under the Safety Responsibility Act, due to failure to file proof of ability to settle claims arising out of accidents. Other causes of suspensions included 250 speeding, 82 failure to continue filing proof of financial responsibility, 80 reckless driving, 67 failure to furnish doctor's statement or eye tests, 64 failure to take driving test.

Lists of persons whose licenses have been revoked or suspended are filed with the sheriff of each county and with all city police departments each month, and are open to public inspection.

Fargo OPA Office Plans Addition to Personnel

Office of Price Administration is seeking qualified attorneys, price specialists, analysts, and economists for price and enforcement divisions of OPA, it was announced this week by the Fargo office.

Price specialists, needed for the buildings material field, must have at least four years of responsible experience in that field. Salaries for the four types of employment listed range from $3,397 to $4,902 per year.

Qualified stenographers are also needed. Salaries range from $1,954 to $2168 per year. Further information and application blanks may be obtained from H. W. Griffin, OPA administrative officer, Universal Building, Fargo, North Dakota.

Picture Outline

To prevent a picture from leaving a dusty outline on the wall, put a thumb tack or carpet tack in the bottom of the frame on the side next to the wall. This leaves space for dust to drop through.

Dilute Bleach

If you use a bleach when you wash your towels, be sure to dilute it. If you use too strong a bleach it will weaken the fabric. One good way to bleach towels is to dry them in the sunshine, but be sure you bring them in as soon as they are dry. Don't let them whip about in the wind too long, since the wind may loosen the yarn at the corners of the hem, and cause them to fray. If the selvage wears out, take several rows of stitches along the edge. This will check the fraying and it will strengthen the edge and make the towel wear longer.

News of R. R. Valley Home for the Aged

Occasionally a week passes in which little material for a news column is produced. The present is one of them.

The young people's society gathered here again Friday evening and presented a varied program of songs, readings, etc. closing with an address by Rev. E. F. Rahlmo.

Mrs. Ingrid Sandberg had as guests one day last week, Mrs. Archie La Courseire and son Ronald and Mrs. Arthur Lambert of Oklee. Mrs. LaCourseire is a daughter of Mrs. Sandberg.

Rev. Ronholm called on friends at the home Monday evening.

Although all is well with everybody here at the present time we do note a slight depressing tendency in a number of cases as manifested by head colds and such dis- presumably to the prevailing raw and cooler weather.

Two cash memorial gifts have been received here during the week. One from Mrs. Christine Hedquist, Warren in memory of Louis Hedquist and one from United Lutheran church, Gatske, C. E. Engelstad, Treasurer given in memory of Mrs. Theodeo Johnson by the Tate and Ruud families of that community.

At the time our kitchen garden crop except for rutabagas and cabbage is quite well taken care of and with the full cooperation of neighborhood youngsters even the plum trees are left standing around with nothing more to offer reminding us of the good old days where the syrup cans used to be.

RANDEEN RIDGE

Sunday night was a night of enjoyment at the home of Fred Ice in honor of Walter Skime whose birthday was being celebrated that day. A large crowd attended and the evening was spent very pleasantly visiting and a group of boys made the evening more enjoyable with some very nice music on the guitar, banjo, and violin. At lunch Happy Birthday was sung for Walter and Mrs. Ezra Davy whose birthday was the same day. Lunch was brought by the guests and featured a white cake with 23 candles on it. Walter was the recipient of many very nice presents.

Stanley Aaserud of Skime was a week-end guest at the Emil Ostlund home.

Mr. and Mrs. Morris Windsnes of Grygla called at the Ezra Davy home Sunday in honor of Mrs. Ezra Davy's birthday. Mrs. Davy was the recipient of some very nice gifts also a birthday cake which Mrs. Windsnes baked. It was a pink cherry cake trimmed in white and green.

Lester Ostlund and Kenneth Evans left for the potatoe fields on Sunday.

Mr. Cliff Davy and son-in-law of Grand Forks and Mrs. George Reichert and boys of Page, N. D. were week-end guests at the L. H. Davy home.

Mr. and Mrs. Roy Welche who is working in Grand Forks was a week-end guest at the Chas. Warner home. They visited also at the L. H. Davy home while here.

Ezra Davy who is working at Laverne, N. D. visited in his home here over the week-end.

Mr. Fred Herrick of Middle River visited at the L. H. Davy home on Saturday. Mr. Davy accompanied him back to Middle River the same day.

Guests at the L. H. Davy home for dinner on Sunday were Mr. Cliff Davy and son-in-law and Mr. and Mrs. Roy Welch of Grand Forks and Mrs. George Reichert and boys of Page, N. D., Mr. and Mrs. Leonard Westberg and Lenny Mrs. Anna Westberg and Mr. and Mrs. Ezra Davy and children were there the same day.

Mr. and Mrs. Leonard Westberg and Mrs. Anna Westberg took in the show in Roseau on Sunday night.

Tourist Trade

In a recent bulletin, Pennsylvania placed a value of $340,000,000 a year on its tourist business.

GROWING WITH YOUR CHILD

Institute of Child Welfare, University of Minnesota

Is he Unsocial?

"Jim was playing in his sandbox yesterday when Joe and Dick came over to play. Each of the three played with different toys and no one paid much attention to anyone else. Sometimes Jim took Joe's or Dick's pan, but they didn't play together. Why is Jim so unsocial?"

To meet this question we need additional information. First, how old is Jim? "Two and a half." How much has he played with other children? "He is an only child and has not played with others until recently when Joe and Dick, who are about the same age, moved into the neighborhood."

We can reassure Jim's parents that he isn't anti-social; nor is he permanently unsocial. He is passing through a stage that is called "parallel play". The young child is too absorbed in his own activities to pay attention to others. Although he may play alongside his companions there is no real give and take. Each child is engrossed in his own activity; talking may occur without anyone paying attention to the others' remarks. A certain amount of exploration and manipulation of materials is necessary to learn what can be done with play materials. This learning takes place during solitary and parallel play.

After the child has had experience with materials, he begins to learn about other children. At first he may be content with mere physical proximity. How long this stage lasts depends, in part, upon the amount of experience the child has with other children. Sometimes he is an "onlooker" or spectator before he joins in group play. True cooperative play, where children really play together in a group, is the next stage. Here children may take different roles—father, mother, dog, baby; or one builds a certain part of the house and another child works on a different part. Through this sharing of responsibility for a group activity the child learns to be "social."

Island is Born

The Mediterranean floor near the island of Pantelleria pushed up 600 feet to break the surface in 1831 and build 200-foot-high Graham's Island, which was reduced in a few months to a black sand bar. In 1811, Sabrina Island rose 300 feet high off St. Michael in the Azores, soon vanished, repeating similar performances there in 1691 and 1720.

Record Enrollment of 2,380 at University of North Dakota This Year

Exceeding all previous entrance records, 2,380 students passed through the doors of the registrar's office at the University of North Dakota in Grand Forks before the doors locked Tuesday afternoon, final registration day, Registrar Ruby McKenzie announced.

A freshman class of 1,169 men and women was not only the largest class in the school's history but exceeded the total registration at the same period last year, when 977 students had registered.

First year at the opening of school, women outnumbered men by almost two to one. This year's figures show men exceeding women by three to one with 1,745 men registered and 695 women.

The 1945 figures were 636 women registered and 341 men.

TECHNOCRACY

TECHNOCRACY—new, startling, fundamental — has invaded the minds of North Americans with unparalleled boldness and force. Its original research summary, a simple statement of facts about the critical period in which we find ourselves, startled the world. The questions it posed still remain unanswered.

Technocracy not only made the American people 'fact conscious', but confronted the entire Continent with the inevitability of fundamental social change.

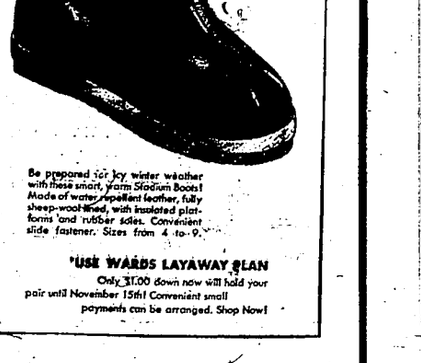
Technocracy's position is based on facts, not rhetoric. Its message has cut deep. It has reached more intelligent and functionally important citizens in all walks of life than any other organization, and continues to do so.

Technocracy's scientific approach to the social problem is unique, and its method is completely new. It speaks the language of science, and recognizes no authority but the facts.

In Technocracy we see science banishing waste, unemployment, hunger, and insecurity of income forever.

In Technocracy we see science replacing an economy of scarcity with an era of abundance.

In Technocracy we see functional competence displacing grotesque and wasteful incompetence, facts displacing guesswork, order displacing disorder, industrial planning displacing industrial chaos.



Technocracy is the extension of science to build a civilization worthy of the intelligence of man.

Technocracy concerns itself with the Continental Area of North America alone. Technocracy marks a turning point in American History—the birth of a greater America. Technocracy contains all the elements out of which great movements are made.

CITY COUNCIL PROCEEDINGS

Thief River Falls, Minnesota.

The City Council of the City of Thief River Falls, Minnesota, met in regular session in the Council Chambers in the Auditorium and Municipal Building on September 20th, 1946. The meeting was called to order at 7:30 P.M., with all members present, Simons, Brodseen, Engelstad, Anderson, Berge, Nelson.

Minutes of the meetings of August 12, 19, and 26th were read and the same were declared as approved and adopted.

Monthly reports of the City Clerk, Treasurer, Manager of Sports Arena, Weighmaster, Secretary of Fire Department, Dairy Inspector and Department of Parks were presented, examined and ordered filed.

A petition was presented, the same being signed by Mr. Roland Ivey Ivey, Jr. and Mrs. Oscar Johnson and others residing on Horace Avenue North, requesting the present sewer fill on the corner of Seventh Street and Horace Avenue be replaced with an underground fill in order to eliminate the traffic hazard which has existed since its erection in the present location. The matter was referred to the City Engineer to work out the details in connection therewith and report his findings to the City Council at a later time, signed by Peter Iverson, Melvin Bengtson and others residing in the vicinity of Block 40 of the Original Plat of Thief River Falls. It appearing that the petitioners requested that the Council take steps to dispose of the real estate owned by the City and known as Lots Four (4) and Five (5) and the East half (½) of Lot Six (6) in Block Forty-seven (47), Original Plat of Thief River Falls, Minnesota, which petition was ordered referred to the Building Committee of the Council.

Applications for new and renewal licenses were presented, as follows: Thomas Hanson, 216 Knight Street, for resident dog license; Ruth Grain Belt Distributing Company, distributor of 3.2% beer, 222 East First street; Ivy Theater renewals, K. E. Tisdel, 242 North Avenue North, Zeiger Theater and Ivy, 313 Third Avenue North; and Surterial Cleaners, 321 North Arnold. Alderman Anderson moved that such applications be approved and that the Clerk be directed to issue licenses therefor. The motion was seconded by Alderman Berge and adopted by unanimous vote by roll call.

Applications for moving and new construction and remodeling building permits were presented, as follows: Woodrow C. Cook, moving into or pending Knight Street, Lots 1-2, converted to residential purposes and moving the same to Lots 7-8, Block 1 of Porter's Addition; Ray Webber, moving a building for residential purposes from No. 9 Lot 2 and Block 3, Knox Addition to Lot 3, Block 4 and placing the same on Lots 23-24, Block 3, Peterson's Addition, cost $1,000; Ray Webber, remodeling and moving Lots 23-24, Block 3, Peterson's Addition, cost $2,000; Ernest Cook, private garage, Lots 7-8, Block 1, Porter's Addition, cost $250.00; Donald H. Toomey, private garage, Lots 16-17, Block 9, Porter's Addition, cost $100; Chas. Snowbeck, private garage, Lots 21-22, Block 2, Red Lake Rapids, cost $250.00; Edwin Lingquenard, new residence, Lots 1-2, Block 2, Riverside Addition, cost $5,000; Ernest Hanson, new residence, Lots 9-10, Block 2, Cooley's Third Addition, cost $1,400; Mary Lawrence, garage, Lots 10 (Lundy), Lots 7-8, Block 11, Porter's Addition, cost $150.00; Lester Tasgrit, private garage, Lots 20-21, Block 3, Red Lake Rapids, cost $300; Dahl's Bakery, alterations, cost $300; Dahl's Bakery, alterations, removal of bakery, Lot 23, Block 35, Original Plat, cost $2,000. All such applications bearing approval of the Building Inspector, Alderman Engelstad moved that such applications be approved and granted and that the Clerk be directed to issue permits therefor. The motion was seconded by Alderman Anderson and adopted.

Alderman Berge presented bids for coals for the furnishing of coal for municipal buildings for the current season, the same being opened and read. The motion was seconded by Alderman Nelson and adopted. Bids and bids were as follows: Red Lake Fuel Company, at $11.50 per ton, treated Screenings, delivered in bins, treated, $11.50 per ton, treated and delivered, City Ice & Fuel Co., Kentucky Screenings delivered in bins, treated, $11.50 per ton, treated and delivered, Minnesota Domestic Stoker Coal, delivered in bins, treated, $12.85 per ton, treated and delivered, Alderman Berge moved that the proposal of Red Lake Fuel Company, $11.50 per ton, treated and delivered, City Ice & Fuel Company, $11.50 per ton, treated and delivered, be accepted and that the Mayor and Clerk be directed to enter into contracts therefor. Said Red Lake Fuel Company is a resident bidder, as the terms of bid and that the performance bond of said bidder be fixed in the sum of $2,000 and approved by the Council. The motion was seconded by Alderman Simons and upon adopted by unanimous vote of the Council by roll call.

Alderman Engelstad introduced the following resolutions and moved their adoption: The payment of Estimate No. 8 to Minneapolis Bridge Construction Company, $6,995.43, reconstruction of power dam across Red Lake River; the payment of Estimate No. 3 to Prichard Tree Company, Receivership Building to Raleigh Park, $175.87 and the payment to Red Lake Fuel Company, $445.73 for furnishing and installation of coal chutes in the Courthouse Annex in accordance with Alderman Berge's report and bid, and moved that such resolutions be adopted. Alderman Anderson seconded the motion and such resolutions were thereupon by roll call unanimously passed and adopted.

Alderman Anderson introduced a resolution directing the Mayor and Clerk to execute on behalf of the City a contract with Oscar Schenkey for improvement of the Municipal Airport consisting of clearing, disking, grading, drainage and markers in the aggregate amount of $2,250. It and accepting and approving the performance bond of said contractor in the said amount, and moved the adoption of such resolution. Alderman Nelson seconded the motion, on roll call the following voted Aye: Simons, Brodseen, Engelstad, Anderson, Berge, Nelson. The following Alderman voted Nays: None. The resolution was thereupon by the President, declared passed and adopted.

The application of L. R. Schultz for a Special Permit to allow the moving into corporate limits of a building to be used for residential purposes and placing the same on Lots 6-7, Block 2, Goddard's Addition, a continuing use in an Industrial and Commercial District of the City as described in the Zoning Ordinance, which application is presented at the meeting of August 12th and action deferred, was accompanied by a duly executed petition of 70% of the land owners within 200 feet of such proposed location to allow such use. Alderman Engelstad moved that such special permit be granted and that the Clerk be directed to issue the same to the applicant. The motion was seconded by Alderman Engelstad and adopted.

A communication signed by the Mayor and dated August 26th, 1946 was presented and read, the same stating that in the estimation of the contract for improvement of the Municipal Airport between the City and Oscar Schenkey, was illegal and void and that until he was satisfied as to legality of proceedings he would not approve any warrants to sign all checks for any payments made to the contractor under such contract. The communication was read and filed. The firm of Hitchcock and Stebbins, Consulting Engineers, Minneapolis, Minnesota, presented a report and plans of same as taken from a location outside of the City limits in connection with the possibility of a dug well supply of water for City service and the same was read and filed.

Alderman Engelstad introduced resolutions approving for payment various current bills and claims against the City and moved their adoption. The motion was seconded by Alderman Anderson and such resolution was thereupon by roll call vote unanimously passed and adopted.

Alderman Anderson then moved that the meeting be adjourned, which motion was seconded by Alderman Engelstad and unanimously carried and the meeting was declared adjourned.

ALFRED BREDESON,
President of the Council.

Attest: P. G. Pederson,
City Clerk.

Bride-Ales

Brides may be surprised to know that the word "bridal" comes from the word "bride-ale." Bride-ales were old English wedding feasts at which ale was the chief drink. Other festivals were also called "ales" when the drink was served.

Early Beauticians

Our word cosmetics comes from the Greek by way of the Latin. The cosmetae were Roman slave girls who anointed their mistresses with pastes and paints; the beauty operators of their day.

Potatoes Not Fattening

Contrary to the belief of many, potatoes should not be thought of, as fattening. The total calories eaten in a day is the deciding factor in determining whether weight is gained or lost. A medium sized Irish potato has no more energy value than an orange or apple and these two fruits are not considered fattening.

Castles in Spain

The Pyrenees, whose cloud-enshrouded crags and snowy peaks are original "Castles in Spain," stretch for about 260 miles in an unbroken line from the bay of Biscay to the Mediterranean sea. On the French side erosion has modified the slopes, and the valleys are green. The Spanish side, however, is more rugged and barren, with some of the mountains rising to a height of two miles or more.

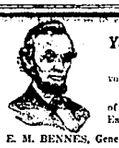
White Races

"White" races are not really white. The skin-color is actually a combination of yellow and black pigments, creamy white tissues and red tints from the blood circulating through the skin. In Albinos, the black pigment is missing and only a small proportion of the yellow pigment is present.



U. S. Diet

Bread and other cereal foods provide about 25 per cent of the total calories and proteins in the U. S. diet.

Bottled Milk

In 1878 a Mr. Alexander Campbell of Brooklyn, N. Y., used glass jars which were the forerunner of the present milk bottle. This type appeared in Philadelphia in 1885. The first bottle, which resembled the modern type milk bottle was not patented until four years later.

Gambling Blacklist

By the late 1930s, the Monte Carlo casino was probably refusing admittance to more former patrons than any other gambling house in history, having an active black list of 8,000 who had passed a worthless check, picked a pocket, engaged in a brawl, attempted suicide or committed some other unpardonable offense.

New Coating Repels Heat

Asphalt and aluminum powder have been combined to make a new, all weather roof coating that will stand up under heat or cold, says Modern Industry. The aluminum powder in the new coating rises to the surface when the coating is applied. There, it reflects heat, permits asphalt from getting sticky, and helps keep the building cool, too—while the asphalt waterproofs the roof.

Hard to Catch

The African rhinoceros has two horns while the Indian variety has only one, says Nature magazine. There are plenty of them still free and ramping about in the wild but it is not easy to catch them alive. They have been often sent from the railway which runs from Dar es Salaam to Lake Tanganyika and occasionally a rhinoceros has charged an engine.

HUNTERS WARNED TO KEEP BIG GAME RECEIPT CARDS

Nimrods Must Produce Receipt or Pay Double Big Game License Fee

Nearly 85,000 cards acknowledging receipt of reports from 1945 deerhunters have been started on their way back to the hunter by officials of the division of game and fish, Minnesota Department of Conservation.

Every person who took big game during the 1945 season was required by law to send a report of such take to the division of game and fish. Those who were successful during the 1945 deer season will find this report card worth $2.25 when applying for the 1946 license—the applicant must produce this receipt or pay double the big game license fee.

"Every hunter is urged to carefully preserve this card," said Frank Blair, division director, "to avoid delay, trouble and a more costly license to hunt next fall."

The total number of big game licenses sold in 1945 was 115,048 approximately 85,000 reports were received which means that in the neighborhood of 30,000 either did not take a deer or failed to comply with the law, and those who took deer and failed to report will not have the receipt and will be subject to the penalty, causing their license fee th be $4.50.

The report card system was set up to secure accurate and complete information about the deer kill, as to numbers, location, sex, and such facts. This information is of vital necessity in the checking of pre-season population estimates, the distribution of the deer throughout the hunting area, and the percent killed. since voluntary reporting by hunters failed to produce sufficient information, the present system was authorized by the legislature last year.

Superior Broiler

Early feathering indicates that a chicken will make a superior broiler or fryer. Its marketing quality will be improved if the chicken gains weight rapidly between the ages of three and six weeks and has a fairly broad breast at the end of that period.

AIRPORT NEWS

The flight breakfast scheduled to be held at Fargo last Sunday was postponed indefinitely because of inclement weather. The CAP Wing staff meeting set for the same day will be held Wednesday evening at Fargo. Ernie Barzen, our local squadron commander, has been invited to attend.

The Civil Air Patrol has been assigned a special radio wave length which will make it possible to contact any unit in the United States. Captain McCoy has the broadcasting and receiving equipment which will be installed at the airport soon. It will be used for emergency use principally, and also to secure weather reports and general information. Fred Voth, radio technician from Holt, who already has a license to operate both voice and key radio, will be the licensed operator for the Thief River Falls squadron.

The local chapter of the National Aeronautical Association had a meeting at the Rex Cafe on Monday.

CAP pre-flight ground school will begin soon, to be continued through the winter months. Any one interested in any phase of aviation is invited to attend.

Excellent progress is being made on the new runways; although operations have been suspended for several days because of the rain.

All but two of the hangars are rented now. One must remain untenanted for use by transient planes.

Out-of-town visitors at the airport during the past week were Paul Moore of St. Paul flying a Piper Cub; and Harold Chandler of Euclid with his Taylorcraft. Mr. Chandler owns a private landing strip and hangar near his home at Euclid.

Klerks have installed a new heater in the Coffee Bar, so we'll be able to enjoy Mrs. Klerk's fine coffee, hamburgers, and lunches through the cool weather.

Gust and Bob Frahm with the help of Buzz Lasha, put up the new wind sock donated by the Pure Oil company, on the big wooden hangar building. It is three feet in diameter and twelve feet long, and a definite improvement over the old one.

HOW TO AID VETS WITHOUT JOBS IS KNOTTY PROBLEM

5 Government Agencies Studying Problem of the Unemployed GI

The hard core of Minnesota's unemployed veterans in the object of a special campaign, tagged as "Operation Jobs".

During the last two weeks of August all veterans who have received 20 or more consecutive weekly readjustment allowance checks were interviewed to find out why they had been jobless so long, what employment prospects they had and whether any payments had been improperly made.

During the survey it was announced that a Minneapolis vet would be required to justify his having received 14 weekly checks when evidence showed that all during that time he had been employed as a bank guard. Penalty for such a fraud includes loss of future benefits, restitution and a $1,000 fine or a year in jail or both.

At the close of the re-examination period, Victor Christgau, director of the division of employment and security, began an analysis of 4,342 veterans who had been re-interviewed.

Of that number, 1,165 were found to be vets who had a service incurred disability ranging from 10 to 100 per cent. Administrative heads of five government agencies, including the state director of the USES, the state veterans employment representative, the state commissioner of veterans affairs, and representatives of the Veterans Administration are at work on a program to get many of these disabled vets into the training and rehabilitation program.

The situation confronting other vets in this "hard core" group is also being considered by Mr. Christgau, Dreng Bjornaraa, state director of USES and Robert Hutchinson, state VER, who are being assisted by heads of the veterans' organizations in the state.

Partial analysis of the reports covering these 4,300 vets shows that most of them are living in the smaller towns and on small farms in areas where job opportunities are scarce. Many live from 20 to 40 miles from centers in which they reasonably might expect to find a job.

The analysis is being continued as the agency heads seek further ways in which this particular group can be assisted in their readjustment to civilian life and employment that offers a worthwhile future.

While the group considered alone seems to be sizeable, as a matter of fact it constitutes hardly more than one per cent of the state's returned veterans. To date approximately 250,000 Minnesotans have been separated from military service. Of that total, 114,000 have reived one or more weekly benefits, but currently the number qualifying for readjustment allowances is about 25,000.

The 4,300 now being studied because they have been on the roll so long, constitute practically all of those for whom readjustment is difficult, as evidenced by the fact that they have gone for at least 20 consecutive weeks without regular employment.

Christgau, Bjornaraa, and Hutchinson feel that these 4,300 must have special consideration because the desire for obtaining gainful employment will eventually wear out and the veterans will find themselves even more handicapped by lack of a work history when, with their benefit rights exhausted, they find themselves facing the necessity of accepting any employment available as an alternative to a total lack of income.

Veterans at Colleges under GI Bill Terms Must Estimate Earnings

Veterans attending schools and colleges under the G. I. Bill will be required to make an estimate of their earnings for the coming quarter or semester, Paul T. Gray, Contact representative of the Veterans Administration in Thief River Falls announced.

Reason for the estimates is that under recent legislation, students will no longer be prevented from holding full-time jobs while drawing subsistence allowances from the government, but they will be subject to the same wage ceilings as on-th-job trainees.

Ceiling are $175 for veterans without dependents and $200 for veterans with dependents. If total income from employment plus subsistence pay exceeds these ceilings subsistence allowance will be cut.

Forms on which advance estimates of earnings for the three-month period are to be made will be provided veteran students by the schools in which they enroll, and the schools will, in turn forward the estimates to the Veterans Administration promptly on the commencement of training.

No subsistence payments can be made by the Veterans Administration until this information is received.

POLIO FOUNDATION SENDS HUGE CHECK TO MINNEAPOLIS

$120,000 Payment Makes $551,555 Total Sent to Minnesota This Year

The Minneapolis polio emergency committee has received a check for $120,000 from the National Foundation for Infantile Paralysis to meet continuing costs involved in setting up special vital to the welfare of infantile paralysis patients, it was announced today.

The check supplements a similar amount sent the committee by the National Foundation during this summer's polio outbreaks and brings to $551,555 total financial aid provided Minnesota by the organization so far this year in coping with the 1946 epidemic.

This epidemic aid is in addition to a recent grant of $210,330 made by the National Foundation to the University of Minnesota to underwrite a three-year polio-myelitis research program now under way.

Besides $100,000 in epidemic aid sent to the State of Minnesota polio emergency committee, 24 of the National Foundation's Minnesota chapters had to call upon national headquarters this year for funds to meet epidemic demands, including Pennington, $2,006.

Winter Chair Seats

If your cane chair seats have begun to sag, shrink them tight by washing with hot water and drying outdoors.

"America's best dressed woman" is the role essayed by vivacious Lucille Ball in Universal's frantically funny romantic drama, "Lover Come Back", in which she is starred with George Brent and glamorous Vera Zorina. "Lover Come Back" is due at the Falls Theatre, Sat. 11:15 p. m., Sun-Mon., Sept. 28-29-30.

Minneapolis Institute of Arts Shows European Rooms of Miniature Size

People who enjoy tiny replicas of big things will find pleasure in seeing Mrs. James Ward Thorne's famous European Rooms in Miniature, on exhibit until November 30 at the Minneapolis Institute of Arts.

Brought to Minneapolis from their permanent home at the Chicago Art Institute for their first and only Northwest showing, the European series of miniature rooms contains 30 interiors—15 English, 12 French, 3 German, and the interior of a European Roman Catholic church. There are 5,000 objects in these rooms, all reproduced on the nearly unbelievable scale of one inch to the foot. The whole collection is valued at $150,000.

These rooms not only look like big ones; they function realistically, too. Doors open and close, tiny keys turn, a little mantel clock the size of a dime runs perfectly, some of the miniature books contain printing. The London Daily Mail shown in the magazine rack in comparison with Thief River Falls Times, has printed headings.

These rooms are historically accurate—so that one can see by looking at a room how people have lived in different periods since 15-50—What the fashion in furniture fireplaces, musical instruments, and lighting fixtures have been in 400 years.

THIS RESTLESS WORLD KEEPS ON TRAVELING

Mrs. Thora Hanbery packed up at Northfield to drive to California for a visit with her soldier son. Four hours before the scheduled start the son woke her up so they went to Wisconsin for their vacation-visit. J. M. Tuason, Manila attorney gets train sick, and Mrs. Tuason gets air sick. So when they checked out of a Rochester hospital they chartered a Yellow Cab for a 5000-mile sight-seeing trip to wind up on the west coast, where they'll start for home.

HUNTING SAFETY URGENT THIS YEAR

Mishaps In 1945 Cost Lives of 23 Persons

With a record number of small and big game hunters anticipated in Minnesota this year, care in the handling of firearms is more urgent now than ever before, warns the bureau of information, Minnesota department of conservation.

In 1945, with a total of 350,495 pheasant, duck and deer hunters licensed, 23 met death in firearms accidents and 51 others suffered injuries, and these figures reports the bureau, are incomplete. In addition, seven others met death and six were injured, in miscellaneous hunting accidents from January to August of this year. These figures are also incomplete.

Of the 23 killed last year, nine were the result of deer hunting; duck hunting and miscellaneous hunting claimed five each; and four hunters became fatalities while seeking pheasant. Seventeen of the deaths last year were caused by the fire of careless hunters, while the remaining six were self-inflicted. Of the 51 injured, 16 were self-inflicted wounds and the remaining 35 the result of stray shots finding human targets.

Creamery Operators to Conduct Convention in Minneapolis Oct. 8-9

The Minnesota Creamery Operators' and Managers' association annual convention will be held in the Nicollet hotel, Minneapolis, on October 8 and 9.

Hundreds of operators are eligible to take part in these important sessions, and John Brandt, president of the Land O'Lakes Creameries, Inc., today urged creamery officials to encourage attendance by their own operators and managers.

"Creamery operators and their assistants are so much part of the farming communities in which their services are rendred that this convention should not only be of interest to the immediate membership but to the farmers who depend on them for efficient and up-to-date service in the processing and preparation for market of our products," Brandt said.

"Some of our operators may feel it is difficult for them to get away, but they should be encouraged by the directors of the creameries to the extent that it should almost be a 'must' that they attend their annual get-together meeting.

"This is not only true with respect to the Minnesota meeting, but those of other states that have similar organizations."

Congress is at heart American—which would excuse its faults even if they were much weightier than they are.—Cincinnati Times-Star.

We do not need ill-advised, hastily constructed, unduly expensive public housing. We need a great number of new private homes.—Bridgeport (Conn.) Post.

Our Northern Neighbor

Canada has an area larger than the United States and only one-twelfth as many people; the third largest navy in the world and the fourth ranking military establishment among the United Nations. It leads the world in per capita industrial production, has the highest output of nickel, radium and earth-shaking uranium and is the biggest exporter of wheat. Its standard of living is second only to that of the U. S. It is second in the production of cargo ships, wood pulp and hydro-electric power, third in aluminum, copper and zinc, fourth in the production of gold. Though the nation's population is less than New York State's it had more than 800,000 men under arms in World War I and lost nearly a tenth of them—more than were lost by the whole U. S.

More Trees Planted in Wisconsin

Wisconsin planted over three times as many forest trees last year as any other state in the Union, the U. S. forest service announces.

The Wisconsin Conservation department's nurseries produced 13,000,000 trees last year for planting in all counties. The second highest forest tree producer was New York with 3,820,000. Other high producing states were Michigan, 3,768,000; Georgia, 3,407,100; and Pennsylvania, 3,333,300.

About half of the forest trees put out by the department last year were planted on farms, 6,226,000. Georgia was second in its farm plantings, nearly 2,000,000.

Raising food is an important 4-H job. Last year Minnesota 4-H'ers raised more than 9,000 beef and dairy animals.

Frolic Sows Pay Better

One prolific sow, with enough udder sections and milking ability to raise 16 or more pigs, can produce litters with as much weaning weight as three average sows. Such records were found in the Michigan Sow Testing project, conducted in 1945 by H. F. Moxley, Michigan State college extension animal husbandry specialist.

Records on 189 sows show the 10 high sows produced as much pig weight at 56 days as the 30 low producers. Similar results were recorded by G. P. Deyoe for 120 sows in Vocational Agriculture projects in Michigan.

Danger From Rabid Dogs

Rabies is a year-round problem. But rabies may be worse in the summer months because dogs are running about more. With the improvement in vaccines in recent years, livestock sanitary authorities last year put their stamp of approval on vaccination. They emphasize, however, that vaccines do not give full control — that other control measures are still important—especially rounding up stray dogs. Rabies takes a big toll of human and animal life every year.

HOLD-OUT

Knowing that it was unethical but feeling that it was justified, the attorney hired a stubborn-looking, stolid, unsophisticated juryman to hold out for life imprisonment. It seemed that this was the only way to save his client from the death penalty.

The jury finally went out and was out for hours. Finally late on the second day, the jury filed in, and rendered a verdict of guilty with a recommendation that the prisoner be sentenced to life imprisonment.

As the lawyer was paying his man, he asked, "You had a difficult time of it, didn't you? I'm certainly glad you succeeded in swinging the jury your way."

"Yeah," was the answer. "It was pretty tough. They were all for acquittal except me."

COIL SHORTS OUT, MECHANIC REPAIRS

Wudena—Arnold Arvidson's outboard motor functioned normally all afternoon, until nearly home from a fishing tour. Then it quit cold. So did the mechanic when he removed the flywheel and found a very life-like dead two foot snake coiled around the shaft. The reptile coil had shorted the magneto coil, and both the snake and the motor gave up.

HOLT

Funeral services were conducted from the Nazareth Lutheran church on Wednesday afternoon for Gilbert O. Sanoden. Rev. E. O. Urness officiated. Carlson Funeral Home had charge. Marvin Sundberg sang "Beautiful Isle", and "Some Day We'll Understand". Rev. Urness sang, "Behold a Host". These were favorite hymns of the deceased. G. Nordrum, L. M. Larson, Geo. Fricker, G. H. Nohre, Sam Lorentson and J. Brodin were pallbearers. Mrs. Marvin Sandberg served as organist. Interment was made in the Holt Ridge cemetery.

Gilbert Sanoden was born Jan. 12, 1882, in Fillmore County, Minnesota, the son of Asle annd Guri Olson. He was baptized April 2, 1882 by Rev. I. J. Krohn.

MOTHER PRODUCES FOUR WINNERS . . . The all-American record of "get of sire," are the four daughters of Echo Helbon Mercedes, Baker farm, Exeter, N. H., shown above. These four, all classified Excellent, have produced a total of over 400,000 pounds of milk. This is not only a record for the Holstein-Friesian breed, but believed to be a record for all breeds of dairy cattle. One of the cows recently died, but the other three still are producing.

He grew to manhood on a farm near Fertile, Minn.

Mr. Sanoden was married to Mabel Forsythe, April 18, 1916 at Dugdale, Minnesota. To this union was born two daughters and one son. Mr. and Mrs. G. O. Sanoden and family moved to Holt 25 years ago, where Mr. Sanoden for several years operated a grain elevator, later a restaurant and milk route. On Aug. 19, he was taken to St. Lukes hospital where he was a patient until Sept. 15 when he was taken to his home and there died peacefully the same evening at the age of 64 years, 7 months and 17 days.

Survivors of Mr. Sanoden are his wife, one daughter Mrs. Wm. Willkowski of Des Moines, Iowa; Russel of the home; two sisters Mrs. I. G. Borgen, of Rugby, No. Dak., and Mrs. Nicolai, of San Jose, California. One brother at Fergus Falls; one granddaughter Bonita Borchert of Mentor. One daughter Mrs. Gladys Borchert preceded him in death, Aug. 6, this year.

Funeral services were conducted at the Evangelical Free church at Holt on Thursday afternoon for Mrs. Charles Smith of McGregor, a former pioneer of Holt. Rev. Thv. Myhrer of Newfolden, Rev. Carlson of Thief River Falls officiated. One song was sung by Rev. and Mrs. Carlson of Thief River Falls. Mrs. Carlson also sang a song. Bertil Ness, Alf Movick, Carl and Hjalmer Johnson, Carsten Sagatuen and Victor Magnuson were pallbearers. Interment was made in the Holt Ridge cemetery beside her husband.

Mrs. Emily Smith was born Dec. 14, 1866 in Vasterjotland, Sweden. She was the daughter of John and Sophie Petersen. On July 16, 1892 she was married to Charley Smith at Holt. To this union ten children were born. Surviving are two daughters, Mrs. Arvid Toren (Teckla), of Middle River and Mabel, (Mrs. Alfred Swanson) of McGregor. Seven sons, Rev. Deuben Smith, Fergus Falls, Arthur, Willie and Johnnie Smith of Fairbanks, Alaska, Rudolph and Clarence Smith of Holt, Martin of Wisconsin Dells, Wisc. Preceding him in death was her husband and one son, George.

Surviving also are two brothers, Fred Johnson and Anton Petersen of Thief River Falls. Besides their family, Mr. and Mrs. Smith adopted one son Victor of International Falls. She is also mourned by twenty grand children and great grand children, a host of other relatives and friends. Mrs. Smith reached the age of 79 years, 9 months.

Mr. and Mrs. Smith lived on their farm north of the village 1941 when they moved to McGregor making their home with their son-in-law and daughter Mr. and Mrs. Alfred Swanson.

Doreen Christenson who has been employed in Minneapolis during the summer months is spending a short time with her parents, Mr. and Mrs. Oscar Christenson before again attending the State University at Minneapolis.

Alice and Margaret Peterson of Minneapolis spent a few days with their parents, Mr. and Mrs. Walter Peterson. They will also again attend the State University.

Born to Mr. and Mrs. Oscar Swenson last Wednesday a baby girl. Mrs. Swenson's sister Mrs. Tenson of Okles is assisting at the Swenson home.

Little Bonnie Borchert returned to Fertile on Saturday after a visit at the Sanoden home.

Mrs. Christene Peterson left on Saturday for Greenbush where she will teach the fifth and sixth grade.

Mrs. Sig Nygard commenced teaching near Thief River Falls on Monday.

Miss Gunhild Sollem commenced teaching the 7th and 8th grades at Grandmulst on Monday.

Joyce Movick is attending the normal training department at Thief River Falls.

The rain we had from Wednesday on was greatly appreciated by the group of men fighting the brush and grass fire in the Mud Lake refuge. The fire coming in from 3 o East crossed the highway into the refuge and burned the area to Ditch No. 11.

Mrs. Wm. Wittowski (Opal Sanoden) who was called here due to serious illness and death of her father returned on Saturday to DesMoines, Iowa.

Mrs. J. M. Forsythe of Mentor is spending a few weeks with her daughter, Mrs. Gilbert Sanoden.

Mrs. Pete Sorter is visiting her sister and family, Mr. and Mrs. Herb Strong and Roy at Alexandria.

Russel Sanoden is now attending Concordia college at Moorhead.

Betty Lou Lorentson arrived from Washington to visit her parents, Mr. and Mrs. Sam Lorentson.

Mrs. Fred Peterson visited with her mother Mrs. Mary Sasstad at Thief River Falls on Sunday.

Betty Lou Lorentson was guest of honor at a bridal shower Tuesday evening after a fitting program and presentation of the gifts and cash purse. The self invited guests served a delicious lunch.

Clifford Moberg arrived recently from Oakland, California where he was employed.

Curtiss Lindberg of Karlstad visited at the H. O. Hanson home a few days last week.

For Stratospheric Flying

A war-developed airman's suit, nicknamed the "inverted fishbowl" has recently been displayed to the public by the army air force. The pressure suit enables air crew members to ascend to 62,000 feet altitude by maintaining normal pressure on the body. It resembles a combined deep-sea diver's suit and a large goldfish bowl. The low atmospheric pressure at the high altitudes for which this suit was developed would result in certain death, for internal pressure would rupture all blood vessels and inflate the human body until it burst. The pressure suit counteracts the loss of external pressure, and allows complete mobility of the individual at near stratospheric heights.

Milk Improves Fliers' Sight

Canadian fliers during the war improved their vision by drinking milk. Experiments conducted by the nutritional division of the Royal Canadian Air force conclusively demonstrated that the vision of their airmen could be materially improved by feeding them a substance known to scientists as riboflavin. An adequate amount of this substance could not be furnished without feeding them milk.

As a result of the work of the nutritional division, the amount of milk allowed per day per man was increased from a single ounce supplied at the beginning of the war, first to 10 ounces and later to 24 ounces per day.

To induce a sufficient number of Americans to enlist, military service must be made as attractive and democratic as can be.—Milwaukee Journal.

American Legion Opens National Convention in San Francisco Monday

The grand victory parade of The American Legion will roll all day through the heart of San Francisco on Tuesday, October 1, as a highlight of music and rythm for the organization's 28th national convention.

There will be 19 divisions in the procession, which will be the greatest ever seen on the Pacific Coast, according to Ed Sharkey general convention chairman. It will include hundreds of gaily uniformed bands and drum corps with their strutting majorettes, massed colors color guards, drill teams, floats, Forty and Eight engines and delegations from every state and outlying department.

It will be the second time that The American Legion will march up San Francisco's famous Market Street. The organization first paraded there during its 5th national convention, Oct. 17, 1922. The American Legion was a fledgling organization then. Today it is a two-war group with 3,301,689 members.

Fewer Railroad Workers

Employees of Class I railroads of the United States, as of the middle of May, 1946, totaled 1,307,251, a decrease of 8.38 per cent compared with the corresponding month in 1945 and 2.02 per cent under April, 1946, according to a report just issued by the Bureau of Transport Economics and Statistics of the Interstate Commerce commission.

A decline under May, 1945, is shown in the number of employees for every reporting group with the exception of executives, officials and staff assistants and transportation (other than train, engine and yard), which show increases of 0.27 and 1.47 per cent, respectively. The percentages of decrease are:

Professional, clerical and general, 3.34; maintenance of way and structures, 14.02; maintenance of equipment and stores, 8.62; transportation (yardmasters, switchtenders and hostlers), 9.87, and transportation (train and engine service) 11.60.

AUGUST LEADS IN SPEED EXCESSES

Arrests Are Highest Since in August 1945

Excess speed caused arrest of 162 drivers in August, largest number in any month since August, 1945, according to the Minnesota highway department's monthly report of patrol activities. Why August should be the high month for speed violations is and the unusually large number of serious accidents ascribed to "speed too high for conditions" last month.

Driving with dangerous equipment led to the greatest number of arrests, 231. Other causes of arrests by the highway patrol in August included 109 for driving under the influence of intoxicants, 212 careless driving, 328 going through stop signs, 78 overweight loads, 79 improper registration, 74 improper passing, and 72 no drivers license. Arrests for all causes totaled 1,263 and fines imposed totaled $23,980.

In addition to arrests there were 145 warning tickets and 262 oral warnings for less serious speeding cases. Other causes of warning tickets included 177 going through stop signs, 245 no drivers license in possession, 95 driving in wrong lane and 87 improper passing. Warning tickets are entered on drivers license records and repetitions may bring arrest or license suspension.

PIGS HAVE MORE SENSE THAN CARS

Oronoco—One of Louis Blank's pigs got out of the pen and swam the Zumbro river. A neighbor, Mrs. Paul Stolp, picked up Mr. Blank, drove across the bridge, parked the car, and they went to look for the pig. When they came back without the pig the car was slithered over a steep bank into the river with only the rear bumper showing. After they tractored Mrs. Stolp's car onto terra firma and spread it out to dry, they walked home. Yep, the pig was there.

Fenced Constitution

The constitution of the United States was written by a one-armed man who wore an artificial leg. The man's name was Gouverneur Morris and he was a talented politician. Because of his interesting handwriting, he was asked by delegates to the constitutional convention of 1787 to pen the final copy of the famous document. Morris suffered the loss of his limbs during the American Revolution.

Nuts Nutritious

Nuts are high in protein, so that they can alternate at times for meat in a main dish, such as nut loaf. They also provide B vitamins especially thiamine — and a little iron and calcium. But as far as nutrition is concerned nuts are most effectively used to supply some of the needed fat in meals.

Only about 6% of the nation's milk production goes ifito cheese. Wisconsin leads with about 25% of her milk total going into cheese—at the rate of about 9½ pounds of milk for one of cheese.

NOW... Standard's great new motor oil...

Permalube

Removes the "goo"

Improves the go!

There's always more go to your car when you remove the "goo"—those engine deposits of sludge, varnish, carbon, and soot that stick rings and hamper valve action. There's better lubrication, too—better protection.

Removing the "goo" is the latest idea in motor oils. It's the Permalube idea. Yes, Permalube, Standard's great new motor oil, does more than thoroughly lubricate—it cleans your engine and keeps it clean. That's premium-plus lubrication!

When you wash your hands, the basin water gets dirty. But your hands get clean! Same way when you use Permalube Motor Oil. The oil gets dirty. But the engine gets clean. The dirt is carried out of the engine when you drain out the oil.

So, remove the "goo," improve the go! Change to Permalube, Standard's finest motor oil, 35¢ a quart.

Change to Permalube for premium-plus lubrication

SET YOUR SIGHTS

It takes planning to achieve a goal

Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both.

Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education of any college, trade, or business school for which you can qualify. The Government will pay your tuition, laboratory fees, etc., up to $500 per ordinary school year, plus $65 a month living allowance—$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can insure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1946. See your nearest Army Recruiting Station for details.

HIGHLIGHTS OF REGULAR ARMY ENLISTMENT

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
2. Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may reenlist at any age, and former service man depending on length of service.
3. A reenlistment bonus of $50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
4. A furlough for men who reenlist within 20 days. Full details of other furlough privileges can be obtained from Recruiting Officers.
5. Mustering-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
6. Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
7. Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

To those who eagerly await their new Chevrolets . . .

Here Is the Latest News about Chevrolet Deliveries

Everybody from factory to dealer is doing everything that can be done to speed deliveries to you

We have been informed by the Chevrolet Motor Division that the past month has witnessed only a slight improvement in the rate of production of new Chevrolet passenger cars. As a result, shipments of new cars to dealers for delivery are still far below the level we and the factory had hoped to attain by this time. In fact, through August, Chevrolet's output of cars in 1946 was only 22.6% of the number turned out during the corresponding period of 1941.

We know that Chevrolet is doing *everything* possible to step up its production totals—to ship more and more cars to us and to its thousands of other dealers throughout America . . . and we know, too, that we are assured of getting our full proportionate share of the current output and of future production gains.

Disappointing as the total figures have been—and despite the fact that Chevrolet was out of production entirely during the first three months of the year—it is nevertheless true that *Chevrolet led all other manufacturers in production of passenger cars during June 1946*, and has continued to maintain its lead in total production from that day to this.

We shall continue to make deliveries of new Chevrolets to our customers just as fast as we receive them; we regret delays as deeply as you do; *we thank you for your friendly patience and understanding;* and we promise you a new, high motoring experience when you take delivery of your new Chevrolet, giving BIG-CAR QUALITY AT LOWEST COST

Keep Your Present Car Alive

Meanwhile, may we suggest that you safeguard your transportation by bringing your car to us for servicing now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new Chevrolet comes along.

21,600 STUDENTS TO ENTER STATE 'U' MONDAY MORNING

Half of Students to be Veterans Studying Under GI Law Terms

When the University of Minnesota rings its class bells Monday morning, September 30, signalling the opening of the fall quarter, a record number of students, estimated at 21,600, will be convened on the campus.

Of the total enrollment, it is anticipated that half will be veterans studying under the G. I. and Rehabilitation bills and 7,000 will be new students. Of the new students, approximately 3,500 will be freshmen coming directly from high schools, and the others will be advanced students.

Some changes will greet students returning to the University campus. There will be larger classes in many cases, new instructors and professors to carry the unprecedented teaching load, and a new time schedule for classes. In order to accommodate the increased numbers of classes necessary, the first hour classes on the main campus will start at 8 a. m. instead of at 8:50 a. m., as in previous years, and classes will continue on an hourly basis. On the farm campus, first hour classes will meet at 7:45 a. m.

A CLUE THE CUE, THEN A LONG QUEUE

Fairbault—The clue was a newspaper ad, aided and abetted by oral comment. The cue was "Going on sale at 8 o'clock tomorrow morning." The queue formed before that and lengthened hopefully as happy customers emerged from a local store each with a self-conscious expression and a roll of toilet tissue.

TWELVE NAZI WAR CRIMINALS TO HANG OCT. 16

Seven Defendants Sentenced to Prison Three Are Acquitted

Hermann Goering and twelve other Nazi chiefs who helped Adolf Hitler plunge the world into the greatest war of all time were sentenced Tuesday to death by hanging at Nuernberg, Germany.

Seven other defendants, including Rudolf Hess, were sentenced to prison and three were acquitted by the four-power military tribunal in the first international war crimes trial.

The death sentences will be carried out in the Nuremberg jail, probably Oct. 16. The prison terms will be served in a four-power jail in Berlin.

Concluding the 10-month trial, the international military tribunal announced the sentences after completing the reading of a 100,000-word, history-making judgment ruling that aggressive warfare "is the supreme crime."

Hans Fritzsche, Franz von Papen and Hjalmer Schacht were acquitted, with Russia dissenting.

Sentenced to hang; besides Goering were Joachim von Ribbentrop, Field Marshal Wilhelm Keitel, Ernest Kaltenbrunner, Alfred Rosenberg, Hans Frank, Wilhelm Frick, Julius Streicher, Fritz Sauckel, Col. Gen. Alfred Jodl, Arthur Seyss-Inquart and Martin Bormann (tried in absentia).

Sentenced to prison were Hess, Walther Funk and Grand Adm. Erich Raeder, life terms; Baldur von Schirach and Albert Speer, 20 years; Constantin von Neurath, 15 years, and Grand Adm. Karl Doenitz, 10 years.

HARTZ ENTERPRISE OFFERS $250,000 ISSUE OF STOCK

4% to 6% Dividend Is Offered on Shares to Be Sold at $100 Each

Announcement is made this week by United Industries Inc. of this city that $250,000 of class A stock in the corporation is now available to private investors.

The corporation, recently organized and capitalized at $1,000,000, owns and operates the L. B. Harts stores, including both the wholesale and retail business and bakery; the Super Products company; and the Fertile Produce Co., Inc., of Fertile.

The corporations also holds a franchise for the manufacture and sale of Bergar Patent Lumber in northwestern Minnesota and Dakota.

Class A shares are issued in $100 denominations, are preferred to the extent of a 4 per cent cumulative dividend with a maximum earning of 6 per cent. Additional capital provided by the sale of these shares will be used "for the expanding interests of the corporation, as well as to finance the higher inventory values brought about by the present tendency to higher prices."

The corporation is largely employee-owned. Net earnings will be distributed as follows: first the 4 per cent dividend on Class A stock, second a similar dividend to class B stock, and third a 20 per cent bonus on base pay to employees. Remainder of net earnings will pay an additional 2 per cent to both classes of stock after which all balances will be distributed on a pro rata basis to eligible employees.

PENNINGTON FARM BUREAU REQUESTS WEATHER STATION

Board of Directors Acts Last Saturday to Make Plea for Service Here

In a resolution drafted Saturday the board of directors of the Pennington County Farm Bureau association requested the U. S. department of agriculture to establish and maintain a weather forecasting station on a full time basis in Thief River Falls. The resolution was signed by H. I. Finstad of Rockaburn, president, and Clarence Ellingson of Highlanding, secretary-treasurer.

In support of their request, the directors pointed out that this locality is not served by a nearby weather forecasting station and asserted that the service is needed as a means of protecting livestock, poultry and bees against sudden changes on the weather.

Also pointed out in the resolution are the benefits to farmers engaged in seeding, haying and harvesting operations that would result from the establishment of a station in this city.

Cited further are the advantages to be derived from safeguarding pupils being transported to school from the rural areas as well as protecting other essential travel.

OPPOSE LOWERING VOTING AGE TO 18

Eagles Aerie Conducts Public Opinion Forum

The voting age should not be lowered from 21 to 18, according to a poll of Thief River Falls Eagles, who heard pro and con arguments at the Aerie home in the form of a series of monthly public opinion forums which are being sponsored nation-wide by the Fraternal Order of Eagles. The vote on the question was 3 in favor of teen age voting, 27 against.

Harvey R. Helle, aerie president, who presided as chairman, pointed out that the subject is a live issue because 14 states are considering ammendments to be voted upon by the electorate which would lower the legal voting age to 18. Georgia already permits its 18 year-olds to vote, he added.

By conducting forums which will air public questions of importance, Thief River Falls Aerie hopes to stimulate thought on current problems, and create a greater interest in affairs of the community and nation, Mr. Helle explained.

For the month of October the Eagles have selected the subject; "Should we have peacetime military conscription?" The results of this vote will be published in a later issue of the Times.

Rector of Seminary in Rome Is Visitor Here

Distinguished visitor in this city the past week has been Dr. Ulric Beste, O. S. B., rector magnificus of San Anselmo Seminary in Rome, Italy, who has been enjoying a few days at the home of his sister, Mrs. Fred Kraemer, and at St. Bernard's rectory.

Father Beste, former professor of Cannon Law at St. John's University Collegeville, is now serving as consultor to the Holy Office in Rome. He has been rector of the San Anselmo Seminary during the war in Italy, and witnessed that country's invasion by American troops.

Fire Chief Asks for Observance of Fire Prevention Week

The week of October 6 to 12 is Fire Prevention Week, and everyone in the city and the surrounding rural area is urged to make a complete inspection of the place in which he works and lives, Fire Chief Roy Langevin stated today.

He added that the most serious fire problem in Thief River Falls is the dwelling fire, and that last winter a number of families were forced to seek temporary shelter while their homes were being repaired following a blaze.

Chief Langevin said, "Combustible dry cleaning liquids, defective electrical equipment, careless use of matches by children and adults, cigarettes that are not put out, and defective heating systems are the most common causes of dwelling fires. One of the most common home fires is where the stove pipe is too near a wall. Then everything goes well until the stove pipe and chimney start burning out and overheats the wall, causing an ignition.

"Stove pipes should be at least eight inches from a wall and even then adequate protection should be afforded the wall especially if covered with wall paper. Another common practice is to put wall paper too close to the stove pipe where it enters the chimney. A third is allowing furnace pipes to rust until holes appear in them and then sparks come out through these holes.

"Check these common causes of fire today—don't delay, and while you are doing this clean out the rubbish and oil rags from your closets, spare rooms and basement.

"Whenever you have a fire, or there is a drowning, don't lose time by looking for phone numbers. Just tell the telephone operator your trouble and your address, and she will relay your message. They are always willing to co-operate.

"Now is the time to stop that fire, Stars looking for the would-be fire today. If you need assistance call your electrician or the fire department."

New Enlarged Telephone Directory Being Mailed to Patrons This Weekend

Distribution of the new enlarged edition of the Thief River Falls telephone directory will be made by mail to patrons of the local exchange starting this week-end, A. J. Rau, local manager, stated today. The new book is quadrupled in size owing to the addition of a sixty-page classified directory, in which are listed the various business institutions and services available in Thief River Falls.

BISHOP SCHENK TO CONFIRM CLASS OF 90 HERE SUNDAY

Church Dignitary from Crookston to Officiate at St. Bernards Church

The Most Reverend Francis J. Schenk, bishop of Crookston, will visit Thief River Falls next Sunday, Oct. 6, to administer the sacrament of confirmation to ninety children and adults at St. Bernard's church. It will be Bishop Schenk's first confirmation trip to this city.

Several priests from the surrounding territory will be on hand to assist the bishop with the rites, which will be conducted at 7:30 p. m.

The bishop, who will be accompanied by Father Joseph Sheehan of Crookston, chancellor of the diocese, will journey to Goodridge at 9:30 a. m., that morning, where 21 will receive the sacrament; to Grygla at 10:45 a. m., where nine will be confirmed; and to the mission Jane at 12:30; p. m. where he will administer the sacrament to 10.

Several members of the Grygla parish will receive their first Holy Communion that morning.

AUSTIN, MINN. MAN WILL AUCTION OFF 4-H BABY BEEVES

Local Men to Assist in Big Auction Sale Saturday, November 2

Colonel Joe Reisch, noted auctioneer of Austin, Minnesota, has been engaged to conduct the 4-H club auction to be held in Thief River Falls on November 2, according to Robert Lund, chairman of the rules and regulations committee.

Colonel Reisch, who has been auctioneer at the Junior Livestock Show at South St. Paul for the past three years is well-known in the middle western states, having been in the business over 20 years and has conducted over 2500 sales. Assisting him as ring masters will be Colonel V. C. Noper, Colonel Ed Bruggeman, Colonel Andy Anderson and Colonel Frank Nelson.

Entries in the show now have been completed, according to the county agent's office, which indicates that this show will be one of the largest ones in the state. Forty-nine baby beeves have been entered of which 31 are Herefords, 12 are Angus, and 6 are Shorthorns. Nine lambs, five pens of chickens, and four pens of turkeys complete the entries.

The agricultural committee of the Thief River Falls Civic and Commerce association is canvassing businessmen in this city this week signing up buyers for the stock.

E. O. PETERSON'S SISTER KILLED IN UTAH BUS CRASH

Another Sister Gravely Injured as Greyhound Bus Rolls over Monday

Miss Agnes E. Peterson of Faribault, sister of E. O. Peterson of Thief River Falls, was killed instantly and another sister, Mrs. Henry Holten of Big Timber, Mont. sustained critical internal injuries Monday afternoon when the Greyhound bus in which they were riding overturned a mile north of Cedar City, Utah, en route from Los Angeles to Salt Lake City.

Another death victim was a man who was not immediately identified while 13 others were injured in the crash. Miss Peterson and Mrs Holten were on their way home from Elsinore, Calif., where they had attended funeral rites for Mrs. Holten's son Winston, who had been killed last week in the crash of an army plane.

E. O. Peterson left this city Tuesday to assist in making funeral arrangements for his sister. Rites will be conducted at Ryder, N. D.

SEVERAL CARS ARE STOLEN THIS WEEK

Narverud Cleaners Car Still Missing Today

An epidemic of car-stealing appears to be under way in this locality with two automobiles stolen in Thief River Falls during the past week, one of which was covered; while cars also reported to local authorities as being stolen in Warren, Ada and Roseau.

Still missing is the coach delivery truck of Narverud Cleaners, which was taken early Monday night while parking place in the rear of the plant. A 1939 Mercury coupe owned by Louis Borchert was stolen early Sunday from its parking place on Second st. near Main av., and was found in damaged condition on Arnold av. S. later Sunday morning.

LUTHERANS CALL ANOTHER MEETING ON HOME FOR AGED

Definite Action Is Expected to be Taken Friday Night, Oct. 11

A meeting of the Lutherans interested in the establishment of a home for the aged in this community, under the auspices of the Lutheran Charity association of Northwestern Minnesota, was held at Trinity Lutheran church last Friday evening.

The attendance was not all that had been hoped for the occasion and board officials expressed themselves as in doubt about the real interest in the project at this time. However, after considerable enthusiastic speaking by those present, and the promise of financial backing, it was decided to call another meeting in an attempt to reach a larger number of people from the entire local area.

This meeting was set for Friday evening, October 11th at Trinity church, so that the measure of interest might be taken prior to the annual meeting of the corporation on October 14th, at which time final action on an option to buy acreage adjoining the Oakland Park automorium will be taken.

Betty Lou Lorentson Wed at Solemn Church Ceremony on Sunday

At a candlelight service in Nazareth Lutheran church at Holt, Miss Betty Lou Lorentson, daughter of Mr. and Mrs. Sam Lorentson of Holt, became the bride of Donald S. Rogers son of Mr and Mrs. Stanley Rogers of Bellingham, Wash. Candles were lit by Delores Engen and Betty Johnson.

Rev. E. O. Urness read the ceremony at five o'clock Sunday afternoon. Miss Lorraine Swanson played "Melody in F" and the traditional wedding marches, other nuptial music being furnished by Dorothy Hanson, who sang "Because" and "Always", and Grace Urness, who sang the hymn "Crown with Thy Benediction".

Given in marriage by her father the bride was gowned in ivory taffeta designed with sweetheart neckline, long sleeves and full entrained skirt. Her fingertip veil fell from a seed pearl crown, and as her only ornament she wore a pearl necklace, gift of the groom. Her bridal bouquet was of pink roses and white gladioli tips. Miss Eileen Larson was maid of honor in a blue net over taffeta gown with a bouquet of yellow rose buds and gladioli tips.

Little Kathrine Ann Miller, cousin of the bride, in a yellow organdy gown, scattered sweatpeas as she marched down the aisle. Dale Lorentson, brother of the bride, was best man and Russell Sanoden and Duane Larson ushered.

A reception in the bride's home followed the ceremony, with approximately eighty guests in attendance. Mrs. George Fricker poured, assisted by Mrs. Victor Johnson and Mrs. Fred Lorentson.

Mrs. Rogers, in a suit of brown and white checks with brown accessories, and her husband left on a motor trip, visiting in various cities en route to their new home at 2622 Franklin St., Bellingham, Wash., where Mr. Rogers is associated with the Diehl Motor Co. Mrs. Rogers has been employed as a medical technician in St. Luke's general hospital in Bellingham.

The groom's parents, Mr. and Mrs. Stanley Rogers of Bellingham, were present for the ceremony.

Shower Fetes Mrs. Edw. Holmstrom on Thursday

Mrs. George Williamson and Mrs. Ingvald Hanson were joint hostesses last Thursday evening at a stork shower honoring Mrs. Edward Holmstrom. The guests gathered at the Williamson home for the affair, and they brought many gifts for Mrs. Holmstrom which were opened at the close of the evening. Mrs. Orvis Olen and Mrs. Alice Bernard won the high and low scores in whist, respectively, and at the conclusion of the party the hostesses served lunch.

Marriage of Pearl Trontvet and Floyd Dalzell Solemnized

Palms, ferns, and baskets of mixed flowers decorated the altar in the Evangelical Free church Thursday evening, Sept. 26, when Miss Pearl Trontvet became the bride of Floyd W. Dalzell, son of Evangelist and Mrs. R. J. Dalzell of Brandon, Man., Canada. Rev. J. O. Jacobsen performed the candlelit double ring ceremony at 7:30 p. m.

The pianist, Miss Naomi Vedum, gave a short program of prenuptial music, and was playing the processional "Largo" by Handel when the bridal party entered the church. The bride marched in on the arm of her father to the strains of the "Bridal Chorus" from "Lohengrin", and when the groom met his bride he sang "Because", after which they took their places at the altar.

A few words were spoken by Rev. Jacobsen, and Miss Phyllis Dalzell, sister of the groom, sang "My Task" before the ceremony and, while the bride and groom were kneeling, "The Lord's Prayer."

The bride was attired inn an all white chiffon nylon gown, floor length, with full skirt extending into a long train. It was fashioned with long sleeves, pointed over the wrist, a sweetheart neckline, lace insertions, and buttons extending to the waist in back. Her fingertip veil was trimmed with wide Romany lace with a crown of butterfly ornaments of seed pearls. Her bouquet consisted of red roses and white pompons.

The maid of honor, Miss Inga Trontvet, sister of the bride, wore a floor-length gown of pink taffeta and carried a bouquet of white pompons. The bridesmaid, Miss Margery Christensen, was gowned in an aqua sheer formal trimmed with lace and had a bouquet of yellow pompoms.

After the attendants had taken their places at the altar, Donald Anderson, nephew of the groom, dressed in an all white suit, carried the rings in on a white silk pillow, and then little Elaine Newton, flower girl entered, strewing yellow pompons on the white carpeted aisle. She wore a long pink net over satin gown and carried her flowers in a white crocheted basket.

Gilbert Trontvet and Alvin Franklin were the groom's attendants, while Wallace Christensen and Merle Christensen ushered.

For her daughter's wedding, Mrs. O. Trontvet wore a dark blue dress with a corsage of red roses and white pompons. The groom's mother wore a light flowered jerrey dress with a similar corsage.

In the attractively decorated basement of the Community church, the bride's parents were hosts at a reception. Pink, white, and blue streamers formed an arch over the bridal table, which was centered by a pink and white three-tiered wedding cake topped with bridal figurines. Following a buffet luncheon served to 175 guests a short program was presented with Evang. Dalzell serving as toastmaster. Rev. E. Rahlin gave greetings and read telegrams, and short impromptu speeches were given by visiting ministers, members of the bridal party, and other friends. A trio consisting of Mr. and Mrs. Loren Anderson and Miss Phyllis Dalzell sang three numbers.

After the reception the bridal couple left on their honeymoon to Bemidji. For travel the bride chose a black gabardine suit with green accessories.

G. FORKS LEADS IN LOOP STANDINGS

Wins First Place by Defeating Prowlers

Conference Standings

	W.	L.	T.	Pct.
Grand Forks	2	0	0	1.000
East Grand Forks	1	0	0	1.000
Crookston	1	1	0	.500
Grafton	0	1	0	.000
Thief River Falls	0	1	0	.000
Devils Lake	0	1	0	.000

Games this week:

Devils Lake at Thief River Falls
Crookston at Grafton.
Results of last week's games:
Grand Forks, 6, at T. R. Falls, 2.
Grafton, 6, at E. Grand Forks, 12.

The Grand Forks Maroons, defeating the Prowlers, 6 to 2, in a stubbornly contested game here Friday night, moved into the lead in the North Valley conference standings, with two wins and no losses. Coach Harold Sullivan's East Grand Forks eleven also boasts a 1.000 per cent rating, having bested Grafton, 13 to 8, on the Green Wave field Friday.

Following this week's games, the cellar position in the standings won't be so crowded, for the three teams that occupy the lower rungs—Thief River Falls, Devils Lake, and Grafton—all see action, and with the Prowlers playing the Satans at Thief River Falls, one of the teams will get a win, or they'll both move up in case of a tie. Grafton will be playing the Crookston Pirates at Grafton, and the North Dakotans, with all all-veteran team led by big Hank Newgard, are due for a win.

Three Boys, Age 11, in Juvenile Court on Rifle Theft, Shooting Charge

Three 11-year-old boys were taken into custody by local police Sunday on charges of having stolen rifles from the garage at the home of Mrs. James Havel, following which, police reported, they purchased cartridges and fired guns indiscriminately across the ravine near the city dump endangering the lives of two local young men who were engaged in shooting rats at the dump. Two boys appeared in juvenile court juvenile court Wednesday morning while the case of the third, now on parole after having committed a similar offense previously, remains to be disposed of. The boys denied having shot deliberately at the young men, and authorities censured the business places that sold the cartridges to the boys.

We are not sorry the Nuremberg trials have ended. They dragged terribly and at times we thought they should have been speeded up. To the credit of the trial judges however, the hearings were not held for the purpose of providing sordid entertainment. The court was primarily interested in securing information, fully aware that its findings would be an important historical document. The guilt or innocence of those who were tried probably could have been determined within a few weeks but by carefully checking and cross checking the testimony of the prisoners it has been possible to secure a fairly complete picture of the entire nazi program. The records of the Nuernberg trial will be of great value to future historians.

Flying history was made again this week when a navy plane flew more than 11,000 non-stop miles, nearly half way around the earth. Demonstrations of this kind should be of some real value in helping convince a few of our neighbors that now would not be a good time to start another war. One plane and a basket full of atom bombs could accomplish in one mission what it took hundreds of heavy bombers to do a couple of years ago—the best possible argument in favor of not having another war.

If the votes of the attorneys of the state would determine the election then our good friend Julius Olson, who is seeking reelection to the Supreme Court, would have nothing to worry about. Among attorneys Justice Olson is recognized as one of the outstanding men of the bench. Here in his home district he has the unanimous support of the bar and no doubt will be far out in front when the votes are counted.

For whatever comfort you may get out of the information we are glad to tell you that frost was reported this week in Illinois, Iowa, Missouri, Indiana and Kentucky while northeastern states were blanketed in snow. Maybe it will be our turn next but for the time being we are doing fine. We would enjoy it still more if we could recall who it was that told us there would be no more sunshine this year because it minded on the day the sun crossed the equator.

This is a busy season for fellows who are sports minded. With a world series ready to get under way, baseball must be given consideration. Football definitely cannot be neglected, and now the hunting season opens to take its toll of both time and thought. This is the season that really tests the capacity of men's minds.

Bernard Baruch has now taken issue with Henry Wallace over the latter's statements about the Baruch plan for the control of atomic power, and the outcome of this argument will be just as interesting as it is important. Baruch charges that Wallace misstated the facts five ways in his recent much publicised letter on this subject and on this particular subject Baruch should know whereof he speaks. We have never had a high regard for either the ability or the integrity of Mr. Wallace. He has always been a little too eager to assail the character of any and all with whom he disagreed. It would be healthy both for Mr. Wallace and the nation if he could be induced by Mr. Baruch to be a little more humble.

Harvey Helle Says ---

NOW is the time to get that car and truck of yours ready for the cold weather. You may want to use a Permanent anti-freeze in the radiator. If you want to wait for THAT, you may wait another year. A few gallons will be had by dealers, but only a fraction of the demand. The policy of the Helle Oil Co. will be to protect those who already have *Permanent anti-Freeze*, but not sale for extreme cold weather, first. Some will need only a quart or two. That will enable us to protect more units.

It will be very wise for others to stock up right now with THERMO ROYAL while we have a fairly large supply. The price is still 35c per quart, serviced in the radiator. BUT, why not bring your container and buy it for $2.10 per gallon? To be sure, we have been told by several suppliers that even these Type "A" will also be very short before really cold weather sets in. We are passing the information we have to you, and we have reason to belive it is quite authentic.

If you need a GOOD BATTERY for your car or truck we can still supply you with either "Gaco", "Auto-Lite", "Empire", or "Exide" while they last. The battery situation is going to be very critical. Ask any dealer you may wish.

Why not stop in one of these first days and pay us a visit. We handle a large number of items that you will be needing sooner or later.

We have a number of Genuine Rubber truck Inner Tubes, in sizes from 8.25 to 11.00, at prices you will be glad to pay. No, they are not synthetic.

HELLE OIL CO.

Turkey Season Is Here

We are now buying live turkeys, also on dressed basis or on the pool.

Write or phone and our trucks will arrange to pick them up at your farm.

Highest prices paid for all kinds of poultry.

Bring in your eggs and get the most money by taking advantage of our grading.

We also handle hides and will be able to give you your best market on all your furs in season.

Prowlers Downed by Grand Forks; to Play Devils Lake Friday

Scoring their only touchdown in the early part of the first period, Coach Ed Bohnhoff's Grand Forks Maroons edged out a scrappy Prowler eleven on the Lincoln field Friday night, winning by a 6 to 2 score. The locals, marked up their points on a safety in the opening minutes of the third period when Jim Blschke, back on his 11-yard line to punt, was forced to run back into the end zone to recover a bad pass from the center. Bob Larson made the tackle of Blschke.

This week Coach Lindenmeyer's Prowlers will meet the Devils Lake Satans in another North Valley conference game, with the contest being played on the local field Friday night.

Friday's rugged game found the Prowlers winning the toss and electing to receive, with Grand Forks defending the west goal and receiving the benefit of the north-west wind. Joe Williams, a navy veteran, kicked off for the Maroons and booted the ball into the end zone. On the first play a five-yard off-side penalty was levied against Grand Forks. Marlow Davidson gained a yard on a try at right guard; Les Vigness lost three yards on an attempt to circle left end, but Viggy regained a couple yards on another try at the flank. Vigness short, high punt was downed on the Prowlers' 42-yard line.

Williams hit center for five yards, and then pounded left guard for four yards. Two successive five yard off-side penalties on the Prowlers carried the ball to the locals 20-yard stripe. Jim Blschke drove off right end to the 31-yard line; Carl Morken picked up two yards at left tackle; and Blschke, on a fake pass, gained six yards off left tackle. Williams hit center for a first down on the 1-yard line, and on the next play, drove over right tackle for a score. The try for point, on a pass, failed, and Grand Forks led, 6 to 0.

Neither team threatened to score during the remainder of the first period, but in the second period, after Jim Welch had recovered a Grand Forks fumble on the Maroon's 40-yard line, Vigness booted a punt out-of-bounds on the Grand Forks' two yard line. The Maroons then began a drive that carried to the locals 23-yard line. A couple of plays later the half ended, with the Maroons holding their 6 to 0 advantage.

Vigness kicked to Blschke to open the second half, and the Maroon brought the ball back to the 27-yard line. A pass was incomplete; Williams gained five yards on a smash at left tackle. A fumble lost 11 yards and on fourth down and with Jim Blschke on his 11-yard line in punt formation, the center, Duane Burwell, who had replaced the injured Louie King, uncorked a high pass that rolled into the end zone. Blschke fell on the ball for a safety, giving the Prowlers their two points.

The Marrons continued to be under intense pressure throughout the second half, with the Prowlers being particularly close to scoring the winning touchdown in the fourth period. Les Vigness recovered a Grand Forks fumble in mid-field to start the drive. Swede Lund, taking a ball that popepd out of Vigness' arms at the line of scrimmage, sprinted to the Grand Forks 3-yard stripe. A pass, Vigness to Don Engelstad, gained seven yards. A 15-yard penalty on Grand Forks moved the ball to the 1-yard line. Larson made a yard at left guard; Vigness dropepd four yards around left end; a short pass, Lund to Vigness, picked up four yards; and Vigness was held for no gain at left tackle.

Blschke's punt was nearly blocked and the Prowlers regained the ball on the Maroons' 31-yard line. A pass, Marlow Davidson to Glen Magnuson, was complete for a first down on the 18-yard line. Magnuson, on another pass play, just failed to reach the ball on the 2-yard line; Burwell then intercepted a high, wobbly pass to halt the threat. Grand Forks ran out the time by driving into the line.

The heavy and aggressive Grand Forks line was successful in stopping the offensive tries of the Prowlers' Les Vigness; but the local captain turned in a spectacular defensive game, and gave the local line plenty of assistance in ham-stringing the highly-touted Jim Blschke, the Maroons all-state half-back.

Grand Forks had considerable edge in the first downs, picking up fourteen while the Prowlers had three first downs to their credit.

LAST TRAPSHOOT OF YEAR THIS AFTERNOON AT 4:30

The last trapshoot of the year preceding the duck hunting season will be held this afternoon at 4:30 at the fair grounds.

Keeping Score

It was Rough and Tough.

Said Grand Forks' coach, Ed Bohnhoff, after his team had squeesed out that 6 to 2 win over the Prowlers Friday night. "That was one of the most rugged high school football games I've seen in several years. We always have trouble winning over here, and I am well-satisfied to settle for that 6 to 2 edge." And one of the officials added: "Well, the boys certainly weren't playing touch football out there tonight."

Coach John Lindenmeyer, too, was pleased with the scrappy game that the young, and greatly out-weighed, Prowlers put up against the eleven that is rated as one of the strongest in North Dakota. Lindenmeyer was especially impressed by the Grand Forks line, telling his gritty linemen after the game that "they won't be up against as heavy and alert line as that Grand Forks line again this year, and that line is one of the best high school lines I've seen."

And it was that line, led by guard Tony Hughes, that was the chief factor in giving the Maroons their win, for those forwards were able to keep the local Les Vigness "bottled up" all night. Les was a marked boy out there, and whenever he took the ball the Grand Forks line was particularly quick in its charge and in surging through the interference to nail the Prowler captain. But while Viggy couldn't get away for any of his nifty, swiveling runs he had the satisfaction of knowing that his defensive work was putting the hobbles on Grand Forks' all-state hauf-back, Jim Blschke, Jim had as much trouble as Viggy in piling up yardage.

The Prowlers did get their share of the "breaks" Friday night, but one "break", in the final minutes of play, did go against them when referee Lysaker ruled that a fumble had been recovered by Grand Forks' Carl Morkes, had possession of the ball when the whistle blew, but when the pile-up was uncovered a Grand Forks player was found curled around the ball, and Lysaker, who was screened out of the play, could only rule that the ball belonged to Grand Forks. That fumble occurred on the Maroons' 17-yard line, and if the Prowlers had received the ball, and connected with a couple of passes, well, the score could have been different.

And this week it's the Devils Lake team that will provide the opposition, and if the Prowlers don't "sag" too much from their play against Grand Forks, they should rack up their first conference victory.

Will be Only Fair.

Scouts that have scoured the duck hunting tarritory to the south, east, and north report that prospects for a successful shoot on Saturday and Sunday are only fair. Lack of rainfall has resulted in most of the sloughs and potholes along ditch twenty being dry, and the ducks have moved into the Mud Lake Refuge.

The two locations with plenty of water are Thief Lake and the Red Lake river around the Neptune bridge, and those places, from all the conversation, will draw the bulk of the hunters. Warden Bill Carlson, at Thief Lake, said that there has been a trickling of northern ducks coming into the lake, but that there are fifty percent less ducks present than there were last year at this time. The reports from River Valley are that the ducks are scattered into small bunches, with mallards being most in evidence. There are a few blue-wing teal around, too, but if the weather becomes cold before Saturday, they'll pull out.

Al Berge visited at his old home town of Erskine on Sunday, and he stated that never had he seen so few ducks in the lakes down there. When you can't find canvas-backs and red heads in Cameron lake, which is partly a refuge, duck hunting isn't going to be very hot. And that about sums it up.

A wise man in time of peace prepares for war.—Horace.

POLIO FACILITIES IN MINNEAPOLIS FILLED TO LIMIT

Rural Areas Asked to Send Only Most Severe Cases in for Treatment

The Minneapolis emergency poliomyelitis committee has said that Minneapolis has about reached the limit of its capacity for taking care of poliomyelitis patients. Since the start of the epidemic, facilities located in Minneapolis have afforded hospital treatment to some 1,700 patients.

At the present time, there are 942 poliomyelitis patients in Minneapolis hospitals. More than fifty per cent of the patients are from Minnesota areas outside Minneapolis. About one-fifth of the cases are from outside of the state. In addition to the serious cases which still are received daily, there is a long waiting list of patients outside the city who desire treatment.

Rural Minnesota physicians and hospitals are being urged to take care of the sub-acute, non-paralytic and abortive cases by use of local facilities and limiting referral of cases to the Twin Cities of more serious cases. The Governor's emergency poliomyelitis committee is sending notice to all physicians urging that local facilities be used as much as possible thereby, reserving for the more serious cases the facilities in the Twin Cities. It is only in this manner that the bulbar type and other critical cases can be provided care in Twin City hospitals rather than being sent home immediately upon arrival.

The health departments of neighboring states, North Dakota, South Dakota, Iowa and Wisconsin, are being asked to arrange for the treatment of poliomyelitis patients in their respective areas.

Traffic Guide Lines Are Painted on 5,000 Miles of Highways This Season

Traffic guide lines have been painted on nearly 5,000 miles of Minnesota trunk highways during the present summer, the state highway department reports. The truck operated painting unit will be kept working as late this fall as weather permits.

Solid yellow lines parallel to the center line are used to mark "No Passing" zones on approaches to hills, curves and other hazardous places. A yellow line on your side of the center line means that you must not overtake and pass a vehicle or cross over to the left for any purpose until the yellow line on your side ends.

On winding roads with short curves, and on highways with four or more lanes without a center island, there are yellow lines on both sides of the center line which means that passing is prohibited from either direction.

Broken lines are used to mark the center line on two lane roads, and to mark lanes on multiple lane roads. White is used on bituminous surfaces and black on concrete, except where dividing strips built into the concrete are clearly visible.

JULIUS J. OLSON LEADS COURT POLL

Minnesota Attorneys Favor Present Justice

Associate Justice Julius J. Olson, for 22 years a member of the Minnesota supreme court, outdistanced his three opponents in the coming election in a poll of the Minnesota State Bar association to determine the attorney's choice or candidates for two seats on the bench.

Olson was given a nearly 2 to 1 vote by the attorneys, Robert J. McGuigan, secretary of the association, announced Friday.

Frank T. Gallagher, Waseca, brother and law partner of Henry M. Gallagher, former chief justice, ran second to Olson, hence shares the indorsement.

A total of 2,126 ballots were cast by lawyers of the state all of whom were given an opporunity to vote.

The official count in the poll shows: Olson, 1,845; Gallagher, 936; William C. Christianson, 838; Rollin C. Johnson, 833.

Associate Justice Christianson was appointed to a vacancy on the bunch o few months ago and was nominated for a full term in the July 8 primary.

Johnson, Forest Lake, is a former member of the state legislature and o fthe state railroad and warehouse commission.

In a field of eight candidates in the primary these four winners received the following votes: Johnson, 82,913; Olson, 183,185; Christianson, 139,182; Gallagher, 234,287.

St. Paul Home Builders Show Will Open Friday

Hundreds of exhibits, one of the largest collections of some building materials, equipment, appliances and furnishings ever to be shown in the Northwest, will be placed in the St. Paul Auditorium this week for the opening of the St. Paul Home Show.

The show, opening at 7 p. m. Friday, will continue through October 12, exhibits being on view from 1 p. m. daily.

In addition, the show will feature the model home which has been built at 1768 Bohland Ave., St. Paul, and which will be given away the final night of the show. This two-bedroom, ranch style house, decorated and completely furnished, including electric kitchen, is open for inspection from 10 a. m. to 10 p. m. daily. More than 45,000 persons have visited the house.

ASK JOB OPENINGS FOR THE DISABLED

Week of October 6 to 12 Slated for Observance

In conection with the current campaign to find job openings for handicapped persons sponsored by a division of the U. S. department of labor, Mayor W. J. Douville today released the following proclamation:

Whereas, Victory in World War II cost us more than 2,000,000 casualties and

Whereas, there are many millions of handicapped persons in the United States, many of whom by their efforts were of great aid in manufacturing munitions or providing essential service for the war effort, and

Whereas, all of these persons including disabled veterans of World War I and II, and other civilians have a right to self-supporting, self-respecting jobs in which they can make useful contributions to our community, State, and nation,

Now, Therefore, I, W. J. Douville, mayor of the city of Thief River Falls, do set aside the week of October 6th to October 12th as "Employ the Physically Handicapped Week," and I call upon all local officials, all local employers, all local civic organizations, and all citizens to assist in every way possible, to the end that it shall be brought to the attention of all members of our community that many disabled persons—veterans and other civilians alike—are fully capable and are performing efficiently, safely, and reliably in thousands of different occupations.

And I further urge all employers and the public to place all their job orders with the United States employment service, or call upon the agencies that serve the handicapped for services, so that disabled veterans and other handicapped workers may be given an opportunity to prove their value in productive and self-respecting jobs.

—Mayor W. J. Douville.

NEWFOLDEN

Mrs. Oscar Sorenson Passes Away

It is our sad duty to write the obituary of Mrs. Oscar Sorenson one of the best known and loved residents of our village, who passed away in her sleep at her home Wednesday morning, September 25 at 1 a. m. She had apparently been in her usual health up to the time of her death and her passing came as a great shock to everyone.

Mrs. Anna Stannes was born in New Solum township on June 1, 1896. She spent her girlhood in this community and attended and graduated from the Newfolden Community school. After completing school here she worked as a telephone operator and later went to Warren to attend North Star College. She then accepted a position as stenographer in the Register of Deeds office in Warren, where she worked until her marriage.

She was united in marriage to Oscar Sorenson of Newfolden at Warren, on June 3, 1916. Rev. N. G. W. Knutson, officiated. They then came to Newfolden to establish their home, where she lived up to the time of her death. She was at the time of her death, 30 years, 3 months, and 23 days old.

Mrs. Sorenson was member of the Bethlehem Lutheran Church, Newfolden being confirmed by Rev. M. Bjornson of that church, in October, 1908. She was also an active member of the Bethlehem Ladies Aid, where she has been a faithful and willing worker, who will be greatly missed. She was a kind and loving wife and mother, a true and helpful friend and a cheerful neighbor. Her kindness, cheerfulness and helpfulness will be long remembered by all who knew her.

Funeral services were held from Bethlehem Lutheran church on Saturday, September 28 at 1:30 p. m. Rev. E. J. Ranum assisted by Rev. G. P. Ronholm and Rev. Myhrer, officiated. A duet, "Ivory Palaces" was sung by Rev. and Mrs. G. P. Ronholm, and "Whiter Than Snow" one of her favorite hymns, was sung by Mrs. Kore Myhrer and Mrs. Louis Furstad. The many beautiful floral offerings, memory wreaths and the large crowd present to pay their last tribute, showed the esteem in which the departed was held.

Left to bitterly mourn her passing are her husband, Oscar Sorenson of Newfolden; Maxie (Mrs. Myran Anderson) of Thief River Falls; son, seven children, namely: Omer Arlene (Mrs. Burton Cook), Betty Anna, Howard, Shirley and Marion, all of Newfolden. Other surviving relatives are 3 sisters, Mrs. Alfred Johnson and Gena Tvedt, of Newfolden and Mrs. Pete Pearson, of Kennedy, 3 brothers Peter Tvedt of Newfolden and Oscar Stannes of Halma and two grandchildren Michael and Sherry Anderson, of Thief River Falls. She was preceded in death by her parents, one brother, one sister and a daughter, Donna Mae.

Pallbearers were Ed. Sorenson, Carl Sorenson, Arthur Sorenson, Albert Sorenson, Dewey Sorenson and Alfred Johnson. Interment was made in Oak Grove cemetery.

Sad and sudden was the call,
Of one so dearly loved by all.
It was bitter grief, a shock severe,
To part with one we loved so dear.
A loving Mother, true and kind,
What a beautiful memory you left behind.
Rest in peace dear one,
Your worlds weary troubles and trials are over.

The Newfolden Shipping Association will ship stock on Tuesday, October 8.

Mr. A. O. Gudim had a most pleasant surprise last week when he received a long and interesting letter from Mr. Aschmaneit, of Bayreuth, Germany. HISTORY WRITTEN ON DOLLAR BILL

St. Paul—A faded and wrinkled dollar bill bears the history of one man's part in achieving VE. Sherman Ayars, Pioneer press composing room employee, was given the bill in change. It indicated that some unsigned GI left the United States July 26, 1944, was in England and France, fought in Belgium September 29, had leave in Paris, fought in Holland October 25, at Aachen November 12, the Roer February 25, crossed the Rhine April 1, reached Berlin May 6, left Germany December 29, reached home January 22—probably broke, for there ends the saga of the unknown soldier.

New Cars and Your Dealer

(A Talk Given By Knox Manning on the Ford Festival of American Music Radio Program).

THE other day, a friend of mine said to me, "You know, with the tremendous demand there is for automobiles today there's one business I'd enjoy being in right now. I'd like to be an automobile dealer."

Well, maybe some of you feel the same way. So let's explore the question for just a moment. For the next few minutes, let's suppose that you are an automobile dealer; a Ford or a Lincoln-Mercury dealer.

On the face of it, the present period looks good for you. As a Ford dealer today, you don't have a selling problem. Customers come to you. You're doing a great business.

But right now, you just haven't got the cars that people want so badly. And for every person who places an order during the day, many more who have been waiting for their new cars for months call to complain about the hold-up in delivery. What's more, they all seem to hold you, the dealer, personally responsible for the delay.

Your biggest job as an automobile dealer today is to get across to the people the full story of why there are delays in car deliveries; to win their understanding; and to show them that you, the dealer, have absolutely no control over the production or distribution to dealers of automobiles.

You want the people to know things like this:

At the beginning of 1946, the automobile industry anticipated a production of about four million cars for the year. In the first six months of the year, however, only about six hundred thousand passenger cars were made by the entire automobile industry. That averages out to a production rate of seventeen cars apiece for all the automobile dealers in the country during the six-month period.

Shortages and strikes were the cause. And that doesn't necessarily mean strikes in the automobile companies themselves. For example, at Ford, from January through June, shortages and suppliers' strikes alone caused the company to lose fifty-seven of the one hundred and twenty-six days on which production would normally proceed. Forty-five percent of the working days were lost over a six-month period, due to conditions outside the Company and beyond its control . . . and certainly, then, beyond the control of the dealer.

Yes, as a car dealer, you want the people to understand the causes of delays in car deliveries. But you also want them to know what's being done about it. Beyond the Company's efforts to straighten out production problems, what are Ford and Lincoln-Mercury dealers and the Ford Motor Company doing to help in this situation?

First of all, the Company has set up the fairest possible schedule of distribution to its seven thousand dealers. Under this system it makes no difference whether the dealer is in a large community or a small one. No section of the country—North, South, Central, East or West— receives preference over another. Metropolitan, urban and rural areas alike get their equitable share of Ford's monthly production. The Ford system pro-rates new cars to dealers strictly on the basis of a historical percentage, using 1940 and 1941 sales as a base.

Next, the dealer himself delivers his allotment of cars to those who have been on his list the longest, and at least one out of every four cars delivered goes to a World War veteran.

Third, while many new cars cannot be provided, the Ford dealer is doing everything possible to keep old cars in top shape. Car and truck parts and trained help have not been easily obtainable in the past year, but Ford Dealers are daily improving the service and repair situation. In the first six months of this year, the number of mechanics at Ford Dealers was increased thirty-three per cent. In addition, more parts and equipment needed for service and repair jobs were obtained by the dealers. The result was that during the January-June period, Ford Dealers were able to perform ten million service jobs with an average monthly increase of fifty-one per cent in cars serviced this year as against last.

The best that any automobile dealer can do today with regard to getting new cars into the hands of the public is to follow a fair and just method of distributing those cars which are available. Beyond that, he can give good service to cars already on the road. Ford and Lincoln Mercury Dealers are doing those two things today to the best of their abilities. The Company itself is making every effort to increase production. Ford and Lincoln-Mercury Dealers are looking forward with all of us to the time when increased and uninterrupted production will make available a new Ford, Mercury or Lincoln to everyone who wants the best in automobiles at relatively low prices.

REPAIR FARM BUILDINGS for greater production

How to do it with CONCRETE and save time and labor

To increase farm productivity it is essential that buildings used to house livestock and store crops be in good repair.

Concrete foundations under barns, hog houses or poultry houses will restore these buildings to usefulness and provide protection against rot, termites and waste and damage caused by rats.

Free booklet, *"Restoring Old Farm Buildings With Concrete"* tells how to make needed repairs with materials which are plentiful and usually available locally.

If you need help, see your concrete contractor, ready-mixed concrete producer or material dealer.

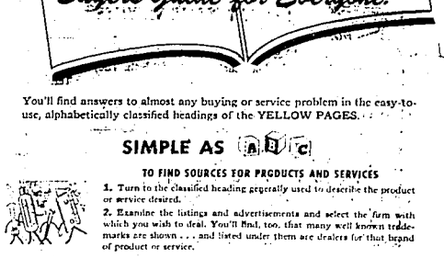
Why Auto Insurance Costs Are Up



1. Auto deaths show almost 50% increase over 1945
2. Repair costs for property damage and collision claims are up at least 33⅓%.
3. Old cars are not standing up, causing more breakdowns. New cars hard to get.
4. Auto thefts increased 18.7% in 1945.

Don't overestimate the ability of the old car. Use common ordinary "Horse Sense" when driving—it pays. Some day you too can enjoy a new car.

Mrs. John Schulling Arrives in Seoul, Korea.

Mr. and Mrs. Walter Lonergan have received word from their daughter, Mrs. John Schulling that she arrived safely in Seoul, Korea and had a very pleasant trip. They left Seattle on the U. S. A. T. James O'Hara, Sept. 4th and they left the ship Sept. 21st. They left the ship and went to shore on L. S. T. boats about twenty at a time. There they were met by their husbands and went by train to Seoul.

Red Cross workers were on hand to help care for the children and serve doughnuts and cold juice.

They went to their new home which is situated on a very high hill. It is a former Japanese home, quiet small and very oriental. As the carpenters are still working on it they will have to eat at the Kiraher, but seems very odd to have to remove ones shoes before entering the place to eat and eat sitting on a floor mat. She states there are many things to tell and its all quite wonderful. Her trip across was so pleasant she's looking forward to another sea journey.

DRIVER RECORDS AFFECT PENALTY

Files Showing Arrests Used in Traffic Courts

Traffic law enforcement agencies throughout Minnesota are making more and more use of the state highway department's drivers license records, according to W. F. Rosenwald, traffic engineer of the department, as records grow older, he added, they become more valuable as an index to the attitude and competence of the driver.

"A rapidly growing number of law enforcement agencies throughout the state are consulting the drivers license records when drivers are arrested for traffic law violations," said Mr. Rosenwald. "If the officers do not furnish the records the courts often call for them. If a driver's record is good, leniency may be recommended. But if he has record of arrests or accidents or both, more severe penalties, including revocation or suspension of license, may result.

"All reports of accidents, conviction for some offenses, such as drunken driving, makes revocation of drivers license mandatory. For some other offenses, such as reckless or careless driving or speeding, revocation is mandatory upon three convictions with 12 months. In other cases suspension may be recommended by the courts, or suspension may be ordered by the Department when the records warrant.

"The department requires a driving test, an eye test or a medical examination whenever deemed advisable, before or after license is issued. Need of such tests may be indicated by the driver's record, by his physical appearance, or by his written application. Or tests may be ordered upon request of police, neighbors or relatives who have reason to believe that a driver is physically or mentally incompetent.

"There is considerable demand for a law requiring examinations and driving tests for all applicants before licenses are issued. Mandatory tests would undoubtedly screen out some applicants with bad eyesight or other serious defects.

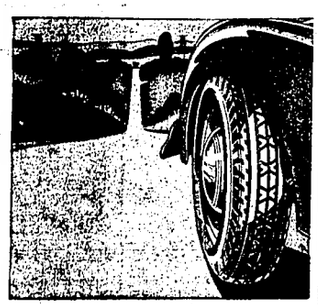
Clothing Production Is Above Prewar Rate, Says Fargo OPA Office

More clothing of almost every kind is being made and sold today than before the war. Maybe you can't exactly walk into a store and buy all the shirts and blouses and suits you want, but that isn't because they aren't being made in huge quantities.



"One reason you can't walk in and buy all of the shirts, blouses and suits you want is that our clothing production, in spite of being higher than before the war, just hasn't been able to catch up with pent-up demand", James S. Lamb, district director explained.

"The present level of clothing production, which is getting higher every month, is a pretty good sign that before long, the public will be able to buy all of the clothing it needs when it needs it," Lamb stated.

He pointed to fabric shortages caused by problems of shifting from military to civilian production as another reason for more clothing not being on the market. This is especially true of men's shirts and shorts. Even they are being produced at about the same rate in 1939.

Recollect that trifles make perfection, and perfection is no trifle. —Michelangelo.

COMING MONTHS CRITICAL PERIOD FOR DAIRYMEN

Threat of Dairy Price Ceilings Not Removed, John Brandt Declares

The nation's chaotic meat situation is an example of what dairying has avoided through recent refusal of the decontrol board to restore price ceilings on dairy products, but October and November will be critical months for dairymen, John Brandt president of Land O'Lakes Creameries, declared today.

"The threat of dairy price ceilings has not been removed permanently," Brandt explained.

"October and November will be a critical period, because OPA regulations last May and June did not encourage the manufacture and storage of butter which normally would have been laid by to meet demand during the lower production months of the fall.

"With no ceilings and with caution on the part of everyone for another 60 days, production will be encouraged to a point where supply will start catching up with demand."

Brandt is president of the National Cooperative Milk Producers Federation, which presented voluminous evidence on behalf of the decontrol board in urging that dairy products be kept on a free market.

"Certainly this board has observed that return of control on meats was not to the interest of the consuming public or anyone else", Brandt said, "Strong objections are being made daily from every section of the country's population."

Brandt's position in opposing controls during peacetime, and his predictions of troubles that would follow, were not always popular a few weeks and months ago, but at last week's hearing on food shortages held in Minneapolis by a special committee of the house of representatives, witnesses representing farmers, businessmen, retailers, packers and unions were unanimous in condemning OPA controls.

"The decontrol board still has not closed its books on the possibility of restoring controls over dairying," Brandt said. "Under these conditions, black market operators are doing everything they can to force a return of controls, because the black marketeers are the ones who make big profits when price ceilings are in effect."

MARRIAGE RATE SOARS SINCE 1940

Over 3,000,000 More New Families in U. S.

A net increase of three and a quarter million new families in the United States since 1940—almost half again as many families as there are in all six New England states, and 700,000 more than the peacetime marriage rate would have formed—aggravates the severity of our postwar housing shortage, according to an analysis by Northwestern National Life Insurance company.

Since 1940 the soaring marriage rate has formed nearly seven and a half million new families, while some four and a quarter million families were being terminated by death or divorce. Only a sharp rise in divorces, which reached a record total of slightly more than half a million in 1945, has kept the number of new families from climbing still higher, the report points out.

A corresponding rapid rise in the birth rates yielded a crop of 16½ million babies in the years 1940-45; this is 2.4 million more babies than would have been born in this period had the average birth rate of the 1935-39 period prevailed.

When babies arrive, young couples find it much more difficult to live in cramped quarters with their families or "doubled up" with other couples. Thus the record birth rate, the report says, further intensifies the pressure for additional housing.

The increase in total population in continental United States since 1940 has been approximately eight million persons. This increase, in a period of extremely low housing construction, necessarily puts terrific pressure on existing facilities.

News of R. R. Valley Home for the Aged

We have again favored with another week of ideal autumn weather.Contributing much to this well being and contentment of our family and yet another contributing factor was the return last week after a two month's absence of the matron, Mrs. Selma Moe. She returned improved as a result of treatment taken for an ailing eye. Besides which she regards having spent a pleasant vacation time with various members of her family and friends in the southern part of the state.

We are at this time thankful for flowers gracing lobby and dining room brought in from the H. K. Strand funeral.

Mr. and Mrs. N. G. Backstrom left here for their home in Alvarado, Minn., Mrs. Backstrom leaving her position as cook here and leaving us to miss her capable direction of the culinary department. Rev. Larson of Alvarado came here to help them make the move.

Members of the family who have been more or less under the weather these last days are Carl Edman, Mrs. Louise Erickson and Mrs. Marit Sevolson.

Mr. and Mrs. Albin Rautstrom called here last week bringing with them a supply of vegetables for which we are thankful.

Joe Rustvold made a trip out to Grygla the first of the week.

Miss Pearl Kluven who has been with us as a member of the staff, left us at the end of last month, after about four months of able service here. She plans on going on a trip to Chicago this week.

Rev. E. F. Rabine, who has resigned from his position as superintendent of this Home left here Tuesday on a trip to the west coast. He is being accompanied by his family.

Tuesday marked the arrival here of Rev. and Mrs. Alfred N. Larson from Atwater, this state. Rev. Larson comes here to assume the position vacated by Rev. Rabine and Mrs. Larson to assume duties as another member of our working force. We bid them a hearty welcome and wish them success in their new venture.

Rev. G. R. Carlson was a caller at the Home Tuesday, bringing with him a cash offering, given by friends in memory of Mrs. C. Smith.

Early Shoe

Did you know that the sandal is believed to be the earliest type of shoe known to man with at least 4,000 years of style history behind it. Its long story started when primitive man wrapped a piece of leather hide around his foot to protect it from thorns.

First Movie

The Editor Kinetoscope made its first public appearance in New York April 14, 1894, but the commercial career of the motion picture began with the presentation of the Armat machine as the vitascope April 23, 1896. The first picture, "The Life of an American Fireman" offered in 1903, was without a plot. This was followed by the first story picture in 1905, "The Great Train Robbery." In 1927, Al Jolson appeared in "The Jazz Singer," the first picture with spoken sequences and the first all-talking picture, "Lights of New York," appeared the following year.

Green Lawn

For a good green lawn in the spring, apply 50 pounds of 4-7-5 or some other complete fertilizer to every 1,000 square feet while the grass is dormant or before spring growth gets well under way. Broadcast it evenly over the lawn and then water it in thoroughly.

Sweet Potato Nutritious

Sweet potatoes supply energy to live and work. Like most of the other vegetables, they furnish mineral salts, vitamins and bulk, and have the advantage of yielding an alkaline product in the body, which helps to counteract the effect of acid products produced by such foods as cereals, meat and eggs.

Wrap Apples

Apples wrapped in paper or packed in leaves will not absorb odors from vegetables stored in the same cellar.

The Pursuit of Happiness

The increasing technological orchestration of this Continent is producing such a plethora of goods and services that there soon will be forced upon our society the choice of a governance which will be entirely responsible for the material well-being of every one of its citizens from birth to death.

We are not equal as man to man. We are unequal in our capacity to serve and we are unequal in our capacity to consume. We will, however, be equal as citizens. Citizenship will be an equal obligation of service by all, bringing to all an equal and irrefutable claim upon the abundance of our Continental wealth.

The march of events is bringing the American people face to face with the need of invoking that part of the Declaration of Independence which states that "whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or abolish it, and to institute new Government, laying its foundations on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."

Technocracy is doing its best to be ready when the American people decide to claim their rights under the Declaration of Independence.

How fortunate we inhabitants of this most favored of all Continents are! Previous generations had to venture forth in the darkness, groping their way slowly. Today, the next step in the structure of human society is already charted. Its magnitude is staggering. Its possibilities following the pursuit of happiness are innumerable and enormous.

You will not be able to remain unaffected in this greatest of all social constructions. Why not be in the vanguard and fill a place where you are needed, and where you will become a live hero? Our forefathers went out many times, for lesser causes, to become dead ones. Align yourself with Technocracy in your pursuit of happiness!

CITY COUNCIL PROCEEDINGS

Thief River Falls, Minnesota.

Pursuant to duly advertised call for bids for the purchase of certain vacant real estate and police department motor car, the City Council met in special session in the Council Chambers in the Auditorium and Municipal Building on October 1, 1946. The meeting was called to order at eight o'clock P. M. with all members present, Simons, Engelstad, Anderson, Berge, Nelson.

Alderman Anderson moved that the Council proceed to consider bids for the Police Department motor car and that bids be opened and read. The motion was seconded by Alderman Berge and adopted. Proposals and price bid were as follows: Everett Erickson, City, $224.83; Willard Strandberg, City, $226.83; Milan Ristrom, Red Lake Falls, $224.83; Edwin Burton, Red Lake Falls, $224.83; Leonard Hetland, City, $224.83; Louis Borchert, City, $224.83; Wesley Johnson, City, $224.83; Leonard Hanson, City, $224.83; Bennie Burton, Red Lake Falls, $224.83; Ralph Fischer, City, $224.83; Stanley Mogen, $224.83. There being no identical proposals to pay $224.83, City ceiling price, the President directed that such bids be numbered from one to ten, that corresponding numbers be placed in a box and that a number be drawn from such box by a disinterested person present; which number would indicate the successful bidder. The number drawn was found to be No. 3 and corresponded with the number of the proposal of Milton Ristrom of Red Lake Falls, Minnesota. Alderman Engelstad then moved that Milton Ristrom of Red Lake Falls, Minnesota, be awarded the contract for the purchase of said motor car and that the President and Clerk be authorized to execute proper papers to such effect. Motion was seconded by Alderman Anderson and adopted. Upon roll call, Simons, Engelstad, Anderson, Berge, Nelson, voted aye. No nay votes. Motion carried.

Alderman Berge moved that the Police Department motor car and the old Fire Department motor car be declared surplus property of the City of Thief River Falls, Minnesota, and that the Chief of Police and Fire Chief be authorized to advertise for bids for the purchase of said motor cars. Motion was seconded by Alderman Engelstad and adopted. Upon roll call, Simons, Engelstad, Anderson, Berge, Nelson, voted aye. No nay votes. Motion carried.

Alderman Anderson moved that the Council proceed to consider bids for the purchase of certain real estate owned by the City of Thief River Falls, Minnesota, described as Lots Numbered Seven (7), Eight (8), Nine (9), Ten (10), Eleven (11), Twelve (12), Thirteen (13), Fourteen (14), Fifteen (15), Sixteen (16), Seventeen (17), Eighteen (18), Nineteen (19), Twenty (20), Twenty-one (21), Twenty-two (22), Twenty-three (23), Twenty-four (24), Twenty-five (25), Twenty-six (26), Twenty-seven (27), Twenty-eight (28), Twenty-nine (29), Thirty (30), Original Townsite of the City of Thief River Falls, Minnesota, and that the Council has authorized the sale of said property by sealed bids; that the Council has instructed the Clerk to advertise for bids for the purchase of said real estate; that bids were to be opened at the regular meeting of the Council held September 16, 1946, at eight o'clock P. M. and that the following bids were received: Alvin Erickson, Red Lake Falls, Minnesota, $1,000.00; Milton Ristrom of Red Lake Falls, Minnesota, $1,000.00; Ralph Fischer, City, $1,000.00; Stanley Mogen, City, $1,000.00; Bennie Burton, Red Lake Falls, $1,000.00; Louis Borchert, City, $1,000.00; Wesley Johnson, City, $1,000.00; Leonard Hanson, City, $1,000.00; Willard Strandberg, City, $1,000.00; Everett Erickson, City, $1,000.00; Leonard Hetland, City, $1,000.00; Edwin Burton, Red Lake Falls, $1,000.00; Milan Ristrom, Red Lake Falls, $1,000.00. Alderman Anderson moved that said bids be rejected for the reason that the bid price was considered inadequate. The motion was seconded by Alderman Engelstad and adopted. Upon roll call, Simons, Engelstad, Anderson, Berge, Nelson, voted aye. No nay votes. Motion carried.

Alderman Berge moved that the Council proceed to consider bids for the purchase of

IN THE MATTER OF THE CONDEMNATION OF CERTAIN LANDS FOR TRUNK HIGHWAY PURPOSES

NOTICE

To the persons herein named:

You and each of you are hereby notified that on the 12th day of November 1946, at 10:00 o'clock A. M., or as soon thereafter as counsel can be heard, in the Court House at Thief River Falls, Pennington County, Minnesota, the undersigned petitioner will present to the above named Court, a petition as is hereinafter set forth for the condemnation of certain lands for trunk highway purposes.

The objects of said petition are to take for use on Trunk Highway marked 1, being Route Number 170, an easement in the lands hereinafter described, including the following rights: To construct, maintain and fences upon said lands and the lands adjacent thereto; to cut down all trees, shrubs, grass and herbage within the right of way of said trunk highways and to keep and have the exclusive control of the same; To acquire the right of access to said highways from the owners whose lands front thereon in those cases which are hereinafter particularly mentioned; and further, to have the Court appoint commissioners to ascertain and report the amount of damages that will be sustained by the several owners and persons interested on account of said taking.

The lands hereby sought to be taken are situate in Pennington County, and are described as follows, and the names of persons appearing of record or known to your petitioner to have or claim any said lands or interested therein, including all whom your petitioner has been able by investigation and inquiry to discover, together with the nature of the ownership of each as nearly as can be ascertained, are as follows:

KRATKA

The Kratka 4-H club achievement day which was held the 29th in the afternoon at the Emiley hall resembled a miniature county fair with its display of fancy work sewing, canning an assortment of splendid vegetables and several beautiful bouquets of flowers from the home beautification projects and a substantial showing of chickens from the poultry projects.

Besides a short program consisting of songs readings, and recitations by club members there was a talk by Mrs. Tod Lendobeja on benefits obtained from club work and we were very fortunate to have with us Robert Lund of Thief River Falls who in his talk touched on facts that should encourage and inspire us to appreciate our 4-H organization.

The exhibits were judged by county agent E. A. Palmer and club leader Elfie Hanson assisted by Alf Jorstad and Mrs. Joe Johnson. Mr. Palmer also gave us some information on how each club is rated during the year and how to earn some extra points.

Also included in the program was the singing of happy birthday for Mr. Palmer, who was generous enough to take time on his birthday to help put our achievement day program over. The club presented him with a birthday cake to show their appreciation.

Another item of interest of the day was Oscar Breilands chicken culling demonstration. In spite of loud protest by his leghorns, Oscar managed to show us which hens to get rid of and which ones to keep.

Sgt. Alvin Hanson arrived at his home in Thief River Falls last week from Japan where he has been stationed for Camp McCoy, Wisc. where he will receive his discharge from the army.

Willard Hefdahl who is a student at the University of Minnesota spent the last two weeks of his vacation at his parental home here.

Mr. and Mrs. Victor Martin and Vicki Ann of Lemore, Calif. spent two weeks here recently visiting with Mrs. Martins parents, Mr. and Mrs. O. O. Hafdahl and other relatives. The Martins accompanied by Mr. and Mrs. Hofdahl left by car Friday for Fergus Falls, to visit at the Arthur Hofdahl home before going on to Minneapolis where Mr. and Mrs. Martin and daughter boarded a plane Monday morning for their home in Calif.

Ed Magnan is having a water system installed in his home. The work is being done by Henry Magnan and assistant from Brainerd.

Photography of Mars

Much valuable work has been done with the great Lick refractor in planetary observations. At the last close approach of Mars 32 drawings of the planet and about 1,500 photographs were obtained, many of these with the aid of specially dyed plates. These are of great value in interpreting the nature of the changes that are continually taking place on the surface of the planet.

Flight Stewardess

Tact and poise are two attributes, perhaps above all others, which a girl must have to be a success as a flight stewardess. Sometimes when an applicant is being interviewed for such a job, the examiner will suddenly ask the girl an embarrassing question. If she flusters easily, she won't make a good stewardess.

VIKING

Zion Lutheran ladies aid Saturday evening, Oct. 5th. Serving begins at 6. Hostesses, Mrs. Emil Sherm, Mrs. Alfred Ranum, Mrs. Morris Halverson and Mrs. Clara Fredrickson.

The 4-H club will meet on Friday evening at 8 o'clock, Oct. 4th at the hall. October is the beginning of a new club year and any boy or girl between the ages of 10 and 21 is invited to join.

The American Legion Auxiliary Unit 424 will hold its regular meeting on Tuesday evening Oct. 8th at 8:30 at the Hall. All members are urged to be present.

Death Sign

Some member of the royal family of Hawaii has died in the past century, within 24 hours after the coastal waters of the islands suddenly have become filled with millions of small, red "death fishes." As a result, the belief that their inexplicable visits presaged such deaths grew so strong that, when they reappeared in November, 1917, preparations for the funeral of ex-Queen Liliuokalani were started in Honolulu several hours before she passed away.

Substituted Statue

In a plaza of Guayaquil, Ecuador, stands a statue of a famous man that bears the name and perpetuates the memory of another. Although engraved "Olmedo" and supposed to be a true likeness of that country's most celebrated poet who died in 1847, it is actually a statue of Lord Byron which was purchased in a London junk shop, the high cost of an especially-made memorial having resulted in this compromise and substitution.

AIRPORT J... APPROVED ... MAYOR'S VE...

Council to Consider Salary Readjustment for City Employees

The long-standing dispute between Mayor Wm. Douville and the city council over the development of the municipal air port reached another climax Tuesday evening at the regular October session of the council when it was revealed that the mayor had withheld his signature from the contract entered into by the council with Oscar Schenkey for the construction of runways.

The council immediately proceeded to repass the resolution over the mayor's veto.

Representatives of the power plant staff and line workers were present at the meeting and asked the council for a salary increase of $20 a month to aid in meeting the rising cost of living. A motion was adopted to give serious consideration to adjustments in salaries for workers in the various departments.

Ernest Johnson was present in behalf of the Lions club to ask the cooperation of the council in financing expenses in connection with the city-wide Halloween festival scheduled for October 31. The council agreed to underwrite the expenses to the extent of $200.

Representatives of property owners near the north city limits were present to ask action on petitions calling for the installation of sewer and water mains in that area. With only enough pipe available to serve one city block, the council indicated it would call a hearing of property owners and arrange to do as much work as the supply of material will permit. The matter was referred to City Attorney Theodore Quale and City Engineer Douglas Stewart to work out details.

A resolution was adopted approving plans and specifications for a chapel and storage vault at Greenwood cemetery and arrangements were made to call for bids to be opened at an early date.

Among major applications for building permits approved at the session were those of Ivar Nelson for a residence at 1018 Knight av. N. to cost $6,000; D. W. Fossell, residence at 1013 Taft st., $4,000; and Peterson-Biddick company, truck garage, $1,600.

Excitement was lent to Tuesday's session by the presence of a large delegation of women and a few men, who asked the council to reopen the playroom for small children in the area, which had been closed as the result of the recent outbreak of polio.

Bill La Fave, chairman of the recreation board, served as spokesman for the group, and was supported by brief remarks by Quentin Jones, Dr. Theodor Bratrud and others, who cited the benefits to children of playing in groups under proper guidance.

The council reserved a decision on the matter until an adjourned session later in the week.

PROPANE GAS BULK PLANT OPENS HERE

Western Oil & Fuel Co. Plant to Open Saturday

Announcement of the opening of its propane gas bulk and bottling plant is made this week by the Western Oil & Fuel Co. The plant, which is located on Atlantic Avenue north of Eighth St., will be open for public inspection Saturday.

With its storage and pumping station in operation the company is now able to receive this type of gas in tank cars and deliver it in bulk at a substantial reduction in cost, thus extending the uses of this type of fuel in the community.

Construction of the station has been under the direction of Charles W. Guptil, company engineer, who will remain here as supervisor for a short time. Del Seefeldt has been named plant manager.

D-F-L ASPIRANTS SPEAK AT RALLY IN CITY SATURDAY

Small Gathering Hears Talks by Dr. Jorgenson and Other Candidates

Nearly 100 persons heard talks by Democratic-Farmer-Labor candidates for office in the November election at a rally Saturday evening in the Civic and Commerce room. Joe Marusko, Pennington county chairman, presided.

The principal address was given by Dr. Theodore Jorgenson, candidate for the U. S. senate. Identifying the Republican party with the National Association of Manufacturers he asserted that the latter organization is predicting that small farms will be eliminated during the next 25 years due to the increasing mechanization of the industry.

The speaker said that the Republican party is opposed to the extension of social security benefits, and he added that it is up to the people to see that humanity takes precedence over business interests.

Verner Nelson, candidate for Congress from the Ninth district, upheld the international policies of Henry A. Wallace, as did D. B. Shetterly of Red Lake county, seeking election to the state legislature from the 65th district.

Marius Waldal, candidate for the state senate, also spoke briefly, stating that his program was nearly identical with that of the Democratic-Farmer-Labor party.

Harold H. Barker, candidate for governor, and Paul Rasmussen, for railroad and warehouse commissioner, who were also scheduled to speak at the rally, failed to appear.

Mrs. Edna Nilsson and Mrs. Wm. Gilbertson Are Back from Polio Parley

Mrs. Edna Nilsson, school nurse, and Mrs. Wm. Gilbertson last Friday were in Minneapolis attending a meeting called by the polio research commission for the purpose of carrying out a survey of the polio outbreak in Minnesota. The meeting, held at the center for continuation study at the University of Minnesota, was under the auspices of the state health department. Dr. Gaylord Anderson, head of the polio research commission, was in charge of the meeting, which was attended by ninety public health nurses. Mrs. Nilsson and Mrs. Gilbertson were appointed to make the epidemiological survey in Thief River Falls and Pennington county.

State Auditor King Will Speak at GOP Rally Here Tuesday

Stafford King of St. Paul, state auditor for the four terms and a candidate for that office in the November 5 election, will be the principal speaker at a rally in the municipal Auditorium next Tuesday evening, October 15, at 8 o'clock under the auspices of the Pennington county Republican committee.

Preceding the evening program, the county committee will be host at a dinner in the Rex Cafe Terrace room at 6:30.

In World War I Mr. King was a first lieutenant of infantry, while in the recent conflict he saw 31 months of active service in the U. S. Army airforces most of which was in the Pacific area, being discharged with the rank of major late in 1944.

Serving four years as department adjutant in Minnesota, he later was department commander and national vice commander. He also served as first director of the department of soldier welfare in Minnesota.

Cases of Polio Still Being Reported in Area

A previously unreported case of polio in rural Pennington county is that of Joseph G. Armstrong, 7, son of Mr. and Mrs. Lee C. Armstrong, living southwest of Thief River Falls, who was taken to Minneapolis for treatment last week. Yvonne Langness, 16, daughter of Mr. and Mrs. Henry Langness of Greenbush, in serious condition, was flown yesterday from Thief River Falls to University hospital in Minneapolis.

560 Federal Duck Stamps Sold Like Hot Cakes Here

So great was the demand by hunters for $1 federal duck stamps that the local postoffice exhausted its supply of 560 stamps late Friday afternoon, and scores of hunters were unable to get their stamps until a new stock of nearly 400 was received by the postoffice Tuesday morning. In the meantime Postmaster Andrew Anderson had attempted to obtain stamps from other offices in this locality, but all reported that they, too, had run short.

Employment Service Asks Job Openings for the Handicapped

"It is good business for employers to utilize the abilities, skills and experience of handicapped persons and their community benefits when it is done, Edward Stonich, manager of the local United States employment service said today in calling attention to the objectives of National Employ the Physically Handicapped Week, October 6th to 12th.

"For many years we have heard about the employment problems of the handicapped person and too many people have grown accustomed to believing that these constitute a community problem that cannot be solved," Mr. Stonich said. "During the war years we learned that handicapped workers make efficient workers when they are placed in jobs for which they are qualified.

"Now is the time to recognize the qualifications of handicapped veterans and other persons who are able and willing to take their place in industry or commerce," he stated. "When they are placed in the right jobs, handicapped persons are able to do as good or better work than able-bodied persons."

The local USES office this month is stressing the need for employers to hire a greater number of handicapped workers, Mr. Stonich said. While many employers have done a splendid job in hiring handicapped persons," Mr. Stonich explained, "We still need more employment opportunities for disabled veterans who have returned from service."

$7,400 IS FIXED AS OBJECTIVE IN FUND DRIVE

Drive to Raise Funds for Various Agencies Will Open October 21

The second annual community fund campaign will get under way in Pennington county Monday, October 21, Russell E. Olson, general chairman, announced today following a meeting of the fund committee Wednesday evening. He also stated that Ernest Palmer, county agent has been appointed chairman for the rural areas of the county.

Hoping to receive contributions aggregating not less than $7,400 the committee has set a quota of $6,000 for the city of Thief River Falls and $1,400 for the remainder of the county.

The campaign in Thief River Falls will provide funds for the USO, Salvation Army, National Cancer Foundation, and the boy and girl scouts. In the rural areas, residents will contribute to the same causes with the exception of the boy and girl scout work, which is considered the city's responsibility.

The committee expressed the hope that citizens would contribute in the drive the equivalent of one day's income. Further details on the campaign will appear in the Times next week.

TURKEYS BEING HANDLED NOW AT NEW L.O.L. PLANT

Processing of Birds Is Shifted from Main Plant in This City

The Thief River Falls branch of Land O'Lakes Creameries, since the first of the month, has been processing turkeys in its recently constructed plant in the millyard, instead of at the main plant in this city, where, however, chickens continue to be processed, Stuart McLeod, manager, stated today.

Approximately thirty workers are processing about 1,400 turkeys daily. They are being marketed in a pool extending from October 1 to 15. A second October pool will be in operation from the 16th to the 31st.

Mr. McLeod stated that the outlook is that a large volume of birds will be marketed here during the fall and early winter, and that prices are satisfactory to growers at the present time. New York quotations during the past week or more have been on the basis of 61 cents per pound for young hens and 48 cents for toms, toms.

Rueben P. Odegaard Takes Bride at Church in Willow City, N. D.

The Presbyterian church of Willow City, N. Dak., was the setting of the wedding Sept. 21 of Miss Marguerite Haltz, daughter of Mr. and Mrs. Clifton Haltz of Willow City, to Rueben P. Odegaard, son of Ole Odegaard of Hazel.

Rev. R. Russell officiated at the double ring ceremony, and the bride was given in marriage by her father, Clifton Haltz of Willow City.

Baskets of Multi-colored gladioli and all flowers were used in decoration of the altar. Mrs. Fraser Gordon was at the organ, and Miss Nona Kuke sang 'O Perfect Love' and "Because".

The bride had a gown of white net over slipper satin, fashioned with a fitted bodice and full skirt, with sweetheart neckline and long pointed sleeves. She wore her only jewelry a strand of pearls, gift of the groom, and had a fingertip veil edged with sequins and held in place by a cluster of orange blossoms. She carried a colonial bouquet of white gardenias and stephanotis tied with white satin streamers.

Miss Marion Haltz, sister of the bride, was maid of honor in a pink chiffon gown. She carried a hand bouquet of orchid gladioli and wore a matching coronet.

Bridesmaid, Mrs. Howard Lavik aunt of the bride, was attired in blue net and carried a hand bouquet of pink carnations with matching coropel. Both attendants wore gold lockets, gifts of the bride.

Mr. Odegaard's bestman was Walter Odegaard of Devils Lake, N. Dak., his brother, and usher [illegible]

ing were Frances Reamer and Howard Lavik, cousin and uncle of the bride, respectively.

Flower girls Marylin Albright and Dianne Knoke, wearing long dresses of white over yellow and blue, had matching coronets and carried bouquets of mixed flowers.

The rings were brought to the altar by a cousin of the bride, William Terry Harley of Fargo, N. Dak., on a heart shaped satin pillow.

A reception at the home of the bride's parents followed the ceremony, and Mr. and Mrs. Odegaard left on a trip to Minneapolis. For travelling, Mrs. Odegaard wore a deep coral suit with black accessories and a gardenia corsage. They will reside in Red Lake Falls after Nov. 1.

Mr. and Mrs. Oscar Odegaard and Miss Mae Odegaard of this city and Mr. and Mrs. Harvey Odegaard of Hazel were among the out of town relatives present.

Leone Johnson Honored at Surprise Party

Eleven guests entertained Saturday afternoon at a surprise party for Miss Leone Johnson, daughter of Mr. and Mrs. Julian Johnson, who was observing her 11th birthday anniversary. Bingo formed the afternoon's diversion, with high prize going to Delores Rafferty, and low to Janice Horter. Highlighting the luncheon were eleven individual cakes with colored icing topped with candles. At the close of the afternoon Leona opened her gifts.

Aileen Johnston Weds at Historical Church in Williamsburg, Va.

Before an altar flanked with baskets of chrysanthemums, daffodil, and ferns, Miss Aileen Johnston, daughter of Mrs. Myrtle Hale of this city, became the bride of Cpl Francis J. Grahn, son of Mr. and Mrs. Frans Grahn formerly of Roseau but now of Naples, Fla.

The candlelight service, solemnized by the Rev. H. H. Graighill, Jr. at seven o'clock in the evening of Sept. 23, was performed in the Bruton Parish church, the oldest site of worship in constant use in America, which is situated on the historically restored Duke of Gloucester Street of Williamsburg, Va.

Their attendants were Cpl. Jack Campbell of Charleston, S. C., and Sgt. David Brown of San Francisco, Calif., friends of the groom stationed at Camp Lee, Va.

The bride was attired in a white street-length dress with black accessories. She wore a corsage of red roses and her only jewelry was a gold bracelet, a gift of the groom. Cpl. Grahn and the attendants wore regulation army uniform.

Following the ceremony a wedding supper was served the bride's party in an eighteenth century setting in the famed Travis House Garden.

After a sight-seeing tour of the principal exhibition buildings and gardens of the restored city of Williamsburg, Cpl. and Mrs. Grahn returned to Hopewell, Va., where they are making their home. Cpl. Grahn is stationed at nearby Camp Lee.

The bride was graduated from the Lincoln high school with the class of 1941, and for the past two and one-half years had been employed in the county auditor's office in Roseau. Prior to moving to Roseau she had been employed as society reporter for the Tri-County Forum.

Before his entrance into the service, Cpl. Grahn was engaged in farming near Roseau during the summer months, and during the winter, in commercial fishing off the coast of Florida.

TRINITY CHURCH TO HOLD MISSION FESTIVAL SUNDAY

Rev. Andrew S. Burgess, Leader in Missionary Work in Church, to Speak

The annual mission festival of the Trinity Lutheran church will feature three special events when the congregation observes the day next Sunday, The Rev. Andrew S. Burgess, director of missionary education for the Board of Foreign Missions of the Evangelical Lutheran Church, will be the principal speaker. He will speak to the children of the Sunday School at 9:30 a. m. and will preach the sermon at the Festival Service at 10:30.

In the evening, at 8:00 o'clock, he will show several reels of motion pictures which he has taken personally on his trips to 32 foreign countries. An added feature of this informal evening service will be a transcribed message recorded and addressed personally to the Trinity Church by the Rev. and Mrs. Luthard Eid, now en route to China as missionaries supported and maintained exclusively by the local congregation.

The special mission emphasis for the Sunday school will be a part of a series of such Sundays, once each month, at which the children have brought a mission gift that has totalled between $300 and $400 each year. At the festival service Mr. Burgess will bring to the congregation a message based upon his wide experience and contact with the field of Foreign Missions. Returning only recently from a trip to South America, where he visited nineteen countries and travelled more than 25,000 miles he is an authority on the new Protestant Mission work being done on that continent. Mr. Burgess is the editor of the magazine, The Missionary and is the author of six books on Missions.

As an outgrowth of the decision by the congregation at its annual meeting last January, the Rev. and Mrs. Luthard Eid, have now been confirmed as the special missionaries adopted by the church for exclusive support in addition to its regular apportionment to the support of benevolences and missions. The young couple just embarked upon their first term of seven years in China and will send periodical reports of their activities to the home congregation.

At the informal evening service, when Mr. Burgess will show several reels of the many thousands of feet of motion picture film he has taken on the Mission fields, four records of a transcribed message from the Eids will be played back to the congregation as their personal message to their home church on the eve of their embarkation for foreign service. The public is cordially invited to attend this and all the events of this festival day.

Mrs. C. L. Engelstad entertained the Young Matrons group at her home Tuesday evening.

Superintendent From Winnipeg Is Heard at Woman's Club Meeting

Approximately 125 members were at the Woman's Club guest meeting held Monday night in cooperation with the Toastmasters club, at which A. V. Pigott, assistant superintendent of schools in Winnipeg, Man., was main speaker.

The evening's program opened with a pledge to the flag, followed by the vocal solo, Cole Porter's "Night and Day" by Dick Biddick, accompanied by Jerry Joringdahl.

Russell E. Olsen introduced Mr. Pigott, who had chosen as his subject "Community Organization for Better Living". His talk emphasized the three rules of mental health which are necessary in solving the problems which arise in the building of a community for better living.

The first was self expression. He stated that the community development starts in the home and school, where a child must have an adequate chance for self-expression, but there must be a balance between his ability and what he actually achieves.

The second rule of mental health is the security which an individual must have and which must be found in the pre-school years. Otherwise, said Mr. Pigott, without the proper family relations he may become a misfit and this will affect him mentally. At the same time he needs security in the school and should be made to feel that it is what he wants and needs.

Social integration is the third rule pointed out by Mr. Pigott, who asserted that we must not be made to feel as lone wolves, but that there is some good in most of us, which if allowed expression could be of benefit to the whole.

In building a community we should conserve human ability and give each one a chance to express himself. There are patterns of citizenship to be followed, but the field of recreation has been left without much planning, resulting in the fact that there is eight times as much money spent on punishment of a crime as on the education of a citizen. He states that $1.50 is the least one can spend on community organization, and 75c of that must be spent on professional leadership. He added that Thief River Falls can be what we want to make of it, if the home, the school, and all civic organizations cooperate in solving the city's problems.

Th music group concluded the program with the song "I Passed by Your Window" directed by Miss Alma Klawitter, accompanied by Mrs. W. J. Brown.

Lunch was served in the Woman's Club rooms by the girl scouts from a prettily decorated table in the autumn theme. The silver offering was donated to the scouts for their tasty lunch, which was served with the help of their leader Mrs. Victor Jung, Mrs. Ed. Bratrud, and a few mothers of the scouts.

Area Executive for Girl Scouts Is Discussed at Meeting Here Last Week

Miss Harriet Lloyd, national field advisor in Girl Scouting met with a group of men and women interested in scouting in Thief River Falls Wednesday, Oct. 2, to discuss the development of an area council for the northwestern part of the state.

The committee thought that a logical area would include the following counties: Kittson, Roseau, Marshall, Polk, Pennington, Red Lake, Norman and Mahnomen. Through the cooperation of these counties, it would be possible to employ a year round trained Girl Scout executive to develop the troop program so that more girls could participate.

The following counties were represented at this initial area meeting; Roseau: Walter Heil and Arnold Hildahl; Warren, Clarence P. Johnson and Miss Ruth Bedie; Thief River Falls, William Froiland, J. Robert Petersen and Mrs. L. B. Hartz. Since Thief River Falls is centrally located the committee decided to have another meeting November 6, at which time it is hoped that each county will be represented to continue this project.

Dr. Stoeve, president of the North Dakota district will be the main speaker.

Pepper Storage

Whole black pepper can be stored as long as 100 years without deterioration, say experts, citing an example of such storage in a London warehouse.

Forest Land

The largest single owner of American forest land is the federal government. The average farmer has 27 acres of woodland, which is enough to grow lumber for a six-room house annually.

Prowlers Meet Grafton Eleven This Week-end

NORTH VALLEY CONFERENCE

Grand Forks	2	0	0	32	2	1.000
Crookston	2	1	0	13	8	1.000
T. R. Falls	1	1	0	15	20	.500
Grafton	1	2	0	8	20	.000
Devils Lake	0	2	0	33	62	.000

Games this week:

Thief River Falls at Grafton.
East Grand Forks at Crookston.
Results of last week's games: Devils Lake, 20, at T. R. Falls, 45. Crookston, 13, at Grafton, 0.

Being out of conference competition during the week, the Grand Forks Maroons and the East Grand Forks Green Wave, held their North Valley circuit lead, with the two teams boasting of 1.000 percent rating. The Crookston Pirates, defeating Grafton, 13 to; 0; and the Prowlers, trouncing Devils Lake, 43 to 20, moved up in the standings, with the Pirates earning third place and the locals in fourth place.

This week the Crookston gridiron will be the scene of an important tussle when the Pirates meet "Snooks" Sullivan's East Grand Forks eleven, and the game appears to be a toss-up. The Prowlers will travel to Grafton for a game with George Keen's big team, and Grafton, with Hank Newgard back in the lineup, will provide plenty of opposition.

Les Vigness, the Prowlers hard-running captain, sprinted in the lead in the conference scoring, the shifty Prowler scoring four touchdowns against the Devils Lake team on Friday. Crookston's Don Wheelhouse, tallying a touchdown against Grafton, is in the runner-up spot, with 18 points, followed by Bob Johnson of Devils Lake with 13 points.

The individual leaders:

In his Paris speech Secretary of State Byrnes stated in simple language the underlying thought of present American foreign policy. "The people of the United States," he said, "have discovered that when a European war starts, our own peace and security inevitably become involved before the finish. They have concluded that if they must help finish every European war it would be better for them to do their part to prevent the starting of a European war." Whether or not he is right about what the American people have concluded, there isn't much question as to whether or not we will be involved when and if there is another major war—in Europe or anywhere else. The next Pearl Harbor, if there is one, probably will be within our own borders.

Unless meat suddenly becomes more plentiful there should be plenty of competition among buyers for the fifty head of 4-H baby beef that will go on the auction block November 2. A 1,000 pound steer is a lot of meat for one family of course, but families are banding together, pooling their consuming capacity, and the meat undoubtedly will find a good market. This beef raising venture is likely to prove itself one of the most profitable 4-H projects undertaken hereabouts.

Half a billion dollars worth of property will be destroyed by fire in this country next year—one of the heavy items of cost that will be shared by our people. That is the dollars and cents estimate of the loss due largely to carelessness. The loss of life is a far more serious thing. Approximately 10,000 people will be killed by fires next year. Evidently there is and for a fire prevention week—fifty-two weeks of every year.

The many friends of Senator Vin Weber of Slayton were shocked by the news of his sudden death last week. Few men pass out of this world with a better record of service to their community and to their state. He was a man of strong convictions and he had the courage of his convictions and Minnesota lost an able leader in his passing.

Automobile output, cars and trucks, is now running at the rate of four million a year and is steadily gaining, and that should be good news to the millions who are waiting their turn to get one of the new models. Prospects for an ample supply of tires are improving too. It won't be long now before one of our biggest worries will be just another memory.

Dedicated to Mary

For centuries ladybirds have been known and beloved and the very name by which they are popularly known alludes to their dedication to Our Lady, back in the Middle ages. Even the childhood rhymes still repeated by the youngsters had a similarly remote origin.

ROSEWOOD

Mrs. Lloyd Anderson and children and Mrs. Carl Bloom visited with Mrs. Duane Lappegaard Friday afternoon.

Word has been received that Mr. and Mrs. Walter Steinhauer of Holt are the parents of a baby girl born Sunday, Oct. 6th, at a hospital in Thief River Falls.

Miss Marcella Lappegaard accompanied Mr. and Mrs. Edwin Lappegaard out west, leaving last Wednesday. Their destination is Santa Cruz, Calif., but will visit with the Clarence Melhom and Thomas Thoreson families at Summers, Mont., on their way out.

The children attending Rosebank school had two days vacation last week when their teacher Miss Weld attended the Teacher's Convention held in Warren.

The first snow fell early Monday morning, not enough to cover the ground but enough to remind us that winter is just around the corner.

Irvin Jarshaw of the U. S. Army recently returned home from service overseas. This is the third son of Mr. and Mrs. Willis Jarshaw to be discharged. Sam and Elmer who came home sometime back. Sam for the first time in many years they're all home.

Mr. and Mrs. Christ Evenson and son Chester, his wife and little son will leave this week for Oregon. They will go by car. The Evensons have two daughters and one son residing there.

The quiltmakers met at the Albert Hallsen home last week. This week they are to meet at the E. Hellquist home. Work is coming along nicely on the quilts.

The auction sale at the Christ Evenson farm on Thursday was well attended and a hungry crowd it was as the Rindal Ladies Aid served lunch and netted a profit of seventy-five dollars.

Mrs. Josephine Erickson of Clearbrook visited at the John Sathren home from Thursday until Monday.

Mrs. Mary Wagner, Mrs. Nancy Burrell, Harold, and Norman Wagner motored to Warren Friday.

Mr. and Mrs. Martin Severson, Mrs. Nancy Burell, Mrs. Mary Wagner and sons visited at the Carl Burrell home near Middle River Sunday.

Mrs. Irene Johnson, Edith, Cyril and Phyllis of Thief River Falls were supper guests at the Mary Wagner home Saturday evening.

The Rindal church was the scene of a farewell party following the worship service and Luther League on Sunday evening. The party honored Mr. and Mrs. Christ Evenson who are leaving for Oregon. Mrs. Evenson was presented with a corsage from the Ladies Aid, a religious picture was given them as a remembrance from the congregation and a purse of money from friends and relatives. Both Mr. and Mrs. Evenson responded with heartfelt thanks. Lunch was served in the church parlors. At the candle-lit table were seated the honored guests, their daughter, Mrs. O. Hall and family and other relatives, also Rev. Erickson and his mother. Mr. and Mrs. Evenson will be greatly missed by as they're one of the oldest and most faithful members of Rindal. Mrs. Evenson served as Ladies Aid president for the last ten years. Mr. Evenson having filled various offices these many years, and having lived on the same farm since coming here as a small boy to his father's homestead. Relatives from a distance attending were: Mr. and Mrs. V. E. Copp, Mr. and Mrs. Pete Pederson, and Mrs. Alex Hellquist of Thief River Falls, Mr. and Mrs. Carl Olson and Mrs. Carl Hanson of Newfolden.

Mr. and Mrs. E. Mellem were dinner guests at the Myron Carlson home near Argus Sunday.

In Memoriam

In loving memory of our dearly beloved Mother and grandmother, Mrs. Laura A. Dahl, who passed away 3 years ago, on Oct. 12, 1943.

Deep in Our hearts is a picture.
Of A loved one gone to rest.
In memory's frame we shall keep it,
Because she was on of the best.
Our lips cannot speak how we loved her,
Our hearts cannot tell what to say,
God only knows how we miss her,
As we journey along life's way.
Yet again we hope to meet her
When the day of life is fled,
And in Heaven with joy to greet her,
Where no farewell tears are shed.
—Sadly missed by the children and grandchildren. 41p

In Memoriam

In memory of our beloved wife, mother, daughter and sister, Thelma Anderson who passed away 25 sudden on Oct. 7th, 1945. A year has passed since that sad day,
When a loving mother was called away.
We loved you then, we always will,
Forget you no, we never will.
Her thoughts were so full of us,
She never would forget,
So where she is she must be watching yet,
Waiting till we all come home to her,
Anxious if we are late, watching from heavens window,
Waiting by heavens gate.
Sadly missed by J. O. Anderson, Lowell and Dean, Mr. and Mrs. T. Hovet, Obert and Melvin, Mr. and Mrs. O. Lunden and family, Mr. and Mrs. John Hovet and family, Mr. and Mrs. George Hovet and family, Mr. and Mrs. Arnold Hovet and family, Mr. and Mrs. Henry Hovet.

Prowlers Take High Scoring Game from Devils Lake 43-20

In a high-scoring North Valley conference game, the Prowlers, by a 43 to 20, defeated Chuck Frisell's Devils Lake eleven here Friday night. Ten touchdowns were scored in the crowd-pleasing encounter with the locals racking up seven touchdowns and with captain Les Vigness accounting for four of the six-pointers. This week the Prowlers will attempt to register their second conference victory, meeting the Grafton team at Grafton on Friday.

After Swede Lund, on a twenty yard run, had given the Prowlers the game's first points Friday night, scoring in the early part of the opening period, Devils Lake, making nifty use of the "T" formation, roared back with a sixty-six yard march for a touchdown, and when Gene McDonald plunged the line for the point following Bob Johnson's sprint around left end for the touchdown, the Satans took a 7 to 6 lead.

The second play of the second period, with the ball on the Devils Lake 46 yard line and fourth down, Norris Amb punted to Vignas on the Prowlers 19-yard line and the Prowlers received the ball and was away for an 81-yard touchdown sprint, crossing the west goal and moving the locals into the lead. Later in the period, after a couple of passing plays, Larson to Magnuson, and Swede Lund to Al Williamson, had carried the ball to the Satans 17-yard line.

Williamson made a nice catch of Lund's pass, making the nab on the 35-yard line and running to the Devils Lake 17. Vigness swung out around left end to the yard line and then Don Engelstad pitched a touchdown pass to Vignes in the end zone. Another pass, Vigness to Larson, accounted for the only extra point the locals scored.

A short punt gave the locals their fourth marker, with Lund passing to Vigness, who made the catch on the Devils Lake 38-yard line and then sprinting for the touchdown. Devils Lake came back to count a touchdown on a pass play. With the ball on the Satans 30-yard line, Bob Gilbertson whipped a pass to right end Dick Thoreson, and Thoreson cut in the open on the Prowlers' 40-yard line, raced for the goal line to score.

Lund marked up the third period's final tally, scoring on a 11-yard sweep or right end giving the Prowlers a 31 to 14 lead.

Don Engelstad added to thrills in the fourth period when he intercepted a Devils Lake pass on the Prowler 30-yard line and, after a twisting, shifty run, scoring on a 70-yard gain. Bob Johnson, who had made some long runs, broke loose, on a fake pass, to set up the Satans final touchdown. Johnson started his run to the right and then reversed his field and ran from the Devils Lake 39 to the Prowlers' 18 before being downed.

Line plunges and end sweeps, with Gene McDonald scoring from the 2-yard line, brought the score to 37 to 20. On the following kickoff, Vigness picked up the ball on the Prowler 27-yard line and running with terrific power and speed, sprinted 73 yards for his fifth touchdown.

For the Prowlers it was an offensive show, Vigness, Swede Lund, Al Williamson, Don Engelstad in the starring roles. Defensively, after being puzzled during the first half by the Devils Lake offense, the Prowlers revealed improvement. The Devils Lake team had a well-balanced backfield, with speedy Bob Johnson and the hard-running Gene McDonald causing the locals a number of anxious moments.

And right end Dick Thoreson, in addition to scoring a touchdown turned in a fine defensive game. The locals' Vigness, too, played a strong defensive game, for it was his overtaking of Johnson in the second period, after the Devils Lake back had circled right end for a 61 yard gain, being tackled on the Prowler's 8 yard line, that prevented a Satan score.

2,501 Students Register at 'U' of North Dakota

Enrollment figures at the end of the first week of registration at the University of North Dakota showed a grand total of 2,501, with more students expected, according to Registrar Ruby McKenzie.

New faculty members were added to care for the overflow as 1,868 men and 633 women began classes Wednesday.

The largest freshman class in the history of the University, a total of 1,197, comprise over half of the total enrollment. The sophmore class includes 549 students; the junior class, 398; and the senior class, 277.

Union Cafeteria at 'U' Is Busy Place This Fall

University of Minnesota students won't go hungry this fall, in spite of their record-breaking numbers. They won't, at least if James H. Felber, director of the Coffman Union food service on the campus, has anything to do with their eating problems.

In the face of the huge registrations for the fall quarter, which opened Monday, September 30, Felber made preparations to serve 12,000 students, or approximately half the enrollment, per day at the the Coffman Union facilities. These include both the regular and the commuters' lurch rooms.

PROWLER SECONDS TAKE ROSEAU 12-6

Play at Roseau Saturday on Water-soaked Field

Playing on a water-soaked field and in a continuing drizzle, the Prowler reserves, on Saturday afternoon, defeated the Roseau high school eleven, 12 to 6, in a game played at Roseau. The locals, trailed by a 6 to 0 score at the end of the first half, with Oscar Almquist's Roseau team scoring in the early minutes of the second period when Mike Delmore took a lateral pass and sprinted for a touchdown.

The Prowlers came back to the count late in the third period when red-headed Marlow Davidson spun through the center of the line for four yards and a touchdown. Young Johnny Winters accounted for the winning points when, in the middle of the fourth period, he broke away for a twenty-five yard run for a touchdown.

Keeping Score

...with HUGH OLSEN

It Was Viggy's Night

Les Vigness, the Prowlers captain, and candidate for all-state honors, will probably play a lot of football before he concludes his athletic career and hangs up his shoulder pads, but it's doubtful if Viggy will ever turn in as spectacular all-round performance as he exhibited on Friday night against Devils Lake. It was Viggy's night. And it was through his individual scoring efforts, and his defensive play, that gave the locals their convincing win over Chuck Frisell's team.

Les marked up four touchdowns, and three of them were the result of long twisting runs, and those four touchdowns gave him the conference lead in individual scoring. On the second play of the second period, and with the score in favor of Devils Lake, 7 to 6, Viggy gathered in one of Norris Amb's high punts, making the catch on his own 20-yard line, and with a burst of speed and power he broke loose for eighty yards and a touchdown, crossing the west goal ten yards ahead of the nearest pursuer. And minutes later, Viggy turned in the game's top defensive play when, from the Satan's 31-yard line, speedy Bob Johnson skirted right end and was away for an apparent touchdown. Viggy rushed off his helmet, shoved a team-mate out of the way, and gave chase, and caught Johnson on the eight yard line.

Vigness grabbed a pass from Don Engelstad in the end zone for a one-yard gain and a touchdown late in the second period. In the third period, Swede Lund flipped a neat pass to Vigness, and Les made the catch on the Devils Lake 38-yard line and side-stepped a pair of defensive players and was loose for a score. Viggy's final score came as the result of the run-back of a kick-off. The kick came back to the Prowler 27-yard line and Vigness raced up the field to the 50-yard line, swung out to the left, used a change of pace to throw a pair of tacklers off stride, and then out-ran the others to score.

It was quite a night for the popular Prowler captain, and it was quite a night too, for the fans that witnessed the game.

Play Grafton Friday

The Prowlers are on the road this week, playing at Grafton on Friday night, and it isn't beyond the imagination to conjure up a win for Grafton. The fact that the Dakotans have lost two games—to East Grand and Crookston—has given some of the Prowlers the idea that the Spoilers are a "soft touch" with big Hank Newgard in shape George Heen will have a tough club on the field.

Now is the Time

The kids in town certainly got a break when the Jay-Cees decided to sponsor the city's midget baseball program next year, and with that group behind the project it's quite certain that there will be a new playing field developed. The East Side park has been used by the midgets for baseball, and by the seniors for softball, but it is agreed that the park leaves much to be desired; and it is only fair to the neighbors adjacent to that park, to secure another location. And the time to get started on such a project is now.

Oen's against the Field

After the first week of bowling, that's what it looks like in the city Straightaway league. And the Oen's, with the three brothers—Jess, Bob, and Wally DuChamp—and their uncle—Emil Dostal—will be high scoring team. There'll be objections to installing the Oen's as league favorites, and these objections will come from the Tunbergs Motors Ed and Wally Carlson, Frank Koblisken, Ham Bergland, and Walt Ekeren; and from the Schmidt's City Club's Snort Langseth; and Peppler's Furniture's Ed Karwand. But they can substantiate these objections on Oscar Cerny's Mint alleys no. 1, 2, 3, and 4, and against the Oen's.

Herb Claffy and Homer Matheson on UND Eleven

Herb Claffy and Homer Matheson both of the Thief River Falls will play on the University of North Dakota Sioux team when they meet their traditional rivals, the NDAC Bison, October 19 in the Homecoming game at UND. Claffy is enrolled in the freshman class at the University and plays halfback position, while Matheson is a sophomore and plays halfback position with Coach Glenn Jarrett's gridders.

CLEARWATER CO. VOTERS APPROVE SALE OF LIQUOR

County Citizens Vote Wet by Large Margin in Election Monday

Citizens of Clearwater county voted Monday to permit sale of liquor, reversing previous decisions which have kept the county dry since repeal of national prohibition.

Balloting on the question, "Shall the sale of liquor be prohibited?" the electorate cast 1,701 "no" votes and 1,906 "yes" in 24 of 25 precincts. All villages in the county voted wet with the exception of Clearbrook and Leonard, while 13 of the 20 townships were in the wet column.

Sale of liquor was voted down by balloting in 1935 and 1940.

BENEFITS TO RAIL WORKERS THRU '46 ACT ARE REVEALED

Field Representative at Fargo Explains Some of Provisions

Railroad workers are asking "What do the amendments to the railroad retirement and railroad whih were signed by the President on July 31, mean to me and my family?" Here are the answers to some of the principal questions, according to E. J. Sattler of Fargo, field representative.

Sickness benefits — Beginning July 1, 1947, a railroad employee who is not able to work because he is sick or injured may be paid equal to those he would get if he were laid off for lack of work.

Unemployment benefits — A worker may now be paid benefits for 26 weeks in a year instead of 20. Also, two new and higher daily benefits rates are added so that the maximum is now $25 per week.

Survivor benefits—Monthly annuities similar to but averaging 25 percent higher than those paid unnder the social security act will become payable on January 1, 1947, to railroad employees' widows over the age of 65; widows with dependent children under 18; dependent children under 18; and where there is no widow or dependent, minor children, to dependent parents over 65.

Disability benefits—The service required for total disability retirements will be reduced from 30 to 10 years effective January 1, 1947. Retirement on total disability at age 60 after less than 10 years of service is allowed as before, but the reduction in the amount of annuity is eliminated. Also, a worker who is disabled merely for his regular railroad occupation may receive a benefit at age 60 or after 20 years of service.

Minimum retirement benefits—The minimum annuity provisions, also effective January 1, 1947, will be extended to disability as well as old-age retirements and, in most cases will be $50, instead of $40 as at present.

Old-age retirement benefits—The basic provisions applying to oldage retirement remain unchanged; the normal retirement age in nodisability cases is still 65 and as in the past, an employee may retire at ages 60-64 if he has 30 years of railroad service but must accept a reduction in his monthly payments. Beginning January 1, 1947, however, women with 30 years of railroad service may retire under the new law at age 60-64 without taking a education. Old-age benefits will continue to be figured on the basis of the formula perviously used except for employees in the lowest wage and service brackets to whom the new minimum formula will apply. The maximum retirement benefits remains at $120 a month.

Taxes—To pay for the increased benefits and to assure that the railroad retirement fund will remain solvent, the retirement tax will be increased from 3-½ to 6-¾ precnt on both employeds and employees on January 1, 1947. The unemployment insurance tax paid by employers only, remains at 3 percent, an amount now considered sufficient to finance the new sickness as well as unemployment benefits.

Hardest Substances

A new and highly precise method of measuring hardness, developed by the National Bureau of Standards, gives these relative degrees of hardness to the four hardest substances: Diamond 6,500, boron carbide 2,200, carborundum 2,150 and sapphire 1,900.

Minnesota 4-H Members Rank Near Top in Home Improvement Projects

Minnesota's wide-awake 4-H club members lead the nation in making their homes and farmsteads more beautiful and attractive places to live. So says Leon C. Snyder, extension horticulturist at University Farm, who has had the opportunity to see at close hand the work 4-H'ers have done in Minnesota and other states. This year nearly 5,000 members have improved their farmsteads as part of the 4-H home beautification project.

Minnesotans have been acclaimed nationally for their home beautification work. Since 1938 when the National Home Grounds Beautification contest was started, Minnesota boys and girls have won national titles four times, Snyder points out.

This year Glenn Lendobeja of Kratka won the Pennington County home beautification contest and now is being considered for state honors, says County Agent Ernest A. Palmer. In Pennington County 49 club members were enrolled in the project.

Pennington County 4-H'ers have been doing an exceptionally fine job in planning and laying out new shrubbery, caring for special flower beds, making lawn decorations and furniture and doing many other jobs to improve their home grounds.

Glenn Lendobeja believes the home beautification project is one of the most interesting offered in 4-H work. H urges every boy and girl interested in improving their homes to join their local 4-H club before 4-H Enrollment Week, October 28-November 2, and to sign up now to carry the home beautification project.

IN THE MATTER OF THE CONDEMNATION OF CERTAIN LANDS FOR TRUNK HIGHWAY PURPOSES

NOTICE

To the persons herein named:

You and each of you are hereby notified that on the 19th day of November 1946, at the hour of 10:00 A. M., or as soon thereafter as counsel can be heard, in the County Court at Thief River Falls, Pennington County, Minnesota, the above named petitioner will present to the above named Court a petition praying for an order herein for the condemnation of certain lands for trunk highway purposes.

The objects of said petition are to take for use on Trunk Highway No. 1, marked 1, being Route Number 310, an easement in the lands herein-after described, including the following rights: To erect and maintain fences upon said lands and the lands adjacent thereto; to plant shade trees, shrubs, grass and herbage within the right of way of said trunk highways, and to keep and have the exclusive control of the same; To acquire the right of access to said highways from the owners whose lands front thereon in the cases which are hereinafter particularly mentioned; and further, that the Court appoint commissioners to ascertain and report the amount of damages that will be sustained by the several owners and persons interested on account of said taking.

The lands desired and proposed to be so taken are situate in Pennington County, and are described as follows, and the names of the persons appearing of record or known to your petitioner to be owners of said lands or interested therein, including all whom your petitioner has been able by investigation and inquiry to discover, together with the nature of the ownership of each as nearly as can be ascertained, are as follows:

TIRED EDITOR SLUMBERS THROUGH SPECTACULAR FIRE

Wabasha—No matter when it happened, it's news when it is first heard about. After 12 years the news gets abroad that Luther L. Aasgaard, genial publisher of The Herald-Standard slept happily through the most ramaging and spectacular fire this community ever had, when a grain elevator burned in 1934, drawing reporters and photographers from as far as Milwaukee. He slept because he was tired; happily because the area was beset with a serious drought, and Mr. Aasgaard heard the patter of water on the roof. Next morning he learned that the drowsy patter was from a fire hose extinguishing a blaze in his own roof set by the close and very hot elevator fire.

Times want ads bring results.

Women in Aviation

Women are not new to aviation or aviation to women. Napoleon had a woman minister of air, Madame Maria Blanchard, when there was much experimentation going on with balloons. A woman who flew a balloon seven months before the Wright brothers' airplane flight in 1903, lives in New York today. She's Mrs. Henry Breckinridge, the former Alda de Acosta, who went aloft near Paris.

Corn Meal

Fresh yellow corn meal, stone or machine ground, is a good source of vitamin A, a value missing in white corn.

HIRE THE HANDICAPPED

IT'S GOOD BUSINESS

THESE ARE NO ORDINARY MEN

THEY are hand-picked members of the great Army Air Forces team—intelligent, skilled, aware of the vital importance of the jobs they do. Above all else—more than the finest airplanes, more than all the best equipment—the main factor in the glowing success of the Air Forces will always be its well-trained men. The all-important task of guarding the nation's future in the air is entrusted to men of the very highest type.

Tremendous strides made during war have placed the Army Air Forces at the frontier of scientific progress. Staying at the top carries with it an immense responsibility. There can be no resting on laurels. The Air Forces must continue to stay in front. Improved design, greater engine power, new flight techniques, and the quest for supersonic speeds impose ever greater demands upon the men whose job it is to keep the nation's air strength at its peak.

That's why, in peace as well as in war, many of America's finest young men are joining the Army Air Forces. They believe in the future. They are guarding it with sparkling competence.

When Your Little One Catches Cold

Best-known home remedy you can use to relieve distress of children's colds is warming, soothing Vicks VapoRub. It starts to work instantly . . . and keeps working for hours to bring relief *while the child sleeps!* No wonder most mothers always use Vicks VapoRub. When colds strike. Fine for grown-ups, too!

AT BEDTIME rub throat, chest and back with Vicks VapoRub. Its relief-bringing action starts instantly to relieve distress . . .

WORKS AS CHILD SLEEPS to bring comforting relief during the night. Often by morning most misery of the cold is gone!

VICKS VAPORUB

AS AMERICAN as Duck Hunting

The early morning mists rise softly from a gray and rippling lake—the silence explodes into swift and noisy flight as the birds rise swiftly like arrows pointing into the sky—the hunter waits with a true eye and a steady hand to catch them as they go. There's a thrill to that moment, a poised, tight expectancy, that only the hunter knows.

It's no mere coincidence that a case of beer is almost standard in the hunter's equipment. For this lover of healthy, outdoor living is almost sure to approve a wholesome, moderate beverage like good, American beer.

To every American . . . banker, truck driver, farmer, mechanic, office worker . . . a glass of beer writes a pleasant period to any hard day's work. The right to enjoy this sociable drink of moderation and good sense is part of our American heritage. It fits right into the greatest pattern of living in the world . . . America.

Balanced Pan

The pan and its handle should be well-balanced so that the pan stands steady even when empty. Too heavy a handle makes a tipsy pan that is awkward to use and may cause dangerous spills of hot water or food.

NEWFOLDEN

Miss Elayne Green and Miss Marguerite Lee, both teachers at Lake Bronson this year spent the week-end with home folks.

John Dyrud left on Tuesday morning for Minneapolis for a few days visit at the C. J. Berg home. Grandpa has not seen his new grandson and is quite anxious to become acquainted with the young fellow.

Mr. and Mrs. Harry Barnette and Mr. and Mrs. Floyd Sumpter of Minneapolis motored up on Friday, the men to enjoy the opening days of duck hunting and the ladies to visit relatives and friends. We don't believe Harry ever misses being here for duck hunting.

Mirrel Wang Meets Death

A message was received here last week by Mrs. Olger Green informing her of the death of her nephew Mirrel Wang son of Mrs. Oscar Wang at Beardmore, Ontario on Thursday, September 26 at 8:05 p. m. Mr. Wang who worked in a copper mine, had just gone to work on the night shift when he was instantly killed. Details of the accident are lacking at this time. Our readers will probably remember the deceased as the young man who with his wife, spent several weeks of their honeymoon here this last summer visiting at the Olger Green and the Westman homes.

Victim of Hit-Run Driver

Willie Garfve, local farmer, was badly injured last Saturday night when he was struck down by a hit and run motorists. Mr. Garfve was just leaving town on his way home when he had some trouble with his car just east of the Soo Line tracks. He stopped and got out to investigate the trouble when another car, reported to be traveling at a high rate of speed, crashed into the Garfve car slewing it around in the road, smashing in the rear end and fender and knocked Mr. Garfve to the ground. The unknown driver quickly turned out of the wreckage and drove away.

People hearing the noise of the crash came to investigate. Among the first to arrive were Howard Sorenson and Albert Engen, who found Mr. Garfve lying on the road unable to get up and bleeding from wounds on his head. It appeared to the boys that he had a broken leg and was coughing blood, so they quickly carried him into the Sorenson car and took him to Thief River Falls hospital. At this writing (Monday) no report has been received here on his condition. The hit and run driver was not recognized by Mr. Garfve and so far he has not been found.

The regular meeting of the local unit of the American Legion Auxiliary was held at the school house on Thursday evening, October 3. Following members were present: Mrs. Carl Olson, Mrs. Hjalmer Lee, Mrs. Andrew Larson Mrs. R. L. Van Deusen, Mrs. Louis Farstad, Mrs. Olger Green, Mrs Joe Weber, Mrs. Gotfred Olson Mrs. Melvin Ible, Mrs. C. H. Cook, Mrs. Fritz Edeen, Mrs. Chester Tandberg, Mrs. Geo. Lindbeck and Minerva Shern.

The guest of the evening was Miss Irene Hansen, daughter of Mr. and Mrs. Even Hansen, who served for 20 months with the Marines in Hawaii. The members decided to make a donation of $7 to the Christmas Gift Shop at the Veterans Hospital in Minneapolis.

Mrs. Olger Green offered to provide a suitable frame for the charter that it could be hung on our meeting room wall.

It was decided to carry all members over until next spring with out payment of new dues because of the late start last fall.

Lunch was served to the Legion and Auxiliary by Mrs. Ible, Mrs Olson, Mrs. Lindbeck and Mis Shern.

Next meeting will be held on November 6. Everyone is urged to come.

VOTERS OF MARSHALL COUNTY

As a candidate for County Superintendent of Schools, I respectfully submit the following information to you:

I am a native of Marshall County and have lived here practically all my life. I obtained my grade school education in a rural school, worked my way through the Northwest School of Agriculture, through a rural teacher's course at the Moorhead Teacher's College and later attended one winter at the University of Minnesota. I have had many years of experience as a teacher in the rural schools of this county, and as farm reporter for the A.A.A.

I served nearly four years in the army during World War II, fourteen months of which were spent in the jungles of the China-Burma-India theater of war. Prior to going overseas, I completed a clerical course at Denver, and a combat intelligence course at Orlando, Florida. I was discharged from the service as a staff sergeant last November. At the present time I am a member of Post No. 444 of the American Legion.

I shall deeply appreciate your support in the November election, and if elected to the office of County Superintendent, I shall do my utmost to render fair, efficient, and courteous service to all.

Sincerely,
JOHN O. PEARSON.

AMERICAN LEGION ENDS CONVENTION IN SAN FRANCISCO

Organization Goes on Record in Opposition to Payment of Bonus

Paul H. Griffith, 49, with service in both World Wars, was elected national commander of the American Legion, Friday by accamation at the national convention in San Francisco. There was no opposition.

Griffith of Uniontown, Pa., is a public relations consultant in Washington, D. C. and executive vice president of a large marine electrical engineering corporation.

His election as national commander, succeeding John W. Stelle of Chicago, had been generally forecast. Griffith served in World War I as a non-commissioned infantry officer. In World War II he was a colonel.

A proposal from a bonus for World War II veterans was rejected by the convention.

At the same time the convention demanded immediate cash redemption of GI terminal leave government bonds.

The bonus proposal was rejected with a roar, without discussion from the floor on recommendation of the legislation committee which reported the rejection was solidly supported by younger members of the Legion.

Cash payment of the terminal leave allowances was urged on congress on the ground that officers' terminal leave payments, although larger than those of enlisted men, were made in cash.

Issuance of bonds payable only after five years to enlisted personnel was declared to constitute "definite discrimination" and to place a premium on officers' service.

Land O'Lakes to Open New Milk Drying Plant

Dedication of a new milk drying plant at Mora on Friday, October 11, by Land O'Lakes Creameries, Inc., will bring to 22 the number of drying plants now operated by Land O'Lakes, the nations largest producer of milk powder.

Linn Getten, production manager of the dairy cooperative, said today that the 22 plants are expected to produce a new record high of at least 125 million pounds of dry milk solids this year, representing will over a billion pounds of fluid milk.

Emphasing the importance of drying plants for future stabilization is finding a ready market for milk powder, and cited the fact that for 1945, creameries supplying milk stock dividend of 3.51 per cent on each dollar's worth of milk.

Grafton Winter Sports Arena Burns Last Friday

The winter sports arena built as a WPA project in 1937-38 at Grafton, and the Sixth street garage across the alley, owned by Ed Carlson, were destroyed by fire that started in the basement Friday night. The arena was mostly of concrete and sheet metal, but an hour and a half after the blaze was discovered, only the frame of the structure was standing. The garage, a metal covered structure was leveled.

MAY OBTAIN SUGAR BOOKS FOR BABIES

OPA Office at Fargo Explains Procedure

If you have a brand new baby in your family, or if you are a serviceman who has just been mustered out of service, you are entitled to a sugar book.

Under rationing regulations, applications for sugar books must be made to the District OPA office in Fargo. Some local price control boards have applications for sugar books, but they must be forwarded to Fargo for processing.

The new books take the place of ration book 4, which is no longer issued. They are single sheets with eight stamps attached. There is a space for the owner of the book to sign it. In case the stamps have been issued to children, parents may sign for them. For your protection, detach stamps only in the presence of the merchant.

The district rationing office explains that some persons are signing their new sugar books, and returning the signed portion. This should not be done the signature is protection for the book's owner.

The new books are a brown color and a single sheet, which is different from ration book 4, which has several pages and stamps of several colors.

Spare stamp 51 will continue valid for five pounds of household sugar until December 31. Stamps 9 and 10 are good for five pounds each of canning sugar until October 31.

Crippled Children Unit Supplies State U with Mobile Speech Clinic

A grant of $15,000 to the University of Minnesota from the Minnesota Association for Crippled children and Disabled Adults, Inc., announced today by President J. L. Morrill of the University, will finance a mobile speech clinic to survey the speech and hearing needs of school children throughout the state.

The clinic will be staffed and directed by the University under the technical direction of the speech clinic, a department of the deap of students office. The mobile unit is one of several activities of the association financed by its annual Easter seal sale.

The clinic will travel to every county in the state over a period of three or four years until all Minnesota children have been tested for hearing and speech. The school systems, public health organizations and civic groups in each community have been invited to cooperate in the project. Testing and counselling will be offered to public and parochial school pupils and pre-school children who are referred by agencies to the clinic.

More Rotenone

Indications point to an annual production in Peru of more than seven million pounds of barbasco roots, from which rotenone is obtained.

Apple Varieties

About 10,000 different apple varieties have been named and described.

FOEMEN MAY SEE DOUBLE . . . Three sets of twins are on the Beloit college, Beloit, Wis., football squad this year. Two pairs are identical. Here they are: top, left and right, John and Paul Kramer, Elgin, Ill.; middle, Dick and Cliff Allen, Wauconda, Ill., and bottom, Bob and Bill Williams, Arlington Heights, Ill. With the football season under way, Beloit is making excellent use of the twins.

GRADE CROSSINGS TAKE HEAVY TOLL

Auto Traffic Death Toll in State Totals 49 During September

Motor vehicle traffic accidents took a toll of 49 lives in Minnesota in September, the state highway department reports. The figure may be increased by late reports of deaths due to injuries in September accidents, but the number so far reported is 3 less than the 52 deaths in September last year.

An epidemic of collisions of motor vehicles with trains was a big factor in the September record, with 7 deaths largest in any month the year, and many seriously injured. Conspicuous among the grade crossing accidents was one in which a car which had been stopped while one train passed, was started across the double tracks and hit by another train, killing four members of one family.

Motor vehicle collisions were responsible for 13 of the September deaths, and 19 were killed in cars that ran off the road and overturned or hit trees or other fixed objects. Speed too high in going around turns was the main factor in several of the ran-off-the-road accidents and in some of the collisions. Driving on the wrong side of the road, failure to stop for stop signs, drivers falling asleep or driving while under the influence of intoxicants were among other contributing factors.

Nine pedestrians were killed in September motor accidents. In one case a man on a highway was hit by a car whose driver was blinded by the afternoon sun. Others were hit while crossing streets. Two of the pedestrian victims were children under ten and the others from 68 to 85 years of age. One youth of 16 was killed while riding a bicycle.

September deaths brought the year's total to 345, compared to 294 in the same months in 1945, 248 in 1944, 175 in 1943, 334 in 1942 and 406 in 1941.

Letter Writing Week Is Scheduled Oct. 13 to 19

With the slogan, "Someone feels better when you send a letter", the week of October 13 to 19 will be observed as National Letter Writing Week, it was announced this week by Postmaster Andrew Anderson following receipt of instructions from the postmaster general in Washington, D. C.

IDEALISM NEEDED, SAYS YOUNGDAHL

Is Needed in Politics, GOP Candidate States

More idealism in politics must be had if America is to win the victory of peace, Luther W. Youngdahl Republican candidate for Governor, said in a radio address this week.

"We in this country exhibit a peculiar trait of patriotic fervor for our country's flag and for our form of government, and at the same time show contempt for legislative and executive officials and for careers in public service," Youngdahl said in a talk heard Monday over WCCO, Twin cities, and KDAL, Duluth.

"We need to change that conception and bring more idealism into politics.

"Anyone who aspires to public leadership must set the example in his own personal life and in his dedication to public service, so that the younger generation will be inspired to do likewise.

"These crucial and serious days require the highest type of consecration and dedication to everyone in public life."

Youngdahl summarized the 12-point Republican platform for Minnesota, stressing the programs for development of agriculture, natural resources, industrial advancement, highway improvement and housing construction and increased provision for welfare needs.

Match Factories

Match factories today house not only the chemical and manufacturing plants to make matches, but also make their own boxes for the matches, the cartons for shipping, and operate the printing plants which produce multi-colored advertisements on the covers. The oldest book matches with advertising were not only hand-made but hand-printed. The labor and time consumed these operations made the cost high, one of the contributing factors in the early unpopularity of this type of match.

STUDENT INFLUX HEARTENING, "U" PRESIDENT SAYS

Enrollment at State University Exceeds 26,000 up to Date

"The democratic day of mass education at the college level sometimes deplored, has dawned, "President J. L. Morrill of the University of Minnesota declared in an address at the University's first convocation of the new academic year on October 3 in Northrop Memorial Auditorium.

With the Universalty's enrollment at an unprecedented high of over 26,000, and final registration figures expected to swell the total even higher, President Morrill assured the students and faculty that "the opportunity to get an education is still intact, and the great influx of students, including veterans is a heartening sign— and a welcome one—of the forward march of our American democracy."

The Universalty's enrollment is 50 per cent higher than any prewar peak, President Morrill pointed out, and has risen to its present size in one year from 11,872 students last autumn.

Measures taken to accomodate today's students includes creation of more than 600 new full time staff positions in teaching andresearch, with at least another 100 authorized but not yet completely filled, President Morrill reported.

Indian Cobras

Although Indian cobras kill several thousand people a year, the natives of India often regard cobras with so much superstitious reverence that no attempt is made to destroy the snakes.

Carbon Monoxide Danger Season Now Here Again

Beware of carbon monoxide, is the timely warning from the Minnesota Safety Council. Each autumn brings a number of deaths from this stealthy poison. Deaths frequently occur in garages or when persons in stalled or parked cars leave the engine running to keep the heater going. Carbon monoxide may also be responsible for some of the accidents attributed to drivers falling asleep on the road.

Deaths from carbon monoxide can be reduced to a minimum if motorists will observe the following precautions:

1. Never sit in a stalled or parked car with engine running.
2. See that there are no leaks in muffler, exhaust pipe or manifold.
3. Never remain in a garage with engine running, even if doors are open.
4. Have some ventilation in your car when driving regardless of weather.

42 YEARS A VIOLIN MAKER, NEVER A PLAYER

Dodge Center—In 42 years of joyous living Dr. Wallace E. Bolt has made 131 violins and repaired numerous others, but can't play a note, in a well culpped and professional looking basement workshop the retired physician cuts, bends, and polishes wood with loving skill, to turn out named and dated instruments that are now widely scattered throughout the nation—two of them in the Chicago Women's Symphony. Dr. Bolt calculates 20 seven-hour days are required for one instruments; not including the painstaking varnishing process.

Tasty Sauce

Honey, thinned with orange juice, heated, makes a good sauce to serve with hot griddle cakes or waffles.

WHAT WILL THE HARVEST BE?

Mankato leads off the autumn sideshow with a 2½-pound tomato and a 24-ounce onion. Sleepy Eye submits a twin cucumber, but New Ulm tops 'em with a twin ground cherry, a twin ear of corn, an albino squash, and a tomato that looks like a baby chick. New Prague enters a 41-inch cucumber and a two-tone potatoe in dusty rose and tan. A Litchfield dahlia reaches 7½ feet in height, Waconia has 12-foot corn, and Duluth a 10-foot sunflower.

Sugar Beet 'Cola'

A Joint Allied Intelligence agency report on the German food-processing industry says the product of some interest is a non-alcoholic beverage made from sugar beets which is produced as an item for popular consumption somewhat like our cola drinks."

The report is one of thousands of German and Japanese documents now being released by the army and indexed by the department of agriculture at the rate of 3,000 a week. Approximately half of these have either a direct or indirect bearing on agriculture and are hoped to open the way to developing new uses for American farm products. Manufacturers requesting a copy are mailed a microfilm or photoprint of the original report.

Many Club Have 'E' Bonds

One-fourth of all the E bonds savings bonds sold between May 1, 1941, and the end of 1945 had already been cashed by January 1, 1946, according to the 1946 Encyclopaedia Britannica Book of the Year. Sales of E bonds during this period were 39.7 billion dollars and redemptions were 9.6 billion dollars.

Individual purchases of E bonds, which were bought by two out of every three Americans, took up 29 billion dollars worth during the eight loans. The peak number of sales to individuals was reached in the seventh loan, when 6.7 billion dollars was subscribed, a figure 24 per cent above the goal which had been set for individual sales.

Opportunities in Nursing

The shortage of nurses in the United States had tripled since 1910. Nearly all the employed nurses now are women. However, male nurses will be in demand. The Veterans administration alone is planning on 300,000 beds in the next 20 years. For a woman considering a professional career nursing is an important possibility, since nurses represented one out of every four professional women. The unemployment rate has been quite low. The National League of Nursing Education, 1790 Broadway will give advice concerning any of the 1,300 approved institutions for nurse training. Further information may be obtained from your state board of nurse examiners or your state capitol on your local hospital.

Hunger vs. Politics

Even if the United States had exhausted and operated a great number of research laboratories devoted to the particular problem of soil, water, climate, erosion and depletion, we would be unable to accomplish any technological solution. So long as the land of this Continent is owned and operated by individuals for the purpose of business profit, and so long as the private ownership of the land resources is regulated by the political structure of townships, counties, states, provinces and national political administrations, a technological solution is impossible, regardless of the achievements of scientific research.

Water falls on this Continent in varying amounts as any rainfall map will show. Water precipitation, regardless of the amount, either upon the surface of the earth is either evaporated, absorbed, or lost as runoff. Watersheds recognize no boundary lines, political subdivisions, or local units. The watershed of the Mississippi-Missouri covers 42.7 percent of the land area of the United States in which are located most of the productive farms of the nation. The watershed of the Mississippi-Missouri operated as an organic entity? The answer is no. Canada has more than 50 percent of the fresh water area of the world but most of that fresh water goes on its way to the Arctic, the Bering, the Pacific and the Atlantic without having contributed very much to the rest of the Continent, beyond serving as river highways for the prospector, the trapper and the trader.

Soil and water must be handled on a Continental basis before their problems are solvable. Technocracy's geo-technology and hydrology for this Continental area provide the solution to the greatness of agricultural production on this Continent. (See NWT No. 101.)

Both Beef and Lamb Are Delicious if Cooked Right

Little beef and lamb are used by farm families, and yet both are delicious if produced from young, well-finished animals. There is a wide prejudice against lamb, as many disliking the tallowy flavor. To a lesser extent this prejudice prevails against beef. This dislike usually stems from the animal fed or the product if consumed too soon after slaughter, and improper refrigeration.

Tallowy flavor in lamb can be overcome by proper handling, and cooking with very little of the tallow.

Both beef and lamb can be produced largely, if not entirely, on good pasture. Many farmers prefer to finish the animals on grain. But pasture - produced beef may be of just a good quality as the grain-fed product.

Now is the time to organize meat rings, each member of which furnishes a fat beef or lamb. This excellent beef and lamb can be had throughout the year by all members. In all cases facilities for chilling both lamb and beef and aging the meat for a few days should be made. If frozen food-locker service is available, it will serve the purpose well. But if not available, and the weather is warm, other arrangements should be made to chill and age the products.

Cull Out and Sell Poor Trees, Save Good Ones

Farmers often slaughter their timber when prices are relatively high because they do not know the rate at which value of the timber increases.

For instance, at $10 per thousand board feet, a 10-inch tree is worth only 20 cents as a sawlog. If the tree were cut, it would take 30 years to replace it.

If this 10-inch tree is allowed to grow 6 years and reach 12 inches, its value is 58 cents, nearly triple the 10-inch value. In 12 years it will reach 14 inches and be worth $1.08, or better than five times its value at 10 inches.

By allowing this tree to stand for 6, 12 or more years, you can make about 36 per cent interest annually on your investment.

If the price should not remain at $10, but drop to $8 per thousand board feet, the 6-year-old tree would be worth 46 cents, or more than twice its 10-inch value. If prices should fall back to $4 a thousand as they did from 1932 to 1936, the tree would still be worth a little more in 6 years than it is now, and in 12 years it would double its present value.

High prices for relatively poor quality products make this the time to dispose of low quality trees. Cut the limby, knotty, crooked trees and cut out the diseased ones. Save the young, thrifty trees as a bank account drawing 20 to 35 per cent interest, which can be made a steady annual income.

News of R. R. Valley Home for the Aged

Another week of diverse activities and varied childlike conditions come by and all is well at our home. Some of our family members who were not so well at the time of our last report are better now and all are hoping.

Rev. G. R. Carlisle of the Gospel Tabernacle conducted services here Thursday afternoon which were well attended by home inmates together with quite a number from the outside.

Gilbert Moe came from Hemidji Thursday for an overnight visit with his family here returning Friday.

Rev. V. E. Schroeder of St. John's Lutheran church called at the home Thursday for a visit with Frank Kainz.

The Baptist Young People's Society met here with Irene Hennessy evening for a Bible study hour conducted by Mrs. Munroe.

Among visitors here Tuesday were Mrs. Marie Strand of this city and daughter Mrs. W. H. Peterson of Idaho Falls, Idaho. Mrs. Peterson was in town to be present at the funeral of her father the late H. K. Strand.

Friday evening services at the Baptist church were held here and conducted by Fred Sternernan.

Mr. and Mrs. Sig Grothe called here Friday evening for a visit with Mr. and Mrs. Grothe's father, Severt Grother and other friends.

Mrs. Katie Spiess returned here Saturday after a months absence spent in visiting with relatives and friends at Annamoose, N. D. and then again taken up her residence with us.

Guests here on Saturday were Rev. Robert Chisholm and family of Karlstad. Together with them were also Mrs. Wolf, who together with her husband were in charge of this home at its opening some years ago.

Rev. and Mrs. Alfred N. Larson, newly installed superintendent and matron here and son Adrian were in attendance at a Christian Youth rally at Fosston on Sunday.

Mr. and Mrs. Oscar Anderson and daughter Bernice drove up here from Minneapolis, Saturday for a visit with friends about the city. Mrs. Anderson is a cousin of our Mrs. Moe.

Rev. K. J. Klevelsbid had as guests Monday evening, Mr. and Mrs. Henry Klevelsand and Mrs. Louis Larson of Newman Grove, Nebraska and Mrs. Lena Wrede and son Clarence of Albion, same state. The party was on a return trip home after a visit at Mayville, N. Dak.

Rev. Jacobsen and Lindholm were callers here Tuesday.

Late word from a Mrs. Milla Paulsen, formerly cook at this home is to the effect that she recently arrived at the home of her son-in-law and daughter at Portland, Oregon, after having spent out the summer with a number of other relatives near the twin cities. The Home at this time wishes gratefully to acknowledge the receipt from her of a gift of money.

EVANGELISTS TO OPEN SERIES HERE

Musical Messengers at Auditorium October 20

The Musical Messengers, an internationally known group of musicians, singers and speakers, will conduct an interdenominational musical evangelistic campaign in the municipal Auditorium, beginning Sunday, Oct. 20th at 7:45 o'clock.

The personnel of the group will include Rev. Willard T. Cantelon, speaker and artist; Verna Dean Cantelon, musician and singer; and Rev. Paul D. Cantelon, song leader, musician and speaker.

The Cantelon Brothers are adept artists and feature in the services public presentations of Biblical themes in music, singing and oil painting. The pictures portrayed on the canvas will be given away each evening to the person who is responsible for having the most visitors present in the service. The musical program will feature numbers on the electric hawaiian guitars, vibraharp, piano, banjo, saxophone, trumpet, and vocal selections.

Services will be conducted nightly, except Monday and Saturday, at 7:45. The Musical Messengers are coming to Thief River Falls under the auspices of the Gospel Tabernacle, of which Rev. G. Raymond Carlson is pastor.

Durable Utensils

Thin, lightweight sheet aluminum in pans is less expensive, lighter to handle but also less durable than the heavy cast metal. Thin ware is more easily dented, bent and scorched than heavy ware. Buy heavy pans for such heavy use as everyday cooking, for a job like mashing potatoes, and for the heavy - handed or absent - minded cook.

Nearby Towns Purchase Freely of Tickets for Artists Concert Series

The interest being shown in the artists' concert series to be presented in Thief River Falls this coming winter is not confined to Thief River Falls alone.

Thus far a considerable percentage of the tickets being sold are going out of town, with Roseau's purchase of 85 tickets the largest out-of-town representation to date.

Warroad people have purchased 40 and Williams 30.

Other towns sending delegations but whose orders are not yet reported include Warren, Red Lake Falls, Greenbush, Badger, Newfolden and Fosston.

The first concert will be presented November 18.

Swedish Film Shown at Avalon October 16-17

Edward Persson, noted Swedish screen actor, will be starred in the new film comedy, "Soliga Solberg" (Sunny Sunberg) to be presented the Avalon theatres next Wednesday and Thursday, October 16 and 17. Complete dialog titles are in the English language. Two Swedish short features also will be presented on the program.

Historical Origin of Name of Warroad Given

Warroad, incorporated in 1901 was named after the river of the same name, on which it is situated says the Minnesota Historical society. The river was in a neutral tract of land between the warring Chippewa and Sioux. According to Jonathan Carver, such neutral country was called by the Indians the "road of war"; and the river consequently was given the name "Warrond". The American Fur Company built a post just north of the mouth of the river about 1820.

Group Sponsors Weather Forecasting Station

At a luncheon meeting of the Civic and Commerce association last Thursday noon in the Palm Garden Cafe, Stuart McLeod, who presided, and Bill LaFave, chairman of the road committee, expressed gratification over the announcement that the safe highway department had awarded the contract for the rebuilding of Highway 1 from Thief River Falls to Goodridge, a project long advocated by the association.

The group adopted a motion to sponsor the campaign to secure the establishment of a weather forecasting and reporting station in Thief River Falls. The advantages that will accrue to local farmers from the service were outlined by Harry K. Arneson, who is shortly to open a radio broadcasting station in this city.

County Agent Ernest Palmer reported on steady progress being made in plans for the 4-H livestock auction to be conducted at the local arena Saturday, November 2.

Disaster Alarm

"3-5-8" is one fire alarm signal of the New York fire department that fortunately never yet has been used. This signal, which means that a fire is beyond control and all buildings in its path have to be dynamited, can call out as many as 13 companies of sappers and miners, each company consisting of about 30 lieutenants who must rush to the spot from their station or home by taxi or some private car and undertake this dangerous work themselves.

Brewery Yeast

One of the most important assets of a brewery is its yeast which it filters out and uses year after year to impart a particular character to its beer. As such yeast requires decades to develop and cannot be duplicated, a 54-year-old culture owned by a certain American brewery is insured with Lloyd's of London for $1,000,000.

Disease Free

Farm Topics

New Hormone Weed Killer Effective

2, 4-D Will Not Kill All Troublesome Weeds

Farm losses from weeds exceed those from all other causes. With the development of 2,4-d, and organic acid (2,4-dichlorophenoxyacetic acid), by the USDA and the New York agricultural experiment station, farmers will be saved millions of dollars annually.

Working different from most herbicides, 2,4-D seems to affect the growth mechanism of the plant and

Rudzer responds to 2,4-D treatment.

travels some distance through the plant to induce changes which cause death.

Recent experiments determined that solutions containing from .10 to .15 of 1 per cent were sufficient to kill dandelion, common plaintain, buckhorn, chickweed and pennywort.

The cost has been reduced to such an extent that for from $4 to $6 it is possible to clean up an acre of land.

With some weeds like Canada thistle, 2,4-D has not proven effective in killing the roots. It has been successful with bitterweed, bindweed, wild mustard, wild radish, bull thistle, chickweed, ragweed, goldenrod, burdock and many others including such shrubs and vines as choke cherry, wild honeysuckle, wild grape, locust, Virginia creeper, sumac and poison ivy.

Fire each year burns over forest lands equal in area to New York State.

Gruba Cost Cattle Raisers $100,000,000 a Year

Cattlemen set the loss from cattle grubs at 100 million pounds of beef a year. H. R. Smith, general manager of the National Live Stock Loss Prevention board, says that "about 13 million pounds of meat a year are wasted through the necessity of trimming out around grub holes after the hide is removed." Ray L. Cuff, southwestern regional manager of the same organization, adds the other 87 million pounds in this way:

"In the cattle with grubby hides (35 per cent of the 13,960,000 slaughtered under federal inspection during 1946) grubs caused a potential loss of some 97 million pounds of beef. Had these cattle been grub-free, they would have produced this extra 97 million pounds without additional feed." And on this point Mr. Smith agrees that "by far the greatest loss is to the producers whose infested cattle make lower gains in the feedlot or produce less milk because of grub infestation."

In terms of money, the department of agriculture slumps the total loss at between 50 and 100 million dollars a year.

"It is the owners of grubby cattle," Mr. Cuff says, "who pay the grub bills. One processor who keeps accurate records reported an actual average loss of $3.50 per head on all grubby cattle slaughtered in his plant from November through May; an average devaluation of $1.25 straight across on all cattle slaughtered throughout the year.

Extinct Nobility

An unprecedented compact was drawn up and signed by all members of the large aristocracy of Ragusa, now Dubrovnik, Yugoslavia when it was annexed to Austria in 1814 and lost its status as a sovereign state. Consequently, these proud people were so humiliated that they entered into an agreement to die out by not having children. Therefore, their sons remained single, their daughters entered convents, and eventually the entire Ragusan nobility, with the exception of two families, achieved extinction.

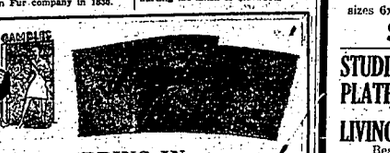
State Highway Aid

New Jersey was the first state to take a definite step in the matter of state co-operation in building roads, and with the passage of a state-aid law in that state in 1891, a new era in road building was begun. The control of state-aid funds was first vested in the president of the state board of agriculture, but in 1894 an act creating the office of commissioner of highways was passed.

Banana a Plant Oddity



The first paradox about the banana is that it is a tree, by virtue of its size and height, without a true trunk. The tallest banana plants measure 40 feet from the tips of the leaves to the ground. In Jamaica they attain about 35 feet, the first 15 feet of which is approximately the remarkable "pseudostem" or false trunk; the remainder, the blades of the huge leaves which tower above it.

VETERANS DRAWING DISABILITY PENSIONS OR COMPENSATION

EACH FIGURE REPRESENTS 100,000 ACTIVE CASES

The number of veterans receiving disability pensions or compensation practically doubled during the first year following the surrender of Japan, Veterans Administration officials reveal. In August of 1945 there were 1,103,000 on the disability compensation rolls. One year later, the Veterans Administration was paying disability claims to 2,073,000. This increase is shown graphically above.

Develop Hong Kong

During the century of British rule, health protection, land reclamation projects, new roads and industrial and commercial development made Hong Kong one of the empire's leading outposts. By the 1930s, this former "plague spot" of the tropics had been turned into a world port, equipped with huge docks, warehouses, cranes and other facilities for handling its immense trade and traffic. Its population had grown toward the million mark. Its industries included shipbuilding, factory processing of such products as tin, sugar, rice, and manufacture of furniture, paper, glass, rope, textiles, cement.

To Educate Children

An intensified program of education, especially for children and youth, now is under way in Mexico, Guatemala, Honduras, Costa Rica and Nicaragua.

Mexico and Guatemala are turning their attention to conquering illiteracy, for which purpose Mexico has evolved an effective primer for person-to-person teaching. Story books for children also are planned.

Guatemala, Costa Rica and Nicaragua are concentrating on enlarging their public circulating libraries, especially in the field of children's books many of which are from the United States.

DDT Recommended

DDT, the new insecticide, is the perfect answer to the bedbug problem, says the department of agriculture in a statement recommending DDT for this purpose.

If DDT is applied properly as a 5 per cent spray or as a 10 per cent powder to mattresses, beds and chicken houses, these places will remain free of beadlgs for six months or more, according to the department.

Wettable DDT powder may be used in water as a spray, but leaves an unsightly residue.

Delicious Icing

A delicious and very easily achieved icing for spice cake or gingerbread or applesauce cake can be made by adding one and one-half cups of powdered sugar to one-half cup applesauce.

October to See Billion Dollars Worth of War Surplus Property Sales

Local resident can get details of more than one billion dollars worth of surplus property to be offered in 651 sales during the month of October, the War Assets Administration announced today.

The sales, to be held throughout the country, will include all types of surplus from shoes to heavy industrial equipment. A total of 172 site-sales are scheduled for the month and the balance will be regular monthly national and regional offerings. In case of site sales, buyers must be on the spot to make purchases. In many other sales, however, purchases may be arranged by mail.

A special commodity listing, available through the Minneapolis regional WAA office, Metropolitan Life building, will give dates, locations, general classifications of the merchandise, quantities of goods and other data for all the sales.

Temper Justice with Mercy

Sentences of military prisoners have been reduced in some 85 per cent of cases reviewed by the war department advisory board on clemency. A report by former Supreme Court Justice Owen J. Roberts, chairman of the board, to Undersecretary of War Kenneth C. Royall reveals this more liberal trend.

The report of the jurist adds: "In my opinion, the exercise of the clemency function by the undersecretary of war is an integral part of the army court-martial system and no judgment should be rendered on the war department's administration of military justice without consideration of the results of the clemency reviews under your direction. The sentences on which final judgment is passed, as to whether the system is good or bad, should be based, not on the original sentence imposed by the courts-martial, nor even on the sentences as finally approved by the reviewing authority, but rather on the sentences finally fixed by the undersecretary after recommendation of the clemency boards. Clemency is and always has been the capstone of the whole system of military justice."

SANDERS

Mr. and Mrs. Walter Gibson and Wayne Weflen of Thief River Falls and Mr. and Mrs. Glen Olson and Irvin and Ronald visited on Wednesday evening at the Allen Olsen home.

There will be services at the Oak Grove school house on Wednesday, Oct. 16, at 8 p. m. Rev. Silas Erickson will be the speaker.

Health of Rural Children Must be Safeguarded

Despite remarkable progress since the turn of the century, rural America has largely lost its advantageous position relative to urban health. Its disadvantage today is chiefly with respect to those conditions which can be influenced directly by modern health education and preventive services, says the U. S. Public Health service.

The death rates of rural infants, pre-school children and youth 15 years of age and over were higher in 1940 than those of residents of large cities.

While cities of 100,000 or more population had an infant mortality rate of 34.3 in 1942, the rate was 49.3 in rural places and 44.0 in semi-rural towns. The rural maternity mortality rate in 1941 was almost one-third higher than the big city rate.

The significance of a decent chance for life and good health for rural babies and mothers is far-reaching. The rural birth rate exceeds the urban by a wide margin. In urban places of 10,000 population 10 adults are raising 7 children. On farms 10 adults are raising 14 children. Over half of all the children in the nation are from farms. If it were not for the constant flow of population to the cities, the city population would decline about 24 per cent in a single generation.

Famine in India is Result of Drouth

A drouth of unprecedented severity during the September, 1945-March, 1946, period is the main cause of famine in India. This result is a total deficit of more than 7 million tons of grain during the 1945-46 crop year. The deficit fell about equally on the rice and millets crops (November, 1945-January, 1946) and the wheat, chick-pea, and barley crops (March-May, 1946).

As cereals normally make up 80 per cent of the Indian diet, the grain deficit is the most disastrous. But it should be noted that noncereal foods used as supplements (oilseeds, groundnuts, fruits, sugar and molasses, etc.) have been hit as hard as the grain crops.

Most of the population of India normally lives directly off the land it cultivates, so even in normal years there is but a relatively small marketable surplus. Furthermore, as a result of the drouth, there will be virtually no surpluses available from within the country to help meet the requirements of the deficit areas. The Punjab, for instance, which exported 800,000 tons of grain last year, is expected to have little or no surplus this year. In fact, some normally surplus areas will themselves need help.

RIVER VALLEY

Orlin Stolaas was honor guest at a birthday party Saturday afternoon, when several boys were invited to help him celebrate his 12th birthday. The boys all enjoyed the afternoon and also the delicious lunch served by Mrs. Stolaas. A large birthday cake topped with lighted candles was the main feature. Orlin received many gifts from the group.

Included were Lloyd, Tenny and Laurence Myrum, Wallace Gunderson, Dennis Lunden, Wesley and Benjamin Hendrickson.

The Luther League held at the Oak park church last Sunday was well attended.

Services next Sunday at 2:30 p. m. at the Oak park church.

Farewell Address

Washington prepared the first draft of his Farewell Address, to which James Madison is said to have contributed some suggestions, and then it was turned over to Alexander Hamilton for revision. Hamilton added what he described as "such reflections and sentiments as will wear well, progress in approbation with time, and redound to future reputation." The address, containing Washington's refusal to run for a third term as president, *and dated September 17, 1796, was* not delivered in person but published two days later in Dunlap and Claypoole's Daily Advertiser.

Small Potato

A small potato has food value just about equal to a slice of bread and the potato has vitamin C, an important nutrient.

Women Jam Medic Schools

All Over America Girls Are Rushing to Prepare for Healing Profession.

WASHINGTON. — Hippocrates, "father of medicine," would turn over in his grave today if he knew how many women are entering the medical profession, says the Chicago Herald-American.

For Hippocrates, a conservative Greek physician, who lived from 460 to 357 B. C., believed that his profession was strictly for men only and he would never have dreamed of the present rush of the fair sex into the realm of medicine.

All over this country — north, south, east and west — the story is the same. Women are flocking to universities in increasing numbers, determined to get medical degrees and hang out their shingles.

There was a time when a woman medical student was a rarity. But in recent years, the girls, always looking for an opportunity to widen their scope of action, have wormed their way slowly but surely into all branches of medicine.

In All Branches.

It was not until this year, however, that nullady invaded in such force a profession which only recently stepped looking down its nose at her.

Women's medical college in Philadelphia, the only medical school exclusively for women in the United States, is filled to capacity for the first time in its history.

Medical schools in the east, mid-west and far west report increases of as much as 300 per cent in feminine enrollment.

Medical authorities say the war is responsible.

Exodus of doctors into the armed services and depletion of medical students through the draft have encouraged the increased feminine interest in medicine.

Schools dropped quota restrictions and the ladies simply poured in. What's more, say their defenders, they're making good in a big way.

War Responsible.

Dr. Faith S. Fetterman, director of the Women's Medical college hospital, says:

"The war opened up a lucrative profession for women in medicine and they were quick to take advantage of it. Women make good doctors. I know, because I've seen them come and go. They don't flunk out any more quickly than men."

Edgar S. Tilton, secretary of New York university medical school, declares that the feminine enrollment there has risen almost 200 per cent to the highest the college has ever had.

The girl doctors enter every field of medicine—general practice, surgery, neurology, psychiatry, orthopedics. Many of them are credited with important discoveries and improvements in treatments.

Alid, though it may vex the spirit of Hippocrates, the increase in women doctors doesn't annoy many an isolated community where there weren't any doctors at all in wartime until a woman physician appeared on the scene.

100 Jet Planes to Be Used by American Lines

CHICAGO.—A fleet of 100 jet-propelled, twin-engine passenger planes for use in the United States, Mexico and Canada will shortly be put in use by American Airlines, according to an announcement by C. R. Smith, chairman of the board of the company.

Manufacturer of the ships, Smith said, is the Consolidated Vultee Aircraft corporation. Cost of the planes will total $18,000,000.

Designed for use on flights of less than a thousand miles, the planes have a cruising speed of approximately 300 miles per hour and a top speed of 350.

Purpose of the jet drive, which will be employed as an auxiliary to the regular type propellers, is to make use of exhaust gases customarily lost as wastage.

Tomato Preserves Follow Yank Home From Pacific

CHARLESTON, Ill. — A battered, watercooked can of tomato preserves has reached Eugene Waffle, an instructor at Eastern Illinois State Teachers college, 18 months after it was mailed to him by a neighbor.

The package, posted to Waffle when he was an army captain serving in the South Pacific, was returned as undeliverable recently, the address almost entirely obliterated. The sender, Pvt. Glenn B. Seymour, walked a few doors to the home of his colleague and presented the gift.

The preserves were delicious, Waffle said.

ENROLLMENT AT N W. SCHOOL TO TOTAL OVER 400

New Dormitory for Girls to be Ready for Use in January, 1947

A capacity enrollment at the Northwest School of Agriculture at Crookston has been announced by Superintendent T. M. McCall. A first week enrollment of 391 has filled dormitories at the school to capacity and taxed all of the available facilities in Crookston. An additional eighteen students, held out for potato harvest the first week will swell the enrollment to more than 400 for the fall term.

A number of War veterans have enrolled; some are taking special agricultural work while others are completing work for college entrance.

The new dormitory for girls at the school will be completed by December first, according to present plans. The dormitory, with a capacity of 114 girls, will be ready for use at the opening of the winter term on January 6.

AIRPORT NEWS

The flight breakfast to have been held at Detroit Lakes last Sunday was postponed because of rain.

Ernie Barzen flew his BT-13 to Fergus Falls on Friday, where he joined friends on a week-end hunting trip. He returned on Monday.

Taking flight training under the G. I. program are the following: George Baumeister, Jerome Jaranson, Ordean Iverson, Dennis Hanson Robert Michalsky, John Thomas, Orrin Brandon, Lawrence Capistran, John Jarnason, Milan Hoganson, Kenneth Haas, Edwin Ball and Emil Burdick. Dozens of others have signed up and are waiting for their papers to be processed so that they may receive certificates of eligibility.

At the CAP meeting held Tuesday evening in the Civic and Commerce rooms, various phases of aviation were discussed, as well as plans for the CAP ground school to be started soon. Dates of future meetings will be announced as soon as possible.

Prospective hunters last week took advantage of the Flying Service facilities to spot ducks.

Motorists are urged to park their cars east of the fence which runs south of the hangar buildings. The space between the hangars should be clear so that planes can be taken out and put away.

Longest Footpath

The longest marked footpath in the world is the Appalachian trail which runs from Mount Katahdin in Maine to Mount Oglethorpe in Georgia, a distance of 2,050 miles. Constructed between 1921 and 1940, it traverses parts of 12 states, 2 national parks, 6 national forests and some 20 state parks and forests.

Take Off Water Chill

TAKE THE CHILL OFF

Many gallons of milk are lost by the average cow due to being forced to drink ice cold water. It is not too early to make plans for removing the chill from water. New type electric de-icers on the market have proven satisfactory. Local costs should determine the type to be used.

Barrel Chicken Coop

A serviceable brood coop is made by sawing a barrel of any kind in the middle, making the cut sloping, as shown in the illustration. When an entrance hole has been sawed out on one side of each *half*, two coops will be completed. When the cut barrel is inverted, the top will slope sufficiently to turn water. The coop must be placed so that water will not drain into the coop.

Kind of Protein for Poultry and Livestock

Different protein feeds contain different amino acids, and it is these acids that are important to livestock and poultry. That is why animals do better on one protein supplement than they do on another, according to A. R. Patton of the Colorado station. Research is finding out the specific amino acids needed by different classes of livestock and also what of these acids are contained in different feed.

Two Million Waterfowl Hunters Expected in '46

Close to 2,00,000 sportsmen are expected to hunt wild ducks and geese this year, according to Albert M. Day, director of the department of interior's fish and wildlife service. His estimate was based on reports of hunting stamp sales last year.

All previous sales records were broken during the 1945-46 season when 1,725,505 hunters purchased the $1 "duck stamp". This figure represented an increase of 238,476 over the 1944-45 season when 1,487,029 stamps were sold.

Minnesota's total sales for the fiscal year ended June 30, 1946, totaled 116,516. This figure is expected to be exceeded this year.

The season on ducks, geese and brant in Minnesota runs from October 5 to November 18.

GIRL SCOUT NOTES

The Girl Scout leaders' meeting was held in the Civic and Commerce room, Monday evening, September 30. Miss Bennett, chairman of the group presided, and presented Miss Harriet Lloyd, field adviser of Region 10 and a member of the National Field Staff of Girl Scouting. She explained the work on area camp development. Following this a general discussion on plans for this years' work took place.

The regular Girl Scout council meeting will be held in the library at 3 p. m. October 7.

POWER OUTPUT IS DOUBLED IN NINE YEA

Buying of New Di Unit is Justified by Growing Demand

Purchase of an additional unit for the municipal pow... is justified by the steadily increasing demand. Prediction this year will substantially exceed six million Kilowatt hours; judging by the increase during the first eight months, and will be more than dobble the production total for the year 1937.

Gross earnings of the plant for the year 1945 were $196,803.32, an increase of approximately $19,000 over 1944. During the first eight months of 1946 there has been an increase of about $20,000 over the corresponding months of 1945, indicating that the increases in demand for 1946 will be much greater than the 1945 increase over 1944.

Following is the total kwh output of the municipal plant from 1924 through 1945.

1924	992,704	1934	2,298,785
1925	1,049,811	1935	2,319,505
1926	1,135,835	1936	2,794,250
1927	1,185,148	1937	3,254,170
1928	1,558,075	1938	3,489,950
1928	1,555,075	1940	4,192,200
1929	1,563,620	1941	4,597,600
1930	1,758,990	1942	4,836,000
1931	2,030,110	1943	4,744,700
1932	1,986,380	1944	5,077,800
1933	1,980,750	1945	5,557,800

In recent years more than half the total plant production has been developed by waterpower. The hydro plant however is not a dependable source of power and a series of dry years could change this picture materially. In 1945 production by waterpower totaled 3,012,760 kilowat hours, the highest total on record from this source, compared to a low mark reached in 1934 when only 63,100 Kilowatts were produced by the hydro plant. This uncertainly makes it necessary to have efficient diesel equipment to carry the entire load.

The three diesel engines now operating have a combined capacity of 2,850 horsepower. The engine originally purchased in 1931, 1939 and 1941, the last one being of 1,780 horsepower. It is expected that an engine considerably larger, possibly up to 2,800 horsepower.

Evangelists to Conduct Series of Meetings in Municipal Auditorium

"If The Foundations Be Destroyed?" will be the subject of Rev. Willard Canteon's opening sermon on Sunday night, Oct. 20, at 7:45 o'clock, in the Municipal Auditorium. A musical program including a variety of instrumental and vocal selections will be a feature of the evening. Services which will be conducted every evening in the Auditorium except Monday and Saturday at 7:45 will also feature the public painting of Biblical scenes in oils on canvas.

This evangelistic campaign by the Musical Messengers is under the auspices of the Gospel Tabernacle of which C. Raymond Carlson is the pastor.

First Lutheran will Hold Harvest Festival Wednesday Evening

The First Lutheran church will hold its annual harvest festival Wednesday evening, Oct. 23, at 8 o'clock, with Pastor Gerald K. Johnson of East Grand Forks as the speaker. There will be special musical numbers by the choir and others, and refreshments will close the program. The annual thank-offering will be received at this time.

"We gather in the house of God as a group of thankful people, rejoicing together over our fortune as members of His church and citizens of His Kingdom," stated Rev. Carl F. Johnson, who has extended a general invitation to the public to attend this festival.

SILVERTON CHURCH CELEBRATES 40TH YEAR NEXT SUNDAY

Anniversary Will Be Observed by Special Services and Dinner

Members of the Silverton Church will celebrate the 40th anniversary of the congregation in special services Sunday, morning and afternoon. Two services are planned for the forenoon, the first in Norwegian at 10:00 o'clock and the second in English at 11:00 o'clock. Following a dinner to be served in the church parlors an afternoon service in English will be held at 2:30 o'clock.

Guest speaker for the occasion is Rev. Carl Opsahl of Halstad who has a record of 27 months of overseas service as a chaplain. Pastors of neighboring churches have also been invited to attend.

The Silverton church, 4 miles east and 1 mile north of Thief River Falls, was organized in 1906 by Rev. Nikolai who served the congregation until 1919. He was succeeded by Rev. H. Bjornson who twenty-two years followed in office. Rev. E. O. Saho, Sivert Mork of 1945 the church now has an active ladies aid society, a Luther League and a Sunday School.

Besides observing the anniversary Sunday will also be the Mission Festival of the church and offerings will go to the general budget, from which it is hoped some money can be set aside for local church improvements.

T. R. Falls Boy Scout District Committee and Drive Workers to Meet

Boy Scout "Scouters" and fund drive workers of the Thief River Falls district will meet in the Civic and Commerce room of the Auditorium Monday evening at 8:00 o'clock to discuss the campaign to raise funds for the Lake Agassiz Council. In Thief River Falls this solicitation is being handled as part of the Community fund but separate drives will be made in Newfolden, Holt, Gryglia, St. Hilaire, Plummer, Oklee and Red Lake Falls. Representatives from these communities are expected to be at the meeting Monday.

Edward Boe of Grand Forks, former Prowler football coach, will represent the council which has fixed a budget of $28,800 for the coming year.

P. L. Fjelsted is chairman of the Thief River Falls district and L. B. Harts is finance chairman.

Elks Make Andrew Anderson Life Member

Postmaster Andrew Anderson was honored by his brother Elks at their meeting Thursday night when he was presented with a life membership in token of his many years of service to the organization. The award was made by Tom Peck, exalted ruler. Nils Quist of Virginia, district deputy, was an official visitor at the meeting.

Orders Cancelled for Military Induction

Pennington County Selective service officials were instructed this week to cancel all orders for pre-induction and induction into the military forces. A pre-induction group was scheduled to leave today and a group to be inducted would have been called to leave next Wednesday.

Community Fund Drive Starts with Monday Breakfast

J. M. Roche, chairman of the Community Fund drive in the city of Thief River Falls, will get his teams of solicitors off to a good start at a kick-off breakfast at the Rex Cafe Monday morning. Ernest A. Palmer, rural Pennington County chairman, is getting his committees organized and expects to have the solicitation well underway next week. The Pennington county goal in this drive is $7,400 of which $6,000 has been allotted to Thief River Falls.

At the eight o'clock breakfast that will start the city drive Monday morning will be teams representing the civic and service organizations that are supporting the annual drive for funds. Organizations that will participate are the Civic and Commerce Ass'n., the Junior Chamber of Commerce, Lions, Rotary, Eagles, Elks, Masons, American Legion, Veterans of Foreign Wars, the Sportsmen's Club, Business and Professional Women's club and the Women's club. Russell Olsen, county chairman, and other speakers will outline the campaign and explain the purposes of the solicitation at this meeting.

Organizations that will share in the funds in Thief River Falls are the USO which includes the YMCA, the YWCA, the Salvation Army, the National Catholic Community Service and the National Travelers Aid Society; the National Cancer Society, the local Salvation Army, the Boy Scouts and the Girl Scouts. Contributions from Pennington County outside of Thief River Falls will be distributed to the organizations participating in USO and the National Cancer Society.

Quotas for the villages and townships in Pennington County have been fixed at a rate that is about 42 per cent of the quota for last year. These quotas and a suggested schedule of contributions according to earnings are included in a full drive advertisement published in this issue.

ANNUAL 4-H CLUB SKATING PARTY TO BE NEXT FRIDAY

Lunch will be Served During the Evening in Civic & Commerce Room

The annual roller skating party for Pennington county 4-H club members will be held in the arena in Thief River Falls on Friday evening, October 25, starting at 7:00 p. m. This party, which substitutes for the 4-H club banquet held in former years, is sponsored by the Civic and Commerce Association, Thief River Falls and will be the 4th annual roller skating party put on by this group.

Stuart McLeod, chairman of the Agricultural committee of the Civic and Commerce Association, along with County Club Agent, Ellie Hanson and County Agent, Ernest Palmer, announces that skating will get under way at 7:00 o'clock and will continue until 11:30 o'clock and that between the hours of 8:00 and 10:00 o'clock a lunch will be served in the Civic and Commerce room in the basement of the Auditorium.

Eligible for the party will be 400 4-H club boys and girls from Pennington County who have completed their 4-H projects for 1946 and adult 4-H club leaders.

Three Children in One Family Have Polio

Three children of Mr. and Mrs. Hesse living north of the Round House became stricken with Polio during the past week. The youngest, Joseph, being taken to University Hospital Friday. Reports indicate that he is not in a serious condition. Two other children, Roxanne, 5, and John, 7, have had mild attacks and are being treated at home. One other case is reported from this area. John Lonsdale, 15, of Greenbush, who was taken to the University Hospital Tuesday.

Mrs. H. E. Kathrey of this city left last night for Minneapolis to visit her daughter Marlene, 9, who was stricken two weeks ago.

Planning Committee Urges Civic Center

Members of the city Planning Committee took action favoring the establishment of a civic center in Thief River Falls. Following the recommendations of architects who surveyed the city in 1930, this civic center would include the two blocks in which are now located the Auditorium, Arena, Court House, Library and Post Office and restricting all future construction to buildings of this type. Planning committee members will report back to their respective organizations for action and if sentiment is favorable will make a formal recommendation to the city council.
